Please introduce yourself and tell us a bit about your professional background.

Could you please provide an overview of the current project with Vivera Health Lab you are actively involved in and elaborate on the specific challenges or issues it addresses?

Are there any specific areas within the healthcare tech industry you're particularly passionate about

or find intriguing?

Are there any professionals or leaders in your network who inspire you in your professional journey? You have a diverse work experience spanning multiple industries. How do you leverage it when approaching the challenges in the digital space?

Are there common trends or principles that you find applicable across different industries when it comes to growth and transformation in digital business?

Can you share some highlights from your journey as the chief technology and product officer and the challenges you faced in scaling and running multiple teams?

How to resolve conflicts within teams?

How do you balance the technical aspects of product development with the need for strategic and creative thinking?

Do you have any routine for creative thinking?

What strategies do you employ to ensure that the technology and products developed align with the company's overall business objectives?

What role do leadership qualities play in driving innovation and success within your teams? How do you cultivate these qualities among your team members?

How do you balance the need for innovation with the practical aspects of scalability when developing products, especially in a dynamic industry like HealthTech?

Given the global shift towards remote work, what insights or strategies have you found most effective in maintaining a connected and productive team in a virtual setting?

How does your team manage to work with the amount of meetings you have per day? Do you find any challenges here, or it works perfectly, and this is like ideal balance? What's your opinion about that?

How do you manage quality of deliverables within your team, especially working remotely?

Could you comment on the challenges associated with the shortage of qualified specialists in the IT sector, particularly in relation to your business and healthcare tech industry?

Could you share how your development team is structured in your project? And have ever outsourced your techniques to an external vendor?

What were the precise factors that prompted you to consider IT outsourcing?

What are the drawbacks and benefits of outsourcing?

How do you measure the success of collaboration with an IT outsourcing vendor?

What advice would you give to other companies considering IT outsourcing?
