The Tunnels of Apocalypse

In this new novel in the terrorist crime-fighting series, featuring F.B.I. agent Karen Raney, our heroine lies in hospital, near death, victim of gunshot wounds incurred in a firefight with Al Qaeda terrorists. Her prognosis is of great concern to many. Al Qaeda plots against her as they pray for her demise. An American law enforcement leader prays for her speedy recovery and early return to the fray. The leader of a secret American paramilitary patriot group prays for her life and recovery of unique bonds they have forged. Together, these two have allied in not only terrorist crime-fighting focused on rooting out and destroying Al Qaeda terrorists embedded on American soil, but also in an intense personal friendship and romantic liaison. The terrorists are intent on importing deadly weapons of mass destruction onto American soil. Highly productive terror fighting contacts between patriots and formal law enforcement must be reestablished, even expanded, in order to successfully address the new Al Qaeda menace. Ultimately, the fight is carried into the deepest bowers of the enemy's foreign stronghold-a country hiding a long-running secret nuclear weapons program. American leaders are in denial and would prefer to ignore a program about to become the target of an unlikely coalition of Americans who want not only to confirm the nuclear weapons program's existence and location but who want to bring about its total destruction. The patriots have an additional secret agenda. Utilizing fascinating cutting edge technology to ferret out embedded terrorists, the feisty patriot organization also takes aim at a breed of American capitalists and political leaders who believe their destiny can soar to new heights on the backs of the American people and they owe no special allegiance to America or to their fellow citizens. The patriots think otherwise and they make their contempt for these individuals manifest, in daring ways and in the most forceful and emphatic terms.

Shadows in the Tunnels

In the aftermath of a global catastrophe, the remnants of humanity live deep underground in a network of bunkers. Tobias has ruled Bunker 5 with an iron fist for decades, imposing his brutal authority through fear and force. His intelligent but physically weaker son, James, has always stayed quiet in dissent. When a food shortage leads to unrest among the bunker residents, James sees an opportunity to

challenge his father's leadership. Though lacking in raw strength, James' clever mind is his greatest weapon. As tensions reach a boiling point, James engages his father in a showdown with the residents' lives hanging in the balance. Through cunning traps laid out across the maze of tunnels, James leads Tobias on a harrowing chase. While maintaining the delicate alliance with the residents, James must also stay one step ahead of his father's brute force. As the two finally come to the ultimate confrontation, it seems James' planning and strategy may be no match for Tobias' ruthless brutality built over years of absolute rule. The future of Bunker 5, and perhaps the fate of the last surviving humans, will be determined in the climactic battle between a son seeking freedom and a power-hungry father.

The End of the World

Before *The Road* by Cormac McCarthy brought apocalyptic fiction into the mainstream, there was science fiction. No longer relegated to the fringes of literature, this explosive collection of the world's best apocalyptic writers brings the inventors of alien invasions, devastating meteors, doomsday scenarios, and all-out nuclear war back to the bookstores with a bang. The best writers of the early 1900s were the first to flood New York with tidal waves, destroy Illinois with alien invaders, paralyze Washington with meteors, and lay waste to the Midwest with nuclear fallout. Now collected for the first time ever in one apocalyptic volume are those early doomsday writers and their contemporaries, including Neil Gaiman, Orson Scott Card, Lucius Shepard, Robert Sheckley, Norman Spinrad, Arthur C. Clarke, William F. Nolan, Poul Anderson, Fredric Brown, Lester del Rey, and more. Relive these childhood classics or discover them here for the first time. Each story details the eerie political, social, and environmental destruction of our world.

Apocalypse Cow

Forget the cud. They want blood. It began with a cow that just wouldn't die. It would become an epidemic that transformed Britain's livestock into sneezing, slaving, flesh-craving four-legged zombies. And if that wasn't bad enough, the fate of the nation seems to rest on the shoulders of three unlikely heroes: an abattoir worker whose love life is non-existent thanks to the stench of death that clings to him, a teenage vegan with eczema and a weird crush on his maths teacher, and an inept journalist who wouldn't recognize a scoop if she tripped over one. As the nation descends into chaos, can they pool their resources, unlock a cure, and save the world? Three losers. Overwhelming odds. One outcome ... Yup, we're screwed

Apocalypse the Beginning

They say I'm the one to save the world. That's great, but how? The Third Trumpet of the Revelation sounded, and the world is ruled by the Shadow: monsters, demons, undead, and worse. Humans have retreated into underground bunkers to survive the Apocalypse. Me? I don't belong anywhere. Weird shit has happened around me all my life. You'd think with the world literally gone to hell I'd fit in better...but no such luck. I'm still me, still an outcast, and still all alone. After I'm kicked out of the only home I've ever known, I run into four gorgeous men who call themselves mages. It's a fleeting encounter, but I can't stop thinking about them until Fate all but kicks down my door with undead monstrosities. That's when they return to save me. Efram, Rafe, and Nathaniel: a Necroseer, a Demon, and an Angel. Yep, told you shit was weird. They help me escape the fall of the Bunker then vow to be my protectors. They say I've got a destiny. That I'm special. But Tynan doesn't seem to agree. He's dominating. Controlling. Arrogant. Powerful. Attractive. He's a sexy and brooding alpha bad boy that makes my heart race. He's also the Horseman of the Apocalypse...and fully under the control of the Shadow. And if I can't save him, then the rest of the world doesn't stand a chance. Apocalyptic Projections

Apocalyptic Projections have been pondered since Biblical times. Theories abounded in an attempt to prepare for calamity and plan for the future. Worldwide concern regarding a twenty-first century apocalypse, related to the 2012 Mayan Apocalyptic prediction, sparked renewed interest. Even though the concept of apocalypse evokes images of total oblivion, threads of possibility and redemption offer a potential fabric of hope. The majority of the papers included in *Apocalyptic Projections* were p ...

The Battle for Normal

Simma was sure she'd never see Sami again. Sef or Glyn, either. She'd left Sami standing in the middle of the street in First Right nearly a year ago, and the boys had vanished without a trace long before that, or were chased from the tunnel by the Judge. Living under the water in tunnel Tee Two, with her mom and her mom's boyfriend, Namid, frightened Simma no end. Any moment, she felt, the walls would split and the whole of the mile-wide river would rush in and drown her. Namid said she'd outgrow it but she was nearly sixteen and this feeling of dread only deepened in her. Then Sami came, as if in a dream, and told her to run! Through a catastrophe brought on by the sabotage of the hated Judge Trapmann, Simma falls in with a crowd of survivors bent on revenge against his cannibal army. She liked a good fight, especially when it meant bringing down a bully, but Sami told her to push on, and it was up to Simma to warn the Twelve Towns. War was coming and worlds were at stake! *THE BATTLE FOR NORMAL* is a story of courage and discovery in an age of reconstruction, and is the third book in the *Water Worlds* sci-fi adventure series, chronicling the terraforming of the inner worlds of the Solar System as seen through the eyes of generations of young women. Seven books are planned for the series.

Eisa McCarthy lives in Caliphate City under the control of the radical Islamic group, the Ghuraba. Seven years ago General Mohammad bin-Rasulullah defeated the United States in a ruthless betrayal and set up their worldwide Caliphate in the ruins of Washington, D.C. The Ghuraba's supreme holy leader, the Abu al-Ghuraba, claims Eisa's father gave him control of the U.S. nuclear arsenal, a claim bolstered by the smoldering ashes of many cities and her Syrian-born mother's testimony. But after her mother is accused of apostasy, she learns her father may not be the 'martyr' the Ghuraba claim. Do the Ghuraba really possess the launch codes for the ICBM missiles? Or did her father 'lock them out' as Colonel Everhart, the rebel commander, wants her to tell the world? If she fights, the Ghuraba will kill her little sister, but if she doesn't, eventually the Ghuraba will hack in and nuke them all. All Eisa has are a string of Muslim prayer beads and a pre-Islamic myth her father told her the night he disappeared. The fate of the world, and her little sister's life, hang in the balance as Eisa sorts through ancient myth, her Muslim faith, and what really happened the night the Ghuraba seized control.

Boondocks: An Asian Evil Apocalyptic Thriller

This is the full novel version of WIPE, including Parts 1 through 5 I've seen the tower from the beach a million times. Way out in the sea, impossible to reach. It rises gray and bare, up and up, and then out of sight. As if the sea gave birth to something meant to connect it to the sky. I've never seen the top. Maze says she's not convinced it has one. And I've always taken its impossible presence for what the Fathers say it is: a relic from before the Wipe. The hubris of pre-Wipe man, and a reminder for us all as to why it is God's Will that we never return to technology. But Maze suddenly has it in her head that the tower means something else, something different than the history the Fathers have given us. I think she's a conspiracy theorist. Until she shows me the map. Just the word mirror scribbled in red ink, next to a marking, and she expects me to go into the Deadlands with her. As long as I've known of her recklessness, and as much of a bad influence as she is on me, I can't say no. Because while she doesn't know they exist, I can't stop my feelings for her. And I start to realize, when we first pass over the rotting gates, into the ruin that was a city, that it will take something much more than either of us ever knew we had in order to survive the truth.

WIPE (The Complete Post-Apocalyptic Story)

The Seven Angels of the Apocalypse This is the third edition of The Seven Angels of the Apocalypse, sub-titled Fullness of Time. The main character, Michael Barone is shot in the chest with a 12 gauge deer slug at point blank range and is placed in a coma. While he is in the coma, the story rolls back 3,000 years to the life of one of his ancestors, Eli, the Judge of Israel. The story follows Eli's priesthood line through the kingdoms of Saul, David and the anointing of Solomon. The story further continues with vignettes about the temple regalties, such as the Ark of the Covenant, the Breastplate and the Urim and Thummim. Israel falls in and out of favor with God and finally is taken captive by the Babylonians. Later, Rome conquers Jerusalem and Pompey sends 30,000 Jews to populate his newly annexed Sicily. This is when Michael Barone's bloodline moved from Israel to Sicily. 2,000 years later, the Seventh seal is unsealed, and the Barones heroically migrate to America, and grow as a family. Michael wakes from his coma in time to guide his family through the end times, into the days when the seven angels who are identified by the author come to blow their trumpets. Each angel's trumpet brings a catastrophe in fulfillment of St. John's Revelation. In fact, St. John is one of the angels. This book is a realistic view of what happens during the end times. This is not just a good read. This is a wakeup call!

The Seven Angels of the Apocalypse

Sami wasn't born in the tunnels. She's traveled all over, even as far as the Northern caves beyond Eastport. Only nobodies went farther than that. Story was, there were towns beyond the Dustbowl, but most folk thought that was just stories. It's been almost a century since the sky fell and the world broke apart in a day, and still the people spent their whole lives underground, either in the Five Tunnels, or in the caves, shielded by living stone. Sami's mom and dad are long since dead, and her friends, Sef and Glyn, vanished without a trace, over a year ago, or were chased from the tunnel by the Judge. Now her dearest pal, Simma, was leaving, too, to live under the water in tunnel Tee Two, with her mom and her mom's new boyfriend. She used to feel safe in the tunnels. Used to feel at home. But now, she wasn't so sure. There was something in the air. Her only friend left was her dog Scout, a tunnel stray who adopted her over a year ago. And old Miz Murphy, of course, who lived in the hovel below her, deep down in Far Northend, the oldest dig in Tee Four. For decades, crowds of people have waved through

the tunnels, following the green arrows, pushing up and out Eastport, heading North. They heard the air was better there, and most didn't like the tunnels one bit anyway. But now, nobodies and someones alike were disappearing, and voices came to her in the dark, warning her of a great danger to come. In an adventure of courage and hope, Sami seeks answers and uncovers a mystery that spans worlds. From the reviews: 5 Stars. "Sami is a smart, engaging adventure in a post-apocalyptic near-future." 4 Stars. "Like 'Wool' this book develops characters that you'll want to hear more about. Buy it, read it, enjoy." 5 Stars. "Even more enjoyable than the first volume. I can't wait for the third in the series." 5 Stars. "Sami drew me in immediately and I read the entire book IN ONE SITTING - I could not tear myself away." 5 Stars. "I can hardly wait for the sequel "

Never Fear - The Apocalypse

It was the year twenty-one hundred and the earth's resource limit and climate breached the tipping point from overpopulation and pollution. The nations of the earth, fighting for survival, pushed humanity into World War III. The devastation was just as foretold in the Bible's first chapters in Book of Revelation written by the Apostle John. War, famine, plague, and unimaginable numbers of deaths decimated the world. In the ashes of ruin, a new world order arose. Desperate and dying, the remaining population traded freedom for survival. What happened if Apostle John's writings were mistranslated and the units of time of the first series of calamities (the Seven Seals) were incorrect? Intruders

"Drop 'em, now!" came a voice, even as we spun in its direction and raised our weapons—and quickly realized there was nothing to shoot at. Nothing visible, at any rate. What there was, however, were tiny red dots—on our foreheads, over our hearts. "You see them. Good," said the voice, just as cool as iced tea—the perfect accompaniment to the clatter of shifting firearms. "And now you're going to bend down ... slowly ... and lay all your weapons at your feet. All right? Nooo one has to get hurt. Just do as I say ... and then we can have a nice conversation. About who you are, for example. And where you're from. And what you're doing being dropped off by a helicopter in the middle of disputed territory. Our territory. Okay?" "Okay," I said, and nodded at the others—and at Lazaro twice; we'd been in this situation before and he always wanted to play chicken. Slowly everyone did it—the red dots never wavering, the rain starting to rattle against the gate. "Is that a weed wacker?" said the voice, and was followed by laughter. "Damn." I heard the tapping of what turned out to be an axe head against concrete before I realized he'd stepped into a shaft of gray light. "Don't let their laughter get to you—people used to laugh at us too." We watched, paralyzed, as the bearded silhouette seemed to yawn and stretch. "What can I say? All this rain—it makes me sleepy. I'll tell you, I could really go for a Flat White about now. Two ristretto espresso shots, some whole milk steamed to perfection, a little ephemeral latte art right in the center. Sounds good, doesn't it?" He cocked his head in the near perfect silence. "No? What you want then, a bronson? At this hour? A good, earthy black IPA, perhaps? I could go for that. Something with a nice malty backbone—good for the old ticker." He laughed, seeming to think about it. "I know. Too conventional, right?" He shook his head. "Momma always said: she said, 'Atticus, all your taste is in your mouth.'" There was a thin chuckle and a few clanks of the axe. "Kind of mean, don't you think? Anyway. That's what she said." He began walking toward us—slowly, deliberately—dragging the handle, dragging its blade along the pavement. "Look," I said. "We didn't come here looking for any ..." "Any what?" He stopped about four feet in front of me, close enough at last for us to have a good

look at him, and what we saw seemed utterly incongruous with what Roman had told us—except, of course, for the multitude of tattoos (mostly triangles), and even more so the washboarded scar, which ran from somewhere on his scalp and through an eye (over which one lens of his dark, plastic-framed glasses had been painted black) clear to his left shoulder. That much, at least, fit. What didn't fit was the slicked-back pompadour and long, full, meticulously-trimmed beard—Jesus, there was even product in it—nor, for that matter, the flannel lumberjack shirt and skinny jeans, not to mention the Converse sneakers. What didn't fit, as the similarly attired men holding laser-guided rifles emerged from behind overgrown automobiles and support columns, was that the feared and formidable Skidders were, when exposed to the light of day (and not to put too fine a point on it), hipsters. “Well doesn't this just take the cake,” said Lazaro, and spit.
