1. Be able to remain calm and take control of emotionally-charged situations

I am someone who takes my work seriously and I understand there is no room for error in respect of being a midwife in both the undertaking of your professional duties and also in respect of the advice you offer women and families during their time under your

The main role of a midwife is to prepare women for the delivery of new life and to also provide support and guidance during all stages of the pregnancy, throughout the process of labour itself and also during the early days of the postnatal process.

The main strengths I possess are an ability to remain calm under difficult and pressurized situations. As a Midwife, this is a core skill and without it, you won't be able to carry out your duties professionally. The most important thing for me is to establish control from the outset and make everyone aware of

what is going to happen during the birth and also what is expected of them.

The most rewarding aspects will be building up positive and professional relationships with both parents during the antenatal period, which would then enable to me to provide the best levels of care, support and guidance during birth.

There will never be another surfer like Miki 'Da Cat' Dora. For twenty years the dashing and enigmatic dark prince of California surfing dominated the Malibu waves and his peers' imaginations, blazing a trail that would inspire generations to come. But when the sport exploded into the mainstream and surfing changed for ever, Dora's paradise was lost. Outraged at gridlocked swells and a scene that had grown ever more commodified, Dora eventually fled Malibu, seeking empty waves - and anonymity - beyond America. He'd also run afoul of the law, and he led the authorities on a seven-year chase around the globe. Yet, Dora would never give up searching for the spirit of the Malibu he'd lost. Wherever he made his home - New Zealand, South Africa, France - he personified the rebel heart of surfing and became a legend in his own time. This brilliant biography, based on interviews with more than three hundred people who knew Dora, finally uncovers the truth about surfing's most seductive and complicated icon.

In this young adult autobiography, Tony Hawk shares the stories from his life that have helped him become a skateboarding hero. Hawk speaks of being a super-competitive 'demon' child who found peace while on a skateboard. Classmates teased him because of his interest in an 'uncool' sport. Instead of retaliating with violence, he practiced even more. With his story, he will inspire a younger generation of fans to stand up for what they believe in and follow their dreams.

This Old House meets Wayne's World in this zany guide to designing and building tiny homes Derek Diedricksen has always had a love for small, modest houses ever since his father gave him the book Tiny Tiny Houses by Lester Walker for his tenth birthday. Combining his artistic abilities, wild imagination, and his passion for small houses, he self-published Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts, and Whatever the Heck Else we could Squeeze in Here in 2009. This book is a collection of Diedricksen's creative/imaginative sketches for building small houses, shacks, cottages, and forts. The sketches are accompanied with hand-written commentary, both instructive and comical. Derek's main purpose is to get your creative juices flowing and encourage you to get off the couch and use your hands. Believing that specific building plans squash creativity,

he avoids too many detailed instructions, giving you the chance to put your own creative spin on your very own small abode (even if it is just in your imagination).

I was the Fool-king of Soho and the number-one slag in the Groucho Club, the second drunkest member of the world's drunkest band. This was no disaster, though. It was a dream coming true.' For Alex James, music had always been a door to a more eventful life. But as bass player of Blur - one of the most successful British bands of all time - his journey was more exciting and extreme than he could ever have predicted. In Bit of a Blur he chronicles his journey from a slug-infested flat in Camberwell to a world of screaming fans and private jets - and his eventual search to find meaning and happiness (and, perhaps most importantly, the perfect cheese), in an increasingly surreal world.

Skateboarding is both a sport and a way of life. Creative, physical, graphic, urban and controversial, it is full of contradictions – a billion-dollar global industry which still retains its vibrant, counter-cultural heart. Skateboarding and the City presents the only complete history of the sport, exploring the story of skate culture from the surf-beaches of '60s California to the latest developments in street-skating today. Written by a life-long skater who also happens to be an architectural historian, and packed through with full-colour images – of skaters, boards, moves, graphics, and film-stills – this passionate, readable and rigorously-researched book explores the history of skateboarding and reveals a vivid understanding of how skateboarders, through their actions, experience the city and its architecture in a unique way.

The Stone Age was a long period that we just started to undress... now we know that we were wrong about that remote past. Man, by nature, is sedentary. A deep primitive instinct leads us to consider as property the territory that feeds us and gives us shelter. Archaeology has revealed that long before the dynastic history of the Pharaohs began; primitive tribes lived along the Nile River, settled in sedentary villages, millennia before agriculture and the domestication of animals. These tribes were hunter-gatherer clans, nomads only when climatic changes forced them to leave; they organized complex societies that maintained an intense trade in the middle of the Stone Age, exchanging the most diverse products, sometimes transported more than two thousand kilometers from their place of origin. Before ceramics, before the diffusion of the use of copper, before the domestication of the horse, before the plow... complex societies of hunters evolved, collected wild cereals to make wheat and barley flour, drank beer, consumed breads... and built sanctuaries and temples, which only now archaeology is unraveling. It was a time when only one animal had been domesticated: the dog.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake,

including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

"The master of dragon art brings the same skills to dragon storytelling" in this debut high fantasy adventure "as detailed and exciting as anything since the Pern tales" (Terry Brooks, New York Times—bestselling author). "Packed with action and fully-developed characters, both human and scaly." —Alan Dean Foster, author of *Star Wars: The Force Awakens* Maia and her family raise dragons for the political war machine. As she comes of age, she hopes for a dragon of her own to add to the stable of breeding parents. But the war goes badly, and the needs of the Dragonry dash her hopes. Her peaceful life is shattered when the Summer Dragon—one of the rare and mythical High Dragons—makes an appearance in her quiet valley. The Summer Dragon is an omen of change, but no one knows for certain what kind of change he augurs. Political factions vie to control the implied message, each to further their own agendas. And so Maia is swept into an adventure that pits her against the deathless Horrors—thralls of the enemy—and a faceless creature drawn from her fears. In her fight to preserve everything she knows and loves, she uncovers secrets that challenge her understanding of her world and of herself.

What the Songs Look Like

Sensual, meditative, and powerfully evocative photographic studies of the ocean by professional surfer Danny Fuller. Danny Fuller's work as a photographer and artist is best understood through his thirty years as a professional surfer. Fuller who is known for riding the waves of North Shore Oahu's famous Pipeline and Maui's treacherous Jaws sees and experiences the ocean in ways intimate and infinite. Fuller's nocturnal seascapes of the world's most savage and beautiful waves, all captured exclusively by moonlight with slow exposures, share the soulful beauty of the ocean, in meditative, painterly studies of subtle changes of light and color. In the tradition of artists drawn to the sea for inspiration, Fuller expresses a surfer's deep spiritual connection to the ocean and to the meaning of consequence in surfing. The sensual allure of blue mixed with the ominous presence of water, whose scale is epic, reminds us just how minuscule and insignificant we are relative to the powers of the sea.

Welcome to Grace Valley, California— where blood runs thicker...ties are stronger...and love is all the more sweet. Visitors to the town often remark about the valley's peace and beauty—both of which are plentiful. Unlocked doors, front porches, pies cooling in the windows—this is country life at its finest. But visitors don't always see what lies at the heart of a community. Or just beyond... June Hudson grew up in Grace Valley, the daughter of the town doctor. Leaving only to get her medical training, she returned home and followed in her father's footsteps. Some might say she chose the easy, comfortable route...but June knows better. For June, her emergency room is wherever she's needed—or wherever a patient finds her. She is always on call, her work is her life and these people are her extended family. Which is a good thing, since this is a town where you should have picked your husband in the ninth grade. Grace Valley is not exactly the place to meet eligible men—until an undercover DEA agent suddenly starts appearing at all sorts of strange hours. Everybody has secrets down in the valley. Now June has one of her own.
