Social media is a rapidly growing arena for everything from the posting of videos to car sales, so it should come as no surprise that big business is growing on there, too. However, what can it actually do to help grow your business? Before selling any product, you have to get your name out there and spread the word of your new social media presence. By adding links to your social media accounts on your company website, you are encouraging people to follow you online in order to get the most up to date information as soon as you release it. When you put your company website on your social media profile, it gives your clients a way to go directly to your website. This will allow your customers to contact your company for more information, and it is more likely to create online buyers. Social media is the main way that companies are beginning to show involvement with their customers and community by promoting events they are sponsoring or releasing news to their clients. Real-time communication has become extremely important for customer satisfaction in today's businesses. People don't want to wait for answers to their questions or for help resolving any issue they might have. With social media, people have direct access to comments and post feedback for companies, making any kind of wait-time for results obsolete. Press releases are a thing of the past and take more time to be processed out to customers. By using social media, your company is able to deliver news and updates to clients in real time, while also allowing them to share the news with others and encouraging a faster spread of communication. By letting customers share your company's posts and information, it also allows new people to follow your company page and learn more about your business. Businesses are turning to Instagram and Facebook, among other social media platforms, to better communicate with their customers and spread the word about their business and future plans. To go about doing this, companies first have to understand the best ways to create brand awareness online and how to draw in new followers. Building a successful online following will take time. However, there are techniques and skills that will help you build an online following and create a popular social media site, while still promoting your business and keeping in contact with your customers.

"A beginner's guide to network marketing"--

The Everything Guide To Network Marketing

Do you know why you need to grasp the basics of Network Marketing? Do you know what tools to create to build your business efficiently? Have you wanted to take your business to the next level, but don't know where to start? Or maybe you just want to get informed on the many ways there are to build your business! Network Marketing is a form of business in which a merchant network is required to assemble the business. Typically, such businesses are additionally multilevel marketing in nature in that payouts happen at more than a level. Network marketing is a business model that relies upon individual to-individual deals by autonomous agents, frequently telecommuting from home. There are truly very few opportunities that you can get involved in which will allow you to start with a relatively small investment and turn that into a six-figure or even seven figure income. If you think about it, many professionals that earn six figures plus incomes have to invest a tremendous amount of time, energy, and money in order to reach that level. If you wanted to be a doctor, you'd have to invest 8-12 years in school, and (in most cases) rack up \$100k - \$300k in student loan debt before you could even begin earning a single penny! If you wanted to be a lawyer, you'd have to invest 6-7 years in school, racking up \$80k - \$150k before you would be eligible to earn a single penny! In network marketing, most people invest \$500 - \$2,000 to get started, and work 2-5 years to build their six-figure income. BUT - network marketers are getting paid while they are learning. Unlike other high-paying professions, you are earning as you learn, not waiting until you finish a bunch of school before you begin earning. And of course, most other high-paying professions require that you trade your time for money. If you don't show up to work, you don't get paid. It's hard to get ahead or get out of the rat-race if you are simply trading time for money. With network marketing, you are building a residual income that continues to pay you even if you don't directly put in the effort! Of course you can't do this on your third week in a new business, but over time you are leveraging the time and talent of other people that you bring into your team, so that you aren't in a position where you are perpetually trading time for money. This book covers the following topics: What is network marketing? A brief history of multi-level marketing Mindset Find your target market Relationship marketing The power of social media in network marketing Mistakes new network marketers make How to pick a great network marketing company Questions to ask before joining a network marketing company Promoting products Develop your leadership ...And much more This model frees up both your time and money so that you can build true wealth and time freedom as well. And that is why this is the best industry to be a part of, and why right now is the perfect time to get started. Let's get started.

Network Marketing

97% of people in network marketing fail, yet network marketing creates more millionaires than any other industry in the world. Your First 90 Days In Network Marketing written by industry veteran of 25 years Richard Ramos, provides individuals a blueprint to build a solid foundation so that they can fulfill their dreams of being able to work from home part time generating a full time income. Richard Ramos has taken traditional offline companies and transformed them into online powerhouses. In

recent years, Richard Ramos took a small business and in two years helped them generate over 1 billion dollars in sales. Even though this book focuses on the network marketer, it's simple marketing strategies can be used by almost any business. Your First 90 Days In Network Marketing helps you identify your WHY and puts it into action with step by step instruction to help you create momentum and develop income for life. This book will take you from traditional belly-to-belly marketing so what we call Social Network Marketing, utilizing services like Facebook, Twitter, Hubpages, Digg and much more. We conduct presentations to thousands of people around the world at live events, and we always ask the following two questions (you can fill in the blank with your product or service). "How many of you are here to learn more about the _____, please raise your hands." (you always get a few people that raise their hands). Then we ask, "How many people are here to learn how to make more money?" Do you want to guess how many people fanatically raise their hands with excitement at the second question? Almost everyone! Take notice that we use the word "learn" in both those questions. People want to learn! The one common denominator in this industry, is that people get all hyped up after enrolling at an event or home party and don't know what to do next. Most people in this industry are sponsored by someone that just previously enrolled and also has no experience as to how to build a network marketing business. This book will not take you through the history of network marketing. We cover that subject in our other book "The Ultimate Guide For Network Marketing". Your First 90 Days In Network Marketing was designed to help you build a strong foundation over the next 90 days. Why 90 days? 90 days is point where most people give up. Most people give up because they over complicate this business, and they have not been shown an easy systematic way to duplicate themselves. Yes, I used the word easy. Just follow the easy steps outlined in the book and you'll be on your way to a lifetime of residual income.
