The International Journal of Interdisciplinary Social Sciences

**** Contents available at <http://iji.cgpublisher.com/product/pub.88/prod.803> **** The International Journal of Interdisciplinary Social Sciences aims to examine the nature of disciplinary practices, and the interdisciplinary practices that arise in the context of 'real world' applications. It also interrogates what constitutes 'science' in a social context, and the connections between the social and other sciences. The journal discusses the distinctive disciplinary practices within the sciences of the social, and examines examples of these practices. In order to define and exemplify disciplinarity, the journal fosters dialogue ranging from the broad and speculative to the microcosmic and empirical. In considering the varied interdisciplinary, transdisciplinary or multidisciplinary work across and between the social, natural and applied sciences, the journal showcases interdisciplinary practices in action. The focus of papers ranges from the finely grained and empirical, to wide-ranging multi-disciplinary and transdisciplinary practices, to perspectives on knowledge and method. The International Journal of Interdisciplinary Social Sciences is peer-reviewed, supported by rigorous, criterion-referenced article ranking and qualitative commentary processes, ensuring that only intellectual work of significance is published.

Social Imaginaries

Offering a field-defining survey of the topic, this is the first book to engage all the key figures in the social imaginaries field. It offers new perspectives on the productive tension between social imaginaries and the creative imagination, providing the first programmatic approach to the field as a whole.

International Journal of Social Impact, Volume 1, Issue 2

International Journal of Social Impact is the official journal of the RED'SHINE Publication. The principal purpose of the journal is to publish scholarly work in the social sciences defined in the classical sense that is in the social sciences, the humanities, and the natural sciences. The research that is published may take a theoretical or speculative model as well as statistical and mathematical. Contributions are welcome from all fields which have relevant and insightful comments to make about the social sciences. While International Journal of Social Impact (IJSI) is the publication of a regional association, it attracts submissions from a wide range of countries.

International Social Science Journal

International Journal for Social Science Research and Practice (IJSSRP) is an interdisciplinary peer-reviewed journal. the objective of the journal is to serve as a forum for the exhibition and dissemination of scholarly activities in forms of current researches and thoughts on contemporary issues. the scope of IJSSRP is wide and all-inclusive as it ranges from issues in the United States to global events and happenings. It welcomes all types of researches ranging from field and experimental to rigorous theoretical explanations. It welcomes empirically based studies and discussions based on abstractions and theoretical understanding. IJSSRP will serve as the forum for the promotion of positive exchange between nomothetic and idiographic traditions in the social sciences. the journal is independent of any particular school of thought and does not lean toward any theoretical perspective or viewpoint. Authors are not limited by their nationality, religion, subject matter, or theoretical orientation. the journal is, however, interested in studies that will promote global unity and understanding toward achieving a peaceful global village, global social harmony, and economic growth. It therefore promotes studies that can yield practical solutions to contemporary global social problems.

International Journal of Social Science Research and Practice (Ijssrp)

This book constitutes the refereed proceedings of the 13th International Conference on Social Robotics, ICSR 2021, held in Singapore, Singapore, in November 2021. The conference was held as a hybrid event. The 64 full papers and 15 short papers presented were carefully reviewed and selected from 114 submissions. The conference presents topics on humans and intelligent robots and on the integration of robots into the fabric of our society. The theme of the 2021 edition was "Robotics in our everyday lives", emphasizing on the increasing importance of robotics in human daily living.

Social Robotics

This book is designed to introduce doctoral and graduate students to the process of conducting scientific research in the social sciences, business, education, public health, and related disciplines. It is a one-stop, comprehensive, and compact source for foundational concepts in behavioral research, and can serve as a stand-alone text or as a supplement to research readings in any doctoral seminar or research methods class. This book is currently used as a research text at universities on six continents and will shortly be available in nine different languages.

International Journal of Social Ecology and Sustainable Development

This collection sets out the latest research on the concept of 'social quality', developing its theoretical foundations and applying it to pressing policy issues such as the future of the European Union and sustainable global development.

Social Science Research

CONTENTS 1. The Il Chamus of North Central Kenya and their Commitment to Female Circumcision by Beneah M. Mutsotso 2. The Understanding of Probability in the Iraqi Culture by Saad Darwish 3. Potential of Women Entrepreneurs in Brazil, Russia, India and China: A Comparison of Gendered Based Entrepreneurial Activities by Manu Sharma 4. Politicization of Education in Nigeria: Implications for National Transformation by Nsemba Edward Lenshie

Social Quality

Focusing on the integral role of the researcher, *Qualitative Research for the Social Sciences* uses a conversational writing style that draws readers into the excitement of the research process. Lichtman offers a balanced and nuanced approach, covering the full range of qualitative methodologies and viewpoints about the field, including coverage of social media as a tool to facilitate research or as a venue for study. After presenting theoretical concepts and a historical overview, Lichtman guides readers, step by step, through the research process, addressing issues of analyzing data, presenting completed research, and evaluating research. Real-world examples from across the social sciences provide both practical and theoretical information, helping readers understand abstract ideas and apply them to their own research.

International Journal of Mainstream Social Science

Events such as the 2004 Indian Ocean Tsunami, Hurricane Katrina in 2005 and the Japanese earthquakes and tsunamis in 2011 have provided unfortunate reminders of the susceptibility of many communities to devastating losses from natural hazards. These events provided graphic illustrations of how extreme hazard events adversely impact on people, affect communities and disrupt the community and societal mechanisms that serve to organize and sustain community capacities and functions. However, there is much that communities can do to mitigate their risk and manage disaster consequences. The construct that epitomizes how this is done is resilience. The contents of this volume provide valuable insights into how societal resilience can be developed and sustained. This considerably expanded new edition presents major topics of: Coexisting with Natural Hazards; Urban Resilience in Asia; Lifelines and Urban Resilience; Business Continuity in Disaster; Hazard Mitigation in Communities; Hazard Readiness and Resilience; Child Citizenship in Disaster Risk; Old Age and Resilience; Gender and Disaster Resilience; Impact of High Functionality on Resilience; Art and Resilience; Cross-Cultural Perspectives and Coping with Hazards; Religious Practices and Resilience; Living in Harmony with our Environment; Critical Incidence Response; Governance; Heat Wave Resilience; Wildfire Disaster Resilience; and Progress and Challenges to Disaster Risk Reduction and Resilience. This exceptional book brings together contributions from international experts in core areas and includes chapters that provide an overarching framework within which the need for interrelationships between levels to be developed is discussed. The book will be an outstanding resource for those researching or teaching courses in emergency management, disaster management, community development, environmental planning and urban development. In addition, it will serve law enforcement and emergency agencies, welfare agencies, and professionals in applied psychology.

Qualitative Research for the Social Sciences

International Journal of Research and Scholarly Communication is a unique type of journal which publishes investigative research papers across all disciplines/areas. It also publishes global issues such as electoral challenges, health, education, politics, technology, ecosystem, wildlife among many others. It also publishes articles on humanities, social sciences, education, languages, law, political science, medicine, engineering etc.

Disaster Resilience

Support in higher education is an emerging area of great interest to professors, researchers and students in academic institutions. *Sustainability in Higher Education* provides discussions on the exchange of information between different aspects of sustainability in higher education. This book includes chapter contributions from authors who have provided case studies on various areas of education for sustainability. Focus on sustainability presents studies in aspects related with higher education explores a variety of educational aspects from a sustainable perspective.

International Journal of Research and Scholarly Communication

AIJCSHSS Journals are special-focus book editions that challenge scholars to address current issues in Africa in new innovative ways. In this edition entitled "Gender and Governance," the journal boasts of two subsections "Gender" and "Governance" where many scholarly papers from Humanities and Social Sciences address contemporary issues in Africa from this foci. Thus all the selected essays in this edition interrogate ideas, issues and practices that address issues of "Gender" and "Governance" in Africa and African Diaspora from various field of scholarship especially the Humanities and Social Sciences.

Sustainability in Higher Education

More researchers in social sciences and market research want to use the Internet to obtain data. This text provides comprehensive information, from the basics upwards, about online research methods, technical approaches to data collection and the quality and limitations of data collected online.

African International Journal of Contemporary Studies in Humanities and Social Science

The International Journal of Communication and Social Sciences (IJCSS), an official publication of the Mass Communication Department at Godfrey Okoye University, Enugu, Nigeria, is edited in collaboration with the Dean of Graduate School at Bowie State University, Bowie Maryland, USA. The Journal publishes articles and book reviews that examine a broad range of social sciences, but most importantly, issues relevant to communication theory, research practice, policy and methodological approaches, information communication technology (ICT), development communication paradigms and ethical conducts and standards in journalism and communication. Since the Journal seeks to be a general forum for communication scholarship, internationally published, we are especially interested in research whose significance crosses disciplinary and sub-field boundaries such as the social sciences.

Online Social Sciences

The great English novel about Egypt, which is also the great Egyptian novel about England. This is a love story, a story about growing up, a story about what its like to be a woman (Eastern and Western), a story about the history of the post-imperial Middle East during the last 30 years or so, perplexed and bloody years, and a story about home. In London in 1979, Asya reflects on events in Cairo more than a decade before. It's May, 1967: Asya's studying for university is interrupted by war between Israel and Egypt, a conflict that shapes Asya's coming of age as a woman in modern Egypt. For Asya, education, love, sexuality and marriage are bound up with, and touched by, the violent conflicts between Egypt and Israel -as well as the seductions, and disappointments, of Europe. _____ 'Ahdaf Soueif is one of the most extraordinary chroniclers of sexual politics now writing' EDWARD SAID, author of Orientalism 'A convincing and skilful writer' SUNDAY TIMES 'Highly unusual and richly impressive' GUARDIAN

International Journal of Communication & Social Sciences

Media Theory for A Level provides a comprehensive introduction to the 19 academic theories required for A Level Media study. From Roland Barthes to Clay Shirky, from structuralism to civilisationism, this revision book explains the core academic concepts students need to master to succeed in their exams. Each chapter includes: • Comprehensive explanations of the academic ideas and theories specified for GCE Media study. • Practical tasks designed to help students apply theoretical concepts to unseen texts and close study products/set texts. • Exemplar applications of theories to set texts and close study products for all media specifications (AQA, Eduqas, OCR and WJEC). • Challenge activities designed to help students secure premium grades. • Glossaries to explain specialist academic terminology. • Revision summaries and exam preparation activities for all named theorists. • Essential knowledge reference tables. Media Theory for A Level is also accompanied by the essentialmediatheory.com website that contains a wide range of supporting resources. Accompanying online material includes: • Revision flashcards and worksheets. • A comprehensive bank of exemplar applications that apply academic theory to current set texts and close study products for all media specifications. • Classroom ready worksheets that teachers can use alongside the book to help students master essential media theory. • Help sheets that focus on the application of academic theory to unseen text components of A Level exams.

International Journal of Mainstream Social Science

This superb guide teaches you how to read critically. Its no-nonsense, practical approach uses a specially developed reading code to help you read articles for your research project; this simple code enables you to decipher journal articles structurally, mechanically and grammatically. Refreshingly free of jargon and written with you in mind, it's packed full of interdisciplinary advice that helps you to decode and critique academic writing. The author's fuss free approach will improve your performance, boost your confidence and help you to: Read and better understand content Take relevant effective notes Manage large amounts of information in an easily identifiable and retrievable format Write persuasively using formal academic language and style. New to this edition: Additional examples across a range of subjects, including education, health and sociology as well as criminology Refined terminology for students in the UK, as well as around the world More examples dealing specifically with journal articles. Clear, focused and practical this handy guide is a great resource for helping you sharpen your use of journal articles and improve your academic writing skills. 'I have used the book over the last five years with my students with great success. The book has helped students to develop their critical thinking, reading and writing skills and when it comes to writing a dissertation they have used the code sheet in their own writing.' - Pete Allison, Head of the Graduate School of Education, University of Edinburgh The Student Success series are essential guides for students of all levels. From how to think critically and write great essays to planning your dream career, the Student Success series helps you study smarter and get the best from your time at university. Visit the SAGE Study Skills hub for tips and resources for study success!

International Journal of Applied Sciences: Current and Future Research Trends (IJASCFRT)

This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. The role of sport in development initiatives has grown dramatically over the last five years, now finding a place in the UN's millennium development goals. In *Sport and Development for Peace*, Simon Darnell outlines the most recent sociological research on the role of sport in development initiatives. The book analyses the relationship between sport and international development and looks at what this reveals about socio-political economy. It addresses a gap in the literature by focusing on issues of politics, power and culture, particularly looking at volunteer experience, mega-sporting events and sporting celebrity in the context of development. Darnell questions the belief that sport can offer a 'solution' to enduring development issues. Drawing on the latest empirical research, the book is a thorough and timely analysis of the social and political implications of tying sport to development.

In the Eye of the Sun

The artificial intelligence (AI) landscape has evolved significantly from 1950 when Alan Turing first posed the question of whether machines can think. Today, AI is transforming societies and economies. It promises to generate productivity gains, improve well-being and help address global challenges, such as climate change, resource scarcity and health crises.

IJCRSSSL

The SAGE Handbook for Social Research Methods is a must for every social-science researcher. It charts the new and evolving terrain of social research methodology, covering qualitative, quantitative, and mixed methods in one volume. The Handbook includes chapters on each phase of the research process: research design, methods of data collection, and the processes of analyzing and interpreting data. As its editors maintain, there is much more to research than learning skills and techniques; methodology involves the fit between theory, research questions, research design, and analysis.

Media Theory for A Level

A dynamic new contribution to the study of luxury in the Canadian context. From the history of the fur trade to the latest Indigenous fashion movement, from the T. Eaton Company's 1920s "Made-in-Canada" campaign to the on-again-off-again Toronto Fashion Week, from Vancouver public art commissions to Montréal's future-forward fashion tech sector, the essays in this volume explain what makes and breaks Canadian luxury. The book announces a new collective of thinkers who focus on Indigenous and Canadian instances of luxurious production, experiences, and sites to propose a new definition of luxury that includes a plurality of regional practices. Challenging Western perceptions that bind luxury to a colonial past or a consumerist present, these original case studies redefine luxury for Canada, highlighting the notion that Canadian luxury is centered on community and connection.

How to Read Journal Articles in the Social Sciences

"This defining work will be valuable to readers and researchers in social sciences and humanities at all academic levels. As a teaching resource it will be useful to instructors and students alike and will become a standard reference source. Essential for general and academic collections." --CHOICE
This Encyclopedia provides readers with authoritative essays on virtually all social science methods topics, quantitative and qualitative, by an international collection of experts. Organized alphabetically, the Encyclopedia of Social Science Research Methods covers research terms ranging from different methodological approaches to epistemological issues and specific statistical techniques. Written to be accessible to general readers, the Encyclopedia entries do not require advanced knowledge of mathematics or statistics to understand the purposes or basic principles of any of the methods. To accomplish this goal, there are two major types of entries: definitions consisting of a paragraph or two to provide a quick explanation of a methodological term; and topical treatments or essays that discuss the nature, history, applications, and implications of using a certain method, including suggested readings and references. Readers are directed to related topics via cross-referenced terms that appear in small capital letters. By assembling entries of varied origins and serving different research purposes, readers will be able to benefit from this immense source of methodological expertise in advancing their understanding of research. With three volumes and more than 900 signed entries, the Encyclopedia of Social Science Research Methods will be a critical addition to any social science library.

Sport for Development and Peace

The International Journal of Open Source Software and Processes (IJOSSP) publishes high-quality peer-reviewed and original research articles on the large field of open source software and processes. This wide area entails many intriguing question and facets, including the special development process performed by a large number of geographically dispersed programmers, community issues like co-ordination and communication, motivations of the participants, and also economic and legal issues. Beyond this topic, open source software is an example of a highly distributed innovation process led by the users. Therefore, many aspects have relevance beyond the realm of software and its development. In this tradition, IJOSSP also publishes papers on these topics. IJOSSP is a multi-disciplinary outlet, and welcomes submissions from all relevant fields of research and applying a multitude of research approaches.

Artificial Intelligence in Society

To most scientists, and to those interested in the sciences, understanding is the ultimate aim of scientific endeavor. In spite of this, understanding, and how it is achieved, has received little attention in recent philosophy of science. Scientific Understanding seeks to reverse this trend by providing original and in-depth accounts of the concept of understanding and its essential role in the scientific process. To this end, the chapters in this volume explore and develop three key topics: understanding and explanation, understanding and models, and understanding in scientific practice. Earlier philosophers, such as Carl Hempel, dismissed understanding as subjective and pragmatic. They believed that the essence of science was to be found in scientific theories and explanations. In Scientific Understanding, the contributors maintain that we must also consider the relation between explanations and the scientists who construct and use them. They focus on understanding as the cognitive state that is a goal of explanation and on the understanding of theories and models as a means to this end. The chapters in this book highlight the multifaceted nature of the process of scientific research. The contributors examine current uses of theory, models, simulations, and experiments to evaluate the

degree to which these elements contribute to understanding. Their analyses pay due attention to the roles of intelligibility, tacit knowledge, and feelings of understanding. Furthermore, they investigate how understanding is obtained within diverse scientific disciplines and examine how the acquisition of understanding depends on specific contexts, the objects of study, and the stated aims of research.

The SAGE Handbook of Social Research Methods

This collection offers a new reflection on rape in war time through 15 case studies, ranging from Greece to Nigeria. It questions the specificity of rape as a universal transgression, its place in memories of war, its legacies, including children born from rape, and the challenge of writing about intimate violence as both a scientist and a human.

Canadian Critical Luxury Studies

**** Contents available at <http://ijs.cgpublisher.com/product/pub.41/prod.772> ****The International Journal of Environmental, Cultural, Economic and Social Sustainability creates a place for the publication of papers presenting innovative theories and practices of sustainability. The journal is cross-disciplinary in its scope, a meeting point for natural and social scientists, researchers and practitioners, professionals and community representatives. The perspectives presented in the journal range from big picture analyses which address global and universal concerns, to detailed case studies which speak of localised applications of the principles and practices of sustainability. The papers traverse a broad terrain, sometimes technically and other times socially oriented, sometimes theoretical and other times practical in their perspective, and sometimes reflecting dispassionate analysis whilst at other times suggesting interested strategies for action. The journal is relevant for academics in the social sciences, applied sciences, the humanities, the professions and education, research students, public administrators in local, provincial and state government, representatives of the private sector and trainers and industry consultants. The International Journal of Environmental, Cultural, Economic and Social Sustainability is peer-reviewed, supported by rigorous, criterion-referenced article ranking and qualitative commentary processes, ensuring that only intellectual work of significance is published.

The SAGE Encyclopedia of Social Science Research Methods

This bibliography lists the most important works published in sociology in 1993. Renowned for its international coverage and rigorous selection procedures, the IBSS provides researchers and librarians with the most comprehensive and scholarly bibliographic service available in the social sciences. The IBSS is compiled by the British Library of Political and Economic Science at the London School of Economics, one of the world's leading social science institutions. Published annually, the IBSS is available in four subject areas: anthropology, economics, political science and sociology.

Sociology and Development

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1974 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

Value Systems and Social Process

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics

from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1968 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

International Behavioural and Social Sciences

This collection reprints a selection of classic works from the Tavistock Press social and behavioral sciences series. Many of these works have gone out of print or are difficult to locate, making this set an invaluable resource for academic libraries engaged in collection-building or in search of sturdy, library-bound replacement volumes that will stand up to repeated use. The Tavistock Institute holds a unique place in the development of the social and behavioral sciences. Established in 1947, it has long been a pioneering force in the study of human relations in the context of the family, the work group, and the larger organization, and is famous for seminal work in such key methodologies as group dynamics, action research, and organizational development. Tavistock Press--established in the 1950s as a co-operative venture between the Institute and Routledge & Kegan Paul--produced a series of major contributions across the social sciences. Continuing late into the 1980s, the activities of the Press mirrored those of the Institute. Tavistock Press published numerous groundbreaking works by some of the world's most eminent scholars, including titles by Melanie Klein, Wilfred Bion, D. A. Winnicott, Elliot Jaques, and others. The volumes in this special collection are selected from those areas Tavistock helped to create, as well as the more established fields to which it made significant contributions. Volumes are available individually or as an economically priced set. For volume prices, look up individual titles or ISBNs on the Routledge website, or contact our Library Marketing department at: reference@routledge-ny.com.

Scientific Discovery in the Social Sciences

This volume offers selected papers exploring issues arising from scientific discovery in the social sciences. It features a range of disciplines including behavioural sciences, computer science, finance, and statistics with an emphasis on philosophy. The first of the three parts examines methods of social scientific discovery. Chapters investigate the nature of causal analysis, philosophical issues around scale development in behavioural science research, imagination in social scientific practice, and relationships between paradigms of inquiry and scientific fraud. The next part considers the practice of social science discovery. Chapters discuss the lack of genuine scientific discovery in finance where hypotheses concern the cheapness of securities, the logic of scientific discovery in macroeconomics, and the nature of that what discovery with the Solidarity movement as a case study. The final part covers formalising theories in social science. Chapters analyse the abstract model theory of institutions as a way of representing the structure of scientific theories, the semi-automatic generation of cognitive science theories, and computational process models in the social sciences. The volume offers a unique perspective on scientific discovery in the social sciences. It will engage scholars and students with a multidisciplinary interest in the philosophy of science and social science.

Sociology and Development

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. International Behavioural and Social Sciences Library

The Tavistock Institute holds a unique place in the development of the social and behavioural sciences. Established in 1947 the focus of the organization has always been on the study of human relations in the context of the family, the work group and the larger organization. Constantly innovative, the Institute has been a pioneer of such key methodologies as group dynamics, action-research and organizational development. Tavistock Press was established as a co-operative venture between the Institute and Routledge & Kegan Paul (RKP) in the 1950's and produced a series of major contributions across the social sciences. Continuing late into the 1980's the activities of the Press mirrored those of the Institute

and published ground breaking works by a number of eminent academics including Melanie Klein, Wilfred Bion, DA Winnicott and Elliot Jaques. This collection makes available, in facsimile, a selection of those important works which have since gone out of print, or are difficult to locate. The volumes are available individually and as minisets, structured around those areas Tavistock helped to create, as well as the more established fields to which it made significant contributions.

The Organization from Within

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1961 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

International Bibliography of Sociology

IBSS is the essential tool for librarians, university departments, research institutions and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences.

Social Deviance

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

Fundamentals of Social Sciences and Library Consortia

The present book entitled, "Fundamentals of Social Sciences and Library" is an attempt to bring to gather the fundamental concept of the umbrella term 'Social Science' which normally consist of four basic disciplines namely Political Science, Economics, Sociology and History though at a later stage the multidisciplinary approaches have widened the scope of social science thereby resulted into the inclusion of several disciplines which in one context or the other are directly related to the study of human beings. The present effort intends to study the most significant and important area of study in respect of a social institution known as 'The Library'. Thus, the present work involves selected senior library professionals who not only have adequate background and knowledge of social science disciplines along with sound knowledge of the organization and management of the library. The book is divided into six chapters namely (i) Social Science: An Overview (ii) Political Science (iii) Economics (iv) Sociology (v) History (vi) Consortia and Social Sciences. The book will be useful to the students pursuing the studies in the field of library and information science, teachers involved in teaching the course which involves the teaching of multidisciplinary content especially the social science vis-à-vis

libraries as well as by all those who want to study and do research the role of libraries and their contribution in the growth and development of social science disciplines.

Readings in Social Evolution and Development

Readings in Social Evolution and Development presents a collection of articles on a specialized aspect of sociology, or social psychology. The book starts by describing social change and development and the role of institutionalization, individual behavior, and role performance on such change and development. The text also discusses the basic problems of evolutionary perspective in sociology and studies of development and modernization. The theories of social change, the problem of evolution, and the major trends of change in the contemporary setting, such as changes in the industrial societies and alternative courses of political development in the new states are also encompassed. Sociologists and social psychologists and students taking sociology courses will find the book useful.

The Use of Models in the Social Sciences

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1976 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

Readings in Child Socialization

Readings in Child Socialization is a collection of papers that covers concerns in sociological science, particularly those that involve children. The book presents 14 materials that tackle issues in human society. The text first details the concept of society and socialization, and then proceeds to presenting sociological studies, such as a developmental study of the effects of sex of the dominant parent on sex role preference, identification, and imitation in children; social origins and consequences of elaborated and restricted codes; and sex, age, and state as determinants of mother-infant interaction. The book will be of great interest to researchers and practitioners of sociology and other related disciplines, such as social psychology.

Guide to Reprints

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1974 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

The Social Analysis of Class Structure

This book constitutes the outcome of an international conference held at the Otto-Mobes-Volkswirtschaftsschule, Graz-Stifting (Austria), from June 16 to 22, 1974. The conference was initiated by a project group working on determinants and controls of social science development at the Institute for Advanced Studies and Scientific Research in Vienna and organized by the editors of this volume. It was held under the auspices of the Austrian Ministry of Science and Research. The main topics of the conference were those at the forefront of the 'state of argumentation' (to borrow from one of our contributors) in philosophy and sociology of science ever since the controversy between Thomas S. Kuhn and Sir Karl R. Popper has sharpened our awareness for the methodological and substantial presuppositions involved with questions of growth and development in science. Let us give two examples of those topics. The borderline between sociology of science and philosophy of science has become more and more unclear; while the work of at least some philosophers of science comes to have an empirical flavour, sociologists of science are increasingly apt to include logical and methodo

logical components of the research process as their objects of examination. Papers included in this volume testify to both tendencies.

Determinants and Controls of Scientific Development

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1972 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

The Rules of the Game

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1970 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

The Action-Image of Society on Cultural Politicization

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1967 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

Social Theory and Economic Change

Focusing on the relationship between culture and human development, this timely book offers an interdisciplinary exploration of key developmental processes. It combines psychological and sociological approaches with cross-cultural research to examine phenomena such as the transfer of culture between generations and the universality of attachment theory. This book will be essential reading for anyone studying or researching in cultural psychology, cross-cultural psychology, acculturation or behavioral development. It will also prove an invaluable source of information for anyone interested in sociology and the social sciences in general.

Culture and Human Development

Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Reproduced here in facsimile, this volume was originally published in 1968 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

Value Systems and Social Process

First published in 1952, the International Bibliography of the Social Sciences (anthropology, economics, political science, and sociology) is well established as a major bibliographic reference for students, researchers and librarians in the social sciences worldwide. Key features * Authority: Rigorous standards

are applied to make the IBSS the most authoritative selective bibliography ever produced. Articles and books are selected on merit by some of the world's most expert librarians and academics. *Breadth: today the IBSS covers over 2000 journals - more than any other comparable resource. The latest monograph publications are also included. *International Coverage: the IBSS reviews scholarship published in over 30 languages, including publications from Eastern Europe and the developing world. *User friendly organization: all non-English titles are word sections. Extensive author, subject and place name indexes are provided in both English and French. Place your standing order now for the 2002 volumes of the the IBSS Anthropology: 2002 Vol.48 December 2003: 234x156: Hb: 0-415-32634-6: £195.00 Economics: 2002 Vol.51 December 2003: 234x156: Hb: 0-415-32635-4: £195.00 Political Science: 2002 Vol.51 December 2003: 234x156: Hb: 0-415-32636-2: £195.00 Sociology: 2002 Vol.52 December 2003: 234x156: Hb: 0-415-32637-0: £195.00

IBSS: Sociology: 2002 Vol.52

Renowned for its international coverage and rigorous selection procedures, this series provides the most comprehensive and scholarly bibliographic service available in the social sciences. Arranged by topic and indexed by author, subject and place-name, each bibliography lists and annotates the most important works published in its field during the year of 1997, including hard-to-locate journal articles. Each volume also includes a complete list of the periodicals consulted.

Ibss: Sociology: 1998

Readings in the Sociology of Religion is a collection of articles that examines the sociological aspects of religion. The title discusses the contemporary theories, concept, and studies about the sociology of religion. The text first details the concept of sociology of religion, along with the relationship between religion and sociological theory. Next, the selection covers the theoretical development of the sociology of religion and Weber's sociological theory, as well as the modern dilemma of value and belief in the social sciences. The last part tackles the types of research in sociology of religion. The book will be of great interest to sociologists and behavioral scientists. Individuals who have a keen interest in the interaction between religion and society will also benefit from the text.

Readings in the Sociology of Religion

Published in 1998, Sentiments and Activities is a valuable contribution to the field of Sociology and Social Policy.

Sentiments and Activities

A major new online reference work, Emerging Trends in the Social and Behavioral Sciences: Interdisciplinary Perspectives contains individual essays from both established scholars and rising stars. Links in each entry direct users to other relevant entries, often in other disciplines and specialties, thereby creating an intelligent multidimensional system of cross-referencing. Thoughtfully constructed with a multidimensional system of cross-referencing, this innovative reference work allows users to consider emerging trends in the social and behavioral sciences from multiple levels of analysis and from different disciplinary perspectives Focuses on five core social and behavioral science disciplines: anthropology, economics, political science, psychology and sociology - with additional entries in related fields such as education and communications studies Reviews and summarizes the current state of knowledge on each key topic in the social and behavioral sciences, maps emerging trends, and identifies new, promising lines of research Editorial Board members and contributors such as Jacque Eccles, University of Michigan (Psychology); Marlis Buchman, University of Zurich (Sociology); and David Laibson, Harvard (Economics) are recognized globally as experts in their fields www.wileyonlinelibrary.com/ref/emergingtrends Following initial publication, essays will be updated periodically to reflect new developments and new essays will be added.

Emerging Trends in the Social and Behavioral Sciences

The Social Sciences Empowered contains papers presented at the 7th International Congress on Interdisciplinary Behavior and Social Science 2018 (ICIBSoS 2018), held 21-22 July 2018, Bangkok, Thailand, 22-23 September 2018, Bali, Indonesia, 6-7 October 2018, Kuta, Bali, Indonesia, and 24-25 November 2018, Yogyakarta, Indonesia. ICIBSoS 2018 provided the economic and social analysis necessary for addressing issues in Humanities disciplines such as Education, Sociology, Anthropology,

Politics, History, Philosophy, Psychology as well as food security. Contributions to these proceedings give necessary insight into the cultural and human dimension of such diverse research areas as transport, climate change, energy and agriculture. ICIBSoS 2018 also analyses the cultural, behavioural, psychological, social and institutional drivers that transform people's behaviour and the global environment. ICIBSoS 2018 proposes new ideas, strategies and governance structures for overcoming the crisis from a global perspective, innovating the public sector and business models, promoting social innovation and fostering creativity in the development of services and product design.

The Social Sciences Empowered

We are living in a digital era in which most of our daily activities take place online. This has created a big data phenomenon that has been subject to scientific research with increasingly available tools and processing power. As a result, a growing number of social science scholars are using computational methods for analyzing social behavior. To further the area, these evolving methods must be made known to sociological research scholars. *Opportunities and Challenges for Computational Social Science Methods* focuses on the implementation of social science methods and the opportunities and challenges of these methods. This book sheds light on the infrastructure that should be built to gain required skillsets, the tools used in computational social sciences, and the methods developed and applied into computational social sciences. Covering topics like computational communication, ecological cognition, and natural language processing, this book is an essential resource for researchers, data scientists, scholars, students, professors, sociologists, and academicians.

Opportunities and Challenges for Computational Social Science Methods

Our lives as human beings are characterized by production and use of social resources, material (e.g., money and physical possessions) as well as immaterial (such as love, knowledge, and power). Distribution and exchange of these resources are central to individuals' physical and mental health and quality of life. Over the past four decades, Social Resource Theory (SRT) has evolved to build vital links between social psychology and public policy, providing a valuable lens for understanding and addressing social class, inequality, and injustice. The recent conceptual and theoretical developments and future prospects of this robust field are on full display in this *Handbook of Social Resource Theory*. An international, interdisciplinary panel of experts expands on the pioneering work of the late Dr. Uriel Foa and his wife Edna Foa, starting with the basic structure of SRT. The *Handbook* includes integrations of SRT with other social scientific frameworks, analyses of organizational and cultural issues, reports of empirical research using various methods, as well as applications to different areas including: Social justice Quality of life Interpersonal relationships Social dilemmas Stress management Work satisfaction Cognitive development Consumer behavior Cross-cultural behavior Covering human social transactions from the interpersonal to the intercultural levels, the *Handbook of Social Resource Theory* extends this relevant line of study to enhance the work of social psychologists, sociologists, anthropologists, political scientists, and public policy makers. "The *Handbook* presents the basic tenets of the social resource theory originated from the late Uriel Foa and provides an authoritative agenda for the future developments of this theory. Kjell Törnblom and Ali Kazemi have made an excellent job in gathering a global group of contributing scholars representing an outstanding mix of respected and long-standing researchers in social psychology, sociology, psychology, management, economics and marketing, political science, history, and applied ethics/philosophy. This *Handbook* is an ideal resource for researchers, instructors, and graduate students in all these fields with an interest in social resource theory." Edna B. Foa Professor of Clinical Psychology, University of Pennsylvania "Uriel Foa (1916-1990) developed social resource theory in the 1960s. In the next half century this theory has generated an enormous amount of new data and theory in social, cross-cultural, and educational psychology, as well as in related disciplines. It has inspired work on interpersonal relationships, attributions, the understanding of status, morality, distributive justice, procedural justice, social dilemmas, interpersonal evaluation, biosocial theory, and action construal. Applications in both organizational and educational settings and in marketing studies indicate the theory's relevance for the "real world." This volume edited by Kjell Törnblom and Ali Kazemi is the wonderful Festschrift that Foa did not have, because he died when he was too young by contemporary life expectancy standards. It includes chapters by many of the stars of the fields that social resource theory has influenced." Harry C. Triandis Professor Emeritus, University of Illinois "Forty years ago Edna and Uriel Foa began to spell out the unwritten social rules by which we trade – on a daily basis – friendship, information, respect, gifts, favors and other rewards and punishments. Sociologists, psychologists, economists, and others owe the editors a tremendous debt of gratitude for reminding us of the eloquence and indispensability of the

original work on social resource theory and for bringing together a distinguished roster of scholars and scientists to reflect on the theory and to exercise it in the service of addressing an astonishing number and variety of important social and organizational problems.” John T. Jost Professor of Psychology and Politics, New York University “What material and symbolic goods count as resources? How do resources relate to power? How can the exchange and distribution of resources be understood in both interpersonal and societal terms? In this outstanding volume, Törnblom and Kazemi bring together a constellation of experts from a variety of disciplines to address questions such as these. Taking as their basis the classic statement by Uriel and Edna Foa of the resource theory of social exchange, the Handbook moves through theoretical to practical analyses and presents both laboratory and field research conducted in a number of different countries. The book makes an excellent contribution to our understanding of social exchange theory in particular and of social relationships in general. The collection is both impressive and important.” Faye J Crosby Professor of Psychology, University of California Santa Cruz “A tour de force, this comprehensive volume presents cutting edge insights inspired by Foa and Foa’s social resource theory. Törnblom and Kazemi have brought together a stellar cast to address ageless questions about the cornerstones of social life and provide generative roadmaps for future theorizing and research. This volume is a rich resource for scholars as well as students and educated readers who want to know more about the complexities of social life.” Linda J. Skitka Professor of Psychology, University of Illinois at Chicago

Handbook of Social Resource Theory

For 40 years IBSS has been the essential reference resource in the social sciences. Now the complete set of IBSS is available in 166 volumes. * Breadth: Charts scholarly developments in the social sciences during the last 4 decades. IBSS now covers over 2000 journals, more than any other comparable resource, and the latest monograph publications. * Authority: Articles and books are rigorously selected by some of the world’s most expert librarians and academics. * International: Reviews scholarship published in over 30 languages, including publications from Eastern Europe and the developing world. * User-friendly: Organized within key word sections, with non-English title translations, and extensive author, subject and place name indexes. Preceding volumes of the IBSS from 1952 to 1992 are now available both as a collected set of 166 volumes across the four subject areas, as well as in sets of each subject. Complete IBSS (166 Volumes) March 1995: 243x156 Hb: 0-415-12696-7: £12,800 Anthropology (Subject Set: 39 Volumes) March 1995: 243x156 Hb: 0-415-12692-4: £3,500 Economics (Subject Set: 42 Volumes) March 1995: 243x156 Hb: 0-415-12693-2: £3,500 Political Science (Subject Set: 42 Volumes) March 1995: 243x156 Hb: 0-415-12694-0: £3,500 Sociology (Subject Set: 43 Volumes) March 1995: 243x156 Hb: 0-415-11149-8: £3,500 * For further information about the IBSS please contact Darell Carey at Routledge.

Complete International Bibliography of the Social Sciences

Fully revised and updated, the second edition of the International Encyclopedia of the Social and Behavioral Sciences, first published in 2001, offers a source of social and behavioral sciences reference material that is broader and deeper than any other. Available in both print and online editions, it comprises over 3,900 articles, commissioned by 71 Section Editors, and includes 90,000 bibliographic references as well as comprehensive name and subject indexes. Provides authoritative, foundational, interdisciplinary knowledge across the wide range of behavioral and social sciences fields Discusses history, current trends and future directions Topics are cross-referenced with related topics and each article highlights further reading

International Encyclopedia of the Social & Behavioral Sciences

Today’s world is characterized by a set of overarching trends that often come under the rubric of social change. In this innovative volume, Rainer K. Silbereisen and Xinyin Chen bring together, for the first time, international experts in the field to examine how changes in our social world impact on our individual development. Divided into four parts, the book explores the major socio-political and technological changes that have taken place around the world - from post- from the rapid upheavals in 1990s Europe to the gradual changes in parts of East Asia - and explains how these developments interplay with human development across the lifespan. Human Development and Social Change is a useful resource for students and researchers involved in all areas of human development, including developmental psychology, sociology and education.

Social Change and Human Development

The second edition of this guide to basic reference sources in the social sciences contains nearly three times as many entries, - 2,200 - as the earlier edition and also includes several other notable enhancements. In addition to revising and substantially enlarging the chapters on reference sources, Li has further increased the usefulness of this reference volume by adding a chapter on geography and one on business that is distinct from economies. Since the publication of the first edition, there have been two obvious developments in information storage and retrieval: the rapid development of online databases and the development of CD-ROM. Instead of devoting a separate chapter to these developments, the book incorporates online databases, CD-ROM and other forms of data sources into the text. In addition, there is a brief introduction to these developments. Although the general deadline for inclusion in the volume was December 1988, quite a few titles published in 1989 are included.

Structure and Subject Interaction

The established reference work Guide to Reprints has been radically reworked for this edition. Bibliographical data was substantially increased where information was obtainable. In addition, the user-friendliness of Guide to Reprints was raised to the high level of other K.G. Saur directories through author-title cross-references, a subject volume, a person index and a publisher index. In this edition, the directory lists more than 60,000 titles from more than 350 publishers.

Social Science Reference Sources

Research that has been presented primarily by quantitative research can benefit from the voice of the participants and the added value of the different perspective that qualitative research can provide. The purpose of mixed methods research is to draw from the positive aspects of both research paradigms to better answer the research question. This type of research is often used in schools, businesses, and non-profit organizations as they strive to address and resolve questions that will impact their organizations. Applied Social Science Approaches to Mixed Methods Research is an academic research publication that examines more traditional and common research methods and how they can be complimented through qualitative counterparts. The content within this publication covers an array of topics such as entrepreneurship, social media, and marginalization. It is essential for researchers, academicians, non-profit professionals, business professionals, and higher education faculty, and specifically targets master or doctoral students committed to writing their theses, dissertations, or scholarly articles, who may not have had the benefit of working on a traditional research team.

Guide to Reprints

The most important works published in 1997 in the social science field are listed and compiled in this reference work. Included are foreign titles and periodicals and the compilation also takes in the former London Bibliography of the Social Sciences.
