Haunted Greenville, South Carolina

A psychic and paranormalist takes readers on a ghostly tour of the historic city filled with southern charm—and southern spirits. Rumor has it that water—still or flowing—is a medium for paranormal activity. Residents of Greenville, South Carolina, have gathered at Falls Park on the river for generations, so it is no coincidence that this upstate city is teeming with spirits whose stories have yet to be told. From the aggressive spirits trapped in the 1920s grandeur of the Westin Poinsett Hotel to the moans of the wrongly accused Willie Earle, these ghosts have unfinished business. Watch as phantoms of children drift through the rows of Springwood Cemetery and discover what lurks behind the Tiffany stained-glass hallways of the Gassaway Mansion, as paranormalist and owner of Greenville Ghost Tours, Jason Profit, guides readers through the chilling past of this historic city with an entertaining collection of tales.

Ghosts of Upstate South Carolina

They scream in the night. They watch through the window. And sometimes they chase you right out of the woods. They are the Upstate's ghosts, and there are more of them than you think. While South Carolina's Lowcountry has a long and well-documented history with its spectral residents, the Upstate's phantoms have led quieter lives, or afterlives. But no more. In Ghosts of Upstate South Carolina, John Boyanoski, a reporter for the Greenville Journal, tells the true stories of the region's many haunted places. From Spartanburg to Union, from Anderson to Newberry, from Powdersville to Pickens, the South Carolina Upstate is haunted. Numerous ghosts and spirits haunt the Old Poinsett Bridge, and in Gaffney cries for help can still be heard from the victims of the Gaffney Strangler. Near Highway 11 there is a haunted tree. Even the squirrels won't go near it. In Greenville, a lynching victim still seeks vengeance, while wayward rocking chairs, a haunted balcony, and walled-off stairs to nowhere are just the start in Abbeville. In other towns there are ladies in white, a menacing hound, crying babies, spectral voices, a devil on a tombstone, floating lights, phantom brides, glowing red eyes, ghostly children who make the living want to hop and skip, and at least one specter who likes to play catch. Ghosts haunt the Upstate's roads and railroads, its hotels and theaters, its colleges and churches. (You'll be hard-pressed to find an Upstate college that isn't home to at least one.) And of course they haunt its homes. The ten ghosts at the Merridun Inn even throw their own Christmas party! And then there's the zombie.

Race and the Law in South Carolina

Race and the Law in South Carolina carefully reconstructs the social history behind six legal disputes heard in the South Carolina courts between the 1840s and the 1940s. The book uses these case studies to probe the complex relationship between race and the law in the American South during a century that included slavery, Reconstruction, and Jim Crow. Throughout most of the period covered in the book, the South Carolina legal system obsessively drew racial lines, always to the detriment of nonwhite people. Occasionally, however, the legal system also provided a public forum--perhaps the region's best--within which racism could openly be challenged. The book emphasizes how dramatically the degree of legal oppressiveness experienced by Black South Carolinians varied during the century under study, based largely on the degree of Black access to political and legal power. During the era of slavery, both enslaved and nominally "free" Black South Carolinians suffered extreme legal disenfranchisement. They had no political voice and precious little access to legal redress. They could not vote, serve in public office, sit on juries, or testify in court against whites. There were no Black lawyers. Black South Carolinians had essentially no claims-making ability, resulting, unsurprisingly, in a deeply oppressive, thoroughly racialized system. Most of these antebellum legal disenfranchisements were overturned during the post-Civil War era of Reconstruction. In the wake of abolition, Reconstruction-era reformers in South Carolina erased one racial distinction after another from state law. For a time, Black men voted and Black jurors sat in rough proportion to their share of the state's population. The state's first Black lawyers and officeholders appeared. Among them was an attorney from Pennsylvania named Jonathan Jasper Wright, who ascended to the South Carolina Supreme Court in 1870, becoming the nation's first Black appellate justice. By the turn of the twentieth century, however, an explicitly white supremacist movement had rolled back many of the egalitarian gains of the Reconstruction era and reimposed a legalized racial hierarchy in South Carolina. The book explores three prominent features of the resulting Jim Crow system (segregated schools, racially skewed juries, and lynching) and documents the commitment of both elite and non-elite whites to using legal and quasi-legal tools to establish hierarchical racial distinctions. It also shows how Black lawyers and others used the law to combat some of Jim Crow's worst excesses. In this sense the book demonstrates the persistence of many Reconstruction-era reforms, including emancipation, Black education, the legal language of equal protection, Black lawyers, and Black access to the courts.

Haunted Places in America

Before Alan Brown wrote *Haunted Places in the American South*, only the locals knew what was lurking in these locations. Slamming doors, eerie lights, and Confederate soldiers' ghosts kept some folks too scared to talk with outsiders. Above Peavey Melody Music in Meridian, Mississippi, children may be heard giggling and running down an abandoned hallway that turns icy cold. At the Jameson Inn in Crestview, Florida, an apparition appears on surveillance tapes after filling the lobby with sweet-smelling cigar smoke. Seldom told and rarely--if ever--printed stories such as these join tales from haunted inns, mansions, forests, ravines, and prisons to create *Haunted Places in the American South*. The book collects ghost stories from fifty-five historically haunted sites in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, and Virginia. Alan Brown gathered these stories from newspapers, magazines, museum directors, archaeologists, hotel managers, and many others who shared their disturbing experiences. Most of these stories have never appeared in book form, and some, such as the haunting of Peavey Melody Music, have never been published at all. *Haunted Places in the American South* differs from most other collections of southern ghost stories, for the featured sites include more than just haunted houses. Bridges, forts, governors' mansions, prisons, hotels, woods, theaters, cemeteries, and even a large rock are included as focal points for these tales. The book provides directions to the sites, notes, and a bibliography that will be useful to folklore scholars and to travelers seeking that cold and creepy brush with the supernatural. Alan Brown is a professor of English at the University of West Alabama. His books include *Literary Levees of New Orleans*, *The Face in the Window and Other Alabama Ghostlore*, and *Shadows and Cypress: Southern Ghost Stories* (University Press of Mississippi).

Fairfield County had its own version of witch trials. Crime writer Cathy Pickens brings a novelist's eye to the Upstate's real crime stories and the international headlines and the little-known tales that define the sinister--and quirky--side of her home state.
