Nocturnia è un mondo oscuro, corrotto dalla magia nera e infestato da orrende creature. Per giungervi si deve superare il Varco, un passaggio incantato che la separa dalla nostra Terra. Thomas Travers non si sognerebbe mai di farlo se non dovesse aiutare Diana: una ragazza fragile, nata sul nostro mondo, ma erede di una dinastia di maghe potentissime e destinata a reclamare il trono di Nocturnia. Attraversato il Varco, i due vivranno avventure meravigliose, terrori indicibili e passioni potentissime. Per la prima volta la seconda trilogia in un solo ebook a un prezzo speciale! Ecco cosa ne pensano i lettori: La saga di Nocturnia di Frank 1899 Tre sole parole...SAGA BELLISSIMA CONSIGLIATISSIMA Un sogno ad occhi aperti! di Pantaclart Bellissimo, sentito, emozionante! Per gli amanti del genere fantasy è più bello perfino del signore degli anelli! Io mi sono fatta un film e per quanto ero ansiosa di leggerne la fine ora che ho finito mi dispiace. Veramente complimenti Stefano!!! Magnetico di Absinthe85 Meraviglioso! Privo di eccessive descrizioni, intrigante e ricco di suspense. Uno dei migliori fantasy che abbia letto negli ultimi anni.. Bello ! di Batfabio Ho letto tutta la trilogia che regge tranquillamente il confronto con altre opere ben più conosciute e costose. Complimenti all'autore!

Convinta da un sogno profetico a sterminare le Confraternite per bandire il Potere Oscuro da Nocturnia, chiede ai suoi alleati l'ultimo sacrificio. #### Bachelor Girl

In this lively and colorful book of popular history, journalist Betsy Israel shines a light on the old stereotypes that have stigmatized single women for years and celebrates their resourceful sense of spirit, enterprise, and unlimited success in a world where it is no longer unusual or unlikely to be unwed. Drawing extensively on primary sources, including private journals, newspaper stories, magazine articles, advertisements, films, and other materials from popular media, Israel paints remarkably vivid portraits of single women -- and the way they were perceived -- throughout the decades. From the nineteenth-century spinsters, of New England to the Bowery girls of New York City, from the 1920s flappers to the 1940s working women of the war years and the career girls of the 1950s and 1960s, single women have fought to find and feel comfortable in that room of their own. One need only look at Bridget Jones and the Sex and the City gang to see that single women still maintain an uneasy relationship with the rest of society -- and yet they radiate an aura of glamour and mystery in popular culture. As witty as it is well researched, as thoughtful as it is lively, Bachelor Girl is a must-read for women everywhere.

#### Don't Get Me Wrong

Kim and Harry are total opposites who happen to have the same favorite people in the world: Kim's older sister, Eva, and her young son, Otis. Kim has never seen what her free-spirited big sister sees in a stuck-up banker like Harry and has spent her childhood trying to keep him out (must he always drive the most ostentatious cars and insist on charming everyone he meets?), while Harry's favorite occupation is provoking Kim. Both Harry and Kim are too stuck in their prejudices to care about what's really going on beneath the surface of each other's lives. They'll never understand each other--until the worst of all tragedy strikes. Faced with the possibilities of losing the person they both love most, long-buried secrets come to a head in ways that will change both Harry and Kim forever.

#### Saving Mozart

Raphaël Jerusalmy's debut novel takes the form of the journal of Otto J. Steiner, a former music critic of Jewish descent suffering from tuberculosis in a Salzburg sanatorium in 1939. Drained by his illness and isolated in the gloomy sanatorium, Steiner finds solace only in music. He is horrified to learn that the Nazis' are transforming a Mozart festival into a fascist event. Steiner feels helpless at first, but an invitation from a friend presents him with an opportunity to fight back. Under the guise of organizing a concert for Nazi officials, Steiner formulates a plan to save Mozart that could dramatically change the course of the war.

#### Bones of the Hills

A fatherless boy, exiled from his tribe, has grown into the great king, Genghis Khan. He has united the warring tribes and even taken his armies against the great cities of their oldest enemies. Now he finds trouble rising west of the Mongolian plains. His emissaries are mutilated or killed; his trading gestures rebuffed. Not for sale to libraries.

#### Avenger of Rome

In the follow-up to *Defender of Rome*, Valerius Verrens is sent on a mission by the deranged Nero against a man he greatly admires. Emperor Nero's grip on power is weakening. In every shadow he sees an enemy, and like a cornered animal, he lashes out at every perceived threat. His paranoia settles on the figure of Gnaeus Domitius Corbulo, Rome's greatest general who leads the imperial legions in the East. Is Corbulo preparing to march against Rome and take the purple? Gaius Valerius Verrens, Hero of Rome, is ordered to Antioch with the power of life and death over Corbulo, a soldier he worships. There he finds that word of his mission has preceded him, and every man's hand is turned against him. But Corbulo's eyes are not on Rome, but on a new threat to the Empire's border. The Parthian King of Kings, Vologases, is marching to war, and if not stopped he might overwhelm the entire Roman east. Valerius marches at Corbulo's side. Outnumbered they make a stand in the barren wastes beyond the Tigris to meet Vologases in an epic contest of military might and ingenuity that will decide the fate of the Empire. And while he fights for the Empire, and for his own survival on the battlefield, Valerius must decide whether to complete his mission, or risk incurring his Emperor's dangerous wrath.

#### Astrophysics Is Easy!

Astrophysics is often –with some justification – regarded as incomprehensible without the use of higher mathematics. Consequently, many amateur astronomers miss out on some of the most fascinating aspects of the subject. *Astrophysics Is Easy!* cuts through the difficult mathematics and explains the basics of astrophysics in accessible terms. Using nothing more than plain arithmetic and simple examples, the workings of the universe are outlined in a straightforward yet detailed and easy-to-grasp manner. The original edition of the book was written over eight years ago, and in that time, advances in observational astronomy have led to new and significant changes to the theories of astrophysics. The new theories will be reflected in both the new and expanded chapters. A unique aspect of this book is that, for each topic under discussion, an observing list is included so that observers can actually see for themselves the concepts presented –stars of the spectral sequence, nebulae, galaxies, even black holes. The observing list has been revised and brought up-to-date in the Second Edition.

## Saturday the Rabbi Went Hungry

Rabbi Small returns in this New York Times–bestselling novel to investigate a mysterious death on the Day of Atonement. The day before Yom Kippur, the synagogue sound system is on the blink, the floral arrangements are in disarray, and a member of Rabbi David Small's congregation—in the Massachusetts town of Barnard's Crossing—is terribly concerned with how much a Torah weighs. The rabbi is determined not to let these mundane concerns ruin his day of prayer and contemplation. But the holiest day of the Jewish year is interrupted when a member of the congregation is found dead in his car. Details emerge that suggest the man may have killed himself, but the rabbi's wife suspects murder. Which is it? Rabbi Small kicks into high detective gear to find out. His search for the culprit among the small town's cast of eccentric characters leads to nail-biting suspense in this highly entertaining and engrossing mystery.

## Attila The Hun

Attila the Hun - godless barbarian and near-mythical warrior king - has become a byword for mindless ferocity. His brutal attacks smashed through the frontiers of the Roman empire in a savage wave of death and destruction. His reign of terror shattered an imperial world that had been securely unified by the conquests of Julius Caesar five centuries before. This book goes in search of the real Attila the Hun. For the first time it reveals the history of an astute politician and first-rate military commander who brilliantly exploited the strengths and weaknesses of the Roman empire. We ride with Attila and the Huns from the windswept steppes of Kazakhstan to the opulent city of Constantinople, from the Great Hungarian Plain to the fertile fields of Champagne in France. Challenging our own ideas about barbarians and Romans, imperialism and civilisation, terrorists and superpowers, this is the absorbing story of an extraordinary and complex individual who helped to bring down an empire and forced the map of Europe to be redrawn forever.

## Miral

In 1948, as violence erupts in Jerusalem, a young Arab woman, Hind Hussein, finds fifty-five abandoned children in the streets and faces the biggest challenge of her life. Hind establishes the Dar El-Tifel orphanage, dedicating her life to providing love, support and education to the children, changing their destiny. As the years pass and the conflict rages on, Hind finds that - despite her best efforts - some of her older students are taking part in the violent struggle for Palestinian independence, including one of her brightest students, Miral. Rula Jebreal traces the lives of generations of Palestinians in order to understand the intractable conflict. Based on fact, Hind Hussein, benefactor of thousands of children, is the figurehead in this examination of race, religion and what a homeland means.

## Apocalypse 2012

Is the world really coming to an end in 2012? The answer frighteningly is 'maybe', according to the Bible, the I Ching, the Mayans, meteorologists and vulcanologists. *Apocalypse 2012* is cheerful sceptic Laurence E Joseph's investigation into the 2012 Doomsday phenomenon. Journalist and science writer Laurence E Joseph is our incisive and witty guide unravelling the religious, astrological and mystical prophecies behind the potentially earth-shattering events of 2012. And at the core of this book is Joseph's investigation into the growing number of scientific researchers trying to figure out why conditions around our planet are becoming so bizarre. His adventures include: / Hooking up with the Voluntary Human Extinction Movement whose cheerful motto 'Live Long and Die Out' is now available as a tattoo. / Meeting the scientists who are trying to figure out why the present state of the sun is so worrisome -- is it just going through a phase or is something major going on? / Visiting Yellowstone National Park to see whether the seething supervolcano could soon stop civilisation dead in its tracks. / Exploring the possibility of a terrorist attack that could plunge the whole Northern Hemisphere into the equivalent of a nuclear winter.

## Garlic, Mint, & Sweet Basil

A tale of two sisters over seventy years that recovers the vibrant and unforgettable voice of Beverly Jensen. In 1916, Idella and Avis Hillock live on the edge of a chilly bluff in New Brunswick—a hardscrabble world of potato farms and lobster traps, rough men, hard work, and baffling beauty. From "Gone," the heartbreaking story of their mother's medical crisis in childbirth, to the darkly comic "Wake," which follows the grown siblings' catastrophic efforts to escort their father, "Wild Bill" Hillock's body to his funeral, the stories of Idella and Avis offer a compelling and wry vision of two remarkable women. The vivid cast includes Idella's philandering husband Edward, her bewilderingly difficult mother-in-law—and Avis, whose serial romantic disasters never quell her irrepressible spirit. Jensen's work evokes a time gone by and reads like an instant American classic. Beverly Jensen died of cancer at the age of forty-nine without publishing her work. Since her death, her fiction has been championed by a dedicated group of supporters, including Stephen King and Joyce Carol Oates.

In *The Atlantis Syndrome*, Paul Jordan maps the invention, abandonment, and rediscovery of the concept of Atlantis from Plato's invention of Atlantis in his moral tale of the ruining of Athens, to the present day 'alternative archaeologies' which use his analogy as their foundation. Jordan argues that contemporary archaeology has gone far beyond the need for an Atlantis to explain the distant human past and outlines contemporary archaeological thinking about human evolution, prehistory and classical history and society. Ultimately he takes in turn several of the more popular books on the Atlantis theory and critically analyses their evidence and approach. In this way he effectively shoots down several modern heroes of the modern cult of Atlantology, looking at the underlying motivations for their writings. He also warns of the 'colonialist and missionary condescension' enshrined in their hyperdiffusionist ideas. This is a fascinating and much needed contextual analysis of the 'Atlantis Syndrome' and should be read by anyone interested in this subject.

#### The Maddest Obsession

She fears the dark. He rules it. Her dresses are too tight, her heels too tall. She laughs too loudly, eats without decorum, and mixes up most sayings in the book. Little do most know it's just a sparkly disguise, there to hide one panic attack at a time. Nobody can crack Gianna's facade . . . no one anyway, until he comes along. Most see a paragon of morality; a special agent upholding the law. In the New York underworld, others know him as a hustler, a killer, his nature as cold as the heart of ice in his chest. Christian Allister has always followed the life plan he'd envisioned in his youth, beneath the harsh lights of a frigid, damp cell. With a proclivity for order and the number three, he's never been tempted to veer off course. But perhaps one should never say never . . . One winter night and their lives intertwine. She hates him--his stone-cold demeanor, his arrogance and too-perceptive eye--but over the years, even as their games consist of insulting each other's looks and intelligence, she begins to live to play with him. Nowhere in Christian's plans had he ever prepared for Gianna. She's chaos embodied, not his type, and married, but none of that can stop his eyes from following her wherever she goes. All along, she doesn't even know that she's his--his frustration, his fascination. His maddest obsession. \*Can be read as a standalone

### Caciques and Cemi Idols

Takes a close look at the relationship between humans and other (non-human) beings that are imbued with cemí power, specifically within the Taíno inter-island cultural sphere encompassing Puerto Rico and Hispaniola. Cemís are both portable artifacts and embodiments of persons or spirit, which the Taínos and other natives of the Greater Antilles (ca. AD 1000-1550) regarded as numinous beings with supernatural or magic powers. This volume takes a close look at the relationship between humans and other (non-human) beings that are imbued with cemí power, specifically within the Taíno inter-island cultural sphere encompassing Puerto Rico and Hispaniola. The relationships address the important questions of identity and personhood of the cemí icons and their human "owners" and the implications of cemí gift-giving and gift-taking that sustains a complex web of relationships between caciques (chiefs) of Puerto Rico and Hispaniola. Oliver provides a careful analysis of the four major forms of cemís—three-pointed stones, large stone heads, stone collars, and elbow stones—as well as face masks, which provide an interesting contrast to the stone heads. He finds evidence for his interpretation of human and cemí interactions from a critical review of 16th-century Spanish ethnohistoric documents, especially the *Relación Acerca de las Antigüedades de los Indios* written by Friar Ramón Pané in 1497–1498 under orders from Christopher Columbus. Buttressed by examples of native resistance and syncretism, the volume discusses the iconoclastic conflicts and the relationship between the icons and the human beings. Focusing on this and on the various contexts in which the relationships were enacted, Oliver reveals how the cemís were central to the exercise of native political power. Such cemís were considered a direct threat to the hegemony of the Spanish conquerors, as these potent objects were seen as allies in the native resistance to the onslaught of Christendom with its icons of saints and virgins.

### Memories and Adventures

Dubliners is a book of an Irish writer James Augustine Aloysius Joyce. This is a collection of stories, written in a slightly impressionistic way, in which a life of citizens of the Ireland's capital city, so-called "middle-level gentlemen", is described. It is the top of an Irish realistic literature of the beginning of the twentieth century. Joyce made it his aim to "write a chapter of a spiritual history of his nation."

## Hereditary Genius

She's a romantic at heart, living in the most unromantic of worlds . . . Nicknamed Sweet Abelli for her docile nature, Elena smiles on cue and has a charming response for everything. She's the favored daughter, the perfect mafia principessa . . . or was. Now, all she can see in the mirror's reflection is blood staining her hands like crimson paint. They say first impressions are everything . . . In the murky waters of New York's underworld, Elena's sister is arranged to marry Nicolas Russo. A Made Man, a boss, a cheat-even measured against mafia standards. His reputation stretches far and wide and is darker than his black suits and ties. After his and Elena's first encounter ends with an accidental glare on her part, she realizes he's just as rude as he is handsome. She doesn't like the man or anything he stands for, though that doesn't stop her heart from pattering like rain against glass when he's near, nor the shiver that ghosts down her spine at the sound of his voice. And he's always near. Telling her what to do. Making her feel hotter than any future brother-in-law should. Elena may be the Sweet Abelli on the outside, but she's beginning to learn she has a taste for the darkness, for rough hands, cigarettes, and whiskey-colored eyes. Having already escaped one scandal, however, she can hardly afford to be swept up in another. Besides, even if he were hers, everyone knows you don't fall in love with a Made Man . . . right? This is a standalone forbidden romance.

## The Sweetest Oblivion

In 'What Makes Civilization?', archaeologist David Wengrow provides a vivid account of the 'birth of civilization' in ancient Egypt and Mesopotamia (today's Iraq). These two regions, where many foundations of modern life were laid, are usually treated in isolation. Now, they are brought together within a unified history.

## Cultures of Anyone

This book examines the effects of Jewish conversions to Christianity in late medieval Spanish society. Ingram focuses on these converts and their descendants (known as conversos) not as Judaizers, but as Christian humanists, mystics and evangelists, who attempt to create a new society based on quietist religious practice, merit, and toleration. His narrative takes the reader on a journey from the late fourteenth-century conversions and the first blood purity laws (designed to marginalize conversos), through the early sixteenth-century Erasmian and radical mystical movements, to a Counter-Reformation environment in which conversos become the advocates for pacifism and concordance. His account ends at the court of Philip IV, where growing intolerance towards Madrid's converso courtiers is subtly attacked by Spain's greatest painter, Diego Velázquez, in his work, *Los Borrachos*. Finally, Ingram examines the historiography of early modern Spain, in which he argues the converso reform phenomenon continues to be underexplored.

## Penelope's Irish Experiences

Shortlisted for the Royal Society Science Book Prize 2021 'To compare any book to a Sacks is unfair, but this one lives up to it . . . I finished it feeling thrillingly unsettled, and wishing there was more.' James McConnachie, *Sunday Times* 'A study of diseases that we sometimes say are 'all in the mind', and an explanation of how unfair that characterisation is.' Tom Whipple, *The Times Books of the Year* In Sweden, refugee children fall asleep for months and years at a time. In upstate New York, high school students develop contagious seizures. In the US Embassy in Cuba, employees complain of headaches and memory loss after hearing strange noises in the night. These disparate cases are some of the most remarkable diagnostic mysteries of the twenty-first century, as both doctors and scientists have struggled to explain them within the boundaries of medical science and – more crucially – to treat them. What unites them is that they are all examples of a particular type of psychosomatic illness: medical disorders that are influenced as much by the idiosyncratic aspects of individual cultures as they are by human biology. Inspired by a poignant encounter with the sleeping refugee children of Sweden, Wellcome Prize-winning neurologist Suzanne O'Sullivan travels the world to visit other communities who have also been subject to outbreaks of so-called 'mystery' illnesses. From a derelict post-Soviet mining town in Kazakhstan, to the Mosquito Coast of Nicaragua via an oil town in Texas, to the heart

of the Maria Mountains in Colombia, O'Sullivan hears remarkable stories from a fascinating array of people, and attempts to unravel their complex meaning while asking the question: who gets to define what is and what isn't an illness? Reminiscent of the work of Oliver Sacks, Stephen Grosz and Henry Marsh, *The Sleeping Beauties* is a moving and unforgettable scientific investigation with a very human face. 'To compare any book to a Sacks is unfair, but this one lives up to it.' *Sunday Times*

Een deel van de auteurs behandelt de mondiale ambities van de steden, terwijl andere hun culturele en architecturale uitingen onderzoeken.

#### Converso Non-Conformism in Early Modern Spain

"Stott finds that male behavior could be strikingly similar in diverse locales, from taverns and boarding-houses to college campuses and sporting events. He explores the permissive attitudes that thrived in such male domains as the streets of New York City, California during the gold rush, and the Pennsylvania oil fields, arguing that such places had an important influence on American society and culture. Stott recounts how the cattle and mining towns of the American West emerged as centers of resistance to Victorian propriety. It was here that unrestrained male behavior lasted the longest, before being replaced with a new convention that equated manliness with sobriety and self-control."

#### Aspects of Urbanization in China

In a 1984 lecture on poetry and political violence, Seamus Heaney remarked that "the idea of poetry was itself that higher ideal to which the poets had unconsciously turned in order to survive the demeaning conditions." Jonathan Hufstader examines the work of Heaney and his contemporaries to discover how poems, combining conscious technique with unconscious impulse, work as aesthetic forms and as strategies for emotional survival. In his powerful study, Hufstader shows how a number of contemporary Northern Irish poets, including Seamus Heaney, Derek Mahon, Michael Longley, Paul Muldoon, Tom Paulin, Ciarán Carson and Medbh McGuckian, explore the resources of language and poetic form in their various responses to cultural conflict and political violence. Focusing on both style and social contexts, Hufstader explores the tension between solidarity and art, between the poet's need to belong and to rebel. He believes that an understanding of the power of lyric points towards an understanding of the source of social violence, and of its cessation.

Born in Rhode Island in 1754, hailed in Great Britain and much of the United States, yet scorned by the medical and Brahmin establishments in Boston, Benjamin Waterhouse is one of the most important, controversial, and colorful figures in American Medical history. Best known for introducing vaccination to the United States and joining with Thomas Jefferson in promoting this procedure throughout the country and beyond, he served as the first professor of medicine at Harvard Medical School and was a feared penman for the Jeffersonian cause and the co-author of an early best seller recounting the experiences of the young Massachusetts doctor taken prisoner during the war of 1812. In addition, Waterhouse pioneered the popularization of the study of natural history (biology, geology and mineralogy in New England. This work is the first major biography of this fascinating, many faceted personality.

There have been numerous publications in the last decades on the Bible in literature, film, and art. But until now, no reference work has yet appeared on the Bible as it appears in Western music. In *The Bible in Music: A Dictionary of Songs, Works, and More*, scholars Siobhán Dowling Long and John F. A. Sawyer correct this gap in Biblical reference literature, providing for the first time a convenient guide to musical interpretations of the Bible. Alongside examples of classical music from the Middle Ages through modern times, Dowling Long and Sawyer also bring attention to the Bible's impact on popular culture with numerous entries on hymns, spirituals, musicals, film music, and contemporary popular music. Each entry contains essential information about the original context of the work (date, composer, etc.) and, where relevant, its afterlife in literature, film, politics, and liturgy. It includes an index of biblical references and an index of biblical names, as well as a detailed timeline that brings to the fore key events, works, and publications, placing them in their historical context. There is also a bibliography, a glossary of technical terms, and an index of artists, authors, and composers. *The Bible in Music* will fascinate anyone familiar with the Bible, but it is also designed to encourage choirs, musicians, musicologists, lecturers, teachers, and students of music and religious education to discover and perform some less well-known pieces, as well as helping them to listen to familiar music with a fresh awareness of what it is about.

"In the Fall of 2010 I gave an assignment in my Appalachian Literature class at Berea College, telling my students to write their own version of "Where I'm From" poem based on the writing prompt and poem by George Ella Lyon, one of the preeminent Appalachian poets. I was so impressed by the results of the assignment that I felt the poems needed to be preserved in a bound document. Thus, this little book. These students completely captured the complexities of this region and their poems contain all the joys and sorrows of living in Appalachia. ## The Road to Damascus

Adam is a stay-at-home dad who is also working on a history of the bombing and rebuilding of Coventry Cathedral. He is a good man and he is happy. But one day, he receives a call from his daughter's school to inform him that, for no apparent reason, fifteen-year-old Miriam has collapsed and stopped breathing. In that moment, he is plunged into a world of waiting, agonising, not knowing. The story of his life and the lives of his family are rewritten and re-told around this shocking central event, around a body that has inexplicably failed. In this exceptionally courageous and unflinching novel of contemporary life Sarah Moss goes where most of us wouldn't dare to look, and the result is riveting - unbearably sad, but also miraculously funny and ultimately hopeful. The Tidal Zone explores parental love, overwhelming fear, illness and recovery. It is about clever teenagers and the challenges of marriage. It is about the NHS, academia, sex and gender in the twenty-first century, the work-life juggle, and the politics of packing lunches and loading dishwashers. It confirms Sarah Moss as a unique voice in modern fiction and a writer of luminous intelligence.

## Blood Ravens: The Dawn of War Omnibus

Perhaps best known as the intrepid adventurer who located the missing explorer David Livingstone in equatorial Africa in 1871, Henry Morton Stanley (1841-1904) played a major role in assembling the fragmented discoveries and uncertain geographical knowledge of central Africa into a coherent picture. He was the first European to explore the Congo River; assisted at the founding of the Congo Free State, and helped pave the way for the opening up of modern Africa. In this classic account of one of his most important expeditions, the venerable Victorian recounts the incredibly difficult and perilous journey during which he explored the great lakes of Central Africa, confirming their size and position, searched for the sources of the Nile, and traced the unknown Congo River from the depths of the continent to the sea.

## Chronicle of the Conquest of Granada

Celebrating its 30th anniversary in 2024, internationally bestselling author and literary icon Julia Alvarez's *In the Time of the Butterflies* is "beautiful, heartbreaking and alive ... a lyrical work of historical fiction based on the story of the Mirabal sisters, revolutionary heroes who had opposed and fought against Trujillo." (Concepción de León, *New York Times*) Alvarez's new novel, *The Cemetery of Untold Stories*, is coming April 2, 2024. Pre-order now! It is November 25, 1960, and three beautiful sisters have been found near their wrecked Jeep at the bottom of a 150-foot cliff on the north coast of the Dominican Republic. The official state newspaper reports their deaths as accidental. It does not mention that a fourth sister lives. Nor does it explain that the sisters were among the leading opponents of Gen. Rafael Leónidas Trujillo's dictatorship. It doesn't have to. Everybody knows of Las Mariposas—the Butterflies. In this extraordinary novel, the voices of all four sisters--Minerva, Patria, María Teresa, and the survivor, Dedé--speak across the decades to tell their own stories, from secret crushes to gunrunning, and to describe the everyday horrors of life under Trujillo's rule. Through the art and magic of Julia Alvarez's imagination, the martyred Butterflies live again in this novel of courage and love, and the human costs of political oppression. "Alvarez helped blaze the trail for Latina authors to break into

the literary mainstream, with novels like *In the Time of the Butterflies* and *How the García Girls Lost Their Accents* winning praise from critics and gracing best-seller lists across the Americas."—Francisco Cantú, *The New York Times Book Review* "This Julia Alvarez classic is a must-read for anyone of Latinx descent." —Popsugar.com "A gorgeous and sensitive novel . . . A compelling story of courage, patriotism and familial devotion." —People "Shimmering . . . Valuable and necessary." —Los Angeles Times "A magnificent treasure for all cultures and all time." —St. Petersburg Times "Alvarez does a remarkable job illustrating the ruinous effect the 30-year dictatorship had on the Dominican Republic and the very real human cost it entailed."—Cosmopolitan.com
