#734 Helena Miton: Cognitive Science, Cultural Transmission, and Tacit Knowledge - #734 Helena Miton: Cognitive Science, Cultural Transmission, and Tacit Knowledge by The Dissenter 675 views 1 year ago 43 minutes - RECORDED ON OCTOBER 27th 2022. Dr. Helena Miton is Complexity Postdoctoral Fellow at the Santa Fe Institute. Dr. Miton's ...

Intro

Cognitive science and the study of culture

Studying culture in the lab

Mechanisms of cultural transmission

Cultural stability

Cumulative culture and high-fidelity copying

Selection in cultural evolution

How can maladaptive medical practices, like bloodletting, thrive culturally?

How complexity evolves in graphic communication systems, like heraldry and writing

How do we go from small-scale interactions to large-scale cultural productions?

The cultural transmission of tacit knowledge

Follow Dr. Miton's work!

Music is "Look ...

Intro

The digital is dialogical communication exchange, information that is always speaking to multiple connections (networked).

Digital ethnography seeks to explore the consequences of these conditions

Multiplicity. Digital ethnographic research is always unique to the research question and challenges to which it is responding

The technology is not the focus In order to understand how digital media are part of people's everyday worlds, we also need to understand other aspects of their worlds and lives In doing so, we might focus specifically on those domains of activity in which digital media are used rather than on the characteristics of use of

Openness. The digital is non-static, always changing, being updated, increasing in speed, and transforming It is processual. There is no fixed method for investigating and understanding the digital. Reflexive. The digital is always contingent on interpretation (and the self).

Unorthodox. Digital ethnography is unpredictable, and can go beyond traditional written forms of research.
