Intro

Grading must correlate with

The three main categories assessed and graded in schools of cosmetology and related career fields are theoretical knowledge, practical skills development, and

Practical assignments are evaluated as completed and counted toward course completion only when Students must maintain a minimum theory grade average of

The learner's theoretical knowledge is usually assessed through written testing consisting of

Practical skills and attitude are generally assessed using a performance evaluation method such as

The evaluation that determines what the student knows after having been taught certain material or skills is called

The process of assigning grades at established checkpoints or after a unit of study is termed

When grading, an important factor to consider is

When grading, the educator must be

When educators ignore the predetermined performance criteria and grade according to their disposition, either good or bad, this is termed

When an educator takes a personal dislike to a student and grades unfairly, it is harmful to the student's progress and self-esteem and is called

When the educator feels "it's my way or the highway." the educator is

An educator who always gives an average grade, right in the middle, is

Learners will not have a clear understanding of how they are performing if the educator is

Using a learner's past performance to measure the present is

When the educator gets distracted, fails to see the end results of all services, and then sits down at the end of the day and simply writes grades for the students, the educator is

The teacher who gives all students high grades is giving them a false perception of their skills and is

Tests that can be completed by at least 80 percent of the students within one hour are called

In a true/false test, the student who has no prior knowledge of the subject has a

When writing a true/false test, do not use words such as

When writing matching test questions, the educator should consider these guidelines

To eliminate subjectivity in scoring an essay test, the educator should

When constructing fill-in-the-blanks questions

Completion, or fill-in-the-blank, questions are used to measure

In a multiple-choice question, the incorrect answers are known as

In a multiple-choice test, the difficulty of each question can be controlled by

To ensure consistency and objectivity when evaluating the practical skills of learners

A five-point rating scale ranging from "strongly agree" to "strongly disagree" or from "poor" to "Excellent" is the simple

A rating scale with fewer categories than the Likert scale that can be used to compare performance as well as work attitudes is the

Rating scale known as the checklist would have categories such as

The type of evaluation that uses specific performance criteria in the rating process to ensure that a certain competency level has been reached is the

An advantage of using the performance checklist is that

The method of grading that incorporates scoring of more than one area of learner assessment is

In point grading, points are given to each criteria; this allows the educator to

A clearly developed scoring document used to differentiate between levels of development in a specific activity and that may also be used as a self-assessment tool is the

A student whose academic or attendance progress is unsatisfactory must be advised and provided with

Educators may have the need to discuss the learner's work attitudes, professionalism, and compliance with the institution's code of conduct; the best place to do this is

Student conferences should

During the conference the educator should practice.

A written agreement made between the learner and the educator determining agreed-upon behavior is a(n)

The purpose of a signed agreement is to

Feedback on progress should be given to the learner

The essay form of testing may use higher-order thinking, but the responses become

When the educator unconsciously gives higher scores because of previous positive experience with a learner, this is

Grading a learner for higher-than-deserved achievement is

Educators using "grading with warm fuzzies"

Critical qualities of a master educator are
