QMD Manaping for Quality Webinar Series Understanding the Financial Components of Quality

Setting the stage for this discussion

Economics has been called "the dismal science!"

The "roots" of economic thinking

Applications of economic analysis

How is the field of economics divided?

How did modern accounting evolve?

The performance of money must be measured!

The current state of accounting is still the same! Accounting has not changed in principle since then just in number of rules!

Key definitions of terms used in accounting

Understanding how financial analysis works

Financial implications of executive decisions: Traditional Decision Criteria: Act quickly, show fast financial returns and benefits, and easy for management to rapidly implement

Scientific perspective to studying quality

Connecting quality to the economy: How does quality relate to economics, accounting and finance?

Weaknesses in standard cost accounting: Management cannot get clear about what it should improve!

Easy to count what you see ... but it is difficult to count what you don't!

Interpreting the "over-quality" conditions

Understanding this dynamic properly: What is actually adding cost if you improve work processes?

Price sensitivity study: Understanding the viable domain for product pricing
