### The Five Practices of Exemplary Leadership

THE MOST TRUSTED SOURCE ON BECOMING A BETTER LEADER Leadership Matters Leadership is not a fad. It's a fact. It's not here today, gone tomorrow. It's here today, and here forever. Leadership makes a difference. Try naming one significant movement that wandered leaderless into the history books. And leadership matters most in times of uncertainty. The study of leadership is the study of how men and women guide us through adversity, uncertainty, hardship, disruption, transformation, transition, recovery, and new beginnings. Challenge is the opportunity for greatness. Given the daunting challenges we face today, the potential for greatness is phenomenal. People matter. Even in today's wired world, it's not the web of technology but the web of people that matters most. Leaders can't do it alone. Success in any project, organization, enterprise and in life has been, is now, and will continue to be a function of how well people work and engage with each other. Success in leadership depends on your capacity to build and sustain collaborative human relationships. You matter. People who become leaders don't always seek the challenges they face. Challenges also seek leaders. It's not so important whether you find the challenges or they find you. What is important are the choices you make when stuff happens. The next time you say to yourself, "Why don't they do something about this?" look in the mirror. Ask the person you see, "Why don't I do something about this?" The legacy that you leave will be the life that you lead.

#### The Student Leadership Practices Inventory (LPI), Student Workbook

The authors of the classic bestseller The Leadership Challenge bring their expertise to higher education, offering five practices that can make any college or university leader into an exemplary leader. Drawing on the same pioneering research that formed the foundation of their classic bestseller The Leadership Challenge (over 2.7 million copies sold), James Kouzes and Barry Posner offer a set of leadership skills and practices that will make a significant difference in every area of higher education—faculty, administration, library services, career counseling, auxiliary services, campus safety, and more. It's about the behaviors that leaders, regardless of their position, use to transform values into actions, visions into realities, obstacles into innovations, segments into solidarity, and risks into rewards. Kouzes and Posner tell the leadership story from the inside and move outward, describing it first as a personal journey and then as mobilizing others to want to do things they have never done before. The Five Practices of Exemplary Leadership is the operating system for this adventure. Leadership in Higher Education explains the fundamental principles that support these practices and provides case examples of people in higher education who demonstrate each one. A core theme that weaves its way through all the chapters is that, whether it's one to one or one to many, leadership is a relationship between those who aspire to lead and those who choose to follow. We need leaders who can unite us and ignite us. This book lights the way.

#### Christian Reflections on The Leadership Challenge

Lead ordinary people in accomplishing the extraordinary! How do you get others to follow you to places they've never been before? How do you get others, by free will and through free choice, to move forward together on a common purpose? Just how do you get others to want to do things that matter and make a difference? In The Five Practices of Exemplary Leadership, Jim Kouzes and Barry Posner, authors of The Leadership Challenge and Credibility, uncover the fundamental practices that have enabled leaders to get extraordinary things done by studying the times when leaders performed at their personal best. The Five Practices of Exemplary Leadership are: Challenging the Process Inspiring a Shared Vision Enabling Others to Act Modeling the Way Encouraging the Heart Learn how Kouzes and Posner have translated these five practices into behavioral statements so that managers and non-managers in public and private organizations can assess their skills and use the feedback of others to improve their own leadership abilities.
