Big Bad Wolf

They call him a monster. More wolf than man—more dangerous than any predator. They have no idea. Joe Peluso has blood on his hands. He took out the mobsters responsible for killing his foster brother, and that one act of vigilante justice has earned him countless enemies in New York's supernatural-controlled underworld. He knows that shifters like him deserve the worst. Darkness. Pain. Solitude. But meeting Neha makes him feel human for the first time in forever. Lawyer and psychologist Neha Ahluwalia knows Joe is guilty, but she's determined to help him craft a solid defense...even if she can't defend her own obsession. Just one look from the wolf shifter makes her skin burn hot and her pulse race. When a payback hit goes wrong, Neha's forced to make a choice: help Joe escape or leave him to his fate. Before long they're on the run—from the monsters who want him dead, from their own traitorous hearts, and from an attraction that threatens to destroy them.

The Demon Lover

I gasped, or tried to. My mouth opened, but I couldn't draw breath. His lips, pearly wet, parted and he blew into my mouth. My lungs expanded beneath his weight. When I exhaled he sucked my breath in and his weight turned from cold marble into warm living flesh. Since accepting a teaching position at remote Fairwick College in upstate New York, Callie McFay has experienced the same disturbingly sensual dream every night: A mist enters her bedroom, then takes the shape of a virile, seductive stranger who proceeds to ravish her in the most toe-curling, wholly satisfying ways possible. Perhaps these dreams are the result of her having written the bestselling book *The Sex Lives of Demon Lovers*. Callie's lifelong passion is the intersection of lurid fairy tales and Gothic literature—which is why she's found herself at Fairwick's renowned folklore department, living in a once-stately Victorian house that, at first sight, seemed to call her name. But Callie soon realizes that her dreams are alarmingly real. She has a demon lover—an incubus—and he will seduce her, pleasure her, and eventually suck the very life from her. Then Callie makes another startling discovery: Her incubus is not the only mythical creature in Fairwick.

As the tenured witches of the college and the resident fairies in the surrounding woods prepare to cast out the demon, Callie must accomplish something infinitely more difficult—banishing this supernatural lover from her heart. “Vivid and enchanting . . . Dark’s letter-perfect gothic style is a satisfying tribute to previous gothic novels, and the paranormal elements, including incubi, fae, vampires, and witches, make this a stellar romance.”—Booklist (Top 10 SF/Fantasy) “[Juliet] Dark develops a complex, detailed world where magic, reason, and gothic literature enjoyably intersect.”—Publishers Weekly

Voyages of Imagination takes a look back on the first forty years of professionally published Star Trek fiction, revealing the personalities and sensibilities of many of the novels’ imaginative contributors and offering an unprecedented glimpse into the creative processes, the growing pains, the risks, the innovations, the missteps, and the great strides taken in the books. Tales of the End

The Book of Revelation presents the fascinating and terrifying story of what John reports happening to him while on the Mediterranean island of Patmos. It is a far more interesting story than the tired predictions of other would-be prophets whose many forecasts of the future have always failed to materialize. Tales of the End invites readers to hear John's story anew. Rather than forcing John's story into our time, it takes the reader back to the time of its original telling, exploring both what is told and how it is told examining its plot, characters, point of view, temporal perspective, narrator, listener, author and audience. Only then can we ask how this story bears on the modern world and how it addresses enduring human concerns. David Barr's narrative analysis uncovers a complex and compelling story addressed to the communities of Jesus followers in first-century Asia Minor, a story told vividly so that the audience can participate in John's extraordinary experience and so be transformed, adopting new values, new perspectives; indeed, a new understanding of what the world is really like.

What The Butler Saw

"Joe Orton's last play, What the Butler Saw, will live to be accepted as a comedy classic of English literature" (Sunday Telegraph) The chase is on in this breakneck comedy of licensed insanity, from the moment when Dr Prentice, a psychoanalyst interviewing a prospective secretary, instructs her to undress. The plot of What the Butler Saw contains enough twists and turns, mishaps and changes of fortune, coincidences and lunatic logic to furnish three or four conventional comedies. But however the six characters in search of a plot lose the thread of the action - their wits or their clothes - their verbal self-possession never deserts them. Hailed as a modern comedy every bit as good as Wilde's The Importance of Being Earnest, Orton's play is regularly produced, read and studied. What the Butler Saw was Orton's final play. "He is the Oscar Wilde of Welfare State gentility" (Observer)

Storm Cursed

In this powerful entry in the #1 New York Times bestselling series, Mercy Thompson must face a deadly enemy to defend all she loves... My name is Mercedes Athena Thompson Hauptman, and I am a car mechanic. And a coyote shapeshifter. And the mate of the Alpha of the Columbia Basin werewolf pack. Even so, none of that would have gotten me into trouble if, a few months ago, I hadn't stood upon a bridge and taken responsibility for the safety of the citizens who lived in our territory. It seemed like the thing to do at the time. It should have only involved hunting down killer goblins, zombie goats, and an occasional troll. Instead, our home was viewed as neutral ground, a place where humans would feel safe to come and treat with the fae. The reality is that nothing and no one is safe. As generals and politicians face off with the Gray Lords of the fae, a storm is coming and her name is Death. But we are pack, and we have given our word. We will die to keep it.

Smoke Bitten

Mercy Thompson, car mechanic and shapeshifter, faces a threat unlike any other in this thrilling entry in the #1 New York Times bestselling series. I am Mercedes Athena Thompson Hauptman. My only

“superpowers” are that I turn into a thirty-five pound coyote and fix Volkswagens. But I have friends in odd places and a pack of werewolves at my back. It looks like I'm going to need them. Centuries ago, the fae dwelt in Underhill—until she locked her doors against them. They left behind their great castles and troves of magical artifacts. They abandoned their prisoners and their pets. Without the fae to mind them, those creatures who remained behind roamed freely through Underhill wreaking havoc. Only the deadliest survived. Now one of those prisoners has escaped. It can look like anyone, any creature it chooses. But if it bites you, it controls you. It lives for chaos and destruction. It can make you do anything—even kill the person you love the most. Now it is here, in the Tri-Cities. In my territory. It won't, can't, remain. Not if I have anything to say about it.

Someone, we know not who, once called Jadoo "the greatest book ever written on the black magic of the Orient." But we do know that there will never again be another book like it. Jadoo, a Hindi word meaning "Black Magic," captures a world that is now lost to us—the strange, dark, mysterious world that was once called the "Orient." This story of a real-life Indiana Jones of the 1950s named John Keel contains everything but a trip to Venus in a flying saucer—a subject our newsman/explorer would become famous for a decade later. In Egypt, the fearless Keel was cursed by a mummy and befriended members of a strange snake-charming cult. In Iraq, he played Russian roulette with a notorious desert bandit and lived among the Yezidi devil-worshippers. Later, in India, he was buried alive and discovered the secret of the Indian rope trick, which he then performed for incredulous reporters in New Delhi. And in a riveting finale, he chased the Abominable Snowman through the little known Himalayan kingdom of Sikkim before being unceremoniously booted out of Singapore for being "an undesirable alien." This new edition contains material never before published. This publication, which accompanies a Queensland Art Gallery exhibition of the same name, surveys William Yang's five decades of art practice across photography, video and spoken word performance. It traces Yang's career from his early days as a social photographer in the 1970s through to some of his well-known photographic series exploring family ties, and sexual and cultural identity, as well as his recent large-scale landscape works. The publication also explores the artist's connections to Queensland, including his mid-career explorations of growing up as a Chinese Australian in far north Queensland and his recent works that reflect on the landscape.

A Man With One of Those Faces

America is the most mobile society in history, but our transportation system is on the verge of collapse. Traffic congestion is today five times greater than it was 25 years ago, yet many transportation plans and projects are making it worse. As Randal O'Toole reveals in *Gridlock*, the prime causes of our ailing system are a government transportation planning philosophy whose primary goal is to diminish auto use—hence, personal mobility—in combination with federal budget incentives that perversely encourage transportation planners to increase congestion. As a result, the automobile which is accessible to almost every family in the nation and provides unparalleled access to better housing, low-cost consumer goods, a choice-driven affordable life, and freedom—is being deliberately forced off the transportation grid by the expensive “solution” of little-used high-speed trains and urban transit lines. *Gridlock* presents a wide range of innovative ideas and policy recommendations for creating an effective transportation system—improvements that will increase our mobility and pay for themselves, whether it's cars, buses, planes, or trains. At the center of O'Toole's solutions are three core principles:

those who use transportation facilities should pay for them; negative effects should be dealt with in a cost-efficient manner; and new technologies that will increase mobility at a low cost must be embraced. In *Gridlock*, Randal O'Toole brings energetic and unconventional thinking to transportation strategies that have, until now, only driven us into the breakdown lane.

Night Broken

Sinclair Rutherford is a young Seattle cop with a taste for the finer things. Doing menial tasks and getting hassled by superiors he doesn't respect are definitely not "finer things." Good police work and bad luck lead him to crack a case that changes quickly from a career-making break into a high-profile humiliation when footage of his pursuit of the suspect--wildly inappropriate murder weapon in hand--becomes an Internet sensation. But the very publicity that has made Rutherford a laughing stock in the department lands him what could be the job opportunity of a lifetime: the chance to work with a team of eccentric experts, at the direction of a demanding but distracted billionaire. Together, they must solve the murder of a psychologist who specialized in the treatment of patients who give people "the creeps." There is no shortage of suspects.

The Authorities

From #1 New York Times bestselling author Patricia Briggs comes the first "thrilling"* novel in the Hurog duology. Most everyone thinks Ward of Hurog is a simple-minded fool—and that's just fine by him. But

few people know that his foolishness is (very convincingly) feigned. And that it's the only thing that's saved him from death. When his abusive father dies, Ward becomes the new lord of Hurog...until a nobleman declares that he is too dim-witted to rule. Ward knows he cannot play the fool any longer. To regain his kingdom, he must prove himself worthy—and quickly. Riding into a war that's heating up on the border, Ward is sure he's on the fast track to glory. But soon his mission takes a deadly serious turn. For he has seen a pile of magical dragon bones hidden deep beneath Hurog Keep. The bones can be dangerous in the wrong hands, and Ward is certain his enemies will stop at nothing to possess them...

Belief in the coming of a Messiah poses a genuine dilemma. From a Jewish perspective, the historical record is overwhelmingly against it. If, despite all the tragedies that have befallen the Jewish people, no legitimate Messiah has come forward, has the belief not been shown to be groundless? Yet for all the problems associated with messianism, the historical record also shows it is an idea with enormous staying power. The prayer book mentions it on page after page. The great Jewish philosophers all wrote about it. Secular thinkers in the twentieth century returned to it and reformulated it. And victims of the Holocaust invoked it in the last few minutes of their life. This book examines the staying power of messianism and formulates it in a way that retains its redemptive force without succumbing to mythology.

Savage Run

Some people are born boring. Some live boring. Some even die boring. Fred managed to do all three, and when he woke up as a vampire, he did so as a boring one. Timid, socially awkward, and plagued by self-esteem issues, Fred has never been the adventurous sort. One fateful night - different from the night he died, which was more inconvenient than fateful - Fred reconnects with an old friend at his high school reunion. This rekindled relationship sets off a chain of events thrusting him right into the chaos that is the parahuman world, a world with chipper zombies, truck driver wereponies, maniacal necromancers, ancient dragons, and now one undead accountant trying his best to "survive." Because even after it's over, life can still be a downright bloody mess.
