You are a Victorian schoolchild. Growing up in Britain in the 1880s wasn't easy. For a young child in school the going is tough and the punishments are hard. This title in the best-selling children's history series, You Wouldn't Want To..., features full-colour illustrations which combine humour and accurate technical detail and a narrative approach placing readers at the centre of the history, encouraging them to become emotionally-involved with the characters and aiding their understanding of what life would have been like as a Victorian schoolchild. Informative captions, a complete glossary and an index make this title an ideal introduction to the conventions of information books for young readers. It is an ideal text for Key Stage 2 shared and guided reading and helps achieve the goals of the Scottish Standard Curriculum 5-14.

Congregational Church Hymnal; Or, Hymns of Worship, Praise, and Prayer;

This early work by Alfred Russel Wallace was originally published in 1908 and we are now republishing it with a brand new introductory biography. 'My Life a Record of Events and Opinions' is an autobiography that details Wallace's experiences from schoolboy to scientist. It discusses his exploration of the Amazon, his lecture tour of America, and many other interesting periods of his life. Alfred Russel Wallace was born on 8th January 1823 in the village of Llanbadoc, in Monmouthshire, Wales. Wallace was inspired by the travelling naturalists of the day and decided to begin his exploration career collecting specimens in the Amazon rainforest. He explored the Rio Negra for four years, making notes on the peoples and languages he encountered as well as the geography, flora, and fauna. While travelling, Wallace refined his thoughts about evolution and in 1858 he outlined his theory of natural selection in an article he sent to Charles Darwin. Wallace made a huge contribution to the natural sciences and he will continue to be remembered as one of the key figures in the development of evolutionary theory.

Icon and Devotion offers the first extensive presentation in English of the making and meaning of Russian icons. The craft of icon-making is set into the context of forms of worship that emerged in the Russian Orthodox Church in the mid-seventeenth century. Oleg Tarasov shows how icons have held a special place in Russian consciousness because they represented idealized images of Holy Russia. He also looks closely at how and why icons were made. Wonder-working saints and the leaders of such religious schisms as the Old Believers appear in these pages, which are illustrated with miniature paintings, lithographs and engravings never before published in the English-speaking world. By tracing the artistic vocabulary, techniques and working methods of icon painters, Tarasov shows how icons have been integral to the history of Russian art, influenced by folk and mainstream currents alike. As well as articulating the specifically Russian piety they invoke, he analyzes the significance of icons in the cultural life of modern Russia in the context of popular prints and poster design.

Babylonian Topographical Texts collects for the first time all Babylonian and Assyrian texts of the first millennium B.C. that belong to what is designated the topographical genre. Much of the material is not previously published. The book is largely concerned with Babylon. Seventeen texts on this city now allow its topography to be properly understood for the first time. Another seventeen texts concern the cities of Nippur, Assur, Kish and Uruk. Also included are thirty miscellaneous texts, mostly new, which bear upon topographical matters. The text editions and translations are supplemented by a philological and topical commentary. The work is concluded with full indices, and 57 plates of cuneiform copies.

This Vision book for youth 9 - 15 years old tells the thrilling story of one of America's greatest missionaries who came down from Canada with explorer Louis Joliet to explore the mighty Mississippi River, the "great river" bordered by Indian tribes who killed white men on sight. Of the few who had dared explore this immense waterway, none had lived to return and report where it emptied. If he could travel to the mouth of the "great river," Fr. Marquette hoped to obtain new lands for France and new souls for Jesus Christ. He braved the dangers of tomahawks and tortures to bring the Word of God to the Indians of the New World. Rapids, floods, Indian superstitions, tribal warfare - these are only a few of the obstacles Father Marquette and Louis Joliet encountered in trying to meet their challenge. Illustrated.
