Bet the Farm

"Eloquent and detailed...It's hard to have hope, but the organized observations and plans of Hoffman and people like her give me some. Read her book -- and listen." -- Jane Smiley, The Washington Post In her late 40s, Beth Hoffman decided to upend her comfortable life as a professor and journalist to move to her husband's family ranch in Iowa--all for the dream of becoming a farmer. There was just one problem: money. Half of America's two million farms made less than \$300 in 2019, and many struggle just to stay afloat. Bet the Farm chronicles this struggle through Beth's eyes. She must contend with her father-in-law, who is reluctant to hand over control of the land. Growing oats is good for the environment but ends up being very bad for the wallet. And finding somewhere, in the midst of COVID-19, to slaughter grass finished beef is a nightmare. If Beth can't make it, how can farmers who confront racism, lack access to land, or don't have other jobs to fall back on hack it? Bet the Farm is a first-hand account of the perils of farming today and a personal exploration of more just and sustainable ways of producing food.

Down on the farm

Farming has been in John Connell's family for generations, but he never intended to follow in his father's footsteps. Until, one winter, he finds himself back on the farm and begins to learn the ways of the farmer and the way of the cows. Connell records the hypnotic rhythm of the farming day - cleaning the outhouses, milking the herd, tending to sickly lambs, helping the cows give birth. But alongside the routine events, there are the unforeseen moments when things go wrong: when a calf fails to thrive, when a sheep goes missing, when illness breaks out, when depression takes hold, when an argument erupts and things are said that cannot be unsaid. The Cow Book is the story of a calving season. It is also the story of the cow itself, from its domestication and worship as a God by the Ancient Egyptians to the modern practice of mechanized herds, via the figure of the cowboy, the destruction of the American buffalo, the demise of the aboriginal jackaroos and the consequences of BSE. And, above all, it is the story of Connell's life as a farmer, of his relationship with his birthplace of County Longford, with the community around the family farm, with the animals he tends, and with his father.

Peep Inside the Farm

Emily McKay's *The Farm* is an addictive novel about twin sisters and their fight for survival in a world nearing chaos. For Lily and her twin sister Mel there is only the Farm . . . It's a prison, a blood bank, a death camp - where fear and paranoia rule. But it's also home, of sorts. Because beyond the electric fence awaits a fate much, much worse. But Lily has a plan. She and Mel are going to escape - into the ravaged land outside, a place of freedom and chaos and horrors. Except Lily hasn't reckoned on two things: first, her sister's ability to control the horrors; and, secondly, on those out there who desperately want to find and control Mel. Mel's growing power might save the world, or utterly end it. But only Lily can protect Mel from what is to come . . . *The Farm* takes you into a terrifying future where civilization has ended, and leaves you there - fearful, gasping and begging to escape. Emily McKay's gripping book is not going to let you. Praise for Emily McKay: 'Equal parts *Resident Evil* and *Hunger Games* - and just as thrilling *The Farm* is a gripping dystopian tale that pits humans against humans in the race for survival in her remarkable and haunting world. I can't wait to sink my teeth into the next instalment!' Chloe Neill Emily McKay loves to read, shop, and geek out about movies. When she's not writing, she reads online gossip and bakes luscious desserts. She pretends that her weekly yoga practice balances out both of those things. She lives in central Texas with her family and her crazy pets. She also co-writes young adult as Ivy Adams.

My First Farm

A WALL STREET JOURNAL FAVORITE FOOD BOOK OF THE EAR From the author of *Queen Sugar*—now a critically acclaimed series on OWN directed by Ava Duvernay—comes a beautiful exploration and celebration of black farming in America. In this impressive anthology, Natalie Baszile brings together essays, poems, photographs, quotes, conversations, and first-person stories to examine black people's connection to the American land from Emancipation to today. In the 1920s, there were over one million black farmers; today there are just 45,000. Baszile explores this crisis, through the farmers' personal experiences. In their own words, middle aged and elderly black farmers explain why they continue to farm despite systemic discrimination and land loss. The "Returning Generation"—young farmers, who are building upon the legacy of their ancestors, talk about the challenges they face as they seek to redress issues of food justice, food sovereignty, and reparations. These farmers are joined by other influential voices, including noted historians Analena Hope Hassberg and Pete Daniel, and award-winning author Clyde W. Ford, who considers the arrival of Africans to American shores; and James Beard Award-winning writers and Michael Twitty, reflects on black culinary tradition and its African roots. Poetry and inspirational quotes are woven into these diverse narratives, adding richness and texture, as well as stunning four-color photographs from photographers Alison Gootee and Malcom Williams, and Baszile's personal collection. As Baszile reveals, black farming informs crucial aspects of American culture—the family, the way our national identity is bound up with the land, the pull of memory, the healing power of food, and race relations. She reminds us that the land, well-earned and fiercely protected, transcends history and signifies a home that can be tended, tilled, and passed to succeeding generations with pride. *We Are Each Other's Harvest* elevates the voices and stories of black farmers and people of color, celebrating their perseverance and resilience, while spotlighting the challenges they continue to face. Luminous and eye-opening, this eclectic collection helps people and communities of color today reimagine what it means to be dedicated to the soil.

The Farm

When Richard Benson was growing up he felt like 'the village idiot with O'levels' - glowing school reports aren't much help when you're trying to help a sow give birth, or drive a power harrow in a straight line without getting half the hedgerow stuck in the tines. He left Yorkshire to work as a journalist in London, but returned when his dad called with the news that they were going to have to sell the family farm, and, in so doing, leave the home and livelihood that the Bensons had worked for generations. This is not only a moving personal account, but also one that reflects a profound change in rural life.

We Are Each Other's Harvest

Honest, self-aware, and wonderfully tender, *The Call of the Farm* is for anyone who has daydreamed about a simpler life—or fallen too deeply in love. Rochelle Bilow, a classically trained cook and aspiring food writer, was nursing a broken heart and frustrated with her yet-to-take-off career when she set out to write a short profile of a small, sustainable CSA farm in central New York. At most, she expected to come away with a cute city-girl-in-the-country piece. But after just one day of moving hay bales, feeding pigs, and tapping maple sap, she was hooked: The air was fresh, her muscles felt useful, and the smells from the kitchen where the farmhands gathered at day's end were intoxicating. Add in a sweet but enigmatic young farmer whose soulful gaze meets her own, and *The Call of the Farm* is set in motion. This enticing memoir charts the unexpected year that unfolds as Rochelle immerses herself in life at the farm. She cooks her way through four seasons of fresh-from-the-earth produce (with such tantalizing results as Blistered Tomato Gratin and Crisped Potato Casserole with Shaved Chives), grapples more than once with the finer points of rendering lard, and begins to feel she has finally found her niche—all while falling hard for that handsome, blue-eyed farmer.

The Call of the Farm: An Unexpected Year of Getting Dirty, Home Cooking, and Finding Myself

This “must-read” memoir of human-scale agriculture offers an insider’s view of today’s food system by a leading voice in sustainable farming (Daniel Boulud). After years of working at the ends of the earth in human rights and development, Brent Preston and his wife were die-hard city dwellers. But when their second child arrived, the shine came off urban living. In 2003 they bought a hundred acres and a rundown farmhouse, determined to build a farm that would sustain their family, nourish their community, heal their environment—and turn a profit. The New Farm is Preston’s memoir of a decade of toil and perseverance. Farming is a complex and precarious business, and they made plenty of mistakes along the way. But as they learned how to grow food, and to succeed at the business of farming, they also found that a small, sustainable, organic farm could be an engine for change, a path to a more just and sustainable food system. Today, The New Farm supplies top restaurants, supports community food banks, hosts events with leading chefs, and grows extraordinary produce. Told with humor and heart, The New Farm is a joy, a passionate book by an important new voice.
