#34 Bernardo Kastrup PHD - JUNG'S METAPHYSICS AND THE MIND AT LARGE HYPOTHESIS

- #34 Bernardo Kastrup PHD - JUNG'S METAPHYSICS AND THE MIND AT LARGE HYPOTHESIS

by Chasing Consciousness Podcast 53,239 views 1 year ago 2 hours, 17 minutes - What are the implications of Jung's theories about the Collective Unconscious, Archetypes, Synchronicity and Individuation?

Intro

Materialism VS the church: The history of Idealism

Materialism was a weapon against the church

The dissociative boundary between us and the mind at large

A field of mind

Split personality MRI scans are markedly different

Life is what dissociation looks like

Neural correlates + interacting across the dissociative boundary

Anaesthesia: Mistaking unresponsiveness for unconsciousness

Jung's Metaphysics

The unconscious is active and creative, not a passive container

'The light' of metacognition

Archetypes are primordial templates of manifestation

'The ego is a little boat floating on a raging ocean of psychic activity that it cannot control'

Was Jung an idealist?

Causality + synchronicity: Wolfgang Pauli and Jung

Individual quantum events are not causal, so they are governed by synchronicities

Causality itself is an aggregate effect of microscopic level synchronistic effects

There is an organising principle underlying nature, that you can't isolate under laboratory conditions

Active Imagination: Interacting with the imaginal field

The psyche is an 'Ousia': something in and of itself

James Hollis: One of the best Jungian analysts and authors

Bernardo's midlife crisis - the first and second half of life

Individuation explained

'The freedom of the Slave': The impersonal flow of nature channeled through you

The difference between the individuation in the second part of life and the eastern idea of renunciation, and 'leaving' the world

Etiology: spontaneous VS deliberate purpose
