TEACH YOUR STUDENTS TO READ WITH PRECISION AND INSIGHT The world we are preparing our students to succeed in is one bound together by words and phrases. Our students learn their literature, history, math, science, or art via a firm foundation of strong reading skills. When we teach students to read with precision, rigor, and insight, we are truly handing over the key to the kingdom. Of all the subjects we teach reading is first among equals. Grounded in advice from effective classrooms nationwide, enhanced with more than 40 video clips, Reading Reconsidered takes you into the trenches with actionable guidance from real-life educators and instructional champions. The authors address the anxiety-inducing world of Common Core State Standards, distilling from those standards four key ideas that help hone teaching practices both generally and in preparation for assessments. This 'Core of the Core' comprises the first half of the book and instructs educators on how to teach students to: read harder texts, 'closely read' texts rigorously and intentionally, read nonfiction more effectively, and write more effectively in direct response to texts. The second half of Reading Reconsidered reinforces these principles, coupling them with the 'fundamentals' of reading instruction—a host of techniques and subject specific tools to reconsider how teachers approach such essential topics as vocabulary, interactive reading, and student autonomy. Reading Reconsidered breaks an overly broad issue into clear, easy-to-implement approaches. Filled with practical tools, including: 44 video clips of exemplar teachers demonstrating the techniques and principles in their classrooms (note: for online access of this content, please visit my.teachlikeachampion.com) Recommended book lists Downloadable tips and templates on key topics like reading nonfiction, vocabulary instruction, and literary terms and

definitions. Reading Reconsidered provides the framework necessary for teachers to ensure that students forge futures as lifelong readers.

"We are the ship; all else the sea."—Rube Foster, founder of the Negro National League The story of Negro League baseball is the story of gifted athletes and determined owners; of racial discrimination and international sportsmanship; of fortunes won and lost; of triumphs and defeats on and off the field. It is a perfect mirror for the social and political history of black America in the first half of the twentieth century. But most of all, the story of the Negro Leagues is about hundreds of unsung heroes who overcame segregation, hatred, terrible conditions, and low pay to do the one thing they loved more than anything else in the world: play ball. Using an "Everyman" player as his narrator, Kadir Nelson tells the story of Negro League baseball from its beginnings in the 1920s through its decline after Jackie Robinson crossed over to the majors in 1947. The voice is so authentic, you will feel as if you are sitting on dusty bleachers listening intently to the memories of a man who has known the great ballplayers of that time and shared their experiences. But what makes this book so outstanding are the dozens of full-page and double-page oil paintings—breathtaking in their perspectives, rich in emotion, and created with understanding and affection for these lost heroes of our national game. *We Are the Ship* is a tour de force for baseball lovers of all ages.
