Beyond the Eight Foot World

Al stood frozen in shock, disbelief and fear as concentrated sodium hydroxide spiraled counter clockwise toward his unprotected face and upper body. Time, in accordance with the life he was currently leading stopped. And then it hit. Al screamed and threw up his right arm in front of his face as the initial blast of pain and force of the liquid smashed into him. The liquid powered by the motor and the burning chemical turned his feet into springs . he was blown back onto his left side and positioned between two metal drums and a pipe vise as the chemical concentrate kept him pinned. he was burning, he was melting, the chemical was enacting its revenge and dissolving the man that had tried to dilute its dangerous nature. One week later as he laid in a hospital bed, he began to regain periods of consciousness. Initially he couldn't understand why in his dreams the coat he tried to pull tight around him could not stop the biting wind that seemed to cut through the material, pricking him and feeling first like hot needles and then inescapable pain. He could smell burnt hamburger that jolted him awake in his hospital bed in the Intensive Care Unit at Overlook Hospital in Summit New Jersey. He heard himself scream and did not stop until more pain medication too affect. Albert Plevier's journey into the eight foot world began on October 1, 1974. His story continues. Please enjoy the first part of the memoir: The Beginning

Our Western Empire; Or, The New West Beyond the Mississippi

In recent decades, scholars have explored much of the history of mob violence in the American South, especially in the years after Reconstruction. However, the lynching violence that occurred in American regions outside the South, where hundreds of persons, including Hispanics, whites, African Americans, Native Americans, and Asian Americans died at the hands of lynch mobs, has received less attention. This collection of essays by prominent and rising scholars fills this gap by illuminating the factors that distinguished lynching in the West, the Midwest, and the Mid-Atlantic. The volume adds to a more comprehensive history of American lynching and will be of interest to all readers interested in the history of violence across the varied regions of the United States. Contributors are Jack S. Blocker Jr., Brent M. S. Campney, William D. Carrigan, Sundiata Keita Cha-Jua, Dennis B. Downey, Larry R. Gerlach, Kimberley Mangun, Helen McLure, Michael J. Pfeifer, Christopher Waldrep, Clive Webb, and Dena Lynn Winslow.

Worlds Beyond

Durf isn't dead. Brianna's Call is back. It's all happening again, but nothing is the same. The world is populated by minotaurs and it's all happening at the World Series. Finding Durf alive, Billy is transported to an alternate world where he finds Durf inhabiting a female baseball player named Billie. Trying to get to Brianna's call, and thinking that he went back in time, Durf didn't realize that Billie wasn't Billy and that the World Series wasn't the Super Bowl or even that Billie was a girl and not a guy. Making matters worse, Brianna's Call is being chased by a fleet of ships trying to figure out a way to use the magic. Unfortunately, they accidentally transformed it solid and now it's about to crash into the Earth. While trying to transform it back, Billy and the others are forced to confront Durfs from this planet, weapons left behind by the Norse Gods, and alien wizards all while pretending to be female baseball players.

The Village Comedy

A Great Gatsby for the 21st century. A novel of the Jazz Age, *The Big Town* is the story of a failed businessman whose dreams of prosperity hinge on the secret proposition of a millionaire industrialist and a dangerous relationship he finds with a poor orphan girl chasing love in the great American metropolis. Harry Hennessey's hopes of success, both in his household and the world, have driven him to sell his home in an Illinois small town and take his chances in the big city. He rents a room in a run-down hotel. He deals in wholesale items scavenged from yard sales and close-outs. One night at a movie theater downtown, he meets a teenage flapper named Pearl who latches onto him and won't let go. For several years now, Harry has threatened his marriage and self-esteem with innumerable infidelities. Now he finds himself falling in love with a girl less than half his age. But that's not all. Charles A. Follette, chairman of the board of the American Prometheus Corporation, comes to him with a slick proposition: find Follette's missing niece, and the road to riches shall be his. Soon, though, Harry discovers a darker secret to the identity of the missing niece and what lies behind the urgency for her detection. It's this revelation that leads him to a closer examination of what it means to the life he's known since the birth of his children and that life he believes awaits him if he can only reach the top of the ladder. Harry's story in *The Big Town* is set against a fantastic backdrop of an archetypal 1920s American big city. We see speakeasies, sanitariums, skyscrapers, and a glittering Gatsby-like party high atop the metropolis. Lost in his own moral confusions, we watch Harry try to reform his young lover and uncover the secret of her own past in a small canal town miles beyond a city where gangsters murder ordinary citizens and everyone seems to have a get-rich scheme as the Roaring '20s come to a thunderous close. *The Big Town* evokes a lost era through language and flamboyant characters reminiscent of Fitzgerald, Dos Passos, Ring Lardner, etc. Yet it's also eerily relevant to our own time with its study of the role of business, crime, morality, and love in our lives.

The village comedy, by Mortimer and Frances Collins. 1883

Spurred by ideals of individual liberty that took hold in the Western world in the late nineteenth century, psychiatrists and public officials sought to reinvent asylums as large-scale, totally designed institutions that offered a level of freedom and normality impossible in the outside world. This volume explores the "caged freedom" that this new psychiatric ethos represented by analyzing seven such buildings established in the Austro-Hungarian monarchy between the late 1890s and World War I. In the last two decades of the Habsburg Empire, architects of asylums began to abandon traditional corridor-based plans in favor of looser formations of connected villas, echoing through design the urban- and freedom-oriented impulse of the progressive architecture of the time. Leslie Topp considers the paradoxical position of designs that promoted an illusion of freedom even as they exercised careful social and spatial control over patients. In addition to discussing the physical and social aspects of these institutions, Topp shows how the commissioned buildings were symptomatic of larger cultural changes and of the modern asylum's straining against its ideological anchorage in a premodern past of "unenlightened" restraint on human liberty. Working at the intersection of the history of architecture and the history of psychiatry, *Freedom and the Cage* broadens our understanding of the complexity and fluidity of modern architecture's engagement with the state, with social and medical projects, and with mental health, psychiatry, and psychology.

Rider Haggard is sometimes considered the first lost-world narrative. Haggard's novel shaped the form and influenced later lost-world books, including Kipling's The Man Who Would Be King, Arthur Conan Doyle's The Lost World, Burroughs' The Land That Time Forgot, A. Merritt's The Moon Pool, and H. P. Lovecraft's At the Mountains of Madness. James Hilton's Lost Horizon used the genre as a takeoff for popular philosophy and social comment and it introduced the name Shangri-La, a meme for the idealization of the lost world as a paradise.

The second installment of the The Albert Plevier Trilogy, "See Saw" follows the Plevier family as they rejoice at the temporarily returned sight for Albert after a corneal transplant. Albert continues to heal after the devastating accident chronicled in the first installment of the series: "Beyond the Eight Foot World" Albert views for the first time, the extent of the damage done to his body after the blurred images become clear as he stands in front of the bathroom mirror. Every morning as Al gauged the progress of his returned sight, the devastation to his body became clear. The thrill of his returned vision was tempered by the knowledge of what his wife Elaine had been looking at for the last two years. The initial blurred images had elicited a sense of pride in himself and his family at what they had endured and survived. He fully appreciated the moment he saw him body clearly and, realizing the strength, courage, and love of his family, was not bitter about the darkness he would eventually be plunged back into. The Plevier family grows to include four boys and consider themselves a normal American family with a father that lives outside the limits places upon him and his wife. Always working toward any goal, together they settle the legal case, raise their four 'tornado's' that are always stretching their own boundaries and work towards a second attempt for Al to regain vision with a camera implanted in his blinded right eye. The success of the camera surgery begins a new set of adventures. Al is granted the opportunity to see all four of his children for the first time. His amazement and enjoyment of their growth lasts two years until an infection brings him to the brink of death for a second time in his life. The removal of his right eye significantly reduces the opportunity to see again based on the damage initially done to his remaining left eye. The Plevier family story is more than 'just another blind guy story'. The trilogy chronicles the joys, sorrows, comic tragedies of an American Love Story. Albert and Elaine Plevier found each other in High School and never looked back. Faced with odds described as insurmountable by some, the two of them rose to the occasion, lifted up on the shoulders of each other and their faith.

This book is a fascinating journey through a series of scholarly articles. The journey begins by tracing one of the most significant stories in the popularization of Association Football. In the next leg of the journey it charts the diverse and changing face of the modern British game. It then moves on to the global spread of the game from England and its domestication and appropriation in its new homes across the planet. It also investigates the exchanges which are increasingly taking place between these new homes of football. In the concluding pieces football's global experience is compared with the attempts at globalizing baseball and drawing out the larger patterns that inform football's global experience. This book was published as a special issue in Soccer and Society.

The story of the immense struggle to qualify for the World Cup, *Thirty-One Nil* roams from American Samoa to Zambia in a remarkable and insightful journey that gets under the skin of world football. In a tiny, decaying aluminium smelting town in southern Tajikistan, a short drive from a raging war zone, Afghanistan take on Palestine in the first Asian qualifier for the World Cup. Every player on both teams is risking something by playing: their careers, their families, even their lives. Yet, along with thousands of other footballers backed by millions of supporters, they all dream of snatching one of the precious 32 places at the finals; and so begins a three-year epic struggle – long before the usual suspects start their higher-profile qualifying campaigns under the spotlight. Named after the greatest victory (and defeat) that the World Cup qualifiers have ever seen (Australia's 31-0 victory over American Samoa), *Thirty-One Nil* is the story of how footballers from all corners of the globe begin their journey chasing a place at the 2014 World Cup Finals. It celebrates the part-time priests, princes and hopeless chancers who dream of making it to Brazil, in defiance of the staggering odds stacked against them. It tells the story of teams who have struggled for their very existence through political and social turmoil, from which they will very occasionally emerge into international stardom. From the endlessly humiliated San Marino to lowly Haiti; from war-torn Lebanon to the oppressed and fleet-footed players of Eritrea, in *Thirty-One Nil* James Montague gets intimately and often dangerously close to some of the world's most extraordinary teams, and tells their exceptional stories.
