The Publishers' Trade List Annual

Aquesta primorosa col·lecció de contes és un dels clàssics de la literatura mundial. En ella es recullen tradicions de la Xina, de l'Índia i, per descomptat, del món àrab, que serveix de marc a la història principal i proporciona els elements exòtics i màgics que fan que aquest llibre haja sigut un dels preferits dels joves de totes les èpoques: genis, catifes voladores, tresors.... Sherezade, casada amb un príncep que odia les dones i s'ha proposat matar a totes les seues esposes, li conta una història cada nit i la deixa inconclusa, per a mantindre el seu interès i que la condemna es vaja postposant. D'aquesta manera es narren més de 73 relats que contenen altres contes dins dels mateixos, com les caixes xineses i en els quals trobem personatges coneguts, com Alad o Alí Babá. I aquests contes són una veritable font d'imaginació, poesia i bellesa amb la qual gaudir de ple la literatura.

In 13th-century Toledo, King Alfonso the Wise fostered the publication of Castilian translations of certain Arabic works that had in turn been translated from Greek and Pehlvī. In this book, which is the revised English version of the Spanish original published under the title of Modelos griegos de la sabiduría castellana y europea, the author studies four of these Castilian translations - the Libro de los Buenos Proverbios, Poridad de las Poridades or Secreto de secretos, Bocados de Oro and Historia de la Donzella Teodor - works of sapiential literature that had an enormous influence in all of Europe. Their Arabic models had been translated from Greek in Bagdad at the instigation of the great caliphs of the 9th century and also in the Fatamid court at Cairo in the 11th century. The traditional view is that this

literature is simply of oriental origin, but the author believes that the models were Greek Byzantine works discovered by the Arabs in Syria and Egypt in the 7th and 8th centuries. Their true origin is to be found in the Greek sapiential literature that developed around the figures of Socrates, Plato, Aristotle and Alexander in the Hellenistic, Roman and Byzantine schools of philosophy; its influence can frequently be found reflected in authors of Christian literature. A detailed study of themes, vocabulary and expressions in the works themselves confirms these origins.

Conte de Noël

Recent political developments in Spain regarding Catalonia have prompted scholars from several disciplines to research the singularity of this region and of the territories of the old Crown of Aragon. Against the backdrop of the pro-independence movement, those in favor and against have insisted on the particularity or commonality of Catalonia and the Països Catalans (Catalan-speaking areas) within the Spanish State. From the Catalan point of view, their singularity is not sufficiently recognized, and respect for their institutions and their autonomy is at stake to the point that many prefer to secede from Spain. Singularity or its absence play a relevant role in the construction of identity, which seems to be key in understanding many Catalans' attitudes towards the central government, a fluid concept that allows for a variety of interpretations. History of Catalonia and Its Implications for Contemporary Nationalism and Cultural Conflict is a critical reference book that centers around the topic of Catalan cultural and linguistic identity. With input from renowned scholars in several fields, the chapters explore the issue of Catalan identity from a variety of perspectives. While highlighting the legal and historical component to identity and also sociolinguistics and political linguistics, this book is ideally intended for scholars in the fields of Hispanic studies, history, linguistics, political science, and literary studies as well as practitioners, stakeholders, researchers, academicians, and students interested in contemporary politics and the political developments in Spain regarding Catalonia.

Description des contes de Mirbeau est clair que le romancier n'accordait que peu d'importance à une besogne qui, à ses yeux, était avant tout alimentaire. En effet, le conte joue alors un rôle de premier plan dans la grande presse et il est, avec la chronique, un genre fort prisé du public, qui permet à la plupart des écrivains de gagner leur vie beaucoup plus sûrement que par la publication de leurs livres. Pour les quotidiens, il est une manière de fidéliser leurs lecteurs en leur offrant un espace ludique et en leur apportant une dose modérée d'émotion ou de gaieté. Mirbeau y voit aussi une occasion précieuse de faire ses gammes en y traitant des sujets et en y brossant des personnages et des décors auxquels il entend donner des développements dans ses œuvres romanesques. Mais, pour lui, il n'est pas question pour autant de réduire ses récits de presse à de vulgaires divertissements, et il entreprend de subvertir le genre : au lieu de rassurer et d'entretenir le misonéisme et la bonne conscience de ses lecteurs bourgeois, il va les inquiéter et les obliger à « regarder Méduse en face ». L'humour grinçant et l'horreur qu'il affectionne n'ont rien de gratuit et servent au contraire à perturber le confort moral et intellectuel du lectorat pour le contraindre à réagir : tout vaut mieux que cette indifférence des troupeaux que l'on mène à l'abattoir... ou aux urnes. Les thèmes abordés suscitent un choc pédagogique : le tragique de l'humaine condition et « l'horreur d'être un homme » ; la souffrance consubstantielle à l'existence ; le sadisme, les impulsions homicides et la loi du meurtre sur laquelle reposent les sociétés ; l'incommunicabilité et la guerre entre les sexes ; et la dérisoire existence larvaire d'êtres humains déshumanisés par une société oppressive et aliénante. Avant Le Jardin des supplices,

Mirbeau y dresse l'inventaire des infamies humaines et de l'universelle souffrance : « L'homme se traîne pantelant, de tortures en supplices, du néant de la vie au néant de la mort » Les contes de Mirbeau, farcis d'allusions polémiques à l'actualité, sont le complément de ses chroniques journalistiques. Il s'y livre à une contestation radicale de toutes les institutions et y attaque toutes les formes du mal social de la fin du siècle : le cléricalisme qui empoisonne les âmes, le nationalisme qui pousse au crime, le revanchisme fauteur de guerre, l'antisémitisme homicide, le colonialisme génocidaire, le cynisme des politiciens qui arnaquent les électeurs, le sadisme des « âmes de guerre », la misère des prolétaires des villes et des campagnes, la prostitution, l'exploitation des pauvres et l'exclusion sociale. Loin de n'être qu'un inoffensif dérivatif, les contes cruels de Mirbeau constituent une véritable entreprise de démystification.
