Women, Property and Islam

According to Islamic law, women are entitled to inherit property, to receive a dower at marriage, and are in full control of their income. Through an anthropological study of Palestinian women on the West Bank, Annelies Moors demonstrates that this is not always the case in practice. In fact, their options vary greatly depending on whether they gain access to property through inheritance, through the dower or through paid labour. The narratives of women from different stratas of society indicate under what circumstances they claim property rights, and when they are prevented from doing so in order to gain other advantages. While essentially an ethnographic study, the author's use of court records demonstrates how historical changes have affected women's claims to property, focusing on the relation between local traditions, international politics and transnational labour migration.

Women, Property and Islam

According to Islamic law, women are entitled to inherit property, receive a dower at marriage, and to manage their own income. In practice, however, this is not always the case. In an anthropological study of Palestinian women from different stratas of society, Annelies Moors examines under what circumstances they claim property rights and when they are prevented from doing so. The combination of oral history and written legal sources presents an informed and sophisticated challenge to the conclusions of existing literature on the region.

Women and Property Rights in Indonesian Islamic Legal Contexts

In this volume, eight scholars of Indonesian Islam examine women's access to property in law courts and in village settings. The chapters go beyond the world of legal and scriptural texts to ask how women in fact fare at critical moments of marriage, divorce, and death.

The Rights of Women in Islam

Women's issues continue to dominate the Islamic world in particular, as there has been a very gradual change in the status of women in the Islamic world as a whole. This book covers various aspects relating to the status of women in the pre-Islamic period -- customs and -traditions, forms of marriage, divorce and forms of divorce, dower, traditions regarding slave-girls, and so on. It then goes on to deal with the status of women in the post-Islamic period -- the Qur'anic concept of women's rights in marriage, divorce, inheritance, custody of children, polygamy, maintenance, property, right to earn, etc. It quotes extensively from the Qur'an and Sunnah. It also deals with the Arab *adaat*, that is, pre-Islamic customs and traditions regarding women. Altogether, it attempts to arm Muslim women with Islamic arguments for their empowerment. The author, a renowned scholar, has sought to set the record straight by reinterpreting women's rights in the true Qur'anic spirit. He argues quite convincingly that the Holy Book gives equal rights to both the sexes, and it does not discriminate between them as regards personal, democratic and human rights. The question whether in a secular society Muslim personal law needs any change, and, if so, in which direction the reform should be undertaken is dealt with in detail. This third edition contains a chapter: 'On a Muslim Woman Leading the Congregational Prayer'. This chapter deals with the important aspect of Muslim women's problems and also hopes to further enhance their understanding of the Shari'ah issues.

Women in Muslim Family Law

Expands and updates family law as it pertains to women with regard to marriage, divorce and inheritance throughout the Middle East. This second revised edition of John L. Esposito's landmark work expands and updates coverage of family law reforms -- marriage, divorce, and inheritance -- throughout the Middle East, North Africa, South and Southeast Asia. Her Day in Court

This study of the historical record of property rights and equity of Muslim women is based on Islamic court documents of 15th-century Granada. The book examines women's legal entitlements to acquire property, and the social and economic significance of these rights to Granada's female population and--by extension--to women in other Islamic societies.

Women in Muslim Family Law

This second edition of John L. Esposito's landmark book expands and updates coverage of family law reforms (in marriage, divorce, and inheritance) throughout the Middle East, North Africa, and South and Southeast Asia, and analyzes the diverse interpretation of Muslim family law, identifying shifts, key problems, and challenges in the twenty-first century.

Women in Sharī'ah (Islamic Law)

In this pioneering work Siraj Sait and Hilary Lim address Islamic property and land rights, drawing on a range of socio-historical, classical and contemporary resources. They address the significance of Islamic theories of property and Islamic land tenure regimes on the 'webs of tenure' prevalent in the Muslim societies. They consider the possibility of using Islamic legal and human rights systems for the development of inclusive, pro-poor approaches to land rights. They also focus on Muslim women's rights to property and inheritance systems. Engaging with institutions such as the Islamic endowment (*waqf*) and principles of Islamic microfinance, they test the workability of 'authentic' Islamic proposals. Located in human rights as well as Islamic debates, this study offers a well researched and constructive appraisal of property and land rights in the Muslim world.

Land, Law and Islam

First published in 1983, this edited collection is based on contributions at a Scandinavian symposium on the place of women in Islamic society. It offers perspectives which illuminate our understanding of social relationships and structures pertaining to a vast number of the world's population dispersed throughout Asia and Africa. Sociological and anthropological investigations of social organization and the behavioural patterns provided in these papers demonstrate that the status of women, their rights,

duties and control over property, their body, the degree of seclusion and veiling, vary considerably. Overall, this collection of papers show that the relationship between Islam and the everyday lives of Muslim women is a complex picture, one that is confronted with a considerable range of interpretations of laws and traditions. This book will be of particular interest to those studying women and Islam, anthropology, religion and sociology.

The Status of Woman in Islam

Argues that the rights of women in Muslim society are based on the preserved cultural standards of elites, not the ethical philosophy of the Quran.

Women in Islamic Societies

Opinions differ concerning women's status in Islam. Some scholars hold that Islam oppresses women, while others believe that Islamic women enjoy high status compared with other religions. This book presents viewpoints that address many of the concerns for women in Islam, from dress to property rights to personal rights.

Contesting Justice

The Present Book Deals With The Status Of Women In Islam. It Has Been Divided Into Two Parts-The First Deals With The Status Of Women As Per Tenets Of Islam In The Family Structure And In The Society And Economy; And The Other, With The Status Of Muslim Women In Our Country. The Problems Specifically Highlighted Are: The Acquisition Of Knowledge By Muslim Women, Their Participation In The Process Of Consultation, Their Rights And Obligations In Regard To Social Life Of Muslim Community And Their Role In Economic Activities.

Women in Islam

One of the most controversial issues of our time is the rights of women in the world in general and in Islam and Islamic law in particular. The issue, for example, of wearing the Burka (the Hijab) by Muslim women in public places, schools, and in courts has made it recently to the front covers of most newspapers and magazines. Some countries have already banned the Burka in public places; others are reluctant for fear of limiting freedom and multiculturalism. But, what happens to a western woman who goes to a Muslim country, such as Saudi Arabia, where Islamic law (the Sharia) is applied? Is she allowed to wear a mini-skirt or a dress of her liking in public places? Or, is she able to wear a bikini on the beach? Almost all Muslim scholars and writers, including women, have defended the position of women in Islam. While they draw their arguments on a very limited number of verses (Surah) in the Qur'an and Hadith, however, they take them out of their context in trying to prove that women under Islam are free and their human rights are protected. This book shows how Islam has always considered women as inferior to men in every aspect: physically, intellectually, morally, and religiously. Their demise and denial of their basic rights are God sanctioned laws that every Muslim follows, not just 'fundamentalists'. Indeed, the Qur'an remains for all Muslims, the uncreated word of God Himself. It is valid for all times and places; its ideas are absolutely true and beyond all criticism. To question it is to question the very word of God, and hence blasphemous. A Muslim's duty is to believe it and obey its divine commands ... blindly. This non-fiction book reveals the shocking truth about the real position of women in the Qur'an, the Hadith, in Islamic law (the Sharia) and how Islam is deeply anti-women. It reports the shocking truth of how women are denied their basic human rights in the Islamic law and ... in real life

Women in Islam

Reinterprets divine injunctions from the Quran and traditional practices in Islam in light of the fundamental Islamic values of justice and equality on women's status. This work presents sociopolitical values and medieval social ethos as the origins of repressive practices, discussing controversial issues such as polygamy, and family planning.

Status of Women in Islam

Drawing on both religious and secular sources, this challenging book argues that divinely ordained law is frequently misinterpreted by Muslim authorities at the expense of certain groups, including women.

Khaled Abou El Fadl cites a series of injustices in Islamic society and ultimately proposes a return to the original ethics at the heart of the Muslim legal system.

Women in Islam

Contradicting the views commonly held by westerners, many Muslim countries in fact engage in a wide spectrum of reform, with the status of women as a central dimension. This anthology counters the myth that Islam and feminism are always or necessarily in opposition. A multidisciplinary group of scholars examine ideology, practice, and reform efforts in the areas of marriage, divorce, abortion, violence against women, inheritance, and female circumcision across the Islamic world, illuminating how religious and cultural prescriptions interact with legal norms, affecting change in sometimes surprising ways.

The Qurʾān, Women, and Modern Society

The book studies the social issues related to the status of women in Saudi Arabia and the extent to which Saudi Arabian women actively participate in the development of their country. It also focuses on education and work outside the home as they affect the traditional role of the Saudi woman as wife, mother and homemaker. At the same time, those factors promote the participation of women in the development of Saudi Arabia. The book examines also the quality of Saudi women's lives in a traditional society and the meaning of their social reality. Intensive interviews were held with 100 Saudi women in the city of Jeddah, Saudi Arabia, from different social, economic and educational levels.

Approaches on Empowering Muslim Women Through Property Rights

"In an age when Western feminism is continuously undergoing redefinition, the struggles of women in Muslim countries are often overlooked. This volume illustrates how women in Islamic societies have become more actively involved not only in learning their rights under the shari'a (Islamic law) but in rereading this law to improve their status and gain increased equality and freedom. Surveying Iran, Saudi Arabia, Lebanon, Egypt, and Arab societies in general, *Feminism and Islam* brings together renowned women researchers and academics -- historians, political scientists, lawyers, sociologists, social anthropologists, and literary critics -- to examine the phenomenon of feminism within the Islamic cultural framework. Introducing a feminism which is "Islamic" in its form and context, the essays focus on such subjects as crimes of honor and the construction of gender in Arab societies; law and the desire for social control; women and entrepreneurship; family legislation; and the political strategies of feminists in the Islamic world." -- Back cover

Self-determination and Women's Rights in Muslim Societies

This volume covers the history of the Muslim community and the biography of Muḥammad in the middle Meccan years. It begins with the unsuccessful last Meccan attack on Medina, known as the battle of the Trench. Events following this battle show the gradual collapse of Meccan resistance to Islam. The next year, when Muḥammad set out on pilgrimage to Mecca, the Meccans at first blocked the road, but eventually a ten-year truce was negotiated at al-Ḥudaybiyah, with Muḥammad agreeing to postpone his pilgrimage until the following year. The Treaty of al-Ḥudaybiyah was followed by a series of Muslim expeditions, climaxing in the important conquest of Khaybar. In the following year Muḥammad made the so-called Pilgrimage of Fulfillment unopposed. Al-Ḥudaybiyah's account emphasizes Islam's expanding geographical horizon during this period. Soon after the Treaty of al-Ḥudaybiyah, Muḥammad is said to have sent letters to six foreign rulers inviting them to become Muslims. Another example of this expanding horizon was the unsuccessful expedition to Mu'tah in Jordan. Shortly afterward the Treaty of al-Ḥudaybiyah broke down, and Muḥammad marched on Mecca. The Meccans capitulated, and Muḥammad entered the city on his own terms. He treated the city leniently, and most of the Meccan oligarchy swore allegiance to him as Muslims. Two events in the personal life of Muḥammad during this period caused controversy in the community. Muḥammad fell in love with and married Zaynab bint Jaḥsh, the divorced wife of his adopted son Zayd. Because of Muḥammad's scruples, the marriage took place only after a Qur'anic revelation permitting believers to marry the divorced wives of their adopted sons. In the Affair of the Lie, accusations against Muḥammad's young wife ʿĪṣā were exploited by various

factions in the community and in Muhammad's household. In the end, a Qur'anic revelation proclaimed the prophet's innocence and the culpability of the rumormongers. This volume of al-Tabari's History records the collapse of Meccan resistance to Islam, the triumphant return of Muhammad to his native city, the conversion to Islam of the Meccan oligarchy, and the community's successful weathering of a number of potentially embarrassing events in Muhammad's private life.

The Rights and Duties of Women in Islam

In what ways has Islamic law discriminated against women and privileged men? What rights and power have been accorded to Muslim women, and how have they used the legal system to enhance their social and economic position? In an analysis of Islamic law through the prism of gender, Judith Tucker tackles these complex questions relating to the position of women in Islamic society, and to the ways in which the legal system impacted on the family, property rights, space and sexuality, from classical and medieval times to the present. Working with concepts drawn from feminist legal theory and by using particular cases to illustrate her arguments, the author systematically addresses questions of discrimination and expectation - what did men expect of their womenfolk - and of how the language of the law contributed to that discrimination, infecting the system and all those who participated in it.

Women in Saudi Arabia Today

A classic, pioneering account of the lives of women in Islamic history, republished for a new generation. This pioneering study of the social and political lives of Muslim women has shaped a whole generation of scholarship. In it, Leila Ahmed explores the historical roots of contemporary debates, ambitiously surveying Islamic discourse on women from Arabia during the period in which Islam was founded to Iraq during the classical age to Egypt during the modern era. The book is now reissued as a Veritas paperback, with a new foreword by Kecia Ali situating the text in its scholarly context and explaining its enduring influence. "Ahmed's book is a serious and independent-minded analysis of its subject, the best-informed, most sympathetic and reliable one that exists today."—Edward W. Said "Destined to become a classic. . . . It gives [Muslim women] back our rightful place, at the center of our histories."—Rana Kabbani, *The Guardian*

Status of Women in Islam

The book, *Economic Empowerment of Women in the Islamic World*, discusses the economic, social, and political rights and status of women in Islam, which is theoretically given by the Islamic Jurisprudence (Shariah law). The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world. Men and women in Islam, regardless of their age, social class, and education, are equal as citizens and individuals, but not identical in their rights and responsibilities. It can be observed from Islamic history that in the early age of Islam, women were given full confidence, trust, and high responsibilities in leadership, educational guidance, and decision-making. This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media, as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies. It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity, domestic abuse, and low access to education and medical care. It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women. This volume also aims to provide the solutions for the empowerment of women in the Islamic world. We assumed that without good governance, the status of women is not likely to improve. Muslim women have the potential to play a fundamental role in curbing corruption, social ills, violence, and crime in the Muslim world. This volume will make the case that in order to achieve stability and prosperity, the government must ensure a platform for women to participate in decision-making and hence benefit from the rights they are accorded in Islam. By covering a range of perspectives on the economic lives of Muslim women around the world, it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world.

Feminism and Islam

Women's Rights in Islam

Women face a lot of special problems regarding their menses, postpartum bleeding, istihada, hijab, mixing with men, rights & duties with respect to their husband, husband's household, children, inheritance, marriage, divorce, etc. More than 350 of such problems & issues have been answered in this book by Grand Mufti of Saudi Arabia Sheikh Ibn Baz, and the eminent scholars like Sheikh Ibn Uthaimin, Sheikh Ibn Jibreen and others.

An Introduction to the Rights and Duties of Women in Islam

Women in Islam: Exploring new Paradigms is a revolutionary book that explores the vast literature and canonical texts on the rights of Muslim women. The author argues that the revelation of Qur'an marked a watershed in the history of Muslim women. It empowered them in several ways. If women are oppressed today it is on account of factors extrinsic to Islam: had the true intent of the Qur'an been followed, there would have been gender equality, but this true intent was undermined by Arabian patriarchal practices and by imports from surrounding egalitarian civilizations. He believes that the solution lies not in reforming but in rediscovering Islam. Differences regarding gender status are attributed primarily to the way the Qur'an has been predominantly interpreted, especially in the shari'a (holy law)

Woman in Islam

It has been argued that Islam liberated Muslim women by granting them full rights as citizens. Yet in reality we see that women have long been subjected to both cultural and political oppression. Instances such as forced marriages are sadly common in the Muslim World, as are restrictions on education and on their role in the labour force.

Women, Family, and Gender in Islamic Law

In the first book to address the dilemma faced by Jordanian women in the workforce, Amira El-Azhary Sonbol delineates the constraints that exist in a number of legal practices, namely penal codes that permit violence against Muslim women and personal status laws that require a husband's permission for a woman to work. Leniency in honor crimes and early marriage and motherhood for girls are other factors that extend the patriarchal power throughout a woman's life, and ultimately deny her full legal competency. Significantly, Sonbol notes that society's accepting as "Islamic" the legal constraints that control women's work constitutes a major barrier to any effort to change them, even though historically the Islamic sharia actually encourages women's work, and despite the fact that Muslim women have contributed materially to their society's economy. The author covers new ground as she effectively illustrates how Jordanian laws governing gender, family, and work combine with laws and legal philosophies derived from tribal, traditional, Islamic, and modern laws to form a strict patriarchal structure.

Mahomet, Founder of Islam

"[...] As an outcome of its political and military needs Mahomet created and established its unassailable belief in fatality-not the fatalism of cause and effect, bearing within itself the essence of a reason too vast for humanity to comprehend, but the fatalism of an omnipotent and capricious power inherent in the Mahomedan conception of God. With this mighty and irresponsible being nothing can prevail. Before every event the result of it is irrevocably decreed. Mankind can alter no tiniest detail of his destined lot. The idea corresponds with Mahomet's vision of God-an awful, incomprehensible deity, who dwells perpetually in the terrors of earth, not in its gentleness and compassion. The doctrine of fatalism [...]".

Mahomet and Islam

An inquiry into the religious environment of the person Muslims hail as the "Envoy of God" and an attempt to trace his progress along the path from paganism to that distinctive form of monotheism called Islam.

The life of Mahomet

From one of today's leading Muslim scholars, this compelling look at how the Prophet Muhammad has been portrayed throughout the centuries offers a fascinating history of the diversity of Islamic cultures and beliefs. The Prophet Muhammad has been revered for more than fifteen centuries. Today, one in five people throughout the world calls for daily praises and blessings upon him and holds him up as a model of virtue. In IMAGES OF MUHAMMAD, Tarif Khalidi examines the ways Muhammad has been depicted and revered from the immediate aftermath of his death to the present day. With scholarly authority, Khalidi explores how the "biography" of Muhammad has been constructed, reconstructed, and utilized in various Islamic cultures, and traces the influences that have shaped his image, including the profound effect of negative perceptions promulgated by the West. As he describes the great variety of Islamic beliefs and practices, Khalidi illuminates the values and ideas shared by the Sunni, Shia, and Sufi sects, as well as the differences among them, providing Western readers with a clear, objective perspective on the current conflicts within the Muslim world as well as their global repercussions. From the Hardcover edition.

Mahomet and Islam

Kecia Ali delves into the many ways the Prophet's life story has been told from the earliest days of Islam to the present, by both Muslims and non-Muslims. Emphasizing the major transformations since the nineteenth century, she shows that far from being mutually opposed, these various perspectives have become increasingly interdependent.

THE LIFE OF MAHOMET AND HISTORY OF ISLAM

The origins of Islam have been the subject of increasing controversy in recent years. The traditional view, which presents Islam as a self-consciously distinct religion tied to the life and revelations of the prophet Muhammad in western Arabia, has since the 1970s been challenged by historians engaged in critical study of the Muslim sources. In Muhammad and the Believers, the eminent historian Fred Donner offers a lucid and original vision of how Islam first evolved. He argues that the origins of Islam

lie in what we may call the "Believers' movement" begun by the prophet Muhammad—a movement of religious reform emphasizing strict monotheism and righteous behavior in conformity with God's revealed law. The Believers' movement thus included righteous Christians and Jews in its early years, because like the Qur'anic Believers, Christians and Jews were monotheists and agreed to live righteously in obedience to their revealed law. The conviction that Muslims constituted a separate religious community, utterly distinct from Christians and Jews, emerged a century later, when the leaders of the Believers' movement decided that only those who saw the Qur'an as the final revelation of the One God and Muhammad as the final prophet, qualified as Believers. This separated them decisively from monotheists who adhered to the Gospels or Torah.

Mahomet and Islam

Contrary to popular opinion, the bulk of Islamic law does not come from the Quran but from hadith, first-hand reports of the Prophet Muhammad's words and deeds, passed from generation to generation. However, with varying accounts often only committed to paper a century after the death of Muhammad, Islamic scholars, past and present, have been faced with complex questions of historical authenticity. In this wide-ranging introduction, Jonathan A. C. Brown explores the collection and criticism of hadith, and the controversy surrounding its role in modern Islam. This edition, revised and updated with additional case studies and attention to the very latest scholarship, also features a new chapter on how hadiths have been used politically, both historically and in the Arab Spring and its aftermath. Informative and accessible, it is perfectly suited to students, scholars and general readers interested in this critical element of Islam.

Life of Mahomet

Henry Stubbe (1632–1676) was an extraordinary English scholar who challenged his contemporaries by writing about Islam as a monotheistic revelation in continuity with Judaism and Christianity. His major work, *The Originall & Progress of Mahometanism*, was the first English text to document the Prophet Muhammad's life positively, celebrate the Qur'an as a divine revelation, and praise the Muslim toleration of Christians, undermining a long legacy of European prejudice and hostility. Nabil Matar, a leading scholar of Islamic-British relations, standardizes Stubbe's text and situates it within England's theological and intellectual climate in the seventeenth century. He shows how, to draw a historical portrait of Muhammad, Stubbe embraced travelogues, Latin commentaries, studies on Jewish customs and Scripture, and, most important, Arabic chronicles, many written by medieval Christian Arabs who had lived in the midst of the Islamic polity. No European writer before or for a long time after Stubbe produced anything similar to what he wrote about Muhammad the "great Prophet," Ali the "gallant" advocate, and the "standing miracle" of the Qur'an. Stubbe's book therefore makes a unique contribution to the study of the representation of Islam in Western thought.

Wdckidi, IQd; Wdckidi, 210. f As usual, we are overwhelmed with anecdotes of Believers bent on martyrdom, and of dreams and pious anticipations of the rewards to be shortly enjoyed in Paradise. These I take to be the growth of after years;--the halo, in fact, pictured by tradition were not wanting men among the Refugees who sided with this party, and their ardour was so great that Mahomet at last gave way. He announced his resolution to give battle to the Coreish. Ascending the pulpit for the weekly service, he stirred up the people, in his discourse, to fight courageously: --" If ye be stedfast," he said, "the Lord will grant you victory." Then he commanded them to make ready for the battle. The most part rejoiced greatly; but some were grieved that the first decision had been set aside. around the martyr's head. There were worldly motives enough to justify this party in their desire to go forth. The citizens were grieved at the occupation of their fields; the barley crops were being destroyed, and the season for sowing was passing away. Wdckidi, 211. Even Hamza joined them, on political considerations. "We fear," he said, " lest the Coreish should attribute our backwardness to cowardice, and that it will embolden them ever after. We were but three hundred at Badr, and now we are many. Verily, this is the day we have longed and prayed to the Lord for; and now he hath driven the enemy as a prey into the midst of our habitations." Wdckidi, 210. As specimens of the martyr spirit, I may mention these. One said, --" The slaughtered cow which thou sawest was an emblem of the dead amongst thy followers, and verily I shall be of the number; wherefore, hinder me not from...

The Lives of Muhammad

A biography of the founder of Islam who is revered by his followers as the first prophet of Allah. Includes chapters of the Koran, what a Muslim believes, and how he practices his faith.

The Life of Mahomet

The figure of 'Mahomet' was widely known in early modern England. A grotesque version of the Prophet Muhammad, Mahomet was a product of vilification, caricature and misinformation placed at the centre of Christian conceptions of Islam. In *Mythologies of the Prophet Muhammad in Early Modern English Culture* Matthew Dimmock draws on an eclectic range of early modern sources - literary, historical, visual - to explore the nature and use of Mahomet in a period bounded by the beginnings of print and the early Enlightenment. This fabricated figure and his spurious biography were endlessly recycled, but also challenged and vindicated, and the tales the English told about him offer new perspectives on their sense of the world - its geographies and religions, near and far - and their place within it. This book explores the role played by Mahomet in the making of Englishness, and reflects on what this might reveal about England's present circumstances.

Muhammad and the Believers

Muhammad at Medina was written by W. Montgomery Watt as a sequel to his *Muhammad at Mecca* and the two works together constitute a comprehensive history of the Life of Muhammad and the origins of the Islamic Community. The author has examined a vast mass of scholarly discussion and in this pioneering work he has attempted to answer many questions that have hardly been raised in the past. He has endeavored to write so as to be easily understood by the historian who has no knowledge of Arabic.
