Do you know what research is?

Research is a learning and sharing process.

Start learning about your topic using books, websites and videos.

And don't take any notes.

The next step is to IDENTIFY a specific topic.

Now you're ready for Step 3: GATHER.

A few things to remember: • Take notes in your own words
 Gathered all the information you need?
 Ask your teacher what options you have to demonstrate your research.
 For this step, your notes are raw material
 How about a metaphor? Notes — Research Project
 Step 5 means it's time to SHARE what you've created!
 When the sharing is over, it's time for Step 6: REFLECT.
 Consider these questions: • What were the easiest and hardest parts?
 And speaking of next time ... Remember these 6 steps to the Research Process and you'll be fine!
