Indian Tribal Justice Act

Excerpt from Indian Tribal Justice Act: Hearing Before the Subcommittee on Native American Affairs of the Committee on Natural Resources, House of Representatives, One Hundred Third Congress, First Session on H. R. 1268; Hearing Held in Washington, DC, April 21, 1993 The United States clearly has a trust responsibility to ensure that tribal justice systems are properly funded and provided with the proper technical assistance. Tribes have shown for years that they are capable of operating successful justice systems on shoe string budgets. Tribal justice systems must receive funding levels equal to the tremendous task with which they are charged - the dispensation of fair and equal justice in Indian country. Excerpt from Tribal Justice Act: Hearing Before the Committee on Indian Affairs, United States Senate, One Hundred Fourth Congress, First Session, Oversight Hearing on Public Law 103-176, Indian Tribal Justice Act, August 2, 1995, Washington, DC The committee met, pursuant to notice, at 9:29 a.m. in room 485, Senate Russell Building, Hon. Daniel K. Inouye (vice chairman of the committee) presiding. Present: Senators McCain, Inouye, and Simon. Statement Of Hon. Daniel K. Inouye, U.S. Senator From Hawaii, Vice Chairman, Committee On Indian Affairs Senator Inouye. Good morning and welcome to the hearing of the Committee on Indian Affairs. First of all, I wish to commend the chairman of this committee and the primary sponsor of this bill, Senator McCain, for his continuing efforts to secure support for the development, the operation and improvement of tribal judicial systems. As many of you who are gathered here today are aware, the passage of this much-needed legislation during the 103d

Congress came after 6 years of work by tribal leaders, tribal court judges and both the House and the Senate. The committee held many hearings as well as scores of meetings, discussions, strategy sessions and heated debates on tribal court legislation prior to the passage of this Indian Tribal Justice Act. What we hope to achieve with the passage of this bill is to address the long-neglected needs of the Indian judicial systems. So it is critical that we understand how the witnesses who are here today view the implementation of the Justice Act since its passage in December 1993. However, before we hear from the witnesses, I would like to take a few moments and provide a brief overview of the manner in which the Indian Tribal Justice Act proposes to address the needs of the tribal justice systems. First of all, the act provides Federal resources to tribal governments by authorizing \$50 million per year for each fiscal year from 1994 through the year 2000 for base support funding for tribal judicial systems. The act requires that the base support funding formula be developed in consultation with tribes and that all base support funding be distributed on the basis of a formula which takes into account such factors as reservation size, population and case loads. Indian Tribal Justice ACT

In recent decades, Tribal Nations have faced significant problems in addressing public safety issues. Violent crime rates in Indian country are more than 2.5 times the national rate; some reservations face more than 20 times the national rate of violence. Some tribes lack the funding and infrastructure to address these problems. Indian country correctional facilities are inadequate in number and funding may not be sufficient for operations, maintenance and programming. In some Tribal Nations, there are insufficient alternatives to incarceration. In 2010 Congress passed the Tribal Law and Order Act (TLOA) to address these problems. The goal of TLOA is to improve public safety and justice systems in Indian

country. This book discusses the Tribal Law and Order Act's long term plan to build and enhance tribal justice systems as well as the Department of Justice's ability to clarify eligibility for certain grant funds.

American Indian Tribal Law

This comprehensive overview of federal Indian law explores the context and complexities of modern Native American politics and legal rights. Both accessible and authoritative, *American Indians, American Justice* is an essential sourcebook for all concerned with the plight of the contemporary Indian. Beginning with an examination of the historical relationship of Indians and the courts, the authors describe how tribal courts developed and operate today, and how they relate to federal and state governments. They also define such key legal concepts as tribal sovereignty and Indian Country. By comparing and contrasting the workings of Indian and non-Indian legal institutions, the authors illustrate how Indian tribes have adapted their customs, values, and institutions to the demands of the modern world. They examine how attorneys and Indian advocates defend Indian rights; identify the typical challenges Indians face in the criminal and civil legal arenas; and explore the public policy and legal rights of Indians as regards citizenship, voting rights, religious freedom, and basic governmental services.

Tribal Justice ACT: Hearing Before the Committee on Indian Affairs, United States Senate, One Hundred Fourth Congress, First Session, Over

Broken Landscape is a sweeping chronicle of Indian tribal sovereignty under the United States Constitution and the way that legal analysis and practice have interpreted and misinterpreted tribal sovereignty since the nation's founding. As the book demonstrates, the federal government has repeatedly failed to respect the Constitution's recognition of tribal sovereignty. Instead, it has favored excessive, unaccountable authority in its dealings with tribes. Frank Pommersheim offers a novel and deeply researched synthesis of this legal history from colonial times to the present, confronting the failures of constitutional analysis in contemporary Indian law jurisprudence. Closing with a proposal for a Constitutional amendment that would reaffirm tribal sovereignty, Pommersheim challenges us to finally accord Indian tribes and Indian people the respect and dignity that are their due.

Introduction to Tribal Legal Studies

A perfect introduction to a vital subject very few Americans understand-the constitutional status of American Indians Few American s know that Indian tribes have a legal status unique among America's distinct racial and ethnic groups: they are sovereign governments who engage in relations with Congress. This peculiar arrangement has led to frequent legal and political disputes-indeed, the history of American Indians and American law has been one of clashing values and sometimes uneasy compromise. In this clear-sighted account, American Indian scholar N. Bruce Duthu explains the landmark cases in Indian law of the past two centuries. Exploring subjects as diverse as jurisdictional authority, control of environmental resources, and the regulations that allow the operation of gambling casinos, *American Indians and the Law* gives us an accessible entry point into a vital facet of Indian history.

Indian Tribal Justice Act

On July 29, 2010, President Obama signed the "Tribal Law and Order Act" (TLOA) into law with the goal of improving public safety in Indian Country. TLOA has provided Tribes additional resources and has fostered greater self-determination and self-governance of their justice systems. Law enforcement and public safety in the United States is largely administered on a local level and TLOA has helped ensure that this is also the situation in Indian Country. Indian Country still faces many public safety challenges. Far too many tribal communities are experiencing the devastating effects of alcohol and drugs. Testimony during this hearing is provided by Lawrence S. Roberts, Principal Deputy Assistant Secretary for Indian Affairs, United States Department of the Interior, Mirtha Beadle, MPA, Director, Office of Tribal Affairs and Policy, Substance Abuse and Mental health Services Administration, U. S. Department of Health and Human Services, Tracy Toulou, Director, Office of Tribal Justice, and Glen G. Gobin, Vice Chairman the Tulalip Tribes.
