Event Leadership

Event Leadership: Theory and practice for event management and tourism examines, contextualises and applies leadership theory and practice at several levels. Using a wide range of contemporary research, this book explores in detail a range of leadership theories, providing insight into the developments that are driving leadership today. In light of the complex business needs of event organisations and in order to illustrate the concepts discussed, examples of case studies from the event sector are used throughout. Providing a comprehensive grounding in leadership theory, this book explores leadership in events from three distinct viewpoints using various event settings and types of events to illustrate: * "The leader" within event organisations: looking at leaders who are founders, or those that

have been appointed, elected, evolved from other positions or emerged from a crisis - all of which have their own issues and effects.* Leadership within the events community, such as political leadership or leaders within event portfolios and networks. Questioning what does it take to achieve effective collaboration among events and between events and other key stakeholders? Is it the individual leader, or leadership that emerges from network dynamics?* The leadership role that events and professional organisations play in society, such as educational and inspirational leadership - looking at social marketing through events, with the aims of changing attitudes and behaviour. Part of the Event Management Theory and Methods Series. This series examines the extent to which mainstream theory is being employed to develop event-specific theory, and to influence the very core practices of event management and event tourism. They introduce the theory, show how it is being used in the events sector through a literature review, incorporate examples and case studies written by researchers and/or practitioners, and contain methods that can be used effectively in the real world. With online resource material, this mix-and-match collection is ideal for lecturers who need theoretical foundations and case studies for their classes, by students in need of reference works, by professionals wanting increased understanding alongside practical methods, and by agencies or associations that want their members and stakeholders to have access to a library of valuable resources. Charismatic to the Core

Are you charismatic enough to be a successful leader? You don't have to shout or show off to be charismatic. Charisma is often seen as an intangible concept that unconsciously attracts a negative reaction in the world of business. There is a stereotypical image that a charismatic leader is a confident extrovert with a big personality. Even if charisma can be taught, (and many research papers indicate that you either have it or you don't) the question is: how important is charisma for leadership success? Life puts layers onto individuals, much like paint. Year after year, more layers are added until you no longer know how deeply buried the authentic you is. It's time to start celebrating the real you! In Charismatic to the Core, Nikki Owen strips away the unwanted layers and takes you back to your authentic self. It is a revelation, a rebirth, a realisation that life can be on your own terms. Your leadership impact can be whatever you desire it to be. When you are being true to who you really are at your core, your charisma shines through.

The Art of Strategic Leadership

Develop the qualities of strategic leadership and become an active contributor to the short- and long-term success of your organization Today's organizations face two daunting challenges: 1. How to create new sources of competitive advantage to sustain long-term growth, and 2. How to engage leaders at every level of the organization so that they are more proactive and forward-looking in their area of responsibility. The Art of Strategic Leadership uses a unique approach to examine what it means to be a strategic leader. Instead of focusing on the skills, behaviors, and tools found in typical books on strategic leadership, the authors shed light on the attributes and qualities necessary to lead strategic

change and help transform a business. Strategic leadership is what modern leadership is all about. Organizations expect leaders to anticipate and be proactive more than ever before. In this book, the authors draw on their vast experience working directly with leaders at all levels and use an intriguing narrative to explain this inside-out approach to understanding strategic leadership. The narrative follows the journey of how one manager discovered these critically important qualities. You will experience first-hand how these values and attributes manifest in the lives of realistic leaders; how they orchestrate long-term strategic change needed for the organization to compete and survive and actively shape the future while delivering short-term results. The Art of Strategic Leadership provides the content that will help you informally assess and reflect on your own strategic leadership qualities—those that are strengths and those that indicate areas you need to develop. It will guide you as you incorporate these values and qualities into your own leadership style and become a more effective catalyst for change. This book will help you in the following ways: Develop a more proactive, forward-thinking approach to leadership Approach strategy from both short- and long-term perspectives Adopt the core values and principles of a strategic leader Model the qualities exhibited by powerful leaders Strategic leaders serve as powerful examples to others in the organization. Their qualities and traits spread rapidly to those around them, empowering people at every level to take a more active role in meeting the demands of the future. The Art of Strategic Leadership will help you deepen and broaden your understanding of the core qualities of strategic leadership, leaving you better equipped to lead yourself and your team to a better place and create greater value for customers, owners, and employees.

Leadership Is a Choice

Leadership is a Choice Choices are made from knowledge Knowledge is the result of learning What I have learned:- Leadership is defined as "Working through people for people in search of shared goals".- Success is more the result of common sense, than exceptional thought processes.- Common sense is uncommon in the business world.- Disappointments are more the result of failing to act, than doing the wrong things.- Leaders serve correctness over personal gains.- All leaders were once followers before values, attributes, habits, events, education, empowerment, support and confidence triggered a transition.- Leaders are only as effective as the people they lead.- Integrity and respect are at the core of leadership.- Leadership attributes such as determination, analytical, organizational and interpersonal skills, display a leader's values.- Leaders find the opportunities in each problem.- Leaders are inspirational.- Inspiration is more the result of actions than words.- People need achievements and feelings of self-esteem; leaders encourage and support people's needs.- Leadership is a process, not a coronation.- Leadership is born from ideals that are people centered and are sustained by the successes of each individual.

The Core of Leadership

Leadership is a choice. You can choose to stay positive and in the moment, or you can let yourself be full of doubt and negativity. It takes as much energy to be frustrated as it does to be resourceful, and it's hard to be both at the same time. We tend to think of leadership as flashing swords, generals on horseback, and Winston Churchill. For all the achievement billed as leadership, I believe real leadership goes deeper. I've learned that true leadership is to win from the middle. Power lies in the middle of the organization, at its core, in its heart. We hear about strengthening the core, as a physical fitness or martial arts term. We strengthen our physical core through nutrition and exercise, to be better at

delivering or taking a punch. And life is a punch; we all know it. To strengthen our core, is to first discover the core of ourselves. To get to the core of leadership, we need to peel down through the layers of our lives. At the core of an apple are the seeds. At the core of our bodies is the heart. The seed is the essence of the apple, and the heart is the essence of our humanity, and in both lie the promise of new growth. Our core captures and radiates our life, and to be better requires strength. The center of who we are. Humble and sacrificed is the more true measure of teaching ourselves and others to win from the middle.

The real-world experiences and lessons that are vividly detailed in the book provide a roadmap for any aspiring firefighter wishing to be promoted, a company or chief officer looking to go to the next level, or a fire chief who wishes to further develop their leadership skills. Fully Involved Leadership, written by Chief Gary Ludwig addresses the tenets of leading firefighters at all ranks and levels, and provides a blueprint for not only motivating firefighters but inspiring them; not showing them how much you know, but how much you care; that leadership is not a position or title - it is an action and examples; reminding you that rank does not equate to leadership, the inverted table of organization, and much more! Fully Involved Leadership is filled with powerful leadership topics and at its core addresses the values of trust; the two key qualities needed to be a fire service leader - character and competence; how to keep your emotions in check by using I before E - intelligence before emotions; how to keep from making a wrong decision; why it is important to show honor to your firefighters, plus a whole lot more! Chief Ludwig offers warm and engaging stories of not only his experiences but other chief officers and how they learned from their mistakes when it comes to leadership. Transitions at the Top

Clear, actionable guidance toward managing a major leadership change Transitions at the Top is an insightful, informative guide to navigating a change in leadership. A smooth transition is critical to both the health of the organization and the success of the new leader, but good planning and strong strategy can help organizations come out fresher and more driven on the other side. This book provides the specific principles, guidelines, and actions that boards, C-suite executives, and HR leaders need to guarantee a successful CEO transition. Continuity is key as one leader passes the mantle to a successor, and this book spans the steps and events that take place from when the candidate accepts the offer, all the way through the point where a critical mass of followers have accepted him or her as the established leader. Coverage includes guidance on who should be engaged in the process, as well as role-specific advice for each member of the transition management team. Many books have been written to advise new incoming CEOs, but there is little guidance available for the organization as a whole. This book provides actionable advice on smoothing the transition without breaking stride. Maintain continuity during leadership transitions Strengthen focus on culture, systems, and processes Engage all influential executives in smoothing the transition Lay a foundation to help the new leader succeed The transition management team plays a crucial role in maintaining the health of the organization during a time of major change. Strong strategy becomes critical when an organization

is in flux, and high engagement is key. Transitions at the Top provides expert insight, clear guidance, and a solid plan for a smoother transition.
