A Compound of Words

'A collection suspended in a perpetual state of homecoming. Bolger navigates the worlds she inhabits with both the feverishness of a new rasika and the familiarity of an insider'. -- Arundhati Subramaniam

' A generous and humbling collection that dances lightly between languages. Often angry and vital, Bolger sharpens her words and brings us on a journey that embraces both the sensuality and discomfort of being human. Shifting between worlds and perspectives, this is a raw exploration of what it means to be alive in a world that is as devastating as it is beautiful.' -- Alvy Carragher

Present-day migration takes place in a world characterized by the compression of time and space, with cheaper air travel and the existence of new communication technologies - the internet in particular - making it easier to stay in contact with the places, people and cultures that one has left. This book investigates the online organization of, and exchanges within, the global Indian diaspora. Bringing together research from around the world and presenting studies drawn from the US, Europe and India, it engages with theoretical and methodological debates concerning the shaping and transformation of migrant culture in emerging sites of sociality, and explores issues such as religion, citizenship, nationalism, region and caste as they relate to Indian identity in global, transnational contexts. With detailed empirical case studies showing both how members of the Indian diaspora connect with one other and 'life at home' and how institutions in India maintain such links, Indian Transnationalism Online sheds light on the ways in which information and communication technology functions as both a catalyst and indicator of contemporary socio-cultural change. As such it will be of interest to sociologists, anthropologists, political scientists and studies of cultural studies working in the areas of migration, transnationalism and ethnic studies.

The New York Times-bestselling guide to botany and booze celebrates its 10th anniversary with an updated edition now including a guide to planting your very own cocktail garden to go with more than fifty drink recipes. This fascinating, go-to text about the plants that make our drinks is the ideal gift book for every cocktail aficionado, the perfect drinks book for every plant-lover. Sake began with a grain of rice. Scotch emerged from barley, tequila from agave, rum from sugarcane, bourbon from corn. Thirsty yet? In *The Drunken Botanist*, Amy Stewart explores the dizzying array of herbs, flowers, trees, fruits, and fungi that humans have, through ingenuity, inspiration, and sheer desperation, contrived to transform into alcohol over the centuries. Of all the extraordinary and obscure plants that have been fermented and distilled, a few are dangerous, some are downright bizarre, and one is as ancient as dinosaurs—but each represents a unique cultural contribution to our global drinking traditions and our history. This charming concoction of biology, chemistry, history, etymology, and mixology—with delightful drawings, tasty cocktail recipes, and fun factoids throughout—will make you the most popular guest at any cocktail party. “A book that makes familiar drinks seem new again . . . Through this horticultural lens, a mixed drink becomes a cornucopia of plants.”—NPR's Morning Edition “Amy Stewart has a way of making gardening seem exciting, even a little dangerous.” —The New York Times

PENGUIN RANDOM HOUSE IS PROUD TO PUBLISH ANTI-CLOCK, WINNER OF THE O.V. VIJAYAN AWARD AND THIKKURISSI AWARD 'A philosophical novel that discusses the mysterious problems of life and death' BENYAMIN "'Time is everything, man is nothing; he is, at most, time's carcass.'" V.J. James's novel Anti-Clock has given an extremely creative twist to these words by Karl Marx' O.V. VIJAYAN PRIZE Hendri, the coffin maker, has one goal in life: to see the dead body of his nemesis Satan Loppo being lowered into the coffin he has painstakingly carved. For it was Loppo who defiled his beloved Beatrice, and let loose his hellhound Hitler upon Hendri, giving him a permanent limp. From inside his coffin shop, Hendri watches the world go by even as he prepares to deliver justice upon Loppo. He is confronted by the son of his best friend becoming enamoured with Loppo's wealth, Loppo's evil designs towards the hills of Aadi Nadu, and his own Christian guilt that regularly comes to haunt him. Until he meets Pundit, a 112-year-old watchmaker who was part of Bose's Indian National Army and is building an 'Anti-Clock', which can turn back time. When Loppo too hears of the Anti-Clock and desires to possess it, the inevitable battle becomes a reality.

Anti-Clock

Across the Black Waters is widely rated as an outstanding novel. It is a simple story about the ultimate futility and sorrow of war. It is a journey not just from a small village in Punjab to Flanders, from father to soldier, field to front — but from a soul that nurtures to one that kills. Overlooking the claims of war classics like All Quiet on the Western Front, the British Council selected and adapted this novel into a play to mark the 80th anniversary of the end of World War I. "The foremost of Indian novelists." — Daily Telegraph "His descriptions of brutality match in compassion and outrage, and perhaps also in poetic flair, those of Wilfred Owen, Siegfried Sasson, or David Jones." — Alastair Niven, British Literary Critic

Across the Black Waters

The Brahmaputra is by some margin the largest river in India. After its confluence with the Ganga in Bangladesh, it becomes the largest in Asia. In The Braided River, journalist Samrat Choudhury sets out to follow its braided course from the edge of Tibet where it enters India down to where it meets the Ganga at a spot marked by the biggest red light district in Bangladesh. Along the way, he meets suspicious Indian spies, gets packed off on the back of a cement truck by soldiers, visit a shelter home for baby rhino and elephant orphans in Kaziranga, and hops from river island to riverside town meeting the locals. The tales of these encounters spice up a story that weaves in the history of the emergence of the border between India and China in Arunachal Pradesh, the formation of the Assamese identity -- a

matter of great contemporary relevance owing to the National Register of Citizens and the Citizenship (Amendment) Act -- and the ecological challenges posed by proposed dams. This is a genre-bending book that touches upon several hot-button issues -- environmental, military and political -- as it blends travel, memoir and history with the present.

So often, it's the simplest acts of courage that touch the lives of others. Sudha Murty-through the exceptional work of the Infosys Foundation as well as through her own youth, family life and travels-encounters many such stories . . . and she tells them here in her characteristically clear-eyed, warm-hearted way. She talks candidly about the meaningful impact of her work in the devadasi community, her trials and tribulations as the only female student in her engineering college and the unexpected and inspiring consequences of her father's kindness. From the quiet joy of discovering the reach of Indian cinema and the origins of Indian vegetables to the shallowness of judging others based on appearances, these are everyday struggles and victories, large and small. Unmasking both

the beauty and ugliness of human nature, each of the real-life stories in this collection is reflective of a life lived with grace.

THIS GUY'S ON HIS OWN TRIP

Long before the first European universities appeared, India already had multi-disciplinary centers of learning that fuelled a knowledge revolution around the world. This book fills a dire need to chronicle the great educational heritage of India. It describes a unique ecosystem which ensured that Gurus and Acharyas handed the lamp of learning to generations of students. As the author puts it, "When swords quenched their thirst and famine ravaged the lands, Indians still held on to their truth that there was nothing more purifying than knowledge." She has collated information from oral history, local lore, travelogs, surviving literature, inscriptions, salvaged manuscripts, and accounts of scholars and laity. Historically, the book covers a vast time span from ancient India's traditions to the deliberate destruction of its heritage. It also outlines steps that can be taken today to incorporate the most relevant aspects of ancient learning systems into the current structure of school and university education.

Ammachi's Amazing Machines

India, 1657. When Maya, a graceful, young temple dancer with a mysterious past, is sold into slavery, she enters a world of intrigue, violence, and forbidden love. Bought by a Portuguese trader and sold as a concubine to the dissolute vizier of Bijapur, she embarks on a treacherous journey. In a caravan led by the dangerous settlement man Da Gama, she travels by elephant on the hostile road to Bijapur, joined by Geraldo, a Portuguese adventurer, and Pathan, a handsome prince who carries a dark secret. Together with Lucinda, a beautiful, spoiled young Goan heiress, and the manipulative eunuch Slipper, they climb the windswept mountain road through the Western Ghats. When their caravan is attacked by bandits, the travelers' lives are turned upside down. In the aftermath, Maya and Lucinda suddenly find themselves stranded in a strange, exotic world, a world filled with passion, romance, and deception, pure love and lurking evil, where nothing is as it seems and the two women are faced with great temptation as well as heart-wrenching decisions that will affect the rest of their lives. Greed, politics, commitment, courage, love, and intolerance mesh to form a vibrant Indian tapestry. With spectacular settings, unforgettable characters, fierce sensuality, and intense scholarship, this adventure-packed

novel marks the debut of an exciting new storyteller. The Temple Dancer is the first volume of John Speed's Indian trilogy, a three-book journey that will cover the final years of the Mogul Empire and the rise of the Marathis under the highwayman Shivaji. It will leave you breathlessly awaiting his next novel.

Three Thousand Stitches

After decades of imperfect secularism, presided over by an often corrupt Congress establishment, Nehru's diverse republic has yielded to Hindu nationalism. India is collapsing under the weight of its own contradictions. Since 2014, the ruling BJP has unleashed forces that are irreversibly transforming the country. Indian democracy, honed over decades, is now the chief enabler of Hindu extremism. Bigotry has been ennobled as a healthy form of self-assertion, and anti-Muslim vitriol has deluged the mainstream, with religious minorities living in terror of a vengeful majority. Congress now mimics Modi; other parties pray for a miracle. In this blistering critique of India from Indira Gandhi to the present, Komireddi lays bare the cowardly concessions to the Hindu right, convenient distortions of India's past and demeaning bribes to minorities that led to Modi's decisive electoral victory. If secularists fail to reclaim the republic from Hindu nationalists, Komireddi argues, India will become Pakistan by another name.

Ikigai

India will soon be the world's most populated country and its political development will shape the world of the 21st century. Yet Hindu nationalism – at the helm of contemporary Indian politics – is not well understood outside of India, and its links to the global neoliberal trajectory have not been explored. Covering 30 years of Indian politics, this book shows for the first time the importance of education in propagating the acceptance of Hindu nationalism within a neoliberal system, including the reframing of the concept of Indian citizenship. The first five years of Modi rule failed to bring about the development that had been promised and have seen India's rapid change from a largely inclusive society to one where religious minorities are denied their basic rights.
