Neath southern skies

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

'Neath Southern Skies

Includes book review section.

'Neath Sunny Southern Skies

2003 marked the centenary of flight in South Africa and John Illsley has compiled a pictorial history of early flight in this country, from its humble beginnings to the aeroplanes that were used at the beginning of World War I. Each chapter has an introductory article, to set the scene for its subject, and the rest of the chapter is made up of pictures with comprehensive explanatory captions. Among of the topics featured are: First flights on man-made wings; Siege balloons in two colonial wars; Balloons on imperial service; Box kites; The first aeroplanes; South Africa's first true aviator; The brief genesis of South African military aviation; South Africans on the Western Front; First to the Cape and back; An airline for the Union; Aviatrixes; War planes; Air shows; Air races; Aviation history in envelopes and stamps.
