Jumbo

Born in 1861 in French Sudan, imported to Paris as a two year old calf, then later sold to the London Zoo at Regent's Park, Jumbo the elephant delighted countless children (including Winston Churchill and Theodore Roosevelt) with rides and treats gently taken from outstretched hands. Each night, after the children and their families had gone home, he was mistreated in an attempt to keep him docile. By the time he reached sexual maturity, the abused and isolated animal had become dangerously unstable. He was sold to showman P.T. Barnum in 1881 (despite letters from 100,000 British schoolchildren who wrote to Queen Victoria begging her to prevent the sale) and brought to America. There, in the company of other elephants and amid greater physical freedom, Jumbo stabilized and went on to become one of

the most lucrative circus acts of all time - as well as the most beloved. The world mourned when his life ended in 1885, with a storied (and most likely embellished) act of animal heroism. Jumbo reportedly rushed in front of an oncoming train in an effort to save a smaller elephant – his companion "Tom Thumb" – then perished while reaching his trunk out toward his longtime handler Matthew Scott – whose intense connection with the pachyderm spawned legends of its own. Integrating the history of elephants in captivity along with the details of Jumbo's celebrity life, dramatic death, and lasting cultural legacy, John Sutherland has written the first comprehensive "biography" of this incredible animal - one whose name has given us one of our most common and hyperbolic adjectives.

Jumbo: The Unauthorised Biography of a Victorian Sensation (Large Print 16pt)

Using the heartwrenching story of Jumbo's celebrity life, tragic death in Canada in 1885, and his enduring cultural legacy, John Sutherland writes the first comprehensive 'biography' of the animal who gave us one of our favourite words.

The Drinking Curriculum

A lively exploration into America's preoccupation with childhood innocence and its corruption In *The Drinking Curriculum*, Elizabeth Marshall brings the taboo topic of alcohol and childhood into the limelight. Marshall coins the term "the drinking curriculum" to describe how a paradoxical set of cultural lessons about childhood are fueled by adult anxieties and preoccupations. By analyzing popular and widely accessible texts in visual culture—temperance tracts, cartoons, film, advertisements, and public-service announcements—Marshall demonstrates how youth are targets of mixed messages about intoxication. Those messages range from the overtly violent to the humorous, the moralistic to the profane. Offering a critical and, at times, irreverent analysis of dominant protectionist paradigms that sanctify childhood as implicitly innocent, *The Drinking Curriculum* centers the graphic narratives our culture uses to teach about alcohol, the roots of these pictorial tales in the nineteenth century, and the discursive hangover we nurse into the twenty-first.

The MacKenzie Moment and Imperial History

This book celebrates the career of the eminent historian of the British Empire John M. MacKenzie, who pioneered the examination of the impact of the Empire on metropolitan culture. It is structured around three areas: the cultural impact of empire, 'Four-Nations' history, and global and transnational perspectives. These essays demonstrate MacKenzie's influence but also interrogate his legacy for the study of imperial history, not only for Britain and the nations of Britain but also in comparative and transnational context. Written by seventeen historians from around the world, its subjects range from Jumbomania in Victorian Britain to popular imperial fiction, the East India Company, the ironic imperial revivalism of the 1960s, Scotland and Ireland and the empire, to transnational Chartism and Belgian colonialism. The essays are framed by three evaluations of what will be known as 'the MacKenzie moment' in the study of imperialism.

The Routledge Companion to Animal-Human History

The *Routledge Companion to Animal-Human History* provides an up-to-date guide for the historian working within the growing field of animal-human history. Giving a sense of the diversity and interdisciplinary nature of the field, cutting-edge contributions explore the practices of and challenges posed by

historical studies of animals and animal-human relationships. Divided into three parts, the Companion takes both a theoretical and practical approach to a field that is emerging as a prominent area of study. *Animals and the Practice of History* considers established practices of history, such as political history, public history and cultural memory, and how animal-human history can contribute to them. *Problems and Paradigms* identifies key historiographical issues to the field with contributors considering the challenges posed by topics such as agency, literature, art and emotional attachment. The final section, *Themes and Provocations*, looks at larger themes within the history of animal-human relationships in more depth, with contributions covering topics that include breeding, war, hunting and eating. As it is increasingly recognised that nonhuman actors have contributed to the making of history, *The Routledge Companion to Animal-Human History* provides a timely and important contribution to the scholarship on animal-human history and surrounding debates.

Studies in Victorian and Modern Literature

This book is both a celebration of the life and career of the eminent literary scholar, critic, and journalist John Sutherland and an extension of Sutherland's work in various fields, including nineteenth- and twentieth-century Anglo-American literature, the publishing industry, and its impact upon creativity and literary puzzles.

A Mystery from the Mummy-Pits

"This book recounts the detective work of the Houston Mummy Research Program as it investigates the mysterious Egyptian mummy of a man named Ankh-Hap. CT-scans reveal that the mummy has wasp nests in its skull, wooden poles within its wrappings, and a suspicious number of missing body parts. Clues inside the coffin take the investigation to a company in Rochester, N.Y. founded by Henry Augustus Ward. This businessman raided the mummy-pits of Egypt and sold whole bodies and body parts to the public. The book investigates mummy trafficking in America and the uses made of these human remains for amusement and the manufacture of medicine, paint, and other products. The trail next leads to Texas, where the mummy spent part of the twentieth century in a veterinarian's classroom before it was lost inside an abandoned campus restroom"--

Storying Multipolar Climes of the Himalaya, Andes and Arctic

This book initiates multipolar climate/clime studies of the world's altitudinal and latitudinal highlands with terrestrial, experiential, and affective approaches. Framed in the environmental humanities, it is an interdisciplinary, comparative study of the mutually-embodied relations of climate, nature, culture, and place in the Himalaya, Andes, and Arctic. Innovation-driven, the book offers multipolar clime case studies through the contributors' historical findings, ethnographic documentations, and diverse conceptualizations and applications of clime, an overlooked but returning notion of place embodied with climate history, pattern, and changes. The multipolar clime case studies in the book are geared toward deeper, lively explorations and demonstrations of the translatability, interchangeability, and complementarity between the notions of clime and climate. "Multipolar" or "multipolarity" in this book connotes not only the two polar regions and the tectonically shaped highlands of the earth but also diversely debated perspectives of climate studies in the broadest sense. Contributors across the twelve chapters come from diverse fields of social and natural sciences and humanities, and geographically specialize, respectively, in the Himalayan, Andean, and Arctic regions. The first comparative study of climate change in altitudinal and latitudinal highlands, this will be an important read for students, academics, and researchers in environmental humanities, anthropology, climate science, indigenous studies, and ecology.

The Meaning of the Library

The importance of the library, from ancient times to the digital era From Greek and Roman times to the digital era, the library has remained central to knowledge, scholarship, and the imagination. *The Meaning of the Library* is a generously illustrated examination of this key institution of Western culture. Tracing what the library has meant since its beginning, examining how its significance has shifted, and pondering its importance in the twenty-first century, notable contributors—including the Librarian of Congress and the former executive director of the HathiTrust—present a cultural history of the library. In an informative introduction, Alice Crawford sets out the book's purpose and scope, and an international array of scholars, librarians, writers, and critics offer vivid perspectives about the library through their

chosen fields. The Meaning of the Library will appeal to all who are interested in this vital institution's heritage and ongoing legacy.

Duchess of Death

Although she is the most popular novelist in history, with over two billion books sold worldwide, Agatha Christie lived a life shrouded in secrecy and fueled by curiosity. Nearly as notorious for her aversion to the press as she was for her 80 books and collections of short stories, Christie made no secret of her need for privacy. Utilizing over 5,000 previously unpublished letters, notes, and documents, award-winning biographer Richard Hack allows Christie to write again, 33 years after her death. Duchess of Death is her story, as full of romance, travel, wealth, and scandal as any mystery Christie ever crafted. There have been numerous biographies of the Queen of Crime, all of which claim to be definitive. However, Duchess of Death is the first to draw from such an enormous number of previously unpublished correspondence and notes, effectively establishing it as the most authoritative, penetrating look at the personal and literary life of Christie.

Why? Across the world, scientists have uncovered evidence for nine different causes. Some are in our biology, but most are in the way we are living today. Lost Connections offers a radical new way of thinking about this crisis. It shows that once we understand the real causes, we can begin to turn to pioneering new solutions – ones that offer real hope.

Crusoe's Books

This is a book about readers on the move in the age of Victorian empire. It examines the libraries and reading habits of five reading constituencies from the long nineteenth century: shipboard emigrants, Australian convicts, Scottish settlers, polar explorers, and troops in the First World War. What was the role of reading in extreme circumstances? How were new meanings made under strange skies? How was reading connected with mobile communities in an age of expansion? Uncovering a vast range of sources from the period, from diaries, periodicals, and literary culture, Bill Bell reveals some remarkable and unanticipated insights into the way that reading operated within and upon the British Empire for over a century.

Verbinding verbroken

Wat is de echte oorzaak van depressie en wat is een echte oplossing? Johann Hari lijdt al sinds zijn puberteit aan depressies, en begon ook al jong met het nemen van antidepressiva. Hem – en velen met hem – werd verteld dat zijn probleem werd veroorzaakt door een chemische onbalans in zijn hersenen. Eenmaal volwassen, en gewapend met sociaalwetenschappelijke kennis, begon hij te onderzoeken of dit wel klopt. Hij kwam terug met een radicaal ander verhaal over de oorzaken van onze pijn, en over hoe we onze weg terug kunnen vinden. Verbinding verbroken is een baanbrekend boek over de vraag wat ons nu écht ziek maakt, oplossingen aandraagt en onze kijk op depressie voorgoed verandert. 'Wijs, diepgaand en genereus: dit boek staat vol explosieve onthullingen over onze wanhoopsepidemie. [...] Hoe meer mensen dit boek lezen, hoe beter de wereld eraan toe zal zijn.' – Naomi Klein 'Dit is een verbijsterend boek, dat ons hele denken over een van de grote kwesties van deze tijd op de schop neemt. Hari stelt de grote vragen en geeft grote antwoorden – antwoorden die veel te lang genegeerd zijn. Je kunt de grote vloek van deze tijd niet doorgronden zonder dit boek.' – The Guardian 'Als je ooit neerslachtig bent geweest, of je verloren hebt gevoeld, dan zal dit verpletterende boek je leven

veranderen.' – Elton John 'Een geweldige en scherpe analyse van depressie en vervreemding.' – Hillary Clinton

Wilkie Collins

"1868, and bestselling author Wilkie Collins is hard at work on a new detective novel, *The Moonstone*. But he is weighed down by a mountain of problems his own sickness, the death of his mother, and, most pressing, the announcement by his live-in mistress that she has tired of his relationship with another woman and intends to marry someone else. His solution is to increase his industrial intake of opium and knuckle down to writing the book T. S. Eliot called the greatest English detective novel. Of Wilkie's domestic difficulties, not a word to the outside world: indeed, like his great friend Charles Dickens, he took pains to keep secret any detail of his menage. There's no doubt that the arrangement was unusual and, for Wilkie, precarious, particularly since his own books focused on uncovering such deeply held family secrets. Indeed, he was the master of the Victorian sensation novel, fiction that left readers on the edge of their seats as mysteries and revelations abounded. In this colourful investigative portrait, Andrew Lycett draws Wilkie Collins out from the shadow of Charles Dickens. Wilkie is revealed as a brilliant, witty, friendly, contrary and sensual man,

Elveszett kapcsolatok

Johann Hari *Elveszett kapcsolatok* című világsikerű könyvével olyan hiánypótló alkotás született, mely új és reménytelni irányokat szabhat a depresszió megértésében és kezelésében egyaránt. A díjnyertes újságíró és szerző beutazta a világot, hogy eltérő kultúrákban, különféle társadalmakban kutathassa, milyen okok rejlenek a globális szinten is egyre nagyobb méreteket öltő depresszió és szorongás jelensége mögött. A könyvében feltárt összefüggések ismeretében ki kell jelentenünk: mindaz, amit eddig a depresszióról és a szorongásról mondtak nekünk, tévedés volt. A gyógyszeripar megpróbálja elhíttetni a depressziósokkal: a baj veled van, a baj a fejedben van, tessék, itt a megoldás. Az *Elveszett kapcsolatok* elemi erővel irányítja a tekintetünket az igazságra: a depresszió és a szorongás életmódunkból, életvitelünkben táplálkozik, tünet csupán, ami rámutat arra, hogy valami nincs rendben az életünkben, és változtatnunk kell. Ne úgy tekintsünk magunkra, mint egy elromlott gépre, hanem mint egy olyan élőlényre, akinek valamilyen alapvető szükséglete – értelmes munka, tisztelet, biztos jövőkép, támogató közösség stb. – nem kerül kielégítésre. Az elszörc talán sokkoló felismeréseket követően a szerző a lehetséges megoldásokkal sem marad adósunk. Johann Hari világhírű újságíró és író már elszörc kötetével is óriási sikereket ért el, ám az *Elveszett kapcsolatokkal* a nemzetközi sikerlisták élére került. Maga is depressziós volt, és bár 17 éves kora óta kezelték, mindig is úgy érezte, hogy a tünetei leküzdésére folyamatosan felírt különféle antidepresszánsok csak ideig-óráig hoznak számára enyhülést. Ezért úgy döntött, megpróbál a probléma mélyére ásni és megérteni a betegsége mögött húzódó valódi okokat. Ennek a kutatómunkának az eredményét tartja kezében az olvasó.

The Man Who Invented Christmas

As uplifting as the tale of Scrooge itself, this is the story of how Charles Dickens revived the signal holiday of the Western world—now a major motion picture. Just before Christmas in 1843, a debt-ridden and dispirited Charles Dickens wrote a small book he hoped would keep his creditors at bay. His publisher turned it down, so Dickens used what little money he had to put out *A Christmas Carol* himself. He worried it might be the end of his career as a novelist. The book immediately caused a sensation. And it breathed new life into a holiday that had fallen into disfavor, undermined by lingering Puritanism and the cold modernity of the Industrial Revolution. It was a harsh and dreary age, in desperate need of spiritual renewal, ready to embrace a book that ended with blessings for one and all. With warmth, wit, and an infusion of Christmas cheer, Les Standiford whisks us back to Victorian England, its most beloved storyteller, and the birth of the Christmas we know best. *The Man Who Invented Christmas* is a rich and satisfying read for Scrooges and sentimentalists alike.

Jumbo and His Keeper

This is the first book in the "Circus, Carnival & Menagerie: A Series of Classic Works" series. This work was selected by scholars as being culturally important. While being reproduced from the original artifact, has been edited for modern reading. Aside from the editing of the actual text, historically relevant images have also been added to this classic work. The book itself contains a brief autobiography of Matthew Scott, who's resume includes working for the Zoological Society of London and more famously the keeper of the elephant Jumbo, as well as a biography of Jumbo himself. This is a great look into the

life of P.T. Barnum's most famous elephant. Circus, Carnival & Menagerie: A Series of Classic Works is a great series that offers high quality versions of past works at a great affordable price.

John Aubrey

'A truly remarkable writer, one of the most gifted non-fiction authors alive' Simon Schama, Financial Times SHORTLISTED FOR THE 2015 COSTA BIOGRAPHY AWARD This is the autobiography that John Aubrey never wrote. You may not know his name. Aubrey was a modest man, a gentleman-scholar who cared far more for the preservation of history than for his own legacy. But he was a passionate collector, an early archaeologist and the inventor of modern biography. With all the wit, charm and originality that characterises her subject, Ruth Scurr has seamlessly stitched together John Aubrey's own words to tell his life story and a captivating history of seventeenth-century England unlike any other. 'A game-changer in the world of biography' Mary Beard 'Ingenious' Hilary Mantel 'Irresistible' Philip Pullman

A Very Dangerous Woman

Moura Budberg: spy, adventurer, charismatic seductress and mistress of two of the century's greatest writers, the Russian aristocrat Baroness Moura Budberg was born in 1892 to indulgence, pleasure and selfishness. But after she met the British diplomat and secret agent Robert Bruce Lockhart, she sacrificed everything for love, only to be betrayed. When Lockhart arrived in Revolutionary Russia in 1918, his official mission was Britain's envoy to the new Bolshevik government, yet his real assignment was to create a network of agents and plot the downfall of Lenin. Lockhart soon got to know Moura and they began a passionate affair, even though Moura was spying on him for the Bolsheviks. But when Lockhart's plot unravelled, she would forsake everything in an attempt to protect him from Lenin's secret police. Fleeing to a life of exile in England and taking a string of new lovers, including Maxim Gorky and H. G. Wells, Moura later spied for Stalin and for Britain amidst the web of scandal surrounding the Cambridge spies. Through all this she clung to the hope that Lockhart would finally return to her. Grippingly narrated, this is the first biography of Moura Budberg to use the full range of previously unexamined letters, diaries and documents. An incredible true story of passion, espionage and double crossing that encircled the globe, A Very Dangerous Woman brings her extraordinary world vividly to life with dramatic resonances to rival the most sensational novel.

Defending Middle-Earth

A scholar explores the ideas within The Lord of the Rings and the world created by J. R. R. Tolkien: "A most valuable and timely book" (Ursula K. Le Guin, Los Angeles Times—bestselling author of Changing Planes). What are millions of readers all over the world getting out of reading the Lord of the Rings trilogy? Defending Middle-earth argues, in part, that the appeal for fans goes far deeper than just quests and magic rings and hobbits. In fact, through this epic, Tolkien found a way to provide something close to spirit in a secular age. This thoughtful book focuses on three main aspects of Tolkien's fiction: the social and political structure of Middle-earth and how the varying cultures within it find common cause in the face of a shared threat; the nature and ecology of Middle-earth and how what we think of as the natural world joins the battle against mindless, mechanized destruction; and the spirituality and ethics of Middle-earth—for which the author provides a particularly insightful and resonant examination. Harriet Martineau's Autobiography

Moura, the Baroness Budberg, hailed from the Russian aristocracy and lived in the lap of luxury, until the Bolshevik Revolution forced her to live by her wits.

An examination of Gilbert and Sullivan's comic operas, and how parody was used in the culture wars of late-nineteenth-century England.

Gilbert and Sullivan

"I never travel without my diary. One should always have something sensational to read in the train" (Oscar Wilde). Literature has always treated the sensational: crime, passion, violence, trauma, catastrophe. It has frequently caused, or been at the centre of scandal, censorship and moral outrage. But literature is also intricately connected with sensation in ways that are less well understood. It mediates between the sensory world, perception and cognition through rich modes of thought allied with perceptions and emotions and makes sense of profound questions that transcend the merely rational. And at its boundaries, literature engages with the uncanny realm in which knowledge, presentiment or feeling is prior to articulation in words. This book reviews the sensational dimension of literature according to themes that have too often been left to one side. Literary theory has often privileged perception over sensation, cognition over raw experience, in focusing on semantics rather than sense. The essays in this volume cover literature and sensation in all its facets, drawing upon a range of approaches from evolutionary theory, theories of mind, perception, philosophy and aesthetics. The works considered are drawn from various literary periods and genres, from the nineteenth century to contemporary prose and poetry, including experiments in new media. Literature and Sensation offers detailed and subtle readings of literature according to the sensations they represent, incite, or evoke in us, and will be of interest to readers of literary theory, ethics and aesthetics, and theorists of new media art.

Literature and Sensation

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

Arguing that neo-Victorian fiction enacts and celebrates cultural memory, this book uses memory discourse to position these novels as dynamic participants in the contemporary historical imaginary.

History and Cultural Memory in Neo-Victorian Fiction

"En av de bästa böcker jag någonsin har läst, den är som en thriller med stegrad spänning, full av fascinerande samtal med forskare och människor som drabbats av depressioner." Smålandsposten Johann Hari har lidit av depression sedan han var liten, och började äta anti-depressiv medicin i tonåren. Men varje år behövde dosen ökas, och Johann började fundera över orsakerna. Så Johann åkte ut på en tre år och över sextusen mil lång resa. Han gjorde över tvåhundra intervjuer med några av världens mest framstående samhällsvetare, men också med helt vanliga människor som befunnit sig på botten och tillfrisknat. Han hamnade på alla möjliga ställen som en amish-by i Indiana, ett hyreshus i Berlin som gjort uppror, en brasiliansk stad som förbjudit reklam och ett laboratorium i Baltimore som arbetar på ett helt oväntat sätt. Och överallt gjorde han samma upptäckt. Det finns en gemensam orsak till att vi människor mår dåligt, en orsak som inte bara har med kemiska obalanser i hjärnan att göra, utan med det liv vi lever.

'Generous, enjoyable and well informed.' Observer '500 expertly potted plots and personal comments on a wide range of pop and proper prose fiction.' The Times

Ranging all the way from Aaron's Rod to Zuleika Dobson, via The Devil Rides Out and Middlemarch, literary connoisseur and sleuth John Sutherland offers his very personal guide to the most rewarding, most remarkable and, on occasion, most shamelessly enjoyable works of fiction ever written. He brilliantly captures the flavour of each work and assesses its relative merits and demerits. He shows how it fits into a broader context and he offers endless snippets of intriguing information: did you know, for example, that the Nazis banned Bambi or that William Faulkner wrote As I Lay Dying on an upturned wheelbarrow; that Voltaire completed Candide in three days, or that Anna Sewell was paid £20 for Black Beauty? It is also effectively a history of the novel in 500 or so wittily informative, bite-sized pieces. Encyclopaedic and entertaining by turns, this is a wonderful dip-in book, whose opinions will inform and on occasion, no doubt, infuriate.

'Anyone hooked on fiction should be warned: this book will feed your addiction.' Mail on Sunday 'A dazzling array of genres, periods, styles and tastes... chatty, insightful, unprejudiced (but not uncritical) and wise.' Times Literary Supplement

How to be Well Read

Lady Hyegyong's memoirs, which recount the chilling murder of her husband by his father, form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece, depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate, fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, The Memoirs of Lady Hyegyong is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.

The Memoirs of Lady Hyegyong

This memoir was first published in 1930 and describes the author's school days, his time in the Army, his experiences as a war correspondent and his first years as a member of Parliament.

My Early Life

Pondering the town he had invented in his novels, Anthony Trollope had 'so realised the place, and the people, and the facts' of Barset that 'the pavement of the city ways are familiar to my footsteps'. After his novels end, William Thackeray wonders where his characters now live, and misses their conversation. How can we understand the novel as a form of artificial reality? Timothy Gao proposes a history of virtual realities, stemming from the imaginary worlds created by novelists like Trollope, Thackeray, Charlotte Bronte, and Charles Dickens. Departing from established historical or didactic understandings of Victorian fiction, Virtual Play and the Victorian Novel recovers the period's fascination with imagined places, people, and facts. This text provides a short history of virtual experiences in literature, four studies of major novelists, and an innovative approach for scholars and students to interpret realist fictions and fictional realities from before the digital age. This title is also available as Open Access on Cambridge Core.

Virtual Play and the Victorian Novel

Victorian literature is rife with scenes of madness, with mental disorder functioning as everything from a simple plot device to a commentary on the foundations of Victorian society. But while madness in Victorian fiction has been much studied, most scholarship has focused on the portrayal of madness in women; male mental disorder in the period has suffered comparative neglect. Valerie Pedlar corrects this imbalance in The 'Most Dreadful Visitation.' This extraordinary study explores a wide range of Victorian writings to consider the relationship between the portrayal of mental illness in literary works

and the portrayal of similar disorders in the writings of doctors and psychologists. Pedlar presents in-depth studies of Dickens's *Barnaby Rudge*, Tennyson's *Maud*, Wilkie Collins's *Basil*, and Trollope's *He Knew He Was Right*, considering each work in the context of Victorian understandings--and fears--of mental degeneracy. An Open Access edition of this work is available on the OAPEN Library.

The Most Dreadful Visitation

From the Sunday Times bestselling author Penny Vincenzi, *NO ANGEL* is the first novel in the acclaimed *Spoils of Time* trilogy. 'Penny Vincenzi dazzlingly combines the old-fashioned virtues of gripping storytelling with the up-to-the-minute contemporary feel for emotional depth and insight into the lives of the characters. She is a supreme stylist and clever writer. Reading her is an addictive experience'-Elizabeth Buchan. In pre-war London, Lady Celia Lytton is the perfect host. Beautiful, intelligent and determined, she throws glittering parties, publishes bestselling books, and enjoys her young family and loving husband. But there are tragedies her family will not escape: the Titanic, the First World War, the flu epidemic. And beneath their perfect image, the Lyttons cannot ignore the changing world around them. In the shattering aftermath of the War, Celia is beginning to understand that there will be a price to pay for the life she has chosen, that is greater than she could ever have imagined...

No Angel

Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin

I Know Why the Caged Bird Sings

Visitors to the Arctic enter places that have been traditionally imagined as otherworldly. This strangeness fascinated audiences in nineteenth-century Britain when the idea of the heroic explorer voyaging through unmapped zones reached its zenith. *The Spectral Arctic* re-thinks our understanding of Arctic exploration by paying attention to the importance of dreams and ghosts in the quest for the Northwest Passage. The narratives of Arctic exploration that we are all familiar with today are just the tip of the iceberg: they disguise a great mass of mysterious and dimly lit stories beneath the surface. In contrast to oft-told tales of heroism and disaster, this book reveals the hidden stories of dreaming and haunted explorers, of frozen mummies, of rescue balloons, visits to Inuit shamans, and of the entranced female clairvoyants who travelled to the Arctic in search of John Franklin's lost expedition. Through new readings of archival documents, exploration narratives, and fictional texts, these spectral stories reflect the complex ways that men and women actually thought about the far North in the past. This revisionist historical account allows us to make sense of current cultural and political concerns in the Canadian Arctic about the location of Franklin's ships.

Hari sufrió de depresión desde niño y comenzó a tomar antidepresivos cuando era adolescente. Como a toda su generación, le dijeron que la causa de su problema era un desequilibrio químico en su cerebro. Pero años más tarde comenzó a investigar y aprendió que casi todo lo que nos han dicho sobre la depresión y la ansiedad es falso. Viajando por todo el mundo, Hari descubrió que los científicos sociales estaban descubriendo evidencias de que la depresión y la ansiedad no son causadas por un desequilibrio químico en nuestro cerebro, sino que son en gran parte consecuencia de problemas que tienen que ver con la forma en que vivimos hoy en día. Una vez identificadas nueve causas reales de depresión y ansiedad, Hari se dirigió a algunos científicos, que proponen soluciones radicalmente diferentes y que parecen funcionar. Conexiones perdidas nos lleva a un debate muy diferente sobre

la depresión y la ansiedad, que muestra cómo, juntos, podemos acabar con esta epidemia. Un viaje épico que cambiará nuestra forma de pensar acerca de una de las crisis más grandes de nuestra cultura actual.
