Intro

When you're one step away from changing the trajectory of your life

The difference of stacking one more day to completely change yourself

If you can survive the temporary, there's growth at the end of every phase
Separate yourself from the outcome and just be present in the moment
"You only understand the power of one day when you're threatened with never having another one."
What's your 'one more' that you're working on right now?
"Just don't quit for one more day and see how it goes."
Why should you start doing one more thing to achieve what you think you truly deserve?
Make it a habit to always ask yourself, "What matters to me now?"
Don't discount your own greatness because we all are born to do something great

Intro

You're often asking me about my career history, well here it is!
The #1 piece of advice to remember before you reinvent your life.
90% of the questions coming into my inbox are about this.
What does reinvention mean anyway?
This is my favorite metaphor when it comes to demystifying life's journey.
When you are stuck or you're going through hell, do this first.
What happens when life doesn't go the way you expected it to?
When sh*t happens in your life, please don't do this.
Embrace these two truths about life, you'll tap into your power.
Do this activity to start loving the most important person in your life.
What do you do when your life feels "blah" and uninspiring?
Don't miss these science-backed steps to create more excitement!
I texted this study from Laura Vanderkam to all my parent friends.

Your relationship to time is always going to be about this.

This study with university students doesn't make sense logically.
