The Idler (Issue 39) Lie Back and Protest

Is Protest worth the effort? This new issue of THE IDLER looks at the history and the present of Protest movements and asks whether there is any point in taking to the streets, or whether a more effective form of revolt might be to make a revolution in your everyday life. TOM HODGKINSON argues that anti-war marches are futile and that much more can be achieved by lying in bed doing nothing... JAY GRIFFITHS meets the Papuan tribe who protested against their oppressors by eating them... we celebrate the example of JOHN and YOKO who lay in bed for world peace... we present a conversation with grand man of Britpop, MR JARVIS COCKER... PENNY RIMBAUD reveals the meaning of life... DAN KIERAN breaks some laws and CORINNE MEIER meets three slacking film directors. Yes, THE IDLER is revolting. With new writing from TOBY LITT, MICHAEL SMITH and ALBERT COSSERY, the 93-year-old Parisian recluse, it must be our punkest issue ever.

The Idler 41: QI Issue

We are born free but are everywhere in chains. Our culture needs some fresh air. We are boring ourselves to death by re-packaging the same flavourless pap based on a patronising and second-hand version of what we think other people want. Meanwhile, out there, the world is as complex, beautiful and mysterious and ever. Which is why QI and The Idler have joined forces to celebrate curiosity. As Dorothy Parker once sagely noted, curiosity is the cure for boredom, but there is no cure for curiosity. It is endless and free, unlike television, wine or the water in our taps. It is more pleasurable and reliable than sex. It's what makes us human. Your hosts are Mr John Lloyd, founder of QI and the producer of legendary television shows including Blackadder and Spitting Image, and Mr John Mitchinson, co-creator with Mr Lloyd of The Books of General Ignorance (General and Animal). They have filled every spare inch with the absurd and curious learning that fans of QI will no and expect. In addition, there is the first ever published extract from Mr Lloyd's 'lost' novel, fifteen never-before-seen, spanking-brand-new General Ignorance questions, the QI prospectus for a New School, Mr Justin Pollard's list of history's wildest stories and William Morris is rescued from ye olde gift shoppes and

restored as a revolutionary hero. So, read on, and help us overthrow the tyrant boredom. You have nothing to lose but your chains.

A Bibliography of Labor History in Newsfilm

Explores the central role the aesthetic played in energising the massive mobilisations of young people, the disaffected, the middle classes and the apolitical silent majority in the North African and Middle Eastern uprisings with protest movements such as Occupy.

How to be Idle is Tom Hodgkinson's entertaining guide to reclaiming your right to be idle. As Oscar Wilde said, doing nothing is hard work. The Protestant work ethic has most of us in its thrall, and the idlers of this world have the odds stacked against them. But here, at last, is a book that can help. From Tom Hodgkinson, editor of the Idler, comes How to be Idle, an antidote to the work-obsessed culture which puts so many obstacles between ourselves and our dreams. Hodgkinson presents us with a laid-back argument for a new contract between routine and chaos, an argument for experiencing life to the full and living in the moment. Ranging across a host of issues that may affect the modern idler - sleep, the world of work, pleasure and hedonism, relationships, bohemian living, revolution - he draws on the writings of such well-known apologists for idleness as Dr Johnson, Oscar Wilde, Robert Louis Stevenson and Nietzsche. His message is clear: take control of your life and reclaim your right to be idle. 'Well written, funny and with a scholarly knowledge of the literature of laziness, it is both a book to be enjoyed at leisure and to change lives' Sunday Times 'In his life and in this book the author is 100 per cent on the side of the angels' Literary Review 'The book is so stuffed with wisdom and so stuffed with good jokes that I raced through it like a speed freak' Independent on Sunday Tom Hodgkinson is the founder and editor of The Idler and the author of How to be Idle, How to be Free, The Idle Parent and Brave Old World. In spring 2011 he founded The Idler Academy in London, a bookshop, coffeehouse and cultural centre which hosts literary events and offers courses in academic and practical subjects - from Latin to embroidery. Its motto is 'Liberty through Education'. Find out more at www.idler.co.uk.

A New and Complete Concordance Or Verbal Index to Words, Phrases, & Passages in the Dramatic Works of Shakespeare with a Supplementary Concordance to the Poems

This innovative, global feminist analysis of work and politics examines the diverse problems and related protests of women and men who labor to make ends meet in a rapidly-changing world. Using vivid examples from around the world, it reveals how "globalization" is reshaping social institutions and lives. Fast Forward explores how businesses and states reshaped and redistributed work around the world during the last 30 years of "globalization," often with adverse consequences. Within this fast-moving context, laboring people today engage in work outside of formal employment, try to obtain survival resources, mount a diverse array of often women-centered protests against firms and states, and try--on their own terms--to reinvent work and democratic political practices. Portraying the human face of global change, Fast Forward shows how overlapping social movements wrestle with economic and political marginalization, and initiate highly diverse, but related attempts to change the way the world works.

How to be Idle

The Idler team believe that idleness is unjustly criticized in modern society when it is, in fact, a vital component of a happy life. This new issue of the Idler looks at man, nature, and the earth and reveals that doing nothing is the only way to save the planet. Pieces include Richard Benson on growing a wild flower meadow and noted Gaia scientist Stephen Harding on why we need to stop interfering with nature."

Democracy and Education

Honors Minnesotans who faced war with equal amounts of determination and dread, courage and fear, in places as far away as the Pacific and Europe and as close as our hometown.

Fast Forward

Networks of Outrage and Hope is an exploration of the new forms of social movements and protests that are erupting in the world today, from the Arab uprisings to the indignadas movement in Spain, from the Occupy Wall Street movement to the social protests in Turkey, Brazil and elsewhere. While these and similar social movements differ in many important ways, there is one thing they share in common: they are all interwoven inextricably with the creation of autonomous communication networks supported by the Internet and wireless communication. In this new edition of his timely and important book, Manuel Castells examines the social, cultural and political roots of these new social movements, studies their innovative forms of self-organization, assesses the precise role of technology in the dynamics of the movements, suggests the reasons for the support they have found in large segments of society, and probes their capacity to induce political change by influencing people's minds. Two new chapters bring the analysis up-to-date and draw out the implications of these social movements and protests for understanding the new forms of social change and political democracy in the global network society.
