The Death of Socrates

"'Tell us, Delphic Oracle, who is the wisest man in all of Greece?' So begins The Death of Socrates. No mortal man is wiser than Socrates, who, on his daily walks through Athens, talks to all the people he meets. When the person he talks to takes himself to be very wise, Socrates asks so many questions that the person ends up admitting he knows nothing. When he runs into people who know little, Socrates sets them on the way to wisdom. But not everyone shares Socrates's love for the truth. When the people of Athens put him on trial for his ceaseless questioning, how will he find the courage to continue to speak the truth?" from publisher's website.

The Macho Man's Drinkbook

Features various drinks.

Diogenes the Dog-Man

At its most basic, philosophy is about learning how to think about the world around us. It should come as no surprise, then, that children make excellent philosophers! Naturally inquisitive, pint-size scholars need little prompting before being willing to consider life's "big questions," however strange or impractical. Plato & Co. introduces children--and curious grown-ups--to the lives and work of famous philosophers, from Socrates to Descartes, Einstein, Marx, and Wittgenstein. Each book in the series features an engaging--and often funny--story that presents basic tenets of philosophical thought alongside vibrant color illustrations. In Diogenes the Dog-Man, the philosopher Diogenes not only admires the honesty of dogs, he has actually become one--sleeping, eating, and lifting his leg to pee wherever he chooses! Best of all, unlike humans, who dupe one another as to their true feelings, Diogenes the Dog-Man is free to bark his displeasure and even bite his adversaries in the calves--even if they happen to be Alexander the Great. Initially, the citizens gathered in the Agora think Diogenes is mad. Does he have rabies? But it soon becomes clear that we can all learn a thing or two from dogs about how to live a simple life.

In *Make Yourself at Home*, young readers are introduced to ten extraordinary types of homes. Find out what it's like to live underground or floating on a canal. Open up one of the two double gatefolds to see whether having hundreds of rooms in a castle is as exciting as it sounds, or whether a windmill is more your style. Any kind of house can be a home; learn about them all and choose your favorite!

Moby Dick Retold For Kids (Beginner Reader Classics)

The hunt for a gigantic whale. You can't get more exciting than that. Herman's Melville's "Moby Dick" has long been considered one of the greatest American novels ever wrote. If you want to introduce your children to the classic work, then this is the perfect book. It takes the structure and plot of Melville's work and puts it into a language and format that younger kids will understand. KidLit-O's newest series helps introduce younger readers to classic works of literature by retelling them as beginning reader chapter books.

The Smartypants Guidebook

What's the point in being scolded if you can't laugh about it? To celebrate the 120th birthday of the illustrious Petit Bateau brand, Elisabeth Brami finds rhymes for nonsense and Serge Bloch's drawings are pure joy and simplicity. Impish spirits are invited to reminisce about their past mischievous deeds, and maybe to test new ones.

The Odyssey

Fresh from his triumphs in the Trojan War, Odysseus, King of Ithaca, wants nothing more than to return home to his family. Instead, he offends the sea god, Poseidon, who dooms him to years of shipwreck and wandering. Battling man-eating monsters, violent storms, and the supernatural seductions of sirens and sorceresses, Odysseus will need all his strength and cunning--and a little help from Mount Olympus--to make his way home and seize his kingdom from the schemers who seek to wed his queen and usurp his throne. Award-winning graphic artist Gareth Hinds masterfully reinterprets a story of heroism, adventure, and high action that has been told and retold for more than 2,500 years--though never quite like this. With bold imagery and an ear tuned to the music of Homer's epic poem, Gareth Hinds reinterprets the ancient classic as it's never been told before.

Born Reading

A program for parents and professionals on how to raise kids who love to read, featuring interviews with childhood development experts, advice from librarians, tips from authors and children's book publishers, and reading recommendations for kids from birth up to age five. Every parent wants to give his or her child a competitive advantage. In *Born Reading*, publishing insider (and new dad) Jason Boog explains how that can be as simple as opening a book. Studies have shown that interactive reading—a method that creates dialogue as you read together—can raise a child's IQ by more than six points. In fact, interactive reading can have just as much of a determining factor on a child's IQ as vitamins and a healthy diet. But there's no book that takes the cutting-edge research on interactive reading and shows parents, teachers, and librarians how to apply it to their day-to-day lives with kids, until now. *Born Reading* provides step-by-step instructions on interactive reading and advice for developing your child's interest in books from the time they are born. Boog has done the research, talked with the leading experts in child development, and worked with them to compile the "Born Reading Essential Books" lists, offering specific titles tailored to the interests and passions of kids from birth to age five. But reading can take many forms—print books as well as ebooks and apps—and *Born Reading* also includes tips on how to use technology the right way to help (not hinder) your child's intellectual development. Parents will find advice on which educational apps best supplement their child's development, when to start introducing digital reading to their child, and how to use tech to help create the readers of tomorrow. *Born Reading* will show anyone who loves kids how to make sure the children they care about are building a powerful foundation in literacy from the beginning of life.

Gillian Cross's brilliant retelling and Neil Packer's glorious illustrations bring to life Homer's Iliad, one of the greatest stories ever told. The team behind *The Odyssey* (2012) now tell the story of the Trojan War. Cross's vivid adaptation begins with a beauty contest: the prize, a golden apple. In return for securing her victory, the goddess Aphrodite helps Prince Paris abduct Helen, wife to the king of Sparta. Enraged, the king and his Greek allies wage war on the Trojans. Nine years later, the fighting still rages on, but the Greeks are beginning to quarrel among themselves - Achilles and Agamemnon's petty argument has dire consequences for everyone caught in the crossfire. Neil Packer's pictures capture the beauty and remoteness of the setting, and bring a profound humanity to one of the finest literary achievements of Greek civilization.
