Armed for Greatness

Armed for Greatness is the story of Jessica, a high school student who's learning to trust herself to make the right choices. Later she becomes a mother who has difficult decisions to make in order to live the life she dreams of for herself and her children. This book will teach you how to improve your life by changing how you think about yourself and your goals. Through compassion and understanding, this positive guide provides you with the tools to reach your dreams. In Armed for Greatness, you will:

- * Learn to recognize your self-defeating patterns and how to change them into self-fulfilling ones.*
- Give yourself tools to understand your thoughts and where they come from, to heal your pain, and to achieve your dreams, whatever they are.*
- Learn to identify and deal with bullying and abuse, find the self-confidence to step out of the role of victim, and become an empowered person.*
- Know how to attract to you the people, opportunities and things that will bring you peace, joy and love.*
- Learn how to identify the beliefs that are hurting you and how to clear them.

Promise of Greatness

For years, a maxim of the United States Army was "Be all that you can be." While that familiar slogan may sound simple, there is great depth to the meaning behind it. In Achieving Personal Greatness, Tim Lavender offers his definition of "personal greatness" through three basic laws, and then shares the seven guiding principles for achieving it. His practical guide explores ten powerful keys for releasing you potential, including: Get Your Cart Before the Horse, Reach Inside the Invisible World, Embrace a Lifetime of Learning,, and Seek to Influence Rather than Control. Finally, Lavender shares te five commitments that are necessary for producing results. For those desiring to explore their untapped potential in all areas of life, Achieving Personal Greatness is an ideal resource.

Achieving Personal Greatness

Greatness has an undeniable dark side; something that many people seem to neglect. You may see celebrities AFTER they are successful and admire their 'perfect' lives, philosophy and decisions - but have you ever considered what kind of steps they REALLY took to achieve their fame? This book is a `no holds barred' look at what it REALLY takes. It gives you the primary principles of how to adopt a good mindset, work efficiently, establish a sense of discipline and more! In addition, you will also learn how to avoid the most common mistakes that can negatively impact your journey. 7 principles you need to learn to follow, and 7 mistakes you should know to avoid, they are the keys when trying to create successful and great future for yourself. And this book will help you to do just that! Greatness - The Dark Side - gives you clarity about all these aspects, critically evaluating over 70 biographies - using them to draw effective conclusions and solutions, which will help you take the right approaches to success, as well as aiding you in avoiding mistakes that others have made, so that you can achieve positive results the RIGHT way!

Russian Energy Policy and Military Power

For nearly two and a half millennia, Alexander the Great has loomed over history as a legend—and an enigma. Wounded repeatedly but always triumphant in battle, he conquered most of the known world, only to die mysteriously at the age of thirty-two. In his day he was revered as a god; in our day he has been reviled as a mass murderer, a tyrant as brutal as Stalin or Hitler. Who was the man behind the mask of power? Why did Alexander embark on an unprecedented program of global domination? What accounted for his astonishing success on the battlefield? In this luminous new biography, the esteemed classical scholar and historian Guy MacLean Rogers sifts through thousands of years of history and myth to uncover the truth about this complex, ambiguous genius. Ascending to the throne of Macedonia after the assassination of his father, King Philip II, Alexander discovered while barely out of his teens that he had an extraordinary talent and a boundless appetite for military conquest. A virtuoso of violence, he was gifted with an uncanny ability to visualize how a battle would unfold, coupled with devastating decisiveness in the field. Granicus, Issos, Gaugamela, Hydaspes—as the victories mounted, Alexander's passion for conquest expanded from cities to countries to continents. When Persia, the greatest empire of his day, fell before him, he marched at once on India, intending to add it to his holdings. As Rogers shows, Alexander's military prowess only heightened his exuberant sexuality. Though his taste for multiple partners, both male and female, was tolerated, Alexander's relatively enlightened treatment of women was nothing short of revolutionary. He outlawed rape, he placed intelligent women in positions of authority, and he chose his wives from among the peoples he conquered. Indeed, as Rogers argues, Alexander's fascination with Persian culture, customs, and sexual practices may have led to his downfall, perhaps even to his death. Alexander emerges as a charismatic and surprisingly modern figure—neither a messiah nor a genocidal butcher but one of the most imaginative and daring military tacticians of all time. Balanced and authoritative, this brilliant portrait brings Alexander to life as a man, without diminishing the power of the legend.

Greatness - The Dark Side -

This is an examination of how the political design for restoring Russia's 'greatness' has been shaped by the increase of its profile as a key energy supplier and the continuing decline of its military might.

Alexander

The electrifying story of Abraham Lincoln's rise to greatness during the most perilous year in our nation's history As 1862 dawned, the American republic was at death's door. The federal government appeared overwhelmed, the U.S. Treasury was broke, and the Union's top general was gravely ill. The Confederacy—with its booming economy, expert military leadership, and commanding position on the battlefield—had a clear view to victory. To a remarkable extent, the survival of the country depended on the judgment, cunning, and resilience of the unschooled frontier lawyer who had recently been elected president. Twelve months later, the Civil War had become a cataclysm but the tide had turned. The Union generals who would win the war had at last emerged, and the Confederate Army had suffered the key losses that would lead to its doom. The blueprint of modern America—an expanding colossus of industrial and financial might—had been indelibly inked. And the man who brought the nation through its darkest hour, Abraham Lincoln, had been forged into a singular leader. In *Rise to Greatness*, acclaimed author David Von Drehle has created both a deeply human portrait of America's greatest president and a rich, dramatic narrative about our most fateful year.

Russian Energy Policy and Military Power

"We are all worms. But I do believe I am a glow-worm." --Churchill Winston Churchill's inspiring leadership in the Second World War once made him above criticism. In recent years his record has come under attack from revisionists. In *Churchill: A Study in Greatness* one of Britain's most distinguished historians rebuts these charges and makes sense of this extraordinary man and his long controversial, colourful, contradictory and heroic career. Geoffrey Best brings out both his strengths and his weaknesses, looking past the many received versions of Churchill in a biography that balances the private and the public man and offers a clear insight into Churchill's greatness. Smith, Jr. Bestselling Author of 'Keep Walking'

CHURCHILL

Uncovers the distinctive place in history held by Cromwell, and throws light on his character and accomplishments.

The Road to Your Best Self

Even with enormous potential, most people set out unequipped to achieve their goals and dreams. Just as there are laws that govern nature, there are also laws that govern performance and achievement. Unfortunately, people are either unaware of them, and therefore do not align themselves accordingly, or they simply are not applying them consistently. As a result, many people seek to achieve goals, but find that the results they desire constantly elude them. The reality is that you have greatness within. Your potential is enormous. However, in order to unleash your potential and achieve your goals, you must understand and apply the governing laws that turn dreams into reality. There are proven laws of success that starts with the way you think. This book provides simple strategies and tactics for achieving success. Over the last few hundred years of recorded history, the common denominators that lead to personal achievement have consistently surfaced. By changing your thinking about yourself and by applying the 13 laws within this book, you can begin making your goals a reality. Within the pages of this book are powerful stories and examples of success and failure that will inspire all who read them. TJ shows you what habits must be formed and what steps must be taken to achieve any goal you set. Simple and concise, "If You Think You Can!" is a source that will help you achieve whatever you want in life.

7 Steps to Greatness

Federico Chabod (1901-1960) was one of Italy's best-known historians, noted for his study of Italian history in a European context. This is the first English translation of his most important book. Although he carried out his extensive archival research for this work from 1936 until 1943, the fall of fascism and Chabod's active participation in the Resistance delayed its completion. When it was published in 1951, it was immediately hailed as a masterpiece. Chabod intended to write a new kind of diplomatic history--one in which political history is seen as part of a larger historical whole. He does not present a detailed chronological account of Italian foreign policy during the period studied, but rather the "moral and material" underpinnings of that policy. In fact, he crafts a highly developed portrait of an age, with the real subjects being the Italian state and society, the ruling class and political culture. This work offers readers a superb picture of post-Risorgimento Italy and an outstanding example of Chabod's historiographical method. Originally published in 1996. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Greatness of Oliver Cromwell

This examination of German texts written about World War I offers an understanding of the relationship between culture and warfare. It focuses not only on the literary voices of German authors, but also on the wartime agencies, institutions and individuals that produced material during the War.

Personal examples, client case studies, and profiles of highly successful individuals demonstrate how the process works and how it helps individuals live into greatness.

Italian Foreign Policy

"The Life of Napoleon Bonaparte" in 4 volumes is a comprehensive and meticulously written biographical account of the most notable French statesman and military leader. Napoleon Bonaparte (1769-1821) became famous as an artillery commander during the French Revolution. He led many successful campaigns during the French Revolutionary Wars and was Emperor of the French as Napoleon I from 1804 until 1814 and again briefly in 1815 during the Hundred Days. He dominated European and global affairs for more than a decade while leading France against a series of coalitions during the Napoleonic Wars. He won many of these wars and a vast majority of his battles, building a large empire that ruled over much of continental Europe before its final collapse in 1815. Napoleon is considered one of the greatest commanders in history, and his wars and campaigns are studied at military schools worldwide. His political and cultural legacy has made him one of the most celebrated and controversial leaders in human history.

Literature at War, 1914-1940

These unsung heroes from World War II drove the trucks that supplied the American Army's in Europe. Three out of four of these men were African-American. After the Normandy campaign, a supply crisis arose, as the Allies pursued the German army across France and closer to Germany. Due to the destruction of the French rail and road network, and the fierce German defense of the French ports,

a supply crisis quickly arose. The American army's outran their supplies. A solution had to be found quickly. Enter the Red Ball Express. All heroes don't wear capes. Some drive trucks.

Military Review

On May 3, 1861, Illinois Governor Richard Yates appointed a Mexican War veteran with Democratic sympathies and southern ties to be chief mustering officer at Camp Yates in Springfield. And so began Ulysses S. Grant's reluctantly revived military career. Over the next three years, Grant would have a chance to display a myriad of talents few suspected, including a remarkable penchant for organization, decided skill at written communication and a quick understanding of military potential. By March 1864, Grant had risen to lieutenant general, a rank last held by George Washington. This biography details the three years which saw Ulysses S. Grant's extraordinary rise from mediocre shop clerk to general-in-chief of the U.S. Army. Beginning with Grant's work at his family's leather shop in Galena, Illinois, it records his re-entry into a military life as a volunteer from Illinois. Grant's most spectacular campaigns, including Vicksburg and Chattanooga, are discussed in depth. Special emphasis is placed on events such as politicking, rumors, and intrigue which took place between the various battles. Other topics include Grant's personal qualities and background, his extraordinary good fortune and the general's informal and unorthodox command style. The work is indexed.

The reign of Harold and the interregnum. 2d ed., rev. 1875

A.P. Wavell's two-volume biography of Allenby recounts the study of a remarkable and innovative soldier. Commencing with Allenby's formative years in the South African campaigns alongside such contemporaries as Haig, Smith-Dorrien, Plumer, Rawlinson and Gough, Wavell moves on in *Allenby: A Study in Greatness* to analyze his subject's role as a Commander of the Third Army in France, where he became known as the last Cavalry General. Allenby, however, was always prepared to accommodate new ideas and it was partly this adaptability which led to his transfer to the Egyptian command in 1917. It was in this theatre of operations that he planned and saw through his brilliant campaigns in Palestine and Syria upon which his fame as a soldier rests.

Portraits in Greatness

This is more than just a book on leadership. It shows how you can take your first steps towards greatness, both personally and professionally as one cannot exist without the other. As our world changes, so must you. As others seek to take control, so must you fight to take it back. It is up to you to plan your direction with the gifts you have been blessed with, have been burdened with or have struggled for. This book is a unique combination of practical step by step guidance woven together by profound philosophical insights, and it is the result of over four decades of hard-won experience and training in business, government and the military. It describes with uncommon clarity the process of becoming a Real Leader. It will help you reach your highest potential so that you can inspire others to follow you, to harness and focus their talents in order to create a better life, a better nation and a better world.

The History of the Norman Conquest of England: The reign of Harold and the interregnum. 1873

The World Book of Greatness is the first ever and only book that documents great people in the world. This book, which is like the "Guinness World Records" Book of Greatness, was invented in 2020 by Professor Patrick Businge: the Founding Chancellor of Greatness University. This prestigious book is curated by Greatness University: the world's first institution dedicated to discovering, developing, delivering, sustaining, and celebrating greatness in the world. Induction into the World Book of Greatness is by nomination and upon meeting the criteria set by Greatness University. For more information, visit www.greatnessuniversity.co.uk

Journal of the Military Service Institution of the United States

Ordinary People Exhibiting Extraordinary Greatness is a heartfelt exhortation for all people to accept Jesus Christ and use their God-given gifts, talents, and abilities in conjunction with their spiritual character to edify mankind and glorify God. The book begins by asking, "Who are the ordinary people?" Next, it explains that gifts, talents, and abilities from God make ordinary people extraordinary. Followed by discussions on true greatness in the eyes of God, spiritual character, natural fruit and the correlation between these concepts are discussed. This is followed by biblical examples of Rahab, Ananias, and

Mordecai, who exhibited extraordinary greatness, including exhortations about spiritual fruit, the true worship of God-not idols, and the glory of God. Next, is a detailed analysis describing David's conflict with Goliath and a simple blueprint for exhibiting extraordinary greatness, including a synopsis of repentance, salvation, righteousness, the covenant, forgiveness, and the new creation. Completed by a discussion on purpose, vision, goals, standard, and mission. This exhortation should encourage and edify anyone with a desire to please God.

Coaching Into Greatness

Every grandfather has a tale and this is the tale of Georg Frick, a German sniper for the German Army during World War II. Georg Frick is an old man now, but in 1937 the German Army drafted him.

Golden Hours

Alexander the Great was a military genius who conquered half the civilized world-a destroyer of armies, a builder of cities, a man with a thirst for knowledge and a hunger for glory, a giant among men whose short life was awe-inspiring in its accomplishments. What was Alexander's secret? As a boy, he was taught specific virtues that guided his thoughts and actions. More than two thousand years after Alexander died in Babylon, a young Ben Franklin discovered the ancient virtues in books and through observation. He set about systematically organizing his thoughts and habits to live by them. The result was a life of incredible achievement. Franklin had planned to write a book about the guiding principles that had brought him so much success in life so that others could implement them and achieve greatness of their own. His book was to be titled "The Art of Virtue." But it was a book he never wrote. Fortunately, his virtues are there for us to find in his essays and autobiography. The "Philosophy of Greatness" is a system of thought and behavior based on ancient wisdom that is as relevant and effective today as it was in Ben Franklin's day, and even more so now than in the time of Alexander. It is a practical philosophy, a scheme of action, designed to transform you into the healthiest, wealthiest and wisest version of yourself-a way of life that will set you on a path toward great achievement.

The Life of Napoleon Bonaparte (Vol. 1-4)

A train of wagons and men wound slowly over the hills in the darkness and rain toward the South. In the wagons lay fourteen or fifteen thousand wounded soldiers, but they made little noise, as the wheels sank suddenly in the mud or bumped over stones. Alt
