The Lives of the Popes in the Early Middle Ages Volume 1

Excerpt from The Lives of the Popes in the Early Middle Ages, Vol. 1 The history of many of the later popes has indeed been well treated of by Ranke, whose work has long been before the English public. In more recent years Creighton has written on the Popes of the Reformation Period, and still more recently has the history of the popes from the fifteenth century onwards been most admirably and fully penned by Dr. L. Pastor, whose splendid biographies of the Popes of the later Middle Ages are now being published in an English translation by Kegan Paul co. Paul, Trench, TrUbner, 1910 Papacy

The Lives of the Popes in the Early Middle Ages Volume 16

Excerpt from The Lives of the Popes in the Early Middle Ages, Vol. 11 IT was stated on a previous page of this work that, with the approach of the thirteenth century, the amount of material available for the history of the Popes becomes so great that it is impossible to treat, within reasonable limits, of their relations with all the different countries with which they came in contact. It was, therefore, further stated that, apart from special circumstances, attention would in the future have, for the most part, to be confined to the unfolding of papal intercourse with the Empire and with the British Isles. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. The Lives of the Popes in the Early Middle Ages Volume 12

The office of bishop of Rome, is one of the most powerful positions in the world. As an ancient institution stretching back for centuries, the papacy has a history that is marked by archaic and modern customs alike. The history of the men who have held this position is fraught with villainous and heroic actions that have left a profound impact on the development of civilization as we know it, both in the West and East. The popes led the early Church through persecution, acquired temporal power through the actions of Constantine, oversaw the universal Church in the early middle ages, were steeped in various scandals in the late middle ages, saw their secular power stripped in the modern period, and were instrumental in the rise and fall of various kingdoms and nations.

A History of the Popes

Excerpt from The Lives of the Popes in the Early Middle Ages, Vol. 4 IF edification were the sole, or even the principal, object which I had in view in undertaking to write the biographies of the Popes of the early Middle Ages, I might perhaps have hesitated about publishing the present series. But I wish to pursue a higher end than that of indulging in a style of historical writing which is supposed to be calculated to edify a certain type of mind. I would fulfil what I regard as a command laid upon me by the late glorious Head of the Church, and strive to make known the history of the Popes of Rome. And, as it was a cardinal maxim with Leo XIII. That truth would not injure the Church, I am convinced that he would not have had the Lives of some Popes written and the Lives of others left unrecorded, nor would he have wished to see some of their deeds blazoned forth and others buried in eternal oblivion. The Lives of the Popes in the Early Middle Ages; Volume 16

An examination of the transmission and spread of papal documents in the Latin West between the 4th and 9th centuries. These documents, which were collected from the 5th century onwards, became the basis of canon law. The second part of the volume discusses the prevalence of forged decrees which were attributed to the earliest popes.

The Lives of the Popes in the Early Middle Ages; Volume 5

There has been a tendency to the view the history of the early medieval papacy predominantly in ideological terms, which has resulted in the over-exaggeration of the idea of the papal monarchy. In this study, first published in 1979, Jeffrey Richards questions this view, arguing that whilst the papacy's power and responsibility grew during the period under discussion, it did so by a series of historical accidents rather than a coherent radical design. The title redresses the imbalance implicit in the monarchical interpretation, and emphasizes other important political, administrative and social aspects of papal history. As such it will be of particular value to students interested in the history of the Church; in particular, the development of the early medieval papacy, and the shifting policies and characteristics of the popes themselves.
