Casualty of War

Not all casualties of war die on the battlefield. In the wake of World War II, Yugoslavia purged its territory of the ethnic Germans who had formed a part of its human mosaic. Tarrred with their ethnic origins and the conscription of their fighting-age men into the Waffen SS, the Volksdeutsche, as these settlers were called, were rounded up at the war's end and herded into concentration camps. Those who were not murdered or did not die from the harsh conditions were expelled from the village homes their families had known and loved for three hundred years. Nine years old when she entered the concentration camp in 1945, author Luisa Lang Owen survived the persecution of the Danube Swabians, eventually finding herself in America, where she made a new life for herself, a life that nonetheless held within it the memories and lessons of the atrocities she had experienced in her homeland. Like thousands of other Germans in the Danube Valley at the end of the war, Luisa and her family were chased from their home, lodged in a sheep stall, and resettled in camps with other Germans from her village. Shorn of their possessions, given little food or fuel, pressed into hard labor, beaten by guards, and separated from their families, many despaired and many died. Luisa barely survived as others succumbed to malnutrition, disease, and exposure. Her haunting memoir provides a window into the ethnic cleansing that preceded the recent exterminations in Bosnia and Kosovo by fifty years—an episode of horrors that has not appeared as even a footnote in descriptions of the more recent atrocities practiced in that region. Her testament, as a casualty of war, bears historic witness and gives insight into the personal experiences of ethnic cleansing. It stands as witness to a massive crime that has been conveniently forgotten, a corrective to a bit of neglect that did away with its victims as a people, and a personal depiction of what ethnic cleansing is really about. “The problem was not just that they did not want us to have or to be,” Luisa Lang Owen writes, “they wanted us not to have been.”

Old Soldier Sahib

'...A remarkable and fascinating account...' --Phil Carradice, BBC From the author of the celebrated Great War memoir *Old Soldiers Never Die*, *Old Soldier Sahib* is Frank Richards' account of his experiences as a Royal Welch Fusilier in India and Burma at the dawn of the 20th century.

Old Soldiers Never Die

The author had enlisted in 1901 in the Royal Welsh Fusiliers and was a reservist when the First World War broke out. He rejoined his old, 2nd Battalion and landed in France with them on 11 August 1914. He went right through the war with the battalion, never missing a battle, winning the D.C.M. and M.M. Here is a typical soldier of the pre-1914 regular army, and this book is a delight, written in his own unpolished manner. Fighting, scrounging, gambling, drinking, dodging fatigues, stolidly enduring bombardment and the hardships of trench warfare, always getting his job done. This is one of the finest of all published memoirs of the Great War, truly a classic of its kind. A tribute to the army that died on the Western Front.

Casualties of War

The searing account of a war crime and one soldier's heroic efforts to bring the perpetrators to justice First published in the New Yorker in 1969 and later adapted into an acclaimed film starring Michael J. Fox and Sean Penn, *Casualties of War* is the shocking true story of the abduction, rape, and murder of a young Vietnamese woman by US soldiers. Before setting out on a five-day reconnaissance mission in the Central Highlands of South Vietnam, Sergeant Tony Meserve told the four men under his command that their first objective would be to kidnap a girl and bring her along "for the morale of the squad." At the end of the mission, Meserve said, they would kill their victim and dispose of the body to avoid prosecution for abduction and rape—capital crimes in the Uniform Code of Military Justice. Private First Class Sven Eriksson was the only member of the patrol who refused to participate in the atrocity. Haunted by his inability to save the young woman's life, he vowed to see Meserve and the others convicted of their crimes. Faced with the cynical indifference of his commanding officers and outright hostility from his fellow infantrymen, Eriksson had the tenacity to persevere. He went on to serve as the government's chief witness in four courts-martial related to the infamous Incident on Hill 192. A masterpiece of contemporary journalism, *Casualties of War* is a clear-eyed, powerfully affecting portrait of the horrors of warfare and the true meaning of courage.

Material Cultures of Childhood in Second World War Britain

How do children cope when their world is transformed by war? This book draws on memory narratives to construct an historical anthropology of childhood in Second World Britain, focusing on objects and spaces such as gas masks, air raid shelters and bombed-out buildings. In their struggles to cope with the fears and upheavals of wartime, with families divided and familiar landscapes lost or transformed, children reimagined and reshaped these material traces of conflict into toys, treasures and playgrounds. This study of the material worlds of wartime childhood offers a unique viewpoint into an extraordinary period in history with powerful resonances across global conflicts into the present day.

Stand in the Trench, Achilles

A study of the ways in which British poets of the First World War used classical literature, culture, and history as a source of images, ideas, and even phrases for their own poetry. Elizabeth Vandiver offers a new perspective on that poetry and on the history of classics in British culture.

The Cruel Sea

The story of the Atlantic Ocean, two ships and 150 men, this classic tale of maritime warfare describes the author's own experiences in the Royal Navy. In this novel the heroines are the ships, and the villain, the cruel sea.

The Man Who Mistook His Wife for a Hat

Celebrating Fifty Years of Picador Books If a man has lost a leg or an eye, he knows he has lost a leg or an eye; but if he has lost a self – himself – he cannot know it, because he is no longer there to know it. In this extraordinary book, Dr. Oliver Sacks recounts the stories of patients struggling to adapt to often bizarre worlds of neurological disorder. Here are people who can no longer recognize everyday objects or those they love; who are stricken with violent tics or shout involuntary obscenities, and yet are gifted with unusually acute artistic or mathematical talents. If sometimes beyond our surface comprehension, these brilliant tales illuminate what it means to be human. A provocative exploration of the mysteries of the human mind, *The Man Who Mistook His Wife for a Hat* is a million-copy bestseller by the twentieth century's greatest neurologist. Part of the Picador Collection, a series showcasing the best of modern literature.

All that is Solid Melts Into Air

The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

The Master and Margarita

The masterpiece of the German experience during World War I, considered by many the greatest war novel of all time—with an Oscar-winning film adaptation now streaming on Netflix. “[Erich Maria Remarque] is a craftsman of unquestionably first rank.”—The New York Times Book Review I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive.

All Quiet on the Western Front

Matthew Arnold praised the Iliad for its 'nobility', as has everyone ever since -- but ancient critics praised it for its enargeia, its 'bright unbearable reality' (the word used when gods come to earth not in disguise but as themselves). To retrieve the poem's energy, Alice Oswald has stripped away its story, and her account focuses by turns on Homer's extended similes and on the brief 'biographies' of the minor war-dead, most of whom are little more than names, but each of whom lives and dies unforgettably - and unforgotten - in the copiousness of Homer's glance. 'The Iliad is an oral poem. This translation presents it as an attempt - in the aftermath of the Trojan War - to remember people's names and lives without the use of writing. I hope it will have its own coherence as a series of memories and similes laid side by side: an antiphonal account of man in his world... compatible with the spirit of oral poetry, which was never stable but always adapting itself to a new audience, as if its language, unlike written language, was still alive and kicking.' - Alice Oswald

Memorial

In this “vividly compelling” New York Times Notable Book, a surgeon recounts his experiences in war zones (The Washington Post). From treating the casualties of apartheid in Cape Town to operating on Kurdish guerrillas in Northern Iraq at the end of the Gulf War, Jonathan Kaplan has saved (and lost) lives in the remotest corners of the world in the most extreme conditions. He has been a hospital surgeon, a ship’s physician, an air-ambulance doctor, and a trauma surgeon. He has worked in locations as diverse as England, Burma, Eritrea, the Amazon, Mozambique, and the United States. In his “eloquent . . . beautifully written” memoir of unforgettable adventure and tragedy, Dr. Kaplan explores the great challenge of his career—to maintain his humanity in the face of incredible pain and suffering (The New York Times Book Review). “Packed with moments of searing intensity,” The Dressing Station is an “extraordinary” look into the nature of human violence, the shattering contradictions of war, and the complicated role of medicine in the modern world (The Washington Post). “In this refreshingly unsentimental memoir, [Kaplan] offers a vivid look at what it’s like to practice medicine in places where there are always too many casualties and not enough resources. His descriptions of surgery are unflinching . . . Kaplan gives us a remarkable self-portrait of the war junkie.” —The New Yorker

From Switzerland

'A work of formidable imaginative scope' Daily Telegraph The first casualty when war comes is truth . . . Flanders, June 1917: a British officer and celebrated poet, is shot dead. , He is killed not by German fire, but while recuperating from shell shock well behind the lines. A young English soldier is arrested and, although he protests his innocence, charged with his murder. Douglas Kingsley is a conscientious objector, previously a detective with the London police, now imprisoned for his beliefs. He is released and sent to France in order to secure a conviction. Forced to conduct his investigations amidst the hell of The Third Battle of Ypres, Kingsley soon discovers that both the evidence and the witnesses he needs are quite literally disappearing into the mud that surrounds him. Ben Elton's tenth novel is a gut-wrenching historical drama which explores some fundamental questions: What is murder? What is justice in the face of unimaginable daily slaughter? And where is the honour in saving a man from the gallows if he is only to be returned to die in a suicidal battle?

The Whirlwind War

What if Stalin had signed with the West in 1939? What if the Allies had been defeated on D-Day? What if Hitler had won the war? From the Munich crisis and the dropping of the first atom bomb to Hitler's declaration of war on the United States and the D-Day landings, historians suggest "what might have been" if key events in World War II had gone differently. Written by an exceptional team of historians as if these world-changing events had really happened. If The Allies Had Fallen is a spirited and terrifying alternate history, and a telling insight into the dramatic possibilities of World War II. Contributors include: Thomas M. Barker, Harold C. Deutsch, Walter S. Dunn, Robert M. Love, D. Clayton James, Bernard C. Nalty, Richard J. Overy, Paul Schratz, Dennis E. Showalter, Gerhard L. Weinberg, Anne Wells, and Herman S. Wolk.

The Youth's Companion

The PRIZE-WINNING BESTSELLER, now a major BBC1 DRAMA SERIES starring Thomasin McKenzie, Sian Clifford and James McArdle, directed by BAFTA award-winning John Crowley. 'Dazzling, witty, moving, joyful, mournful, profound... one of the best novels I've read this century' Gillian Flynn, bestselling author of GONE GIRL 'A box of delights ... it grips the reader's imagination on the first page and never lets go.' HILARY MANTEL, author of THE MIRROR AND THE LIGHT

What if you had the chance to live your life again and again, until you finally got it right? During a snowstorm in England in 1910, a baby is born and dies before she can take her first breath. During a snowstorm in England in 1910, the same baby is born and lives to tell the tale. What if there were second chances? And third chances? In fact an infinite number of chances to live your life? Would you eventually be able to save the world from its own inevitable destiny? And would you even want to? Life After Life follows Ursula Todd as she lives through the turbulent events of the last century again and again. With wit and compassion, Kate Atkinson finds warmth even in life's bleakest moments, and shows an extraordinary ability to evoke the past. Here she is at her most profound and inventive, in a novel that celebrates the best and worst of ourselves.

'Merging family saga with a fluid sense of time and an extraordinarily vivid sense of history at its most human level. A dizzying and dazzling tour de force' Daily Mail 'Absolutely brilliant...it reminded me a bit of her first book Behind the Scenes at the Museum, which is one of my most favourite books ever.' Marian Keyes, author of Rachel, Again 'An exceptional writer' Guardian '[A] magnificently tender and humane novel' Observer 'A ferociously clever writer...a big, bold novel that is enthralling, entertaining' New Statesman 'Exceptionally captivating' New York Times 'Truly brilliant...Think of Audrey Niffenegger's The Time Traveler's Wife or David Nicholl's One Day.. a rare book that you want to start again the minute you have finished.' If the Allies Had Fallen

The Adventures Of Two Dutch Dolls And A "Golliwogg" This book is a result of an effort made by us towards making a contribution to the preservation and repair of original classic literature. In an attempt to preserve, improve and recreate the original content, we have worked towards: 1. Type-setting & Reformatting: The complete work has been re-designed via professional layout, formatting and type-setting tools to re-create the same edition with rich typography, graphics, high quality images, and table elements, giving our readers the feel of holding a 'fresh and newly' reprinted and/or revised edition, as opposed to other scanned & printed (Optical Character Recognition - OCR) reproductions. 2. Correction of imperfections: As the work was re-created from the scratch, therefore, it was vetted to rectify certain conventional norms with regard to typographical mistakes, hyphenations, punctuations, blurred images, missing content/pages, and/or other related subject matters, upon our consideration. Every attempt was made to rectify the imperfections related to omitted constructs in the original edition via other references. However, a few of such imperfections which could not be rectified due to intentional/unintentional omission of content in the original edition, were inherited and preserved from the original work to maintain the authenticity and construct, relevant to the work. We believe that this work holds historical, cultural and/or intellectual importance in the literary works community,

therefore despite the oddities, we accounted the work for print as a part of our continuing effort towards preservation of literary work and our contribution towards the development of the society as a whole, driven by our beliefs. The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. The Adventures Of Two Dutch Dolls And A Golliwogg

An epic, emotional, breathtaking story of love and loss set amid the Syrian revolution. Burning with the fires of hope and possibility, AS LONG AS THE LEMON TREES GROW will sweep you up and never let you go. _____ SHORTLISTED FOR THE BRITISH BOOK AWARDS DISCOVER BOOK OF THE YEAR 'This is an important book. Everyone should read it' - Elizabeth Laird, award-winning author of Welcome to Nowhere 'Wrenching and lyrical' - Samira Ahmed, New York Times bestselling author of Internment 'Hauntingly beautiful ... a must read' - Huda Fahmy, author of Huda F Are You _____ Salama Kassab was a pharmacy student when the cries for freedom broke out in Syria. She still had her parents and her big brother; she still had her home. She was even supposed to be meeting a boy to talk about marriage. Now Salama volunteers at a hospital in Homs, helping the wounded who flood through the doors. She knows that she should be thinking about leaving, but who will help the people of her beloved country if she doesn't? With her heart so conflicted, her mind has conjured a vision to spur her to action. His name is Khawf, and he haunts her nights with hallucinations of everything she has lost. But even with Khawf pressing her to leave, when she crosses paths with Kenan, the boy she was supposed to meet on that fateful day, she starts to doubt her resolve in leaving home at all. Soon, Salama must learn to see the events around her for what they truly are-not a war, but a revolution-and decide how she, too, will cry for Syria's freedom. _____

The Financial Crisis Inquiry Report

Invisible Man is a milestone in American literature, a book that has continued to engage readers since its appearance in 1952. A first novel by an unknown writer, it remained on the bestseller list for sixteen weeks, won the National Book Award for fiction, and established Ralph Ellison as one of the key writers of the century. The nameless narrator of the novel describes growing up in a black community in the South, attending a Negro college from which he is expelled, moving to New York and becoming the chief spokesman of the Harlem branch of "the Brotherhood"

A Dictionary of the English Language

'A cult figure.' Guardian'A dark and brilliant achievement.' Ian McEwan'Shamelessly clever ... Exhilaratingly subversive and funny.' Independent'A modern classic ... As relevant now as when it was first published.' John BanvilleA young woman is in love with a successful surgeon; a man torn between his love for her and his womanising. His mistress, a free-spirited artist, lives her life as a series of betrayals; while her other lover stands to lose everything because of his noble qualities. In a world where lives are shaped by choices and events, and everything occurs but once, existence seems to lose its substance and weight - and we feel 'the unbearable lightness of being'. The Unbearable Lightness of Being encompasses passion and philosophy, infidelity and ideas, the Prague Spring and modern America, political acts and private desires, comedy and tragedy - in fact, all of human existence. What readers are saying: 'Some books change your mind, some change your heart, the very best change your whole world ... A mighty piece of work, that will shape your life forever.' 'One of the best books I've ever read ... A book about love and life, full of surprises. Beautiful.' 'This book is going to change your life ... It definitely leaves you with a hangover after you're done reading.' 'A must read - loved it, such beautiful observations on life, love and sexuality.' Kundera writes about love as if in a trance so the beauty of it is enchanting and dreamy ... Will stay with you forever.' 'A beautiful novel that helps you understand life better ... Loved it.' 'One of those rare novels full of depth and insight into the human condition ... Got me reading Camus and Sartre.' 'One of the best books I have ever read ... An intellectual love story if ever there was one.'

As Long As the Lemon Trees Grow

"In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again-surely-if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same." This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the world's bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.

Invisible Man

In the course of Europe's twentieth century, freedoms were won at the cost of terrible sacrifice. The physical remains of war, conflict and ideological struggle lie everywhere around us. The question of what to do with this common past, in which we all share an interest, lies at the centre of this important book. From a variety of professional backgrounds, the contributors consider a wide range of conflict-heritage sites in the context of international and national histories and regional and local historical narratives. Questions of who 'owns' the past, the ambiguities over how people identify with the local community or nation state, and whether or how to make moral judgements, are central. The book illustrates the challenges of documenting and describing what are often extensive, contested and sometimes enigmatic and ambiguous buildings and monuments. The priorities of conservation, and how we ensure that documents, artefacts, sites and buildings can be given adequate and appropriate protection and care, are also addressed. This book will be of interest to a wide range of professional practitioners, academics and policy-makers, as well as the general reader, and will open the way to a deeper understanding of the significance of Europe's conflict heritage.

The Unbearable Lightness of Being

Theodor Seuss Geisel, creator of Horton the Elephant, the Grinch, the Cat in the Hat, and a madcap menagerie of the best-loved children's characters of all time, stands alone as the preeminent figure of children's literature. But Geisel was a private man who was happier at the drawing table than he was across from any reporter or would-be biographer. Under the thoughtful scrutiny of Charles D. Cohen, Geisel's lesser known works yield valuable insights into the imaginative and creative processes of one of the 20th century's most original thinkers.

Now It Can Be Told (WWI Centenary Series)

A boldly original novel about justice, independence and resisting oppression that introduces a remarkable new voice in YA literature *Life in Bearmouth* is one of hard labour, the sunlit world above the mine a distant memory. Reward will come in the next life with the benevolence of the Mayker. New accepts everything - that is, until the mysterious Devlin arrives. Suddenly, Newt starts to look at Bearmouth with a fresh perspective, questioning the system, and setting in motion a chain of events that could destroy their entire world. In this powerful and brilliantly original debut novel, friendship creates strength, courage is hard-won and hope is the path to freedom. Liz Hyder is a writer, experienced workshop leader and award-winning arts PR consultant. She has a BA in drama from the University of Bristol and, in early 2018, won the Bridge Award/Moniack Mhor's Emerging Writer Award. She is currently working on her second book and a range of other creative projects. *Bearmouth* is her debut novel.

The Seuss, the Whole Seuss and Nothing But the Seuss

From the author of the New York Times bestselling *Bad Boys* novels comes another dark, sexy story... Is she brave enough to give her heart to a man she only thought she knew? He was the most charismatic man I'd ever met. Strong, tough, brave. Bold as hell. Something told me Tag Barton could have anything--anyone--he wanted...and he wanted me. It didn't matter that he was wrong for me in practically every way possible. It didn't matter that my father would hate it. I couldn't resist him. Even if I'd known who he really was and what he was really capable of. When he suggested we pretend to be engaged, I thought he was the answer to all my problems. He wasn't. And, in his wake, he left nothing but scorched earth and me, just another casualty of my father's war. Can I believe him now when he tells me he loves me? Or is he nothing more than a beautiful, breathtaking lie?

This two-volume collection of newspapers is one of the most important Civil War publications ever produced, and it brings the events of the war vividly in focus. A unique, of-the-moment perspective, it begins with the Nat Turner slave insurrection and covers every battle -- many by the local papers for a truly firsthand, up-close view. Lincoln's election, inauguration, and assassination are given full coverage. Caren's extensive collection includes many extremely rare Southern editions which would never be seen except in this remarkable publication. Loaded with engravings depicting battles, military leaders, and maps, this is an absolutely essential addition to any enthusiast's collection.
