How to be Idle is Tom Hodgkinson's entertaining guide to reclaiming your right to be idle. As Oscar Wilde said, doing nothing is hard work. The Protestant work ethic has most of us in its thrall, and the idlers of this world have the odds stacked against them. But here, at last, is a book that can help. From Tom Hodgkinson, editor of the Idler, comes How to be Idle, an antidote to the work-obsessed culture which puts so many obstacles between ourselves and our dreams. Hodgkinson presents us with a laid-back argument for a new contract between routine and chaos, an argument for experiencing life to the full and living in the moment. Ranging across a host of issues that may affect the modern idler - sleep, the world of work, pleasure and hedonism, relationships, bohemian living, revolution - he draws on the writings of such well-known apologists for idleness as Dr Johnson, Oscar Wilde, Robert Louis Stevenson and Nietzsche. His message is clear: take control of your life and reclaim your right to be idle. 'Well written, funny and with a scholarly knowledge of the literature of laziness, it is both a book to be enjoyed at leisure and to change lives' Sunday Times 'In his life and in this book the author is 100 per cent on the side of the angels' Literary Review 'The book is so stuffed with wisdom and so stuffed with good jokes that I raced through it like a speed freak' Independent on Sunday Tom Hodgkinson is the founder and editor of The Idler and the author of How to be Idle, How to be Free, The Idle Parent and Brave Old World. In spring 2011 he founded The Idler Academy in London, a bookshop, coffeehouse and cultural centre which hosts literary events and offers courses in academic and practical subjects - from Latin to embroidery. Its motto is 'Liberty through Education'. Find out more at www.idler.co.uk.

Coach Yourself to Success, Revised and Updated Edition

At once a beautifully poetic memoir and an exploration of the various ways we live in the world, A Language Older Than Words explains violence as a pathology that touches every aspect of our lives and indeed affects all aspects of life on Earth. This chronicle of a young man's drive to transcend domestic abuse offers a challenging look at our worldwide sense of community and how we can make things better.

Comparing the Literatures

Euphemism and Dysphemism In this fascinating study, Keith Allan and Kate Burrige examine the linguistic, social, and psychological aspects of this intriguing universal practice.

A Language Older Than Words

This magisterial book offers comprehensive accounts of the professional itineraries of three women in the silent film in the Netherlands, France and North America. Annette Förster presents a careful assessment of the long career of Dutch stage and film actress Adriënné Solser; an exploration of

the stage and screen careers of French actress and filmmaker Musidora and Canadian-born actress and filmmaker Nell Shipman; an analysis of the interaction between the popular stage and the silent cinema from the perspective of women at work in both realms; fresh insights into Dutch stage and screen comedy, the French revue and the American Northwest drama of the 1910s; and much more, all grounded in a wealth of archival research.

Euphemism & Dysphemism

In one of the first attempts to bring an integral dimension to sociology, Ken Wilber introduces a system of reliable methods by which to make testable judgments of the authenticity of any religious movement. *A Sociable God* is a concise work based on Wilber's "spectrum of consciousness" theory, which views individual and cultural development as an evolutionary continuum. Here he focuses primarily on worldviews (archaic, magic, mythic, mental, psychic, subtle, causal, nondual) and evaluates various cultural and religious movements on a scale ranging from egocentric to ethnocentric to worldcentric to Kosmic. By using this integral view, Wilber hopes, society would be able to discriminate between dangerous cults and authentic spiritual paths. In addition, he points out why these distinctions are crucial in understanding spiritual experiences and altered states of consciousness. In a lengthy new introduction, the author brings the reader up to date on his latest integral thinking and concludes that, for the succinct and elegant way it argues for a sociology of depth, *A Sociable God* remains a clarion call for a greater sociology.

Women in the Silent Cinema

To heal addiction, you have to go back to the start... Featured on Russell Brand's podcast *Under the Skin* Dr Gabor Maté is one of the world's most revered thinkers on the psychology of addiction. His radical findings – based on decades of work with patients challenged by catastrophic drug addiction and mental illness – are reframing how we view all human development. In this award-winning modern classic, Gabor Maté takes a holistic and compassionate approach to addiction, whether to alcohol, drugs, sex, money or anything self-destructive. He presents it not as a discrete phenomenon confined to a weak-willed few, but as a continuum that runs through (and even underpins) our society; not as a medical 'condition', but rather the result of a complex interplay of personal history, emotional development and brain chemistry. Distilling cutting-edge research from around the world, *In the Realm of Hungry Ghosts* avoids glib self-help remedies, instead promoting self-understanding as the first key to healing and wellness. Blending personal stories and science with positive solutions, and written in spellbinding prose, it is a must-read that will change how you see yourself, others and the world. 10th anniversary edition, updated with new chapter on the Opioid crisis

Fishing from the Earliest Times

As jazz enters its second century it is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.

In the Realm of Hungry Ghosts

An ex-circus strongman, veteran of Warsaw, 1939, and Notting Hill rough-justice artist, meets his own personal holocaust and 'Einsteinian' destiny; maximum boredom and minimum love-making are advised in a 2020 epidemic; a virulent new strain of schizophrenia overwhelms the young son of a 'father of the nuclear age'; evolution takes a rebarbative turn in a Kafkaesque love story; and the history of the earth is frankly discussed by one who has witnessed it all. The stories in this collection form a unity and reveal a deep preoccupation: "'Einstein's Monsters" refers to nuclear weapons but also to ourselves,' writes Amis in his enlightening introductory essay, 'We are Einstein's monsters: not fully human, not for now.'

A Shadow Within

In *The Courage of Marge O'Doone*, a chance encounter on a train turns into the adventure of a lifetime for two audacious souls. Will the pair be able to make it back alive?

Tractatus Logico-Theologicus

Have you ever wondered... How Did God Do It? How did God perform the many miracles and supernatural events described in the Holy Bible - without violating the laws of physics and chemistry that He Himself put into place? And without conflicting with the basic tenets of Judaism and Christianity? This book proposes a theory that marries faith and rationality in a symphony of science and scripture....

THE PRINCE OF INDIA (Historical Novel)

Scholars in folklore and anthropology are more directly involved in various aspects of medicine—such as medical education, clinical pastoral care, and negotiation of transcultural issues—than ever before. Old models of investigation that artificially isolated "folk medicine," "complementary and alternative medicine," and "biomedicine" as mutually exclusive have proven too limited in exploring the real-life complexities of health belief systems as they observably exist and are applied by contemporary Americans. Recent research strongly suggests that individuals construct their health belief systems from diverse sources of authority, including community and ethnic tradition, education, spiritual beliefs, personal experience, the influence of popular media, and perception of the goals and means of formal medicine. *Healing Logics* explores the diversity of these belief systems and how they interact—in competing, conflicting, and sometimes remarkably congruent ways. This book contains essays by leading scholars in the field and a comprehensive bibliography of folklore and medicine.

The Time Hunters

Narendra Modi, the BJP's prime ministerial candidate, is powerful, popular and controversial. With the general elections due to conclude in May 2014, Modi's campaign rallies have drawn unprecedented crowds. Yet, the man remains an enigma. His supporters regard him as the visionary, decisive leader India needs today. His detractors see him as a polarizing figure. Is Modi authoritative or authoritarian? Decisive or divisive? A team player or a loner? Andy Marino recorded interviews with Narendra Modi during more than half-a-dozen exclusive meetings - unprecedented access to a very private man. What emerged is this riveting, objective biography of a man who could be India's prime minister. Not shying away from the controversies that have dogged Narendra Modi, including the Gujarat riots and questions about the Gujarat model of governance and development, this political biography provides an unbiased account of possibly the most important figure in Indian politics today. Marino records hour-by-hour details of the 2002 Gujarat riots, presenting a balanced analysis of that raw wound on India's polity. It also reveals hitherto unpublished, authenticated documents, which makes this one of the most important books of 2014. The author analyses Narendra Modi's values, the people who shaped his thinking and the sort of national leader he will make. Personal details of Modi's early life, his wanderings in the Himalayas between the ages of seventeen and nineteen, his rise through the political ranks, his vision for India and his personal philosophy on religion and politics are revealed in a book that is lucid, fast-paced and readable. *Narendra Modi: A Political Biography* is an insightful, exhaustive and impeccably researched account of the ascent of a political leader.

How Did God Do It? A Symphony of Science and Scripture

Since 1988, J. Hillis Miller has traveled to China to lecture on literary theory, especially the role of globalization in literary theory. Over time, he has assisted in the development of distinctively Chinese forms of literary theory, Comparative Literature, and World Literature. The fifteen lectures gathered in *An Innocent Abroad* span both time and geographic location, reflecting his work at universities across China for more than twenty-five years. More important, they reflect the evolution of Miller's thinking and of the lectures' contexts in China as these have markedly changed over the years, especially on either side of Tiananmen Square and in light of China's economic growth and technological change. A foreword by the leading theorist Fredric Jameson provides additional context.

Healing Logics

The Betrayal of the Body is Alexander Lowen's pioneering study of the mind-body split. Lowen describes the way people deny the reality, needs, and feelings of their bodies. This denial leads to the development

of the division between mind and body, creating an over-charged ego obsessed with thinking at the expense of feeling and being. This book illustrates the energetic factors behind the split, the factors that produce it, and the proven therapeutic techniques that are available to treat it. Lowen further explores the mind-body duality in the individual and its parallel duality and dysfunction in society between culture and nature, and between thinking and feeling.

Narendra Modi

This is a new release of the original 1931 edition.

An Innocent Abroad

The plot twists around the questions of humanity in a comic contemporary novel that portrays the trials of Shed, a half-breed, bisexual boy who works at a Victorian whorehouse in the old West.

Zen and Zen Classics

Created by the bestselling SF novelist Jerry Pournelle, *THERE WILL BE WAR* is a landmark science fiction anthology series that combines top-notch military science fiction with factual essays by various generals and military experts on everything from High Frontier and the Strategic Defense Initiative to the aftermath of the Vietnam War. It features some of the greatest military science fiction ever published, such as Orson Scott Card's "Ender's Game" in Volume I and Joel Rosenberg's "Cincinnatus" in Volume II. Many science fiction greats were featured in the original nine-volume series, which ran from 1982 to 1990, including Robert Heinlein, Arthur C. Clarke, Philip K. Dick, Gordon Dickson, Poul Anderson, John Brunner, Gregory Benford, Robert Silverberg, Harry Turtledove, and Ben Bova. 33 years later, Castalia House has teamed up with Dr. Pournelle to make this classic science fiction series available to the public again. *THERE WILL BE WAR* is a treasure trove of science fiction and history that will educate and amaze new readers while reminding old ones how much the world has changed over the last three decades. Most of the stories, like war itself, remain entirely relevant today. This omnibus edition contains *THERE WILL BE WAR* Volumes I and II. Volume I is edited by Jerry Pournelle and John F. Carr, and features 23 stories, articles, and poems. Of particular note are "Reflex" by Larry Niven and Jerry Pournelle, the original "Ender's Game" novella by Orson Scott Card, "The Defenders" by Philip K. Dick, and a highly influential pair of essays devoted to the then-revolutionary concept of "High Frontier" by Robert A. Heinlein and Lt. General Daniel Graham. Volume II is edited by Jerry Pournelle and features 19 stories, articles, and poems. Of particular note are "Superiority" by Arthur C. Clarke, "In the Name of the Father" by Edward P. Hughes, "Caster" by Eric Vinicoff, "Cincinnatus" by Joel Rosenberg, "On the Shadow of a Phosphor Screen" by William Wu, and "Proud Legions," an essay on the Korean War by T.R. Fehrenbach.

Em is bucking overwhelming odds, but Logan won't let her stand alone. For even the rebellious drifter knows that part of being a Sackett is backing up your family when they need you.

Raja Yoga Or Occultism

First published in 1934. Unlike previous translations, this translation of Lao Tzu's *Tao Tê Ching* is based not on the medieval commentaries but on a close study of the whole of early Chinese literature.

The Man who Fell in Love with the Moon

This is Li Bo. You may also know him as Li Po N} (701-62), the great poet of Tang China, master of swoop and soar, wanderer, man of wine, so enamored of the moon that he tried to embrace her reflection in the river, fell from his boat and drowned. Favorite of the Emperor-but only for a while, as such energies cannot be long contained at Court. Li Bo Unkempt presents seventy of his verses, a few letters, some rhapsodies and songs. They dance all through Tang high culture, inhabited by planets, hermit women, swashbucklers, grottos, calligraphers and buffoons, Li Bo's friends, lovers and alter

egos. He's too shy, too quick to make introductions, but this volume allows us to hear the poetry's stories, their temperaments, to glimpse their secret economies of exchange. The book also offers background material, brief essays, a kind of Lonely Planet(TM) guidebook to this extraordinary realm. This way the strange will become familiar, and only then can we appreciate how truly strange it is. The authors and translators regard these poems as magical acts. What is offered, then, in this volume, are multiple ways to realize that magic. The essays are demonstrations, a spell-book, an extension of this non-ordinary knowing. Things too delicate to be said directly. So the book proceeds by analogy, by juxtaposition, latency, innuendo, jump cuts, dialetheia and flirt. All this a way to understand a deeper claim: that Li Bo is an immortal. And what might that be...? Kidder Smith was graced to study with Y.K. Kao at Princeton and Peter Boodberg at Berkeley. For some years he taught Chinese history at Bowdoin College, where he also directed the Asian Studies Program. He is senior author of *Sung Dynasty Uses of the I Ching* (Princeton University Press, 1990); *Sun Tzu-the Art of War* (with Denma, Shambhala, 2001); and *Having Once Paused - Poetry of Zen Master Ikkyu* (with Sarah Messer, University of Michigan Press, 2015). As a boy in Shanghai, Mike Zhai memorized Li Bo's poems in school. Later, at UC Berkeley, he studied modern Chinese poetry under Bei Dao, as well as German literature and music. He holds an MFA in English from Mills College. A lecturer in English at the University of Michigan, he founded One Pause Poetry Salon in Ann Arbor in 2016. His poems have been published in *Spectrum* magazine, and in 2017 he won the Green House Poetry Prize for emerging poets.

There Will Be War Volumes I & II

Martin Gardner, author of numerous books on science, mathematics, and pseudo-science, has assembled thirty-four extraordinary essays by eminent philosophers, scientists, and writers on the fundamental aspects of modern science. As Gardner makes clear in his preface to the formerly titled *Sacred Beetle and Other Great Essays in Science*, his intent is not to teach the reader science or to report on the latest trends and discoveries. "Rather, the purpose of this book is to spread before the reader, whether his or her interest in science be passionate or mild, a sumptuous feast of great writing - absorbing, thought-disturbing pieces that have something to say about science and say it forcibly and well." Gardner's entertaining biographical commentaries make *Great Essays in Science* a rich store of good reading and an informal history of the people and ideas that have shaped our culture and transformed our everyday lives. This collection includes works by Isaac Asimov, Rachel Carson, Charles Darwin, John Dewey, Albert Einstein, Jean Henri Fabre, Sigmund Freud, Stephen Jay Gould, Aldous Huxley, Julian Huxley, William James, Ernest Nagel, Bertrand Russell, Carl Sagan, Lewis Thomas, H.G. Wells, and others.

Ride the Dark Trail

Winner of the 2017 JPBM Communications Award for Expository and Popular Books. "A delightful meta-biography--playful indeed--of a brilliant iconoclast." --James Gleick, author of *The Information* John Horton Conway is a singular mathematician with a lovely loopy brain. He is Archimedes, Mick Jagger, Salvador Dali, and Richard Feynman all rolled into one--he boasts a rock star's charisma, a slyly bent sense of humor, a polymath's promiscuous curiosity, and an insatiable compulsion to explain everything about the world to everyone in it. At Cambridge, Conway wrestled with "Monstrous Moonshine," discovered the aptly named surreal numbers, and invented the cult classic *Game of Life*--more than just a cool fad, *Life* demonstrates how simplicity generates complexity and provides an analogy for mathematics and the entire universe. As a "mathemagician" at Princeton, he used ropes, dice, pennies, coat hangers, even the occasional Slinky, as props to extend his winning imagination and share his many nerdish delights. He granted Roberts full access to his idiosyncrasies and intellect both, though not without the occasional grumble: "Oh hell," he'd say. "You're not going to put that in the book. Are you!?"

The Way and Its Power

Yet another novel about comedy, fame and madness. But with answers to the meaning of life thrown in for free. John Smith just died as a comedian but may have been reborn as a prophet of the present moment. Dr Hazel Cole has written a self-help book so good that it might even work on daytime TV presenters. Behind the scenes, billionaire press baron Eric Hayle seems to be pressing all the buttons. But will this mysterious man spoil everything? God only knows. And what happens if you ask 644 professional philosophers about the meaning of life, the universe and everything? Caspar knows

because he tried it. The results are included in this edition at no extra cost to you. But knowledge comes at a price. You will have to put up with some of Caspar's ranting at the universe.

Li Bo Unkempt

'White-knuckle tension as the two most dangerous snipers in Europe hunt each other through the hell of Stalingrad. Immensely exciting and terribly authentic' Frederick Forsyth Stalingrad in 1942 is a city in ruins, its Russian defenders fighting to the last man to repel the invading German army. One of their most potent weapons is the crack sniper school developed by Vasily Zaitsev. Its members can pick off the enemy at long range, and their daring tactics - hiding for hours in no man's land until a brief opportunity presents itself - mean that no German, and particularly no German officer, can ever feel safe. This part of the battle is as much psychological as anything, and to counter the continuing threat to German morale, the Nazi command bring to the city their own top marksman, Heinz Thorvald. His mission is simple: to identify, and kill, Zaitsev. Based on a true story, THE WAR OF THE RATS is a brilliantly compelling thriller which brings vividly to life probably the most harrowing battlefield of the Second World War.

Great Essays in Science

As seen on EWTN, bestselling author Scott Hahn unveils the mysteries of the Mass, offering readers a deeper appreciation of the most familiar of Catholic rituals. Of all things Catholic, there is nothing that is so familiar as the Mass. With its unchanging prayers, the Mass fits Catholics like their favorite clothes. Yet most Catholics sitting in the pews on Sundays fail to see the powerful supernatural drama that enfolds them. Pope John Paul II described the Mass as "Heaven on Earth," explaining that what "we celebrate on Earth is a mysterious participation in the heavenly liturgy." The Lamb's Supper reveals a long-lost secret of the Church: The early Christians' key to understanding the mysteries of the Mass was the New Testament Book of Revelation. With its bizarre imagery, its mystic visions of heaven, and its end-of-time prophecies, Revelation mirrors the sacrifice and celebration of the Eucharist. Beautifully written, in clear direct language, bestselling Catholic author Scott Hahn's new book will help readers see the Mass with new eyes, pray the liturgy with a renewed heart, and enter into the Mass more fully, enthusiastically, intelligently, and powerfully than ever before.

The Secret of Shambhala

The inspiring journey of the international bestsellers *The Celestine Prophecy* and its sequel, *The Tenth Insight*, continues... In the remote snow-covered mountains near Tibet lies a community long thought to be a mere myth called Shambhala, or Shangri-La. Here, in this place, is knowledge that has been kept hidden for centuries - and an insight that can have profound impact on the way each of us lives our lives. Your search for Shambhala will lead to Kathmandu, Nepal and then to Lhasa, Tibet. You will meet the secret Tibetan sect that guards mysterious legends. You will pass regions where anger and compassion struggle for ascendancy, and arrive at a place where the stunning reality about human prayer-energy is about to be revealed. Like all of James Redfield's books *The Secret of Shambhala* has a parable effect. Open yourself to this adventure and the experience will stretch your worldview and leave you determined to channel your thoughts and wishes into a dynamic force that can help you liberate your life, enhance others and actively change the world. 'The best yet from James Redfield ... even better than *The Celestine Prophecy*' -- Marianne Williamson 'In his inimitable style of great storytelling, James Redfield opens us up to a world of insight, synchronicity and power. Read this book.' -- Deepak Chopra

The Secret of Shambhala

MYSTICISM MEETS ADVENTURE - A THRILLING EXPLORATION OF SPIRITUALITY AND SELF-DISCOVERY In the remote snow-covered mountains near Tibet lies a community long thought to be a mere myth called Shambhala, or Shangri-La. Here, in this place, is knowledge that has been kept hidden for centuries - and an insight that can have profound impact on the way each of us lives our lives. Your search for Shambhala will lead to Kathmandu, Nepal and then to Lhasa, Tibet. You will meet the secret Tibetan sect that guards mysterious legends. You will pass regions where anger and compassion struggle for ascendancy, and arrive at a place where the stunning reality about human prayer-energy is about to be revealed. Like all of James Redfield's books *The Secret of Shambhala* has a parable effect. Open yourself to this adventure and the experience will stretch your worldview and leave you determined to channel your thoughts and wishes into a dynamic force that can help you liberate your life, enhance others and actively change the world. 'The best yet from James Redfield ... even better than *The Celestine Prophecy*' Marianne Williamson 'In his inimitable style of great storytelling, James Redfield opens us up to a world of insight, synchronicity and power. Read this book.' Deepak Chopra

The Twelfth Insight

The fourth book in the *Celestine* series is an adventure tale, both suspenseful and contemplative, that builds on the insights introduced in Redfield's previous books. "*The Twelfth Insight*" describes a new wave of religious tolerance that is now silently arriving, in reaction to watching years of religious warfare and political corruption.

Celestine Insights - Limited Edition of Celestine Prophecy and Tenth Insight

James Redfield's bestselling adventures into metaphysical mysteries, self-discovery, and spiritual enlightenment, featuring both *The Celestine Prophecy* and *The Tenth Insight* together in this special edition. You begin your quest with *The Celestine Prophecy*, a parable that reads like a gripping adventure tale. Here you discover that an ancient Peruvian manuscript has disappeared. Although few Westerners know of its existence and a government wants to suppress it, this precious document contains an important secret: the nine Insights the human race is predicted to grasp as we enter an era of true spiritual awareness. To find the manuscript, you will journey high into the Andes mountains and into the deepest places of the self. When the last of the nine Insights is revealed to you, you will have an exciting new image of human life, and a positive vision of how we will save this planet, its creatures and its beauty. But one Insight will still be missing... Now journey to an old-growth forest deep in the Appalachian Mountains to continue your adventure in search of *The Tenth Insight*. It is a trip that will take you through portals into other dimensions, to memories of past experiences and other centuries, to the moment before our conception and through to the passage of death and what comes after. The Twelfth Insight

On December 21, 2012, the Mayan calendar will end. Many see it as an apocalyptic sign. But is it? In *The Twelfth Insight*, the long-awaited fourth book in the beloved Celestine Series, we again follow our Hero and his close friend Wil. They have just received a portion of another ancient and mysterious manuscript that describes a secret approach to spirituality that is silently arriving in the second decade of the 21st Century. But the manuscript is only available in fragments. To understand its full meaning for mankind, our Hero and Wil begin an urgent search to find the message in its entirety. As they embrace the power of Synchronicity and begin their search, they are confronted by powerful political forces and religious extremists that stand in the way of these spiritual revelations. Utilizing what he calls the "parable effect," and based on his own sources, James Redfield explores the similarities and differences that exist among the world religions, revealing the essential messages contained within them that can energize our experience of spirituality-- and produce a new wave of integrity and reform that can transform our lives and our world.

Dark Green Religion

"A love of green may be a human universal. Deepening the palette of green scholarship, Bron Taylor proves remarkably to be both an encyclopedist and a visionary."--Jonathan Benthall, author of *Returning to Religion: Why a Secular Age is Haunted by Faith* "This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion. In this sense, *Dark Green Religion* offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now."--Stephen Kellert, Yale University School of Forestry and Environmental Studies "In this thought-provoking volume, Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe. Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship, Taylor contributes to the further development of thought in this critically important area, where our depth of understanding will play a critical role in our survival."--Peter H. Raven, President, Missouri Botanical Garden "Carefully researched, strongly argued, originally conceived, and very well executed, this book is a vital contribution on a subject of immense religious, political, and environmental importance. It's also a great read."--Roger S. Gottlieb, author of *A Greener Faith: Religious Environmentalism and our Planet's Future* "A fascinating analysis of our emotional and spiritual relationship to nature. Whether you call it dark green religion or something else, Bron Taylor takes us through our spiritual relationship with our planet, its ecosystems and evolution, in an enlightened and completely undogmatic manner."--Dr. Claude Martin, Former Director General, World Wildlife Fund "An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions, spirituality, animism, pantheism, deep ecology, Gaia, and land ethics--and for the environmentalist seeking to make the world a better place through green religion as a social force."--Fikret Berkes, author of *Sacred Ecology: Traditional Ecological Knowledge and Resource Management* "Dark Green Religion shows conclusively how nature has inspired a growing religious movement on the planet, contesting the long reign of many older faiths. Taylor expertly guides us through an astonishing array of thinkers, past and present, who have embraced, in part or whole, the new religion. I was thoroughly convinced that this movement has indeed become a major force on Earth, with great potential consequences for our environmental ethics."--Donald Worster, University of Kansas "In this exceptionally interesting and informative book, Bron Taylor has harvested the fruits of years of pioneering research in what amounts to a new field in religious studies: the study of how religious/spiritual themes show up in the work of people concerned about nature in many diverse ways. Taylor persuasively argues that appreciation of nature's sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers, to eco-tourism leaders and museum curators. I highly recommend this book for everyone interested learning more about the surprising extent to which religious/spiritual influences many of those who work to protect, to exhibit, or to represent the natural world."--Michael E. Zimmerman, Director, Center for Humanities and the Arts, University of Colorado at Boulder

Free Trade in the Bermuda Triangle-- and Other Tales of Counter globalization

An alternative approach to mapping the world offers a new way to contest capitalism and globalization. Shangri-La, the Bermuda Triangle, Transylvania, the Golden Triangle--far-flung in popular conception, these anomalous places nonetheless occupy the same mysterious zone, a mythography of unruly cartographic practices. And because this mythography becomes associated with a particular area of the earth's surface, it may well suggest an alternative means of mapping the world, dissociated from the dominant geographical paradigms of nation-state, economic region, and the global/local marketing nexus. Large-scale nonnational geographical spaces that find their genesis in popular feeling, mystery, and belief, these four sites provide Brett Neilson with the basis not only for rethinking the current global reorganization of space and time but also for questioning the dominant narrative by which globalization marks the victory of capitalism. Free Trade in the Bermuda Triangle moves between analysis of popular fantasies and engagement with on-the-ground realities, weaving together topics as diverse as airplane disasters off the U.S. Atlantic coast, the global drug trade, vampire culture in postsocialist Europe, and the search for utopia in Chinese-occupied Tibet. The study of globalization is largely a solemn affair, occupied with increasing economic polarities, environmental degradation, and global insecurity. Free Trade in the Bermuda Triangle maintains a critical focus on these sobering issues but at the same time asks how popular pleasure and enjoyment can create viable alternatives to the current global order. Neilson takes seriously the proposition that capitalism must be contested at its own level of generality, finding provisional grounds for resistance in nonlocal transnational spaces that embody quotidian hopes, desires, and anxieties. By studying the real and imagined dimensions of these popular geographies, his book seeks resources for social betterment in the fallen mythologies of the contemporary postutopian world.

Holding the Vision

For thousands of years, stories have been told about an inaccessible garden paradise hidden among the icy peaks and secluded valleys of the Himalayas. Called by some Shangri-la, this mythical kingdom, where the pure at heart live forever among jewel lakes, wish-fulfilling trees, and speaking stones, has fired the imagination of both actual explorers and mystical travelers to the inner realms. In this fascinating look behind the myth, Victoria LePage traces the links between this legendary Utopia and the mythologies of the world. Shambhala, LePage argues persuasively, is "real" and may be becoming more so as human beings as a species learn increasingly to perceive dimensions of reality that have been concealed for millennia.

The Tenth Insight. Holding the Vision

Everybody's got a theory . . . or do they? Thomas McLaughlin argues that critical theory—raising serious, sustained questions about cultural practice and ideology—is practiced not only by an academic elite but also by savvy viewers of sitcoms and TV news, by Elvis fans and Trekkies, by labor organizers and school teachers, by the average person in the street. Like academic theorists, who are trained in a tradition of philosophical and political skepticism that challenges all orthodoxies, the vernacular theorists McLaughlin identifies display a lively and healthy alertness to contradiction and propaganda. They are not passive victims of ideology but active questioners of the belief systems that have power over their lives. Their theoretical work arises from the circumstances they confront on the job, in the family, in popular culture. And their questioning of established institutions, McLaughlin contends, is essential and healthy, for it energizes other theorists who clarify the purpose and strategies of institutions and justify the existence of cultural practices. Street Smarts and Critical Theory leads us through eye-opening explorations of social activism in the Southern Christian anti-pornography movement, fan critiques in the 'zine scene, New Age narratives of healing and transformation, the methodical manipulations of the advertising profession, and vernacular theory in the whole-language movement. Emphasizing that theory is itself a pervasive cultural practice, McLaughlin calls on academic institutions to recognize and develop the theoretical strategies that students bring into the classroom. "This book demystifies the idea of theory, taking it out of the hands of a priestly caste and showing it as the democratic endowment of the people."—Daniel T. O'Hara, Temple University, author of *Radical Parody: American Culture and Critical Agency after Foucault and Lionel Trilling: The Work of Liberation*. "McLaughlin takes seriously the critical and theoretical activity of everyday people and does so in a way that will empower these very populations to take seriously their own activities as theorists. . . . A manifesto that is sure to be heard by the younger generation of thinkers in American cultural studies."—Henry Jenkins, MIT, author of *Textual Poachers: Television Fans and Participatory Culture*
