How to Play Tennis

In the spring of 1820, on the Aegean island of Melos, an unsuspecting farmer was digging for marble building blocks when he unearthed the statue that would come to be known as the Venus de Milo. From the moment of its discovery a battle for possession ensued and was won, eventually, by the French. Touted by her keepers in the Louvre as the great classical find of the era, the sculpture gained instant celebrity—and yet its origins had yet to be documented or verified. From the flurry of excitement surrounding her discovery, to the raging disputes over her authenticity, to the politics and personalities that have given rise to her mystique, Gregory Curtis has given us a riveting look at the embattled legacy of a beloved icon and a remarkable tribute to one of the world's great works of art.

Black and White

Venus. Serena. Anna. Martina. Lindsay. Like other modern-day heroines -- Madonna, Hillary, Mia -- they need only one name. They are the stars of professional tennis -- the young, brash, and often reckless women who hold court, and serve. The last several years have seen such a seismic explosion in women's tennis that you might be surprised to learn there's still a men's game. Fans flock to the high-voltage matches, which come packaged with tales of infighting, family squabbles, and, of course, Anna Kournikova's micro-miniskirts. In *Venus Envy*, Sports Illustrated investigative reporter and tennis columnist L. Jon Wertheim draws back the curtain on the soap opera that is the women's professional tennis tour, with its primal plotlines driven by ambition, sex, and revenge. Here are the stories behind the stories: the tragic Garbo-like star who whiles away hours in a midwestern hotel room because she's afraid to go outdoors; the teenager who tries to cope with the pressure of the big time as well as an abusive father; the brilliant number one who plays out her adolescent tantrums on the public stage; the coquette who launched a thousand Web sites; and a little-understood African-American family who proved that they could play by their own rules and still win the game -- not to mention the endorsements. The biggest story in sports in 2000 was Venus Williams. Forced to the sidelines for the early months by injuries to both her wrists and her psyche, she stormed back to win Wimbledon, the U.S. Open, and two Olympic gold medals. Not since the glory days of Martina Navratilova -- and the historic days of Althea Gibson -- has women's tennis seen such a dominant champion with the rare combination of athleticism, intelligence, and competitive fire. By the time Venus signed the biggest endorsement deal ever for a female athlete, her opponents' sentiments could be described in just two words: *Venus Envy*.

Venus Envy

This is a chronicle of one man's experience in a world turned upside down. It's a story told by a 20-year-old sailor caught in the midst of a crazy war. He faces the dangers and shares the camaraderie of war in the Pacific and experiences a surreal encounter that influences his life even today. Harry tells his story like he saw it: keenly, simply, and with a wry Texan sense of humor. *Venus Rising* takes us into the hearts and minds of those who lived with honor and courage and offered up years of their lives for a purpose beyond themselves. *Venus Rising* is both an adventure and a war story. It's a journey into a different time in a very different world. It's a journey worth taking and remembering.

the face of the Sun as seen from the Earth, which happens every 125 years. David Tresemer considers the dynamics of Sun, Earth, Venus, and the exact location in the heavens of this eclipse event, weaving a dramatic story about the heart of technology, its uses for good or for ill, and the direction in which to find one's power in "hands of the heart," actions based on warm feeling toward another. Find out about the nature of "erotic phantasms" and how to work constructively with them and who will support us through these times.

Venus & Serena

There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. Ascendant is the degree of the zodiac sign that was highest on the Eastern horizon at the time and place of birth. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.

The Birth Of Venus

Even though there were relatively few people of color in postrevolutionary France, images of and discussions about black women in particular appeared repeatedly in a variety of French cultural sectors and social milieus. In *Vénus Noire*, Robin Mitchell shows how these literary and visual depictions of black women helped to shape the country's postrevolutionary national identity, particularly in response to the trauma of the French defeat in the Haitian Revolution. *Vénus Noire* explores the ramifications of this defeat in examining visual and literary representations of three black women who achieved fame in the years that followed. Sarah Baartmann, popularly known as the Hottentot Venus, represented distorted memories of Haiti in the French imagination, and Mitchell shows how her display, treatment, and representation embodied residual anger harbored by the French. Ourika, a young Senegalese girl brought to live in France by the Maréchal Prince de Beauvau, inspired plays, poems, and clothing and jewelry fads, and Mitchell examines how the French appropriated black female identity through these representations while at the same time perpetuating stereotypes of the hypersexual black woman. Finally, Mitchell shows how demonization of Jeanne Duval, longtime lover of the poet Charles Baudelaire, expressed France's need to rid itself of black bodies even as images and discourses about these bodies proliferated. The stories of these women, carefully contextualized by Mitchell and put into dialogue with one another, reveal a blind spot about race in French national identity that persists in the postcolonial present.
