What House is That?

A guide for Rooming house operators to give a copy to every resident on or before the day they move in

What House is That?

Many of Britain's four million Victorian and Edwardian houses were shoddily built and often require 'essential repairs'. Problems such as rising damp, timber decay, bowed roofs and subsidence are well-known, but at what point do these common problems become major defects? Forget 'makeovers': this easy-to-use manual shows where to look for danger signs, what's normal and what isn't, and how to fix common defects. Equipped with this book, you can talk the same language as builders and property professionals, and this new edition includes updated rules and regulations as well as guidance on the latest environmental issues

Rooming Houses - a Guide for Tenants and Operators

Brimming with design ideas, drawings and photographs of exemplary projects, this is a must-have, highly visual guide to extending a Victorian terraced house for designers, architects and homeowners. An essential resource for designing and delivering a wide variety of extensions, it features case studies from the full gamut of nineteenth-century terrace house types. Detailed plans reveal, floor by floor, a range of options for extending and/or reconfiguring space. Colour-coded, before-and-after plans show at a glance which walls have been removed or changed in each option. This is complemented by extensive colour photography of realised, built work. Ideas and inspiration are supplemented by

practical guidance with 'rules of thumb' for design and key information on permitted development rights. All plans are drawn to scale, so that they may be measured from and used for planning any renovation project. Covering different types of briefs and design solutions, this indispensable guide to renovating Victorian terraces features extensions, loft conversions, basements and interior remodelling. It contains over 150 floor plans and 100 full-page colour images.

Step back in time and discover the sights, sounds and smells of London through the ages in this enthralling journey into the capital's rich, teeming and occasionally hazardous past. Let time traveller Dr Matthew Green be your guide to six extraordinary periods in London's history - the ages of Shakespeare, medieval city life, plague, coffee houses, the reign of Victoria and the Blitz. We'll turn back the clock to the time of Shakespeare and visit a savage bull and bear baiting arena on the Bankside. In medieval London, we'll circle the walls as the city lies barricaded under curfew, while spinning further forward in time we'll inhale the 'holy herb' in an early tobacco house, before peering into an open plague pit. In the 18th century, we'll navigate the streets in style with a ride on a sedan chair, and when we land in Victorian London, we'll take a tour of freak-show booths and meet the Elephant Man. You'll meet pornographers and traitors, actors and apothecaries, the mad, bad and dangerous to know, all desperate to show you the thrilling and vibrant history of the world's liveliest city.

Rooming House Resident's Handbook

From the cook, butler and housekeeper to the footman, lady's maid and nanny, this is a fascinating glimpse behind the scenes of some of Britain's grandest houses. An entertaining social history, steering the reader through the minefield of etiquette and hierarchy that kept Britain's great houses running like clockwork. A bygone era is brought vividly to life through letters, journals, interviews, lively descriptions and stunning photography of the places and possessions left behind. The largely untold stories of innumerable, rather humble, lives spent 'in service' are lying just below the surface of many great houses; the physical evidence can be seen in surviving servants' quarters, the material of their everyday life, even their uniforms and possessions. This account provides a fascinating glimpse at who's who behind the scenes, from the cook, butler and housekeeper to the footmen, lady's maids, governesses and tutors, nannies and nursemaids. Giving a fascinating insight into the hierarchy within the servant's quarters – from the power-wielding cook to the ever-discreet butler – this guide describes how relationships were forged and changed as the gap between upstairs and downstairs was bridged. Describing their typical working day as well as the holidays, entertainments and pastimes enjoyed on a rare day off, not to mention the whirl of the social season, this previously 'unwritten history' recalls vividly the nature of their lives below stairs.
