The Best New True Crime Stories: Serial Killers

Travel around the world and inside the minds of monsters in this true crime anthology featuring sixteen astonishing serial killer exposés. Serial killers: Ted Bundy, John Wayne Gacy, and Jeffrey Dahmer are often the first names that spring to mind. Many people assume serial killers are primarily an American phenomenon that came about in the latter part of the twentieth century—but such assumptions are far from the truth. Serial killers have been around for a long time and can be found in every corner of the globe and they're not just limited to the male gender, either. Some of these predators have been caught and brought to justice whereas others have never been found, let alone identified. Serial killers can be anywhere. And scarier still, they can be anyone. Edited by acclaimed author and anthologist Mitzi Szereto, *The Best New True Crime Stories: Serial Killers* reveals all-new accounts of true-crime serial killers from the contemporary to the historic. The international list of contributors includes award-winning crime writers, true-crime podcasters, journalists, and experts in the dark crimes field such as Martin Edwards, Lee Mellor, Danuta Kot, Craig Pittman, Richard O. Jones, Marcie Rendon, Mike Browne, and Vicki Hendricks. This book will leave you wondering if it's ever really possible to know who's behind the mask you're allowed to see. Perfect for readers of true crime books such as *I'll Be Gone in the Dark*, *Mindhunter*, *The Devil in the White City*, or *Sons of Cain*. "An engrossing and multi-faceted anthology for a new era of true crime writing." Piper Weiss, author of *You All Grow Up and Leave Me*

Serial Killers

Serial Killer Book That You Have Never Seen Before! Analysis Of Criminal Minds, Patterns, Thinking, Reasons Why They Did What They Did! It is not in the natural wiring of a man (or woman) to take another man's life. It is even more unnatural when the person has a compulsion to keep taking lives, so that he satisfies some twisted craving. The psychology of serial killers is a bit difficult to explore. The reason is that it is not something that is set in rigid boundaries. It appears that after every murder, an extra layer is added to it. It also appears that the humane side of a serial killer dies a little more with every killing. Do you want to learn more about serial killers? Are you interested in knowing what led them down that path? If you do, this book does a great job of looking at what drove the different people to serial killers. It is important to note that nothing justifies taking life but rather we try to look at what made sense in the eyes of the serial killer to do what they did and with no remorse for their actions. Here Is A Sneak Peek Of What You Will Learn Wayne Gacy, The Molester And Killer Of Boys Edward Theodore Gein Dr. Harold Shipman, The Killer Doctor Compilation And Linking Of The Mental States And Tics Of These Serial Killers And Much Much More Interesting Facts... Evil Serial Killers

The FBI estimate that there are between 25 and 50 serial killers at large in the USA at any given time. But the truth is few people kill. We occasionally say we could kill someone, but that is usually hyperbole. Most of us can imagine what it might be like to be driven to a senseless act of violence in an unendurable situation. To kill once is one thing; to kill over and over again is quite another. What drives these people who kill and kill again? Are they evil or are they mad? Serial killing is a worldwide phenomenon and no two killers are alike. Each one comes with a grisly though compelling tale that takes the reader to the darkest reaches of the human psyche.

Born Killers

It's an age-old question: is it nature or nurture? Can there really be a 'demon seed' that causes serial killers to act the way they do? Or is it an unfortunate combination of influences and events during their formative years that has turned them into such monsters? But no matter how many people they have killed, no matter how many lives they have ruined and whatever the nature of their sickening crimes, serial killers are still human. Analysing the early years of the lives of men like Jeffrey Dahmer, who abused and killed 17 young men, offers a fascinating insight into the effects of a dysfunctional or abusive childhood. Criminologists Christopher Berry-Dee and Steven Morris have spoken and corresponded with killers all over the world in a quest to discover what made them the way they are. For the first time, the inner workings of the minds of the most destructive individuals on the planet are revealed in shocking detail. Born Killers shows, through a sophisticated system of psychological profiling, how the potential serial killer develops. Read it and you too may be able to spot the signs...

Serial Killers True Crime Collection: 6 Notorious True Crime Murder Stories

In the very depths of the human soul there is a darkness. It is an entity which most of us may never get to know; for others, however, this darkness grows for years until it takes hold of them and permeates every inch of their body. This darkness is evil incarnate, and it is in the hearts and minds of some of the most dangerous and despicable human beings to have walked this same earth we live in today. Sometimes it can manifest as the desire to dominate the weak and the less fortunate; in others, it becomes an uncontrollable need for violence and death; another group turns this evil into pure hatred for those that they do not agree with, transforming dislike into the desire to spill blood. Regardless of which group we are talking about, there are many of these individuals who soon evolve into the most deadly kind of monster: the serial killer. In the following volumes, you shall discover the stories of six murderers so tainted by darkness that their horrific accounts still bring fear to men and women of our present day: Edmund Kemper, the Co-Ed Killer, whose victims were mostly young, defenseless students. The Briley Brothers, three siblings who were as mentally unstable as they were bloodthirsty. Christopher Wilder, serial killer who mercilessly killed in two different continents. John Christie, who lived a double life while killing cruelly and indiscriminately. John Haigh or The Acid Bath Murderer, whose methods of disposing of victims made him infamous. Joseph Paul Franklin, whose racist hatred fueled him into a deadly "cleansing of the world," according to his own claims. So open the pages of the volumes in this Serial Killers True Crime Box Set now, and begin exploring these tales that have been forged with the essence of hell itself - you may soon realize just how deep evil can plant its seeds within a human being...

Serial Killer Groupies

This book delves into the twisted psychology of women attracted to some of the most notorious monsters on the planet, giving true crime readers real insight into this phenomena. One of the most common reasons given by women who date serial killers is the fact that they 'see' the little boy that the horrible man once used to be, and they believe that they can nurture that kid, hence removing the cruel and harmful nature of the killers and making them amicable again. Known as 'serial killer groupies' or even 'prison groupies' by some, a great number of these women have shown a surprising desire to get connected to the serial killer of their choice. A large number of these women have become directly aligned with these killers, and some have even married these hardened criminals. Groupies will do almost anything to get close to the prisoner that they are attracted to. They give up jobs, family, spend money on him, and even move across country to be in the same town as him. Some SKG's are attracted to the celebrity status they acquire. They go on talk shows to announce their undying love for the serial killer and proclaim that he was not capable of these killings. This book depicts several such cases and you'll meet some of these SKG's. "If you seek to understand or study the unexplainable, this book may be your key to some grasp of what is beyond imagining....why some women love serial killers!" -- (Bernard Lee DeLeo), bestselling author of over twenty-five novels "The obsessed groupies of predators such as Richard Ramirez (The Night Stalker) are just as fascinating as the serial killers they love. Best-selling author RJ Parker offers powerful insights into the needs, motivations and dark desires of women who pursue and sometimes marry the most infamous killers in history. This powerful psychological examination of these women is not to be missed. Well researched, Parker sheds new light on the curious sub-culture of groupies in his new true crime book, SERIAL KILLER GROUPIES" -- (Scott Bonn, PhD) Professor, criminologist and author of Why We Love Serial Killers: The Curious Appeal of the World's Most Savage Murderers

Serial Killers: The World's Most Evil

One hundred years of the most depraved criminal minds—from H. H. Holmes and Ted Bundy to John Wayne Gacy, Ian Brady, and Myra Hindley. Their monikers have become part of the true crime lexicon: among them, the Moors Murders; the Hillside Strangler; Killer Clown; Son of Sam; the Love Slave Killers; the Scorecard Killer; and the BTK Strangler. How did they justify their heinous deeds? And how did they get away with murder? For answers, true crime journalist Nigel Blundell looks behind the headlines to delve into the minds of monsters: David Parker Ray an "average working guy" with a torture chamber in his backyard; Fred and Rose West, married serial killers who counted their own children among their victims; Ivan Milat, a ritual killer who hunted backpackers in Australia; Gerald and Charlene Gallego, a sadistic couple who cruised Sacramento with kidnapping and murder in mind; and former Marines Leonard Lake and Charles Ng, who videotaped the darkest depths of their depravity in their secluded cabin in the Sierra Nevada foothills. Discover the truth behind the unspeakable crimes in this "anthology of evil . . . you can't put down" (Dr. Michael Stone, forensic psychiatrist).

Love in the Time of Serial Killers

'Unique, sexy, hilarious, charming... The true crime is NOT reading this novel!' Ali Hazelwood, author of *The Love Hypothesis* 'A criminally addictive romance... this book is sheer perfection from beginning to end' Rachel Lynn Solomon, author of *The Ex Talk* -- Turns out that reading nothing but true crime isn't exactly conducive to modern dating - and one woman is going to have to learn how to give love a chance when she's used to suspecting the worst. PhD candidate Phoebe Walsh has always been obsessed with true crime. She's even analysing the genre in her dissertation - if she can manage to finish writing it. It's hard to find the time while she spends the summer in Florida, cleaning out her

childhood home, dealing with her obnoxiously good-natured younger brother, and grappling with the complicated feelings of mourning a father she hadn't had a relationship with for years. It doesn't help that she's low-key convinced that her new neighbour, Sam Dennings, is a serial killer (he may dress business casual by day, but at night he's clearly up to something). But it's not long before Phoebe realises that Sam might be something much scarier - a genuinely nice guy who can pierce her armour to reach her vulnerable heart. What readers are saying about *Love in the Time of Serial Killers*: 'Do you know when you disappear into a book? You, your surroundings, everything, ceases to exist? This book was that for me' **★★★★** 'The cover is gorgeous, and the inside is fun, witty, relatable and so entirely sweet' **★★★★** 'This was such an enjoyable read. I really loved the depths given to Phoebe, the way she created walls around herself, the themes were developed organically and believably' **★★★★** 'Phoebe is one of the best female protagonists I've read in a long time' **★★★★** 'The whole thing made me laugh out loud and smile like an idiot sooo often' **★★★★** 'The book was witty and fun, but also thought out and honest' **★★★★**

Angry at this world we live in, angry that anyone could get away with the murder of one and then go on to kill more. Many of these tales you almost see coming - the killer had a poor childhood and was simply dealt a rough hand in life, which leads to the question - what could have been done? Is there something that could have saved these people from becoming serial killers? Or is it ever possible to save someone from themselves?

Serial Killers

Charles Manson was the illegitimate child of a teenage prostitute; in 1969, on his orders, eight people were hacked to death in an orgy of violence. Ted Bundy had the power to charm women. With his arm in a fake sling, he used to ask them to help him get his sailboat down off his car, but first they had to go to his house... Joanna Dennehy stabbed her lover Kevin Lee in the heart, dressed him in a black sequin dress, and dumped him in a ditch. To celebrate, she played Britney Spears' 'Oops!... I Did It Again' down her phone and then helped torch Lee's Ford Mondeo. Serial killers are the ultimate outlaws. They step outside not just the law but all human norms. They are fascinating because they are almost impossible to understand. It's comforting to know that all the serial killers featured here are now either dead or behind bars. Nevertheless, this book is not for people of a nervous disposition.

The Lost British Serial Killer

The definitive and explosive account of a harrowing murder case that has shocked Britain Peter Tobin was already serving a life sentence for murder when he was charged with the murder of two young women - Vicky Hamilton and Dina McNichol, in November 2007. Both girls went missing in 1991. Their bodies were discovered by police in 50 Irvine Drive, Margate - where Tobin once lived. In their new true crime investigation, Paul Harrison and Professor David Wilson examine this shocking case, including full details of Tobin's trial. But perhaps even more importantly, they look into other similar cases around the country. With developments in DNA testing, the police are coming closer and closer to solving a range of terrible and high profile murders. There have been at least five major arrests in recent months, with further arrests sure to follow. Harrison and Wilson investigate these cases, and ask how new DNA tests will change police investigations. But they also ask whether this will be enough to stop murderers in the future, and whether there are larger forces at work in society that need to be addressed before we can stop people from killing again and again.

The Big Book of Serial Killers

There is little more terrifying than those who hunt, stalk and snatch their prey under the cloak of darkness. These hunters search not for animals, but for the touch, taste, and empowerment of human flesh. They are cannibals, vampires and monsters, and they walk among us. These serial killers are not mythical beasts with horns and shaggy hair. They are people living among society, going about their day to day activities until nightfall. They are the Dennis Rader's, the fathers, husbands, church going members of the community. This A-Z encyclopedia of 150 serial killers is the ideal reference book. Included are the most famous true crime serial killers, like Jeffrey Dahmer, John Wayne Gacy, and Richard Ramirez, and not to mention the women who kill, such as Aileen Wuornos and Martha Rendell. There are also lesser known serial killers, covering many countries around the world, so the range is broad. Each of the serial killer files includes information on when and how they killed the victims, the background of each killer, or the suspects in some cases such as the Zodiac killer, their trials and punishments. For some there are chilling quotes by the killers themselves. The Big Book of Serial Killers is an easy to follow collection of information on the world's most heinous murderers.

The Basement

This is a shocking story of kidnapping, rape, torture, mutilation, dismemberment, decapitation, and murder. The subject matter in this book is graphic. On March 24, 1987, the Philadelphia Police Department received a phone call from a woman who stated that she had been held captive for the last four months. When police officers arrived at the pay phone from which the call was made, Josefina Rivera told them that she and three other women had been held captive in a basement by a man named Gary Heidnik. He imprisoned women in chains, in the filth and stench of a hole dug under his home.

Serial Killers True Crime

The 1990s was a time of great technological and social change in America, but it was also a time when monsters stalked the highways and byways of the country as well as, for the first time, the information super highway. If you love true tales of horror more chilling than anything the imagination can conceive then *Serial Killers True Crime: 13 Serial Killer Murder Stories of the 90s* is the book you have been waiting for. Inside you will find a full graphic account of the exploits of monstrous individuals such as: Harvey Miguel Robinson has the dubious honor of being one of the youngest serial killers in American history, being just 18 when he was arrested for the crimes he had committed. Robinson killed two women and a teenager, in addition to trying to kill a child and the woman that would ultimately lead to his capture. Robinson's murder spree was the inspiration for the movie *No One Could Protect Her* starring Joanna Kerns as intended victim Denise Sam-Cali. Charles Edmund Cullen is a former nurse and the most prolific serial killer in the history of the East Coast, if not in all of American. He has confessed to killing more than 40 people during his time as a nurse, and subsequent interviews have indicated that the actual number could be far, far, greater as he cannot remember names but can remember specifics of the events. All told, experts believe he may have killed as many as 400 people. Keith Hunter Jespersen killed at least 8 women during the early 90s and earned the moniker the Happy Face Killer from the smiley faces that he always included on his letters to the authorities as well as to the media. He typically targeted prostitutes as well as transients with no apparent rhyme or reason for the killings. He primarily killed his victims via strangulation, in much the same way he killed animals as a child. There was a movie made about his killing spree Happy Face Killer which premiered in 2014. David Parker Ray, more commonly known as the Toy-Box Killer, is believed to have kidnapped, tortured and murdered more than 60 people near the New Mexico, Arizona border over several decades. Ray would keep his victims in a trailer known as his toy-box which was exceedingly well equipped for all manner of sexual torture and murder. He was convicted of torture and kidnapping in 2001 and died incarcerated the very next year before he had a chance to confess to the full nature of his crimes. Inside you will learn

all about the horrible life and times of Jeffery Lionel Dahmer Scott William Cox Keith Hunter Jespersen Orville Lynn Majors Cleophus Price Jur. David Parker Ray John Edward Robinson Michael Swango And more...

Talking with Serial Killers: Sleeping with Psychopaths

Bestselling true crime writer and criminologist Christopher Berry-Dee turns his attention to a new kind of victim: the wives and partners of serial murderers who remained unaware of exactly who they had fallen for until after their other half's arrest or, in some cases, conviction. Only upon Peter's arrest did Sonia Sutcliffe first discover that her husband was leading a secret existence as the Yorkshire Ripper. The wife of the Hillside Strangler only learned of her husband's crimes when state police smashed down her door in search of him. When finding out the truth, these innocents have to face the grim reality of betrayal and deceit and often experience guilt for not having recognized the killer in their home. Christopher Berry-Dee speaks directly with killers and their oblivious loved ones to get inside the minds of the men and women who fall for murderers.

R. Barri Flowers, award-winning criminologist and bestselling author of *Serial Killers & Prostitutes* and *The Sex Slave Murders*, brings together six of his best previously published true crime stories in this captivating third volume of *Murder and Menace: Riveting True Crime Tales*. *Murder of the Banker's Daughter: The Killing of Marion Parker* tells the tragic story of a child's abduction in Los Angeles in 1927, her brutal murder, and the intense manhunt for and capture of a young and elusive killer. *Murder in Calaveras County: The Horrific Tale of Serial Killers Leonard Lake and Charles Ng* recounts the vicious crimes of the deadly pair in Calaveras County, California, during the mid-1980s, including kidnapping, rape, torture, and videotaping their murdered victims. *The Xerox Repairman Mass Killer: The Story of Byran Koji Uyesugi* is the disturbing tale of Honolulu, Hawaii's worst mass murder as a disgruntled employee opened fire on coworkers in a tragic case of workplace violence that reverberated around the country. *The "Sinful" and "Folsom Wolf" Killers: The Tale of James Marlow and Cynthia Coffman* relives the cross-country rape, robbery, and killing spree of a career criminal and white supremacist and a troubled woman before their terror came to an end. *Murder in Mission Hill: The Tale of Carol Stuart and Charles Stuart* is the heartbreaking story of a pregnant Boston lawyer's untimely death, uxoricide, use of the race card to mislead authorities, and the unraveling of the murder mystery to a shocking conclusion. *The Boney and Claude Murders: The Serial Crimes of Alvin Neelley and Judith Ann Neelley* tells the twisted story of a serial killer couple who likened themselves to Bonnie and Clyde in the modern era as they tortured and murdered their victims till justice was served. Other bonus excerpts include the bestselling crime thriller novel, *Before He Kills Again*, and the psychological thriller novel, *Killer in The Woods*, by R. Barri Flowers. A bonus short story mystery thriller, *Kill and Say Goodbye*, is

also included with the collection. Be sure to read as well the first two gripping volumes of Murder and Menace: Riveting True Crime Tales, available in eBook, print, and audio.

2015 Serial Killers True Crime Anthology, Volume II

This is the second volume of the bestselling annual, Serial Killers True Crime Anthology, a collection of some of the best true crime writing on serial killers over the year. Several of these authors who appeared in Volume 1 of the Anthology, return this year to Volume 2 with new stories. 2015 Serial Killers True Crime Anthology Volume 2: Peter Vronsky in the chilling story "Zebra! The Hunting Humans 'Ninja' Truck Driver Serial Killer" describes the carnage perpetrated in 2007 by Adam Leroy Lane, a long haul truck driving serial killer who after repeatedly watching in his truck cab a serial killer DVD movie he was obsessed with, forayed out in the night from Interstate highway truck-stops dressed in Ninja black to re-enact the movie scenes by killing and mutilating unsuspecting women in their homes until he was captured by a fifteen-year old girl and her parents when he attempted to kill her as she slept in her bedroom. RJ Parker in "Demons" introduces us to the little known story of Canada's serial killer Michael Wayne McGray who murdered men, women and children indiscriminately and whom even prison could not stop from continuing his killing. In the "Grim Sleeper" Parker describes the brutal crimes of Lonnie Franklin, Jr. who over a 23-year killing career, took a fourteen-year hiatus (thus his nickname) before resuming his murders of women in Los Angeles. Katherine Ramsland in "The Babysitter" brings us up to date on the still unsolved horrific 1976 mutilation child murders in Detroit that inspired Bill Connington's one-man Broadway play and Joyce Carol Oates 1995 novella *Zombie*. In "Really! The Other Guy Did It." Ramsland explores the bizarre case of serial killer Douglas Perry who after killing several women underwent a transsexual change into a woman, Donna Perry, who when apprehended, claimed the murders were perpetrated by his former male self who no longer existed. Ramsland asks, "Is guilt in the body or the soul?" Michael Newton in "Bad Medicine" and "Angel of Death" describes two serial killers where we least expect them: health care workers. Physician Dr. Harold Shipman who murdered 250 victims in Britain and might be history's most prolific serial killer, and the smiling mild mannered Ohio medical orderly 'Angel of Death' Donald Harvey, who confessed to murdering 87 helpless patients, stating, "So I played God." Sylvia Perrini, Britain's true crime chronicler of female serial killers in "The House of Horrors" revisits the notorious case of Rosemary West who teamed up with her husband Fred in the rape, torture and murder of ten young women in their rooming house, including her own daughter. In "The Mum Who Killed for Kicks" Perrini looks at the recent case of Joanne Dennehy, a mother of a thirteen-year old who inexplicably went on a thrill kill serial killing spree in which she tortured and murdered three men with a knife and attempted to kill two others. Kelly Banaski, a newcomer to true crime writing, brings us "Stripped of his medals and female panties"

John Christie

John Christie was a man with many secrets, and his flat at 10 Rillington Place in London would become known as one of the original houses of horror. Former soldier, Special Constable, and husband, John was to become regarded as one of the worst British Serial killers to date, and one that left a lot more questions than answers following his execution. Nobody ever suspected that this quiet man would have a dark double life, with a penchant for prostitutes and sexual perversion. He took advantage of the post-war times, the desperate women without husbands and their need to be rid of unwanted pregnancies as a result of prostitution and lack of contraception. Christie claimed he could perform abortions, and this led some women right to his lair, where they would be gassed and raped while they died. The official number of deaths associated with this London serial killer was eight, but it is believed there were most likely many more. This true crime story is filled with unanswered questions and controversy, as Christie's actions led an innocent man to his death at the gallows. This would later bring about changes to the British legal system surrounding capital punishment, but for Timothy Evans it was far too late. This serial killer biography will intrigue you, disgust you and make you question how the police and legal system could get things so wrong. The fact that unlike many other historical serial killers Christie hid the bodies of his victims in his house and his backyard makes him one of the most disturbing perpetrators of true crime murder in history.

True Crime Chronicles, Volume One

Original newspaper reports of Wyatt Earp, Belle Gunness, Billy the Kid, Dr. H.H. Holmes, and others compiled by the New York Times—bestselling author. Former detective and bestselling author Mike Rothmiller has brought together classic works of journalism that will take the reader back to when

these horrific tales mesmerized a nation. Some may find these articles and their descriptions of people and crimes shocking by today's standards, but they are representative of the most colorful true crime stories of the day. True Crime Chronicles, Volume One includes stories about Belle Gunness, who had a penchant for killing men and feeding them to her hogs, Dr. Holmes and his "murder castle," The Bloody Benders, and Amelia Dyer, the "baby farmer," the darker side of Wyatt Earp, and the forerunners of the American Mafia, "The Black Hand." Imagine yourself accompanying these reporters visiting the crime scenes, interviewing witnesses, and penning the stories of murder, lynchings, evil, and swift frontier justice.
