Summarizing a life strategy on a single page

Where did this idea come from?

What is a life strategy?

How do I define a great life?

How do I assess my life portfolio?

What portfolio choices can I make?

Where do I go from here?

A Plan Is Not a Strategy - A Plan Is Not a Strategy by Harvard Business Review 3,793,653 views 1 year ago 9 minutes, 32 seconds - A comprehensive plan—with goals, initiatives, and budgets—is comforting. But starting with a plan is a terrible way to make ...

Most strategic planning has nothing to do with strategy.

So what is a strategy?

Why do leaders so often focus on planning?

Let's see a real-world example of strategy beating planning.

How do I avoid the "planning trap"?

It's a Lot Simpler Than You Think by Harvard Business Review 875,762 views 2 years ago 9 minutes, 32 seconds - To many people, **strategy**, is a total mystery. But it's really not complicated, says **Harvard**, Business School's Felix Oberholzer-Gee, ...

To many people, strategy is a mystery.

Strategy does not start with a focus on profit.

It's about creating value.

There's a simple tool to help visualize the value you create: the value stick.

What is willingness-to-pay?

What is willingness-to-sell?

Remind me: Where does profit come in again?

How do I raise willingness-to-pay?

And how do I lower willingness-to-sell?

Real world example: Best Buy's dramatic turnaround

The mathematical methods that physical scientists need for solving substantial problems in their fields of study are set out clearly and simply in this tutorial-style textbook. Students will develop problem-solving skills through hundreds of worked examples, self-test questions and homework problems. Each chapter concludes with a summary of the main procedures and results and all assumed prior knowledge is summarized in one of the appendices. Over 300 worked examples show how to use the techniques and around 100 self-test questions in the footnotes act as checkpoints to build student confidence. Nearly 400 end-of-chapter problems combine ideas from the chapter to reinforce the concepts. Hints and outline answers to the odd-numbered problems are given at the end of each chapter, with fully-worked solutions to these problems given in the accompanying Student Solutions Manual. Fully-worked solutions to all problems, password-protected for instructors, are available at www.cambridge.org/essential.

'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed.

The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.
