Through the Eye of the Tiger

"Hey, yo, Jim . . . This is Sylvester Stallone. Give me a call . . ." It was these words that would set Jim Peterik on the road to rock 'n' roll immortality. After he and his Survivor bandmates recorded "Eye of the Tiger" for the Rocky III soundtrack, the song would go on to earn a Grammy, an Oscar nomination, reach triple platinum status—and become one of the most recognizable tunes in music history. But there's much more to the story of Survivor and its founding member, Jim Peterik, than meets the eye. As one of the most prolific songwriters of his generation, Peterik has cowritten songs with some of the most famous bands and artists of our time, including 38 Special ("Caught Up in You," "Hold on Loosely"), Sammy Hagar ("Heavy Metal"), The Beach Boys, The Doobie Brothers, REO Speedwagon, Cheap Trick, and many more. Now, for the first time, Peterik is sharing his stories. Filled with tales from Peterik's life in rock 'n' roll, *Through the Eye of the Tiger* documents his early days of success with The Ides of March ("Vehicle"), through the often torturous power struggles within Survivor, and the giddy highs that accompany a trail of worldwide hits. From going to a party in Led Zeppelin's hotel room (and turning right back out the door) to escorting a disoriented Janis Joplin back to her hotel room after opening her show in Calgary, Peterik's accounts will surprise and delight. *Through the Eye of the Tiger* is more than just a memoir of a songwriting legend; it's a classic rock 'n' roll story told through the eyes of someone who has lived through it all—and through the Eye of the Tiger.

Concert Room and Orchestra Anecdotes of Music and Musicians, Ancient and Modern

'An inspired and intuitive navigation of the drone continuum . . . with a compass firmly set to new and enlightening psychedelic truths' BECK Monolithic Undertow alights a crooked path across musical, religious and subcultural frontiers. It traces the line from ancient traditions to the modern underground, navigating archaeoacoustics, ringing feedback, chest plate sub-bass, avant-garde eccentricity, sound weaponry and fervent spiritualism. From Neolithic beginnings to bawdy medieval troubadours, Sufi mystics to Indian raga masters, cone shattering dubwise bass, Hawkwind's Ladbroke Grove to the outer reaches of Faust and Ash Ra Temple; the hash-fueled fug of The Theatre of Eternal Music to the cough syrup reverse hardcore of Melvins, seedy VHS hinterland of Electric Wizard, ritual amp worship of Earth and Sunn O))) and the many touch points in between, Monolithic Undertow explores the power of the drone - an audio carrier vessel capable of evoking womb like warmth or cavernous dread alike. In 1977 Sniffin' Glue verbalised the musical zeitgeist with their infamous 'this is a chord; this is another; now form a band' illustration. The drone requires neither chord nor band, representing - via its infinite pliability and accessibility - the ultimate folk music: a potent audio tool of personal liberation. Immersion in hypnotic and repetitive sounds allows us to step outside of ourselves, be it chant, a 120dB beasting from Sunn O))), standing front of the system as Jah Shaka drops a fresh dub or going full headphone immersion with Hawkwind. These experiences are akin to an audio portal - a sound Tardis to silence the hum and fizz of the unceasing inner voice. The drone exists outside of us, but also - paradoxically - within us all; an aural expression of a universal hum we can only hope to fleetingly channel...

Recent years have seen not just a revival, but a rebirth of the analogue record. More than merely a nostalgic craze, vinyl has become a cultural icon. As music consumption migrated to digital and

online, this seemingly obsolete medium became the fastest-growing format in music sales. Whilst vinyl never ceased to be the favorite amongst many music lovers and DJs, from the late 1980s the recording industry regarded it as an outdated relic, consigned to dusty domestic corners and obscure record shops. So why is vinyl now experiencing a 'rebirth of its cool'? Dominik Bartmanski and Ian Woodward explore this question by combining a cultural sociological approach with insights from material culture studies. Presenting vinyl as a multifaceted cultural object, they investigate the reasons behind its persistence within our technologically accelerated culture. Informed by media analysis, urban ethnography and the authors' interviews with musicians, DJs, sound engineers, record store owners, collectors and cutting-edge label chiefs from a range of metropolitan centres renowned for thriving music scenes including London, New York, Tokyo, Melbourne, and especially Berlin, what emerges is a story of a modern icon.
