Jury

Life is no longer what it seems for Douglas Sands. If he is to believe his eyes, creatures of childhood nightmares are real. Beasts lusting for blood stalk his family. A haunting apparition points toward the sins of his past. Is Sands mad or does the madness lie in the world around him. Who is fit to judge? This second book of the Predator & Prey series is also the first White Wolf novel about hunters, the newly empowered mortals who stand against the evil that lurks in the World of Darkness "RM".

Judge

Number 13 - lucky for horror fans! This award-winning anthology series has now reached its thirteenth spectacular volume and to mark the event, Steve Jones has chosen only the very best short stories and novellas by today's finest exponents of the horror genre. Contributors to this volume include: Gala Blau, Ramsey Campbell, Dennis Etchison, Charles Grant, Glen Hirshberg, Chico Kidd, Nancy Kilpatrick, Paul J. McAuley, Conrad Williams. Also featuring the most comprehensive overview of the year, a fascinating necrology and a list of useful contacts, this is the one book that all lovers of the supernatural and psychological terror will want on their shelves.

The Mammoth Book of Best New Horror 13

Douglas Sands had no idea sinister forces dominated the world. The revelation nearly killed him, and being imbued drove him from his home, Iron Rapids. Now he returns with a new sense of purpose and the conviction to take a stand. However, he and his surviving companions find themselves in the middle of a struggle between undead monsters and the agents of an ultrasecret conspiracy who claim to have mankind's best interests at heart.

Predator & Prey

The End Is Nigh Monsters are everywhere, lurking in the shadows, masquerading as upstanding citizens or hiding in plain sight. They murder, abuse and oppress humanity. They have to be stopped, at any price. A new force emerges among hunters, a new creed never seen before. These chosen are bent on obliterating the supernatural -- and anyone who gets in their way. Are these wanton killers the world's messiahs ... or destroyers? Stand or Fall Hunter Book: Wayward is part of a Hunter: The Reckoning series dedicated to the creeds, the character types of the imbued. Waywards are one of the two lost hunter creeds, a group of maniacs and psychopaths -- even by monsters' standards. Learn what it takes to drive these hunters over the edge -- or to make them the most prophetic among the chosen. For adults only.

Hunter Book

After the death of his beloved "childe\

Vampire

A complete account of evolutionary thought in the social, environmental and policy sciences, creating bridges with biology.

Human Evolution Beyond Biology and Culture

The State is a brilliant analysis of some of the fundamental issues of modern political thought from the perspective, not of individuals or subjects, but of the state itself. The author poses the query, "What would you do if you were the state?" The state usually is understood as an instrument, not a personality, and it is presumed to exist so that people can achieve their common ends. However, Jasay asks, what if we suppose the state to have a will and ends of its own? To answer these questions, the author traces the logical and historical progression of the state from a modest-sized protector of life and property through its development into an "agile seducer of democratic majorities, to the welfare-dispensing drudge that it is in many countries today ... Is the rational next step a totalitarian enhancement of its power?" The State presents what has been termed "a disturbingly logical 'agenda' for the state in pursuit of its 'self-fulfillment.'"--Inside jacket flap.

The State

His most ambitious novel to date, ACCELERANDO is a multi-generational saga following a brilliant clan of 21st-century posthumans. The year is some time between 2010 and 2015. The recession has ended, but populations are ageing and the rate of tech change is accelerating dizzyingly. Manfred makes his living from spreading ideas around, putting people in touch with one another and leaving a spray of technologies in his wake. He lives at the cutting edge of intelligence amplification technology, but even Manfred can take on too much. And when his pet robot cat picks up some interesting information from the SETI data, his world - and the world of his descendants - is turned on its head.

Accelerando

Voted by her peers as one of the best lawyers in America, and described by Time magazine as "one of the nation's most effective advocates of family rights and feminist causes," Allred has devoted her career to fighting for civil rights and has won hundreds of millions of dollars for victims of abuse. She has taken on countless institutions to promote equality, including the Boy Scouts, the Friars Club, and the United States Senate. And as the attorney for numerous high-profile clients—including Nicole Brown Simpson's family, actress Hunter Tylo, and Amber Frey, Scott Peterson's girlfriend—Allred has helped victims assert and protect their rights. Throughout her memoir, Allred offers colorful—sometimes shocking—examples of self-empowerment from her personal and professional life. Presenting nearly fifty of her most memorable cases, Allred takes us deep inside the justice system to show how it's possible to win even in the face of staggering odds. Her inspiring true stories serve to remind us that winning justice depends on the righteousness of the cause and an individual's willingness to stand up, speak out, and fight back. Fight Back and Win is a powerful testament to Gloria Allred's trailblazing career and the battles she has fought alongside countless brave individuals to win justice for us all.

Fight Back and Win

Before the Civil War, most Southern white people were as strongly committed to freedom for their kind as to slavery for African Americans. This study views that tragic reality through the lens of eight

authors - representatives of a South that seemed, to them, destined for greatness but was, we know, on the brink of destruction. Exceptionally able and ambitious, these men and women won repute among the educated middle classes in the Southwest, South and the nation, even amid sectional tensions. Although they sometimes described liberty in the abstract, more often these authors discussed its practical significance: what it meant for people to make life's important choices freely and to be responsible for the results. They publicly insisted that freedom caused progress, but hidden doubts clouded this optimistic vision. Ultimately, their association with the oppression of slavery dimmed their hopes for human improvement, and fear distorted their responses to the sectional crisis.

Freedom in a Slave Society

This text is a history of the world's oldest global conservation body - the World Conservation Union, established in 1948 as a forum for governments, non-governmental organizations and individual conservationists. The author draws on unpublished archives to reveal the often turbulent story of the IUCN and its achievements in, and influence on, conservation and environmental policy worldwide - establishing national parks and protected areas and defending threatened species.

The Green Web

"Slow violence" from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war occurs gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

Werewolf Storytellers Handbook

Masculinity without men. In *Female Masculinity* Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among "transgender dykes"--lesbians who pass as men--and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. *Female Masculinity* signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs, including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.

Slow Violence and the Environmentalism of the Poor

First serialized in the journal "The Dark Blue" and published shortly thereafter in the short story collection *In a Glass Darkly*, Le Fanu's 1872 vampire tale is in many ways the overlooked older sister of Bram Stoker's more acclaimed *Dracula*. A thrilling gothic tale, *Carmilla* tells the story of a young woman lured by the charms of a female vampire. This edition includes a student-oriented introduction, tracing the major critical responses to *Carmilla*, and four interdisciplinary essays by leading scholars who analyze the story from a variety of theoretical perspectives. Ranging from politics to gender, Gothicism to feminism, and nineteenth-century aestheticism to contemporary film studies, these critical yet accessible articles model the diverse ways that scholars can approach a single text. With a glossary, biography, bibliography, and explanatory notes on the text, this edition is ideal for students of Irish and British nineteenth-century literature.

Female Masculinity

In the years between the world wars, Manhattan's Fourteenth Street-Union Square district became a center for commercial, cultural, and political activities, and hence a sensitive barometer of the dramatic social changes of the period. It was here that four urban realist painters--Kenneth Hayes Miller, Reginald Marsh, Raphael Soyer, and Isabel Bishop--placed their images of modern "new women." Bargain stores, cheap movie theaters, pinball arcades, and radical political organizations were the backdrop for the women shoppers, office and store workers, and consumers of mass culture portrayed by these artists. Ellen Wiley Todd deftly interprets the painters' complex images as they were refracted through the gender ideology of the period. This is a work of skillful interdisciplinary scholarship, combining recent insights from feminist art history, gender studies, and social and cultural theory. Drawing on a range of visual and verbal representations as well as biographical and critical texts, Todd balances the historical context surrounding the painters with nuanced analyses of how each artist's image of womanhood contributed to the continual redefining of the "new woman's" relationships to men, family, work, feminism, and sexuality.

Carmilla

There has been a deluge of material on biodiversity, starting from a trickle back in the mid-1980's. However, this book is entirely unique in its treatment of the topic. It is unique in its meticulously crafted, scientifically informed, philosophical examination of the norms and values that are at the heart of discussions about biodiversity. And it is unique in its point of view, which is the first to comprehensively challenge prevailing views about biodiversity and its value. According to those dominant views, biodiversity is an extremely good thing – so good that it has become the emblem of natural value. The book's broader purpose is to use biodiversity as a lens through which to view the nature of natural value. It first examines, on their own terms, the arguments for why biodiversity is supposed to be a good thing. This discussion cuts a very broad and detailed swath through the scientific, economic, and environmental literature. It finds all these arguments to be seriously wanting. Worse, these arguments appear to have consequences that should dismay and perplex most environmentalists. The book then turns to a deeper analysis of these failures and suggests that they result from posing value questions from within a framework that is inappropriate for nature's value. It concludes with a novel suggestion for framing natural value. This new proposal avoids the pitfalls of the ones that prevail in the promotion of biodiversity. And it exposes the goals of conservation biology, restoration biology, and the world's largest conservation organizations as badly ill-conceived.

The new Woman Revised

When local author Dane Starbuck set out several years ago to write the biography of Pierre Goodrich, scion of one of Indiana's most prominent twentieth-century families, he soon discovered that it was impossible to really understand Pierre Goodrich without also closely examining his family. Starbuck's years of research culminated in *The Goodriches: An American Family*, now available from Liberty Fund. This work is a revealing window into the founding ideals of both Indiana and our country, and how our founders meant these ideals to be lived. *The Goodriches: An American Family* begins with the birth of James P. Goodrich in 1864 and continues through the death of his son Pierre F. Goodrich in 1973. As the story of two fascinating and fiercely individualistic men, it is compelling reading, but as author Dane Starbuck says in the preface, "the later chapters of this book are as much a social commentary on American life in the twentieth century as parts of a biography of two accomplished men." In his foreword to *The Goodriches: An American Family*, James M. Buchanan, Nobel laureate in economics and celebrated Liberty Fund author, says, "The Indiana Goodriches are an American family whose leading members, James and Pierre, helped to shape the American century. . . . This biography makes us recognize what is missing from the millennial setting in which we find ourselves. We have lost the 'idea of America,' both as a motivation for action and as a source of emotional self-confidence. We have lost that which the Goodriches possessed." What did the Goodrich family "possess" which made them so unique? A belief in the power of knowledge, the importance of education, and a strong work ethic combined to imbue the Goodrich family with a distinctive sense of civic duty. James Goodrich served as governor of Indiana from 1917 to 1921 and as adviser to Presidents Warren G. Harding, Calvin Coolidge, and Herbert Hoover. During his eulogy of James Goodrich, the Reverend Gustav Papperman explained, "The Governor felt that he had been given talents that were a trust, that he was to administer them faithfully. . . ." According to author Dane Starbuck, "Education was a large part of the Goodriches' work ethos. . . . The family viewed education as a process by virtue of which the individual remained informed, made better business decisions, learned the importance of citizenship, and was given an opportunity for individual self-improvement. Therefore, work and education became

the centerpieces of the Goodrich family's ethical and practical life." In later years, Pierre Goodrich, successful businessman and entrepreneur, would set aside a portion of his estate to found Liberty Fund because he believed that the principles of liberty on which our nation was founded need to be constantly kept before the public.

What's So Good About Biodiversity?

The Puritans condemned war profiteering as a "Provoking Evil," George Washington feared that it would ruin the Revolution, and Franklin D. Roosevelt promised many times that he would never permit the rise of another crop of "war millionaires." Yet on every occasion that American soldiers and sailors served and sacrificed in the field and on the sea, other Americans cheerfully enhanced their personal wealth by exploiting every opportunity that wartime circumstances presented. In *Warhogs*, Stuart D. Brandes masterfully blends intellectual, economic, and military history into a fascinating discussion of a great moral question for generations of Americans: Can some individuals rightly profit during wartime while others sacrifice their lives to protect the nation? Drawing upon a wealth of manuscript sources, newspapers, contemporary periodicals, government reports, and other relevant literature, Brandes traces how each generation in financing its wars has endeavored to assemble resources equitably, to define the ethical questions of economic mobilization, and to manage economic sacrifice responsibly. He defines profiteering to include such topics as price gouging, quality degradation, trading with the enemy, plunder, and fraud, in order to examine the different guises of war profits and the degree to which they have existed from one era to the next. This far-reaching discussion moves beyond a linear narrative of the financial schemes that have shaped this nation's capacity to make war to an in-depth analysis of American thought and culture. Those scholars, students, and general readers interested in the interaction of legislative, economic, social, and technological events with the military establishment will find no other study that so thoroughly surveys the story of war profits in America.

The Goodriches

It began with a key. One afternoon in 1956, in the home of the Hitchings family in Battersea, south London, a small silver key appeared on Shirley Hitchings' bed. This seemingly insignificant event heralded the beginning of one of the most terrifying, incredible and mysterious hauntings in British history. The spirit, who quickly became known as 'Donald', began to communicate, initially via tapping sounds, but over time - and with the encouragement of psychical researcher Harold Chibbett, whose case-files appear here - by learning to write. Soon, the spirit had begun to make simply incredible claims about his identity, insisting that he was one of the most famous figures in world history - but what was the truth? Here, for the first time, is the full story, told by the woman right at the heart of it all - Shirley herself.

Warhogs

White conducted more than 130 interviews in Kenya, Uganda, and Zambia to compile this "stimulating and provocative . . . book on vampires (that) reverses strong mythologies" (Valentin Mudimbe, author of "The Idea of Africa") about the subject. 2 maps.

The Poltergeist Prince of London

Fantasirollespil.

Speaking with Vampires

In the era of the American Revolution, the rituals of diplomacy between the British, Patriots, and Native Americans featured gifts of food, ceremonial feasts, and a shared experience of hunger. When diplomacy failed, Native Americans could destroy food stores and cut off supply chains in order to assert authority. Black colonists also stole and destroyed food to ward off hunger and carve out tenuous spaces of freedom. Hunger was a means of power and a weapon of war. In *No Useless Mouth*, Rachel B. Herrmann argues that Native Americans and formerly enslaved black colonists ultimately lost the battle against hunger and the larger struggle for power because white British and United States officials curtailed the abilities of men and women to fight hunger on their own terms. By describing three interrelated behaviors—food diplomacy, victual imperialism, and victual warfare—the book shows that, during this tumultuous period, hunger prevention efforts offered strategies to claim power, maintain communities, and keep rival societies at bay. Herrmann shows how Native Americans, free blacks, and

enslaved peoples were "useful mouths"—not mere supplicants for food, without rights or power—who used hunger for cooperation and violence, and took steps to circumvent starvation. Her wide-ranging research on black Loyalists, Iroquois, Cherokee, Creek, and Western Confederacy Indians demonstrates that hunger creation and prevention were tools of diplomacy and warfare available to all people involved in the American Revolution. Placing hunger at the center of these struggles foregrounds the contingency and plurality of power in the British Atlantic during the Revolutionary Era. Thanks to generous funding from Cardiff University, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellopen.org) and other repositories.

The Men All Singing

Issues spawned by the headlong pace of developments in science and technology fill the courts. How should we deal with frozen embryos and leaky implants, dangerous chemicals, DNA fingerprints, and genetically engineered animals? The realm of the law, to which beleaguered people look for answers, is sometimes at a loss—constrained by its own assumptions and practices, Sheila Jasanoff suggests. This book exposes American law's long-standing involvement in constructing, propagating, and perpetuating a variety of myths about science and technology. *Science at the Bar* is the first book to examine in detail how two powerful American institutions—both seekers after truth—interact with each other. Looking at cases involving product liability, medical malpractice, toxic torts, genetic engineering, and life and death, Jasanoff argues that the courts do not simply depend on scientific findings for guidance—they actually influence the production of science and technology at many different levels. Research is conducted and interpreted to answer legal questions. Experts are selected to be credible on the witness stand. Products are redesigned to reduce the risk of lawsuits. At the same time the courts emerge here as democratizing agents in disputes over the control and deployment of new technologies, advancing and sustaining a public dialogue about the limits of expertise. Jasanoff shows how positivistic views of science and the law often prevent courts from realizing their full potential as centers for a progressive critique of science and technology. With its lucid analysis of both scientific and legal modes of reasoning, and its recommendations for scholars and policymakers, this book will be an indispensable resource for anyone who hopes to understand the changing configurations of science, technology, and the law in our litigious society.

Hunter

"In *Literary Executions*, John Barton analyzes nineteenth-century representations of, responses to, and arguments for and against the death penalty in the United States. The author creates a generative dialogue between artistic relics and legal history. Novels, short stories, poems, and creative nonfiction engage with legislative reports, trial transcripts, legal documents, newspaper and journal articles, treatises, and popular books (like *The Record of Crimes and The Gallows*, *the Prison*, and *the Poor House*), all of which participated in the debate over capital punishment. Barton focuses on several canonical figures--James Fenimore Cooper, Nathaniel Hawthorne, Lydia Maria Child, Walt Whitman, Herman Melville, and Theodore Dreiser--and offers new readings of their work in light of the death penalty controversy. Barton also gives close attention to a host of then-popular-but-now-forgotten writers--particularly John Neal, Slidell MacKenzie, William Gilmore Simms, Sylvester Judd, and George Lippard--whose work helped shape or was in turn shaped by the influential anti-gallows movement. As illustrated in the book's epigraph by Samuel Johnson -- "Depend upon it Sir, when a man knows he is to be hanged in a fortnight, it concentrates his mind wonderfully" -- Barton argues that the high stakes of capital punishment dramatize the confrontation between the citizen-subject and sovereign authority. In bringing together the social and the aesthetic, Barton traces the emergence of the modern State's administration of lawful death. The book is intended primarily for literary scholars, but cultural and legal historians will also find value in it, as will anyone interested in the intersections among law, culture, and the humanities"--

No Useless Mouth

Building on *A People's History of the United States*, this radical world history captures the broad sweep of human history from the perspective of struggling classes. An "indispensable volume" on class and capitalism throughout the ages—for readers reckoning with the history they were taught and history as it truly was (Howard Zinn) From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the

standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. A vital corrective to traditional history, *A People's History of the World* is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress.

Science at the Bar

"This edition includes a new interview with the author"--P. [4] of cover.

Slasher

One of the most beloved novels of all time, Colleen McCullough's magnificent saga of dreams, struggles, dark passions, and forbidden love in the Australian outback has enthralled readers the world over. *The Thorn Birds* is a chronicle of three generations of Clearys—an indomitable clan of ranchers carving lives from a beautiful, hard land while contending with the bitterness, frailty, and secrets that penetrate their family. It is a poignant love story, a powerful epic of struggle and sacrifice, a celebration of individuality and spirit. Most of all, it is the story of the Clearys' only daughter, Meggie, and the haunted priest, Father Ralph de Bricassart—and the intense joining of two hearts and souls over a lifetime, a relationship that dangerously oversteps sacred boundaries of ethics and dogma.

Literary Executions

Blood will be spilled as a warrior searches for his missing wife in “a fully detailed alternate world which is fun to explore” (Fantasy Literature). Tarl Cabot is the intrepid tarnsman of the planet Gor, a harsh society with a rigid caste system that enacts the most brutal form of Social Darwinism. In this volume, Tarl must search for the truth behind the disappearance of his beautiful wife, Talena. Have the ruthless Priest-Kings destroyed her? Tarl vows to find the answer for himself, journeying to the mountain stronghold of the kings, knowing full well that no one who has dared approach the Priest-Kings has ever returned alive . . . Read the entire saga of this brilliantly imagined world where men are masters and women live to serve their every desire. *Priest-Kings of Gor* is the 3rd book in the *Gorean Saga*, but you may enjoy reading the series in any order.

A People's History of the World

Reality is a lie invented by a technocratic enemy who has written history to it's liking. The truth is magic'ae the universe can be crafted with a simple working of your will. Mages have taught this truth throughout the ages, but the proponents of technology have crushed the mystic masters. Join the last stand in the war for reality. *Mage: The Ascension* places you in the midst of supernatural intrigues and inner struggles. The more secrets you learn, the more important your wisdom and power become. *Mage* drags spirituality and metaphysics screaming through the streets of a postmodern nightmare. Convention Books contain vital character information for players and Storytellers.

The Emperor of All Maladies

Based on first-hand experience with companies such as Volvo, BP, Proctor and Gamble, ICI and Fuji Xerox, Elkington defines the triple bottom line of 21st century business as profit, environmental sustainability and social responsibility.

LEAVES OF GRASS

This book began life as a review article. That article spawned a symposium which was, in turn, greatly expanded to form the present volume. As the project moved through these developmental stages (hopefully, towards attainment of its full maturity), a number of people have provided invaluable assistance to us, and we would like to take this opportunity to thank them. Gordon Orians must certainly take a high place in that list. He has been both a friend and mentor to W.E.K., and many of the topics explored in this book have emerged from the resultant dialogue. His thought processes, ideas and perhaps even some of his turns of phrase emerge throughout much of the book. Gordon also played a pivotal role in inviting in motion, and so he has served as a catalyst the article that set this project to

the book as well as one of its reagents. While he has not served as an editor of this book, he is one of its authors in more than just the literal sense.

The Thorn Birds

Outlines a series of economic strategies for business that will reverse global environmental and social degradation.

Priest-Kings of Gor

This is a wonderful book rich in empirical detail, full of theoretical insights, offering hope in a bleak world, altogether inspiring. . . a tremendous achievement of having helped to create the disciplines of ecological economics and political ecology, bringing them alive in this book, and making their insights available to the developing worldwide movement for environmental justice. Pat Devine, *Environmental Values* Any book by the ecological economist Joan Martinez-Alier is a Big Publishing Event. . . this is a book by a writer who loves his subject, knows it well, respects its history, and is driven by the desire to do justice. These are qualities enough to send you to the bookshop or the library in search of *The Environmentalism of the Poor*. Andrew Dobson, *Environment Politics* The book is a worthy and in-depth contribution to debates about political ecology and ecological economics. It should be read by all environmental and ecological economists who wish to make their analysis more relevant. Tim Forsyth, *Progress in Development Studies* A marvellous combination of insight, research and activism. . . A must-read for policymakers, practitioners and academics alike, and for anyone concerned with sustainable development, environmentalism or poverty alleviation. *Human Ecology Journal* . . . one of the most important environmental books to have been published recently. Martinez-Alier integrates two of the most significant areas of environmental theory political ecology and ecological economics. Eurig Scandrett, *Friends of the Earth Scotland* The book has three main strengths: its bibliography, which is extensive; the global perspective on the environmental movement and the relationship with poverty; and the general theme of this interdisciplinary work, which is not so much to provide new information, but to consider the existing information in a new light. Martinez-Alier is to be commended for taking such a step in the literature . . . the writing style is extremely approachable . . . Recommended. B.J. Peterson, *Choice* [Joan] Martinez-Alier combines the honest discipline of a scholar with the passionate energy of an activist. The result, *The Environmentalism of the Poor*, is highly recommended! Herman E. Daly, *University of Maryland, College Park, US* *The Environmentalism of the Poor* has the explicit intention of helping to establish two emerging fields of study political ecology and ecological economics whilst also investigating the relations between them. The book analyses several manifestations of the growing environmental justice movement , and also of popular environmentalism and the environmentalism of the poor , which will be seen in the coming decades as driving forces in the process to achieve an ecologically sustainable society. The author studies, in detail, many ecological distribution conflicts in history and at present, in urban and rural settings, showing how poor people often favour resource conservation. The environment is thus not so much a luxury of the rich as a necessity of the poor. It concludes with the fundamental questions: who has the right to impose a language of valuation and who has the power to simplify complexity? Joan Martinez-Alier combines the study of ecological conflicts and the study of environmental valuation in a totally original approach that will appeal to a wide cross-section of academics, ecologists and environmentalists.

Convention Book

Although white-collar crime has caused a substantial amount of damage on both the individual and societal levels, it often ranks below street crime as a matter of public concern. Thus, white-collar crime remains an ambiguous and even controversial topic among academics, with a relative dearth of scholarly focus on the issue. *The Oxford Handbook of White-Collar Crime* offers a comprehensive treatment of the most up-to-date theories and research regarding white-collar crime. Contributors tackle a vast range of topics, including the impact of white-collar crime, the contexts in which white-collar crime occurs, current crime policies and debates, and examinations of the criminals themselves. The volume concludes with a set of essays that discuss potential responses for controlling white-collar crime, as well as promising new avenues for future research. Uniting conceptual theories, empirical research, and ethnographic data, the Handbook provides the first unified analytic framework on white-collar crime. Given the astronomical aggregate losses to victims, building a more nuanced understanding of the dynamics of white-collar crime is a topic of immediate social concern. The definitive resource

on white-collar crime, this Handbook will be a valuable resource for developing both intellectual and policy-related solutions.

Cannibals with Forks

The “meticulously researched, elegantly argued and deeply humane” sequel to the landmark volume of social history, *The Making of the English Working Class* (The New York Times Book Review). This remarkable study investigates the gradual disappearance of a range of cultural customs against the backdrop of the great upheavals of the eighteenth century. As villagers were subjected to a legal system increasingly hostile to custom, they tried both to resist and to preserve tradition, becoming, as E. P. Thompson explains, “rebellious, but rebellious in defense of custom.” Although some historians have written of riotous peasants of England and Wales as if they were mainly a problem for magistrates and governments, for Thompson it is the rulers, landowners, and governments who were a problem for the people, whose exuberant culture preceded the formation of working-class institutions and consciousness. Essential reading for all those intrigued by English history, *Customs in Common* has a special relevance today, as traditional economies are being replaced by market economies throughout the world. The rich scholarship and depth of insight in Thompson’s work offer many clues to understanding contemporary changes around the globe. “[This] long-awaited collection . . . is a signal contribution . . . [from] the person most responsible for inspiring the revival of American labor history during the past thirty years.” —The Nation “This book signals the return to historical writing of one of the most eloquent, powerful and independent voices of our time. At his best he is capable of a passionate, sardonic eloquence which is unequalled.” —The Observer

Hunter

The Children of the Night... Vampires. Rots. Leeches. The name doesn't matter. They're all inhuman, undead parasites that feed off the living and keep humanity under their thumb. They may have worked from the shadows thus far, but now hunters see them. The imbued know, and they won't let the nightcrawlers have their way anymore. It's time that bloodsuckers were shown the light -- daylight. Must Be Disciplined Hunter: The Nocturnal explores the undead realm of vampires as hunters perceive it, learning leeches' strengths, fears and weaknesses. But the rots have discovered hunters, too. When ancient and mysterious vampires and new and unprecedented hunters meet, there can be only bloodshed. Mortal or immortal, we all destroy what we don't understand.

Hunter

For centuries, supernatural powers have reigned, warring among themselves, culling the human herds and lashing out from the shadows. The creatures of the night have held court since before the dawn of history. Nothing lasts forever. From the throng of humanity, individuals emerge who know the truth. They know monsters exist. Enough is enough! The forces of darkness must pay their due. The time of retribution is at hand. Hunter: The Reckoning is the sixth Storyteller game released for the modern World of Darkness. This lavishly illustrated hardcover book presents all the rules and background information needed to finally bring mankind's fight to the supernatural. This game is not a Hunter's Hunted second edition. These are all-new character types with their own agendas for the world... and the monsters that inhabit it.

Hunter

Year of the Hunter As far as the chosen know, they're the first among humanity to see the truth, to know that monsters exist and prey upon mankind. The imbued aren't the only ones to oppose the creatures of the night, however, Government agents, crusaders and mystics wage their own war. But how do these people perceive the imbued? Can alliances be forged or is war inevitable between these hunters? And how can monsters profit from it? Year of the Reckoning Hunter: First Contact introduces the imbued to the World of Darkness' "RM" existing hunter groups such as the Inquisition, the Arcanum and government agencies. Finally, humanity's oldest and newest champions meet, but can they see eye to eye, let alone fight side by side? Or does their meeting only serve the supernatural?

Hunter

A powerful vampire lord is stalking the streets of the legendary Crescent City and Hunter and his friends are determined to kill him. As they search the city for his lair, they must contend with a creature that hunts and kills rougarou, mysterious vanishing buildings, a vengeful witch and other nasty things that go bump in the night. With this third installment of his popular Hunter series, master story teller Art Wiederhold takes the reader on another wild ride of fantasy, horror, mayhem and irreverent humor in New Orleans of the Second Age.

Hunter: the Reckoning 5th Edition Roleplaying Game Lines Drawn in Blood

For centuries, supernatural powers have reigned, warring among themselves, culling the human herds and lashing out from the shadows. The creatures of the night have held court since before the dawn of history. Nothing lasts forever. From the throng of humanity, individuals emerge who know the truth. They know monsters exist. Enough is enough! The forces of darkness must pay their due. The time of retribution is at hand. Hunter Books provide vital character information for players and Storytellers.

Hunter Book

The End Is Nigh Monsters are everywhere, lurking in the shadows, masquerading as upstanding citizens or hiding in plain sight. They murder, abuse and oppress humanity. They have to be stopped, at any price. A new force emerges among hunters, a new creed never seen before. These chosen are bent on obliterating the supernatural -- and anyone who gets in their way. Are these wanton killers the world's messiahs ... or destroyers? Stand or Fall Hunter Book: Wayward is part of a Hunter: The Reckoning series dedicated to the creeds, the character types of the imbued. Waywards are one of the two lost hunter creeds, a group of maniacs and psychopaths -- even by monsters' standards. Learn what it takes to drive these hunters over the edge -- or to make them the most prophetic among the chosen. For adults only.

Hunter Book

"You saw what you shouldn't have, the veil pulled back from the secret world and the monsters who prowl it. You chronicled the tragedies they wrought, these monsters, and the victims upon whom they preyed. You grasped the extent of their influence and witnessed the corruption of the organizations formed to keep them in check. And you vowed to do something about it. Tonight, you act. It's time for a Reckoning."-back cover.

Hunter

Half-vampire Catherine Crawford is going after the undead with a vengeance, hoping that one of those deadbeats is her father - the guy responsible for ruining her mother's life. But when she's captured by Bones, a bounty hunter and a vampire, she finds herself forced into an unholy partnership. In exchange for his help in finding her father, and still astonished she hasn't ended up as his dinner, Cat agrees to train with the sexy night stalker until her battle reflexes are as sharp as his fangs. But that's not all Bones has to show her - Cat's starting to believe maybe vampires aren't all evil after all, especially ones as cute as Bones. She's half-convinced that being half-dead doesn't have to be all bad. But before she can enjoy her newfound status as confident kick-ass demon hunter Cat finds herself, and Bones, hotly pursued by a band of killers. She's is going to have to pick a side - and fast ...

Halfway to the Grave

Can the Hunters and the Bringers ever get along? A hunter will protect the masses from a dark world of monsters, but who will be the bringer of light? Monsters thrive in our world in the shadows of mortal eyes, living to feed. To keep them away from the knowledge of the world, two groups have been formed: The Hunters, who kill all monsters to save mankind, and The Bringers, who see monsters as living creatures and capture them for study. Val Hemmingway is the top-notch agent for The Hunters. Jeremy Darrington is the cocky golden man of The Bringers. With two clashing personalities and differentiating views, the two always end up in an argument. But when a new monster threat appears that can lure humans away without being seen, they must put everything aside and work together. Along the way, they discover secrets and embark on a personal journey that can flip the worlds of their organizations.

The Hunter and the Bringer

For centuries, supernatural powers have reigned, warring among themselves, culling the human herds and lashing out from the shadows. The creatures of the night have held court since before the dawn of history. Nothing lasts forever. From the throng of humanity, individuals emerge who know the truth. They know monsters exist. Enough is enough! The forces of darkness must pay their due. The time of retribution is at hand. Hunter Books provide vital character information for players and Storytellers.

Hunter Book

"Cities, like cats, will reveal themselves at night," wrote the poet Rupert Brooke. Before the age of electricity, the nighttime city was a very different place to the one we know today - home to the lost, the vagrant and the noctambulant. Matthew Beaumont recounts an alternative history of London by focusing on those of its denizens who surface on the streets when the sun's down. If nightwalking is a matter of "going astray" in the streets of the metropolis after dark, then nightwalkers represent some of the most suggestive and revealing guides to the neglected and forgotten aspects of the city. In this brilliant work of literary investigation, Beaumont shines a light on the shadowy perambulations of poets, novelists and thinkers: Chaucer and Shakespeare; William Blake and his ecstatic peregrinations and the feverish ramblings of opium addict Thomas De Quincey; and, among the lamp-lit literary throng, the supreme nightwalker Charles Dickens. We discover how the nocturnal city has inspired some and served as a balm or narcotic to others. In each case, the city is revealed as a place divided between work and pleasure, the affluent and the indigent, where the entitled and the desperate jostle in the streets. With a foreword and afterword by Will Self, *Nightwalking* is a captivating literary portrait of the writers who explore the city at night and the people they meet.

Nightwalking

Hunter the Moonstruck

Pulse-driving paranormal mystery from USA Today Bestseller, Elizabeth Hunter. Darkness comes for everyone, and some fates are inescapable. For over a thousand years, the legendary sword Laylat al Hisab-the Night's Reckoning-has been lost in the waters of the East China Sea. Forged as a peace offering between two ancient vampires, the sword has eluded treasure hunters, human and immortal alike. But in time, even the deep gives up its secrets. When Tenzin's sire hears about the ninth century shipwreck found off the coast of southern China, Zhang Guo realizes he'll need the help of an upstart pirate from Shanghai to retrieve it. And since that pirate has no desire to be in the middle of an ancient war, Cheng calls the only allies who might be able to help him avoid it. Unfortunately, Tenzin is on one side of the globe and Ben is on the other. Tenzin knows she'll need Ben's keen mind and political skills to complete the job. She also knows gaining Ben's cooperation won't be an easy task. She'll have to drag him back into the darkness he's been avoiding. Whether Ben knows it or not, his fate is balanced on the edge of a thousand-year-old blade, and one stumble could break everything Tenzin has worked

toward. Night's Reckoning is the third novel in the Elemental Legacy series, a paranormal mystery by Elizabeth Hunter, USA Today bestselling author of the Elemental Mysteries.

Hunter Book

The first book to present the latest discoveries on the behaviour, ecology and evolutionary biology of lorises and pottos.

The Hive of The Bee-hunter

For centuries, supernatural powers have reigned, warring among themselves, culling the human herds and lashing out from the shadows. The creatures of the night have held court since before the dawn of history. Nothing lasts forever. From the throng of humanity, individuals emerge who know the truth. They know monsters exist. Defenders

The PRIZE-WINNING BESTSELLER, now a major BBC1 DRAMA SERIES starring Thomasin McKenzie, Sian Clifford and James McArdle, directed by BAFTA award-winning John Crowley. 'Dazzling, witty, moving, joyful, mournful, profound... one of the best novels I've read this century' Gillian Flynn, bestselling author of GONE GIRL 'A box of delights ... it grips the reader's imagination on the first page and never lets go.' HILARY MANTEL, author of THE MIRROR AND THE LIGHT

What if you had the chance to live your life again and again, until you finally got it right? During a snowstorm in England in 1910, a baby is born and dies before she can take her first breath. During a snowstorm in England in 1910, the same baby is born and lives to tell the tale. What if there were second chances? And third chances? In fact an infinite number of chances to live your life? Would you eventually be able to save the world from its own inevitable destiny? And would you even want to? Life After Life follows Ursula Todd as she lives through the turbulent events of the last century again and again. With wit and compassion, Kate Atkinson finds warmth even in life's bleakest moments, and shows an extraordinary ability to evoke the past. Here she is at her most profound and inventive, in a novel that celebrates the best and worst of ourselves. 'Merging family saga with a fluid sense of time and an extraordinarily vivid sense of history at its most human level. A dizzying and dazzling tour de force' Daily Mail 'Absolutely brilliant...it reminded me a bit of her first book Behind the Scenes at the Museum, which is one of my most favourite books ever.' Marian Keyes, author of Rachel, Again 'An exceptional writer' Guardian '[A] magnificently tender and humane novel' Observer 'A ferociously clever writer...a big, bold novel that is enthralling, entertaining' New Statesman 'Exceptionally captivating' New York Times 'Truly brilliant...Think of Audrey Niffenegger's The Time Traveler's Wife or David Nicholl's One Day.. a rare book that you want to start again the minute you have finished.' The Times

Vision of the Hunter

An extraordinary modern novel in the Victorian tradition, Charles Palliser has created something extraordinary—a plot within a plot within a plot of family secrets, mysterious clues, low-born birth, high-reaching immorality, and, always, always the fog-enshrouded, enigmatic character of 19th century—London itself. “So compulsively absorbing that reality disappears . . . One is swept along by those enduring emotions that defy modern art and a random universe: hunger for revenge, longing for justice and the fantasy secretly entertained by most people that the bad will be punished and the good rewarded.”—The New York Times “A virtuoso achievement . . . It is an epic, a tour de force, a staggeringly complex and tantalizingly layered tale that will keep readers engrossed in days. . . . The Quincunx will not disappoint you. It is, quite simply, superb.”—Chicago Sun-Times “A bold and vivid tale that invites the reader to get lost in the intoxicating rhythms of another world. And the invitation is irresistible.”—San Francisco Chronicle “A remarkable book . . . In mood, color, atmosphere and characters, this is Charles Dickens reincarnated . . . It is an immersing experience.”—Los Angeles Times Book Review “To read the first pages is to be trapped for seven-hundred odd more: you cannot stop turning them.”—The New Yorker “Few books, at most a dozen or two in a lifetime, affect us this way. . . . For sheer intricacy and ingenuity, for skill and clarity of storytelling, it is the kind of book readers wait for, a book to get lost in.”—The Philadelphia Inquirer

Night's Reckoning: Elemental Legacy Book Three

The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

Evolution, Ecology and Conservation of Lorises and Pottos'

New 2012 paperback edition. Beatrice De Novo thought she had left the supernatural world behind...for the most part. But when the past becomes the present, will she leave her quiet life in Los Angeles to follow a mystery she thought she had left behind? Where has Giovanni Vecchio been, and why has he returned? Giovanni has his own questions, and he's looking to her for answers. The sequel to *A Hidden Fire* will reunite Beatrice and Giovanni for a search neither of them really left behind. When the world as you knew it has changed forever, is there any way you can really turn back? *This Same Earth* is the second book in the *Elemental Mysteries* series. It's a paranormal romance/mystery for adult readers.

Innocents

Acclaimed by *The New York Times* as "one of the best suspense novels ever written," this novel recounts an English couple's doubts about their boarder, whom they suspect of being a serial killer.

Life After Life

Studies of Yoruba culture and performance tend to focus mainly on standardised forms of performance, and ignore the more prevalent performance culture which is central to everyday life. What *The Forest Told Me* conveys is the elastic nature of African cultural expression through narratives of the Yoruba hunters' exploits. Hunters' narratives provide a window on the Yoruba understanding and explanation of their world; a cosmology that negates the anthropocentric view of creation. In a very literal sense, man, in this peculiar world, is an equal actor with animal and nature spirits with whom he constantly contests and negotiates space. Adeduntan offers new insights into key aspects of Yoruba culture, while providing a close appraisal of particular texts and contexts of oral performance forms. In doing so, he presents a fresh view of the poetics of oral performance, rising above generalisation and mere description.

The Quincunx

Fantasirollespil.

The Wretched of the Earth

For centuries, supernatural powers have reigned, warring among themselves, culling the human herds and lashing out from the shadows. The creatures of the night have held court since before the dawn of history. Nothing lasts forever. From the throng of humanity, individuals emerge who know the truth. They know monsters exist. Enough is enough! The forces of darkness must pay their due. The time of retribution is at hand. An essential player resource for Hunter.

This Same Earth

This early work by Radclyffe Hall was originally published in 1928 and we are now republishing it with a brand new introductory biography. 'The Well of Loneliness' is a novel that follows an upper-class Englishwoman who falls in love with another woman while serving as an ambulance driver in World War I. Marguerite Radclyffe Hall was born on 12th August 1880, in Bournemouth, England. Hall's first novel *The Unlit Lamp* (1924) was a lengthy and grim tale that proved hard to sell. It was only published following the success of the much lighter social comedy *The Forge* (1924), which made the best-seller list of John O'London's Weekly. Hall is a key figure in lesbian literature for her novel *The Well of Loneliness* (1928). This is her only work with overt lesbian themes and tells the story of the life of a masculine lesbian named Stephen Gordon.

The Hunter in the Shadows

Trust occupies a unique place in contemporary discourse. Seen as both necessary and good, it is variously depicted as enhancing the social fabric, lowering crime rates, increasing happiness, and generating prosperity. It allows for complex political systems, permits human communication, underpins financial instruments and economic institutions, and holds society itself together. There is scant space within this vision for a nuanced discussion of mistrust. With few exceptions, it is treated as little more than a corrosive absence. This monograph, instead, proposes an ethnographic and conceptual exploration of mistrust as a legitimate epistemological stance in its own right. It examines the impact of mistrust on practices of conversation and communication, friendship and society, as well as politics and cooperation, and suggests that suspicion, doubt, and uncertainty can also ground ways of organizing human society and cooperating with others.

The Plant Hunters, Or, Adventures Among the Himalaya Mountains

Go behind the scenes of the animated series *The Legend of Korra* created by Michael Dante DiMartino and Bryan Konietzko the smash-hit sequel to their blockbuster show *Avatar: The Last Airbender*! This handsome hardcover contains hundreds of pieces of never-before-seen artwork created during the development of season one of the show. With captions from Michael and Bryan throughout, this is an intimate look inside the creative process that brought the mystical world of bending and a new generation of heroes to life!

The Lodger

DigiCat Publishing presents to you this special edition of "African Nature Notes and Reminiscences" by Frederick Courteney Selous. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

What the forest told me

For a thousand years, earth vampire Carwyn ap Bryn has sacrificed for the good of others: God, his family, his friends. But tragedy rips his world apart, causing him to question everything about his eternity. Brigid Connor has known about the immortal world since vampires rescued her from a harrowing childhood, but not even their vast elemental power can save her from the demons that torment her. Are they stronger together? Or will Carwyn and Brigid's love bring the delicate power balance of the Elemental World crashing down? *Building From Ashes* is the first book in the Elemental World series by ten time USA Today bestselling author, Elizabeth Hunter.

Hunter

Wizards. Warlocks. Witches. Myths and legends describe them as powerful magicians, wise sages and humanity's helpful guides. Hunters know better. In the modern world, wizards make the impossible possible, changing the very face of reality on a whim for their own mysterious purposes. What kind of hold do they have over mankind? Hunters intend to find out -- and break it. *Hunter: The Spellbound* explores the magical realm of wizards as hunters perceive it, learning warlocks' strengths, fears and weaknesses. But enchanters have discovered hunters, too. Can these occult masters weave their spell

and command the will of even the imbued? Not if hunters can help it. Let the witch-hunt begin. Book jacket.

Hunter Players Guide

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Well of Loneliness
