The Downfall of the Famous

"Originally published 1965 by Frederick Ungar Publishing Co., Inc." -- Verso title page.

The Fates of Illustrious Men

"A new edition -- with new preface, bibliography and notes of Boccaccio's encyclopedia of historical biography dealing with the fortunes and calamities of famous people, both mythical and actual, from Adam to Francesco Petrarch" --

The Fates of Illustrious Men

Spengler's work describes how we have entered into a centuries-long "world-historical" phase comparable to late antiquity, and his controversial ideas spark debate over the meaning of historiography.

The Decline of the West

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The History of the Decline and Fall of the Roman Empire Volume 8

When the final episode of BoJack Horseman aired on Netflix in 2020, it was to massive critical and popular acclaim. Across six seasons, viewers followed the exploits of a washed-up sitcom actor and his wacky collection of friends, set against the fading glitz of Hollywood and played out through a distinct cast of both human and anthropomorphic characters. Before the series even concluded, it was clear that it would be the topic of research and discussion long beyond its relatively short run. This collection brings together essays about the ways this series handles complex and highly nuanced topics within three main themes: mental health, masculinity, and the perils of celebrity. With contributions from researchers across a broad range of fields, these essays offer a variety of perspectives on these themes, how they are represented within the show, and the ways that both characters and viewers engage with them.

Reproduction of the original: Famous Assassinations of History by Francis Johnson

Aren't You Bojack Horseman?

The National Book Award-winning historian's "vivid and moving" eyewitness account of the fall of France to Hitler's Third Reich at the outset of WWII (The New York Times). As an international war correspondent and radio commentator during World War II, William L. Shirer didn't just research the fall of France. He was there. In just six weeks, he watched the Third Reich topple one of the world's oldest military powers—and institute a rule of terror and paranoia. Based on in-person conversations with the leaders, diplomats, generals, and ordinary citizens who both shaped the events and lived through them, Shirer constructs a compelling account of historical events without losing sight of the human experience. From the heroic efforts of the Freedom Fighters to the tactical military misjudgments that caused the fall and the daily realities of life for French citizens under Nazi rule, this fascinating and exhaustively documented account brings this significant episode of history to life. "This is a companion effort to Shirer's *The Rise and Fall of the Third Reich*, also voluminous but very readable, reflecting once again both Shirer's own experience and an enormous mass of historical material well digested and assimilated." —Kirkus Reviews (starred review)

Famous Assassinations of History

The Sassanid Persia (224-651 CE) has received increasing attention in both Western and domestic scholarship, not to mention within Iranians in general, particularly in the last three decades. The 1979 Islamic Revolution and the subsequent establishment of the theoretic-clerical regime, the apparent failure of its ideologues in their attempt to reinvent an Irano-Islamic identity based on Twelver Shia myth, and the Iran-Iraq war (1980-1988) were all key stimuli that have contributed to this increased attention towards the revival of a none-Islamic historicity. The present work sheds light on some significant sociopolitical and cultural aspects which played decisive roles in the collapse of the Sasanian Empire, a world's antique power, whose decline--with on exaggeration--rewrote the history of the three Asian, European and African continents. The authors meticulously describe, analyze and evaluate all the major historical events at the eve of the Arabo-Islamic invasions whose prediction, and subsequently underestimation by and rivalry within the Sasanian nobility put a definite end to the last Iranian pre-Islamic monarchy. The reader hence, by studying this book, may reconsider the downfall of Sasanians and the rise of the Islamic Caliphate to be a mere unexpected event; a cliché which still dominates within majority of scholars and those interested in the Middle East and Iranian Studies looking at Sasanians' decline as an incomprehensible surprise.

Famous Affinities of History (Complete)

Annotation. Guatemala is a feast for explorers looking for new experiences. This fantastic guidebook takes you from fiery volcanoes to historic churches dating back to the 1600s. You can sail on Lake Atitlan, raft on Rmo Candelera, hike to Maya ruins, dive a barrier reef or take a bike tour around Antigua. With the author's expert advice, you'll find excellent eateries, locally made crafts and family-run B&Bs.

Marie Antoinette and the Downfall of Royalty

2022-23 SSC CGL/CHSL/CPO SI/JE/MTS/GD General Studies Chapter-wise Solved Papers

The Collapse of the Third Republic

History of Nazi Germany.

Iranshahr and the Downfall of the Sassanid Dynasty

'Marie Antoinette and the Downfall of Royalty' is a book that covers the events of The French Revolution, a period of radical political and societal change in France that began with the Estates-General of 1789 and ended with the formation of the French Consulate in November 1799. Many of its ideas are considered fundamental principles of liberal democracy, while phrases like *liberté, égalité, fraternité* reappeared in other revolts, such as the 1917 Russian Revolution, and inspired campaigns for the abolition of slavery and universal suffrage. It also discusses how Marie Antoinette's image in the eyes of the public.

Adventure Guide to Guatemala

Paul Kennedy's classic naval history, now updated with a new introduction by the author This acclaimed book traces Britain's rise and fall as a sea power from the Tudors to the present day. Challenging the traditional view that the British are natural 'sons of the waves', he suggests instead that the country's fortunes as a significant maritime force have always been bound up with its economic growth. In doing so, he contributes significantly to the centuries-long debate between 'continental' and 'maritime' schools of strategy over Britain's policy in times of war. Setting British naval history within a framework of national, international, economic, political and strategic considerations, he offers a fresh approach to one of the central questions in British history. A new introduction extends his analysis into the twenty-first century and reflects on current American and Chinese ambitions for naval mastery. 'Excellent and stimulating' Correlli Barnett 'The first scholar to have set the sweep of British Naval history against the background of economic history' Michael Howard, Sunday Times 'By far the best study that has ever been done on the subject ... a sparkling and apt quotation on practically every page' Daniel A. Baugh, International History Review 'The best single-volume study of Britain and her naval past now available to us' Jon Sumida, Journal of Modern History

The Gentleman's Magazine and Historical Review

William Le Queux was a famous journalist, writer and celebrated novelist, a master of the spy genre, and a vociferous critic of Britain's weak military defences before the First World War, known at the time and for the next twenty years as "The Great War". He is acknowledged as the principal precursor of that famous spy story author of the second half of the twentieth century, namely Ian Fleming.

Kulturstreit - Streitkultur

Athens, 404 BC. The Democratic city-state has been ravaged by a long and bloody war with neighbouring Sparta. The search for scapegoats begins and Athens, liberty's beacon in the ancient world, turns its sword on its own way of life. Civil war and much bloodshed ensue. Defining moments of Greek history, culture, politics, religion and identity are debated ferociously in Athenian board rooms, back streets and battlefields. By 323 BC, less than 100 years later, Athens and the rest of Greece, not to mention a large part of the known world, has come under the control of an absolute monarch, a master of self-publicity and a model for despots for millennia to come: 'megas alexandros', Alexander the Great. Michael Scott, Finley Fellow in Ancient History at Darwin College, Cambridge, explores the dramatic and little-known story of how the ancient world was turned on its head from Democratic Athens to King Alexander the Great in this superb example of popular history writing. "From Democrats to Kings" also gives us a fresh take on the similar challenges we face today in the 21st century - a world in which many democracies - old and new - fight for survival, in which war-time and peace-time have become indistinguishable and in which the severity of the economic crisis is only matched by a crisis in our own sense of self.

Supplement No. 2 to the Alphabetical Finding List of the Free Public Library of Jersey City, N.J. Jan. 1, 1893

Celebrity, with its neon glow and selfie pout, strikes us as hypermodern. But the famous and infamous have been thrilling, titillating, and outraging us for much longer than we might realise. Whether it was the scandalous Lord Byron, whose poetry sent female fans into an erotic frenzy; or the cheetah-owning, coffin-sleeping, one-legged French actress Sarah Bernhardt, who launched a violent feud with her former best friend; or Edmund Kean, the dazzling Shakespearean actor whose monstrous ego and

terrible alcoholism saw him nearly murdered by his own audience - the list of stars whose careers burned bright before the Age of Television is extensive and thrillingly varied. Celebrities could be heroes or villains; warriors or murderers; brilliant talents, or fraudsters with a flair for fibbing; trendsetters, wilful provocateurs, or tragic victims marketed as freaks of nature. Some craved fame while others had it forced upon them. A few found fame as small children, some had to wait decades to get their break. But uniting them all is the shared origin point: since the early 1700s, celebrity has been one of the most emphatic driving forces in popular culture; it is a lurid cousin to Ancient Greek ideas of glorious and notorious reputation, and its emergence helped to shape public attitudes to ethics, national identity, religious faith, wealth, sexuality, and gender roles. In this ambitious history, that spans the Bronze Age to the coming of Hollywood's Golden Age, Greg Jenner assembles a vibrant cast of over 125 actors, singers, dancers, sportspeople, freaks, demigods, ruffians, and more, in search of celebrity's historical roots. He reveals why celebrity burst into life in the early eighteenth century, how it differs to ancient ideas of fame, the techniques through which it was acquired, how it was maintained, the effect it had on public tastes, and the psychological burden stardom could place on those in the glaring limelight.
