Blood Feud

From Steven A. Roman, bestselling author of X-Men: The Chaos Engine Trilogy, comes the debut of a thrilling dark urban-fantasy novel series! Sixteen-year-old Goth girl Pandora Zwieback has a major problem: she's just discovered that her New York City hometown is the stalking ground for every monster and ghoul out to raise a little hell (literally!) . . . BUT she's apparently the only one who can see them. That means she can't tell her friends or family about the dangers around them--not unless she wants to spend the rest of her life locked up in a psychiatric ward. But before Pan has a chance to make sense of her increasingly weird life, she finds herself in the middle of a war among rival vampire clans. Elegant Gothic Lolitas from Japan on one side, silk-suited London vamps on the other, leather-clad hunters from Eastern Europe in the middle, and all after the same prize: a mysterious crate recently delivered to the horror-themed museum owned by Pan's father. What is the terrifying secret of Item #179? How do its contents tie into an incident from the blood-drenched past of Pan's new friend, a 400-year-old, shape-shifting monster hunter named Annie? And, more important, will Pan survive long enough to get any answers?

The Saga of Pandora Zwieback Annual #1

It's teenaged Goth monster hunter Pandora Zwieback's first full-length comic book adventure! Following the events of the Saga of Pandora Zwieback novels *Blood Feud* and *Blood Reign*, Pan tries to get her chaotic life back in order. But that's really hard to do when one of her boyfriend Javier's ex-girlfriends screws up Pan's first official date with him. Stupid mythological siren... "Song of the Siren" features a script by Saga of Pandora Zwieback novelist Steven A. Roman and full-color art by Eliseu Gouveia (Lorelei: Sects and the City). This king-size special also includes: "After Hours," a short tale of the "Paniverse" by writer Sholly Fisch (Action Comics) and comic-art legend Ernie Colon (Amethyst, Princess of Gemworld); and "Shopping Maul," a Pan short story by Steven A. Roman, about (blood) red-tag sales and Elegant Gothic Lolita vampires, with title page art and color by Elizabeth Watasin (The Dark Victorian).

Draegonstorm

The curse condemned them. The war divided them. Only one could save them... For centuries, Reivn and his line have led the Alliance war against the Principatus, hidden beneath the veil of night. The Principatus desires the annihilation of humanity, and the only thing stopping them is the Alliance. But the Alliance has fallen into chaos and the Ancients are conspiring against each other. Reivn questions the validity of their crusade when betrayal leads him to seek answers that will ultimately change fate for himself and all who follow his banners. Caught between their war and his own honor, he risks everything to bring change to a society that has grown so dark it is beginning to feed on its own. A storm is brewing. The Dragon is coming, and he leads the most powerful bloodline on Tellas, also known as Earth.

Lorelei

The Old Gods are returning. At least that is the intention of the nefarious Cult of Nehalenna and its beautiful, mad high priestess, Rebecca Chambers. For decades, the minions of chaos have kept to the shadows, biding their time, waiting for the right moment to strike; and now that time has come. All they need is a rare book, an ancient grimoire that will allow them to summon their otherworldly masters and usher in a new age of darkness. But standing in the way of the cult's horrific plans is a redheaded succubus named Lorelei. Once human, now the unwilling recipient of supernatural powers, she may be the world's only hope for keeping the old gods at bay. But will the soul-devouring seductress ultimately triumph against overwhelming odds; or become Rebecca's latest sacrificial offering?

Troubleshooters Incorporated

Leaky faucet? Call a plumber. For real problems, call Troubleshooters, Incorporated, the world's first supernatural superhero-team-for-hire. For the right price, Silver Oak (a wizard), Night Stalker (a werewolf), Yolanda (a sorceress), Shadowmist (a female ninja), and Lightshow (a high-tech-armored roadie) are ready to take your case. Edward Vanderland III is exactly the kind of client TSI is looking for as their first assignment: a millionaire threatened by evil spirits, he's offering \$50,000 for protection. Sounds like a simple enough job for a band of fledgling heroes. Maybe too simple. As it turns out, Vanderland's enemies--perhaps even Vanderland himself--are a lot more dangerous than the Troubleshooters were expecting. Why, if matters get any worse, they might just have to adjust their billing...

Blood Reign

PANDORA ZWIEBACK IS DEAD...OR IS SHE? She was stabbed in the heart with an ancient mystical spear. Her mother was kidnapped by a band of vampires led by a fallen angel. Their goal: unleashing hell on earth. And every living creature on the planet faces extinction at the hands of biblical monsters. But for Pandora Zwieback, the worst may be yet to come. In this terrifying next chapter of the story begun in the critically acclaimed novel Blood Feud, join the teenaged Goth adventuress as she discovers that death is only the beginning of her saga... PRAISE FOR THE SAGA OF PANDORA ZWIEBACK: "Buy it, read it, then pass it along to your neighbors' teenaged daughter. It's a win-win all 'round."-Black Gate "Roman brings horror to NYC and spins a tale that keeps the reader enthralled."-Blood Moon Rising

Visit us online at www.1stWorldLibrary.ORG - - The great farm hall was ablaze with the fire-light, and noisy with laughter and talk and many-sounding work. None could be idle but the very young and the very old: little Rol, who was hugging a puppy, and old Trella, whose palsied hand fumbled over her knitting. The early evening had closed in, and the farm-servants, come from their outdoor work, had assembled in the ample hall, which gave space for a score or more of workers. Several of the men were engaged in carving, and to these were yielded the best place and light; others made or repaired fishing-tackle and harness, and a great seine net occupied three pairs of hands. Of the women most were sorting and mixing eider feather and chopping straw to add to it. Looms

were there, though not in present use, but three wheels whirred emulously, and the finest and swiftest thread of the three ran between the fingers of the house-mistress. Near her were some children, busy too, plaiting wicks for candles and lamps. Each group of workers had a lamp in its centre, and those farthest from the fire had live heat from two braziers filled with glowing wood embers, replenished now and again from the generous hearth. But the flicker of the great fire was manifest to remotest corners, and prevailed beyond the limits of the weaker lights.

X-Men

Even before the first film adaptation went into production, X-Men was the most successful comic book series ever published. When it finally debuted, X-Men: The Movie grossed over \$400 million worldwide during its theatrical run. Its sequel, X2: X-Men United, grossed \$155M in worldwide box office receipts on its opening weekend, and went on to make more than \$400M total. And now X-Men 3 and 4 are currently in development! With that in mind, here is the perfect opportunity for X-fans to catch up on a trio of novels that not only sold well both in single volume trade paperbacks and mass-market editions, but were considered by fans to contain some of the finest writing to be found outside of the Marvel comic book series! Doctor Doom. Magneto. The Red Skull. Three of the deadliest villains in the Marvel Universe, all sharing a common dream: to become absolute master of the Earth. Through the use of the Cosmic Cube-a device whose reality-bending powers allow its possessor to create their own perfect world-they are able to bring their dreams to life. With the odds against them, the X-Men must make a desperate attempt to destroy this Chaos Engine and restore Order to the cosmos before their entire reality is wiped from existence by an all-powerful alien race. But in order to save the world from Armageddon, one of the X-Men must be willing to risk their life-an action that may have lasting repercussions for the very fabric of reality itself. . . .
