The Dream Vessel

An enticing new world awaits - but getting there's half the battle. Destroying a ruthless dictator, it turns out, was easy by comparison. Merqua's Revolutionaries find themselves landlocked, and the only hope for civilization lies beyond a wild and perilous ocean. Only one shipyard can produce a vessel that's up to the crossing. But how do you negotiate with - or trust - slavers, powder-snorting pirates and cannibals? To complicate matters, the Rasta mystic Pec-Pec lurks in the background. The power of a world-changing mission has captured his attention. How will this inscrutable magic man, with allegiance to no one, twist the mission to serve his own dark plans?

The Cruise of the Dream Ship

The Cruise of the Dream Ship is a delightful and remarkable story of three young people sailing to the South Seas in the 1920s written by Ralph Stock. It presents a vividly described memoir of one round the world voyage by an English yacht. It consists of the crew's experiences and adventures around the Great Barrier Reef, Thursday Island and the Torres Strait, and the Gulf of Carpentaria. It focuses on the stops the young men made along the way and talks about the natives of these South Seas isles, who remain barely touched by civilization. Stock has, with great detail, penned down all the exciting things about this voyage. He talks about the personal and general preparations for the journey, their arrival at British West Indies, their journey from the Panama Canal from the Atlantic to the Pacific Ocean, and the strange happenings that took place. There are many more exciting accounts of this bizarre voyage that Stock writes about so incredibly in this work.

(6) Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book; (c) Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book; (d) Departmental columns in the Sales Book and in the Purchase Book. Controlling Accounts.--The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts. The most common examples of such accounts are Accounts Receivable account and Accounts Payable account. These summary accounts, respectively, displace individual customers' and creditors' accounts in the Ledger. The customers' accounts are then segregated in another book called the Sales Ledger or Customers' Ledger, while the creditors' accounts are kept in the Purchase or Creditors' Ledger. The original Ledger, now much reduced in size, is called the General Ledger. The Trial Balance now refers to the accounts in the General Ledger. It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved. A Schedule of Accounts Receivable is then prepared, consisting of the balances found in the Sales Ledger, and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance. A similar Schedule of Accounts Payable, made up of all the balances in the Purchase Ledger, is prepared, and it must agree with the balance of the Accounts Payable account of the General Ledger." The Balance Sheet.--In the more elementary part of the text, the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise. In the present chapter he was shown how to prepare a similar statement, the Balance Sheet. For all practical...

The Dream Ship

This is the first critical study to investigate, at length, how masculine subjectivities are represented in contemporary New Zealand fiction. Notoriously self-contained and private, Kiwi men are often reluctant to talk about their personal feelings and embarrassed at the thought that any private emotional difficulties could be exposed to critical examination. One must go to their imaginative literature to make contact with the reality that underlies the often calculatedly deceptive surface. In his investigation of these issues, author Alistair Fox demonstrates the crucial importance of Pakeha and Maori cultural predispositions influencing masculine identity in New Zealand, often at the cost of great psychic pain for the men involved.

The Cruise of the Dream Ship - Primary Source Edition

The Ship of Dreams

On October 28, 1943, a U.S. Navy ship was successfully teleported with disastrous effects on its crew. Crewmen died, developed rare or yet unidentified diseases, and most horrifying of all, some became fused to the metal, their arms and legs protruding from the bulkhead. A team of psychologists has gathered at a small university to study and analyze the same reoccurring dream of seven completely different people. The dream involves a large navy ship in a vast desert with soldiers trapped inside the bulkheads. Slowly, by depriving the dreamers of REM sleep, the dreams are killing the dreamers. What the dreamers do not realize is that another vessel; this one equipped with nuclear missiles has disappeared in a green-gray mist over the North Atlantic. Only Elizabeth Foxworth, a social worker studying the dreamers, can prevent nuclear disaster by entering the dream, and risking her life and the lives of the dreamers. The Cruise of the Dream Ship

Half a century before Titanic, another famous shipwreck captured the hearts and imagination of the world. In 1857, laden with gold and adventurers fresh from the California Gold Rush, the luxury sidewheel steamer SS Central America went down in a hurricane off the Carolina coast. Many were saved, many were lost, and lives were changed forever. Relive the experiences of her passengers, as told through the eyes of a fictitious couple who find love and danger on the high seas aboard this first "Ship of Dreams." On her own in wild, wicked, post-Gold Rush San Francisco, Della Gilliland has become a bit of a con artist, though a harmless one. Falsely accused of murder by a rival snake-oil salesman, she is forced to flee the lawless city's vigilantes aboard an outbound steamer. Surely her quick wits—and tongue—can convince someone to help her until her pursuers are far behind. Stuffy New York businessman Kent Bradford is shocked when a lovely redhead he's never met suddenly introduces herself as his wife to an important business contact. Fearing a scene, he plays along . . . for the moment. But moments turn into weeks and growing attraction becomes something more. Then,

only days out from New York, their ship encounters a hurricane that threatens not only their budding love, but their very lives. Book 2 of the Americana Dreaming series

Normal College News

On that fatal April night in 1912, the world's largest moving object disappeared beneath the waters of the North Atlantic in less than three hours. Why was the ship sailing through waters well known to be a mass of floating ice? Why were there too few lifeboats, so that 1,522 people were left to perish at sea? Why were a third of the survivors members of the crew? Based on the sensational evidence of the U.S. Senate hearings, eyewitness accounts of survivors, and the results of the 1985 Woods Hole expedition that located and photographed the ship, this electrifying account vividly recreates the doomed vessel's last desperate hours afloat and fully addresses the questions that have continued to haunt the tragedy of the Titanic.

Dream Ships

This original and "meticulously researched retelling of history's most infamous voyage" (Denise Kieran, New York Times bestselling author) uses the sinking of the Titanic as a prism through which to examine the end of the Edwardian era and the seismic shift modernity brought to the Western world. "While there are many Titanic books, this is one readers will consider a favorite" (Voyage). In April 1912, six notable people were among those privileged to experience the height of luxury—first class passage on "the ship of dreams," the RMS Titanic: Lucy Leslie, Countess of Rothes; son of the British Empire Tommy Andrews; American captain of industry John Thayer and his son Jack; Jewish-American immigrant Ida Straus; and American model and movie star Dorothy Gibson. Within a week of setting sail, they were all caught up in the horrifying disaster of the Titanic's sinking, one of the biggest news stories of the century. Today, we can see their stories and the Titanic's voyage as the beginning of the end of the established hierarchy of the Edwardian era. Writing in his signature elegant prose and using previously unpublished sources, deck plans, journal entries, and surviving artifacts, Gareth Russell peers through the portholes of these first-class travelers to immerse us in a time of unprecedented change in British and American history. Through their intertwining lives, he examines social, technological, political, and economic forces such as the nuances of the British class system, the explosion of competition in the

shipping trade, the birth of the movie industry, the Irish Home Rule Crisis, and the Jewish-American immigrant experience while also recounting their intimate stories of bravery, tragedy, and selflessness. Lavishly illustrated with color and black and white photographs, this is "a beautiful requiem" (The Wall Street Journal) in which "readers get the story of this particular floating Tower of Babel in riveting detail, and with all the wider context they could want" (Christian Science Monitor).

Ship of Dreams

In 1862 Saint John Bosco warned about "persecutions that are in store for the Church." This had been revealed to him in a dream, which he told to four hundred boys. In the dream there was a great ship steered by the pope heading for pillars of the Eucharist and Mary amid storms and hostile enemy ships. John told of ships ramming the great ship of the Church and a pope who falls during the battle. The dream caused "no end of wonderment" for the boys and for generations of Catholics. Now for the first time, the meaning of these images is uncovered. Here are just some of the perplexing images from the dream that you'll find explained in this book: The exploding book weapons The escort ships The meeting of captains The raging storms The pope who falls twice The coinciding death and election of popes The healing wind The two pillars The calm waters You will also learn how the general public knew details of the Third Secret of Fatima during all the years it was safeguarded by popes. Whether you are familiar with John Bosco's dream of the two columns or you are discovering it for the first time this book will engage you as you encounter the fantastic world of a modern clairvoyant saint and uncover what his dream means to us today.

Wanderfoot (the Dream Ship)

Dreamers Before the Mast chronicles the epic story of Regina Maris, a tall ship built, owned, sailed, and loved from 1908 to 2000 by people who had big dreams of ships and the sea -- and made those dreams come true. Each chapter of Dreamers Before the Mast recounts the hard work and hair-raising adventures experienced by Regina's owners, captains, crew members, scientists, and students, often in their own words through extensive interviews and excerpts from diaries and journals, letters, and the ship's logs. All material is fully documented and the book includes a complete index and detailed appendices. The dreams Regina helped realize varied widely, and the ship experienced several reincarnations. Launched as a top-sail schooner in 1908, Regina (as she was called until 1966 when her official name was changed to Regina Maris) carried cargo in the Baltic Sea and fished for herring and cod off the Grand Banks. In World War II, she allegedly rescued Jews fleeing the Nazi occupation of Denmark. Re-imagined as a private yacht, she was rebuilt in 1964 and rigged as a barkentine, to fulfill her owners' dreams of rounding Cape Horn and sailing the world's oceans, inspiring cities and nations to obtain their own tall ships. And in 1969 she retraced Captain James Cook's route of discovery to Australia for the bicentennial of that historic voyage, representing the Queen of England and her Royal Navy. Turned into a cruise ship in 1970, she sailed around the Pacific, visiting French Polynesia and Mexico many times and surviving two hurricanes a week apart. In 1976, Regina Maris was once again reincarnated, this time as an oceanographic research vessel. As such, she was instrumental in documenting the "singing" behavior of the humpback whale and cataloguing these whales' unique fluke patterns, making it possible to document their migration through the Atlantic and Pacific oceans, from the Arctic to the Galapagos and Greenland to the Caribbean. At many points in this varied career, Regina was featured in movies and television shows. She sailed in the tall ship races of 1974 and 1976, serving as a school ship in the earlier race and as a floating classroom for people of all ages during her ORES days. In 1988 she was sunk by incompetence and raised, then deliberately sunk again in 1991 to avoid a hurricane. Heroic -- some say Quixotic -- efforts to save her followed, but they finally failed, and in 2002, the ship was destroyed, with only her masts, figurehead, and a few other pieces preserved in a public park in Glen Cove, New York. Even that apparently safe resting place was transient, however,

for the park was sold for private development in 2017. At the time Dreamers Before the Mast was published, the ship's figurehead and hydraulic capstan rested in the public works yard in Glen Cove, and the author and other alumni were attempting to find a museum to take the artifacts. Over her long and varied life, Regina Maris had suffered ramming by submarines, devastating fires, mutinies, every kind of wild weather, and multiple dismastings. But in 78 years of sailing, she never lost one of the hundreds of souls pursuing their dreams beneath her tall masts.

Ship of Dreams

Half our sorrows, half our troubles, Making head and heart to ache, Are the fruit of blowing bubbles, Bright to view, but quick to break. All have played the child imbecile, Breathing hard to swell the sides Of a shining, fluid vessel, Frailer than the air it rides. From the infant's cradle rising, All the bubble mania show, Oft our richest wealth comprising In the bubbles that we blow. Brilliant, buoyant, upward going, Pleased, we mark them in their flight, Every hue of iris showing, As they glance along the light. Little castles, high and airy, With their crystal walls so thin, Each presents the wicked fairy, Vanity, enthroned within! But when two have struck together, What of either do we find? Not so much as one gay feather Flying Hope has left behind! Still the world are busy, blowing, Every one, some empty ball; So the seeds of mischief sowing, Where, to burst, the bubbles fall. Nor for self alone to gather, Is our evil harvest found; Oft, with pipe and cup, we rather Step upon our neighbor's ground.
