As Jonathan Franzen writes in his introduction, his main criterion for selecting The Best American Essays 2016 "was whether an author had taken a risk." The resulting volume showcases authorial risk in a variety of forms, from championing an unpopular opinion to the possibility of ruining a professional career, or irrevocably alienating one's family. What's gained are essential insights into aspects of the human condition that would otherwise remain concealed—from questions of queer identity, to the experience of a sibling's autism and relationships between students and college professors. The Best American Essays 2016 includes entries by Alexander Chee, Paul Crenshaw, Jaquira Diaz, Laura Kipnis, Amitava Kumar, Sebastian Junger, Joyce Carol Oates, Oliver Sacks, George Steiner, Thomas Chatterton Williams, and others.

The Best American Essays 1998

From the country's beginning, essayists in the United States have used their prose to articulate the many ways their individuality has been shaped by the politics, social life, and culture of this place. The Cambridge History of the American Essay offers the fullest account to date of this diverse and complex history. From Puritan writings to essays by Indigenous authors, from Transcendentalist and Pragmatist texts to Harlem Renaissance essays, from New Criticism to New Journalism: The story of the American essay is told here, beginning in the early eighteenth century and ending with the vibrant, heterogeneous scene of contemporary essayistic writing. The essay in the US has taken many forms: nature writing, travel writing, the genteel tradition, literary criticism, hybrid genres such as the essay

film and the photo essay. Across genres and identities, this volume offers a stirring account of American essayism into the twenty-first century.

A collection of the year's best essays, selected by award-winning journalist and New Yorker staff writer Kathryn Schulz "The world is abundant even in bad times," guest editor Kathryn Schulz writes in her introduction, "it is lush with interestingness, and always, somewhere, offering up consolation or beauty or humor or happiness, or at least the hope of future happiness." The essays Schulz selected are a powerful time capsule of 2020, showcasing that even if our lives as we knew them stopped, the beauty to be found in them flourished. From an intimate account of nursing a loved one in the early days of the pandemic, to a masterful portrait of grieving the loss of a husband as the country grieved the loss of George Floyd, this collection brilliantly shapes the grief, hardship, and hope of a singular year. The Best American Essays 2021

Curated by the #1 New York Times bestselling author of *Wild*, this volume shares intimate perspectives from some of today's most acclaimed writers. As Cheryl Strayed explains in her introduction, "the invisible, unwritten last line of every essay should be and nothing was ever the same again." The reader, in other words, should feel the ground shift, if even only a bit. In this edition of the acclaimed anthology series, Strayed has gathered twenty-six essays that each capture an inexorable, tectonic shift in life. Personal and deeply perceptive, this collection examines a broad range of life experiences—from a man's relationship with Mormonism to a woman's search for a serial killer; from listening to the music of Joni Mitchell to surviving five months at sea; from triaging injured soldiers to giving birth to a daughter; and much more. The Best American Essays 2013 includes entries by Alice Munro, Zadie Smith, John Jeremiah Sullivan, Dagoberto Gilb, Vicki Weiqi Yang, J.D. Daniels, Michelle Mirsky, and others.

The Best American Essays 2013

The Best American Essays 2011

The acclaimed author of *Breath, Eyes, Memory* presents an anthology of personal essays by Hilton Als, Christopher Hitchens, Zadie Smith and others. In her selection process for this sterling volume, Edwidge Danticat considers the inherent vulnerability of the essay form—a vulnerability that seems all the more present in today's spotlighted public square. As she says in her introduction, "when we insert our 'I' (our eye) to search deeper into someone, something, or ourselves, we are always risking a yawn or a slap, indifference or disdain." Here are intimate personal essays that examine a range of vital topics, from cancer diagnosis to police brutality, and from devastating natural disasters to the dilemmas of modern medicine. All in all, "the brave voices behind these experiences keep the pages turning" (Kirkus Reviews). The *Best American Essays 2011* includes entries by Hilton Als, Katy Butler, Toi Derricotte, Christopher Hitchens, Pico Iyer, Charlie LeDuff, Chang-Rae Lee, Lia Purpura, Zadie Smith, Reshma Memon Yaqub, and others.

The Best American Essays, 1990

Presents an anthology of the best literary essays published in 2014, selected from American periodicals.

The Best American Essays

In her introduction to this year's *The Best American Essays*, guest editor Vivian Gornick states that her selections "contribute materially to the long and honorable history of the personal essay by way of the value they place on lived experience." Provocative, daring, and honest at a time when many writers are deliberately silencing themselves in the face of authoritarian and populist censorship movements, the twenty-one essays collected here reflect their authors' unapologetic observations of the world around them. From an inmate struggling to find purpose during his prison sentence to a doctor coping with the unpredictable nature of her patient, to a widow wishing for just a little more time with her late husband, these narratives—and the others featured in this anthology—celebrate the endurance of the human spirit. The *Best American Essays 2023* includes Ciara Alfaro • Jillian Barnett • Sylvie Baumgartel • Eric Borsuk • Chris Dennis • Xujun Eberlein • Sandra Hager Eliason • George Estreich • Merrill Joan Gerber • Debra Gwartney • Edward Hoagland • Laura Kipnis • Phillip Lopate • Celeste Marcus • Sam Meekings • Sigrid Nunez • Kathryn Schulz • Anthony Siegel • Scott Spencer • Angelique Stevens • David Treuer

The Best American Essays 2016

In *Estranging the Familiar*, G. Douglas Atkins addresses the often lamented state of scholarly and critical writing as he argues for a criticism that is at once theoretically informed and personal. The revitalized critical writing he advocates may entail--but is not limited to--a return to the essay, the form critical writing once took and the form that is now enjoying a resurgence of popularity and excellence. Atkins contends that to reach a general audience, criticism must move away from the impersonality of modern criticism and contemporary theory without embracing the old-fashioned essay. "The venerable familiar essay may remain the basis," Atkins writes, "but its conventional openness, receptivity, and capaciousness must extend to theory, philosophy, and the candor that seems to mark the tail-end of the twentieth century." In noting the timeliness, if not the necessity, of a return to the essay, Atkins also considers our culture's parallel "return to the personal." When the essay combines good writing with the concerns of the personal, Atkins says, it becomes a form of criticism that is readable, vital, and potentially attractive to a large readership. Atkins hopes critics will tap into the revitalized interest the essay now enjoys without ignoring the considerable insights and advances of contemporary theory. He argues that despite claims to the contrary there is no inherent incompatibility between the essay and modern theory. As Atkins considers various experiments in critical writing from Plato to the present, notably feminist interest in the personal and autobiographical, he contends that these attempts, although undeniably important, fall short of the desired goal when they emphasize the merely expressive and neglect the artful quality good writing can bring to personal criticism. The final third of the book consists of a series of experiments in critical writing that represent the author's own attempts to bridge the gap between theory and popular criticism, between an academic and a general audience. In essays that illustrate the rhetorical power of the form, Atkins describes the reciprocal relationship between his life experience and a reading of *The Odyssey*, explains the role that theory has played in his personal development, and chronicles his attempts to find a voice as a writer.

The Best American Essays, 1987

This set treats the whole of American literature, from the European discovery of America to the present, with entries in alphabetical order. Each of the 350 substantive essays is a major interpretive contribution. Well-known critics and scholars provide clear and vividly written essays that reflect the latest scholarship on a given topic, as well as original thinking on the part of the critic. The Encyclopedia is available in print and as an e-reference text from Oxford's Digital Reference Shelf. At the core of the encyclopedia lie 250 essays on poets, playwrights, essayists, and novelists. The most prominent figures (such as Whitman, Melville, Faulkner, Frost, Morrison, and so forth) are treated at considerable length (10,000 words) by top-flight critics. Less well known figures are discussed in essays ranging from 2,000 to 5,000 words. Each essay examines the life of the author in the context of his or her times, looking in detail at key works and describing the arc of the writer's career. These essays include an assessment of the writer's current reputation with a bibliography of major works by the writer as well as a list of major critical and biographical works about the writer under discussion. A second key element of the project is the critical assessments of major American masterworks, such as *Moby-Dick*, *Song of Myself*, *Walden*, *The Great Gatsby*, *The Waste Land*, *Their Eyes Were Watching God*, *Death of a Salesman*, or *Beloved*. Each of these essays offers a close reading of the given work, placing that work in its historical context and offering a range of possibilities with regard to critical approach. These fifty essays (ranging from 2,000 to 5,000 words) are simply and clearly enough written that an intelligent high school student should easily understand them, but sophisticated enough that a college student or general reader in a public library will find the essays both informative and stimulating. The final major element of this encyclopedia consists of fifty-odd essays on literary movements, periods, or themes, pulling together a broad range of information and making interesting connections. These essays treat many of the same authors already discussed, but in a different context; they also gather into the fold authors who do not have an entire essay on their work (so that Zane Grey, for example, is discussed in an essay on Western literature but does not have an essay to himself). In this way, the project is truly "encyclopedic," in the conventional sense. These essays aim for comprehensiveness without losing anything of the narrative force that makes them good reading in their own right. In a very real fashion, the literature of the American people reflects their deepest desires, aspirations, fears, and fantasies. The Oxford Encyclopedia of American Literature gathers a wide range of information that illumines the field itself and clarifies many of its particulars.

Composition Theory for the Postmodern Classroom is a collection of the most outstanding articles published in the *Journal of Advanced Composition* over the last decade. Together these essays represent the breadth and strength of composition scholarship that has fruitfully engaged with critical theory in its many manifestations. In drawing on the critical discourses of philosophers, feminists, literary theorists, African Americanists, cultural theorists, and others, these compositionists have enriched the discourse in the field, broadened intellectual conceptions of the multiple roles and functions of discourse, and opened up an infinite number of questions and new possibilities for composition theory and pedagogy.

The Best American Essays 2004

This interdisciplinary volume of collected, mostly unpublished essays demonstrates how Mikhail Bakhtin's theory of dialogic meaning--and its subsequent elaborations--have influenced a wide range of critical discourses. With essays by Michael Holquist, Jerome J. McGann, John Searle, Deborah Tannen, Gary Saul Morson, Caryl Emerson, Shirley Brice Heath, Don H. Bialostosky, Paul Friedrich, Timothy Austin, John Farrell, Rachel May, and Michael Macovski, the collection explores dialogue not only as an exchange among intratextual voices, but as an extratextual interplay of historical influences, oral forms, and cultural heuristics as well. Such approaches extend the implications of dialogue beyond the boundaries of literary theory, to anthropology, philosophy, linguistics, and cultural studies. The essays address such issues as the establishment and exercise of political power, the relation between conversational and literary discourse, the historical development of the essay, and the idea of literature as social action. Taken together, the essays argue for a redefinition of literary meaning--one that is communal, interactive, and vocatively created. They demonstrate that literary meaning is not rendered by a single narrator, nor even by a solitary author--but is incrementally exchanged and constructed.

The Marvel Book of American Ships (Classic Reprint)

Excerpt from The Marvel Book of American Ships The man-o'-war's-man in Our Navy begins his day with the bugles sounding reveille at in the morning, backed up by the shrill pipes of the bosun's mates and their hoarse Shouts of Up all hammocks! Lash and carry! Hammocks are lashed and stowed away in the hammock nettings and then coffee and Ship's bread are served. In the old days hard tack was served, but to-day the American blue jacket has his bread baked fresh daily. Ships' Data, U.S. Naval Vessels

A World War II merchant seaman, John Bunker takes a thorough look at the American merchant marines' significant contributions to the war effort. There are plenty of fascinating facts about their extensive supply operations, but the focus of the book is on the men and their often-heroic actions. Bunker draws from his own experiences to describe the action at sea and also includes the personal stories of many other civilian participants. It is an engaging portrayal of the courage, bravery, and ingenuity demonstrated by these merchant seamen. All theaters of operation using U.S. merchant ships are covered; in addition, Bunker provides information on events before the country entered the war when efforts were being made to build more ships and to recruit the men necessary to crew the huge fleet.

Ships' Data, U. S. Naval Vessels, 1911-

YOU SANK THE WRONG BATTLESHIP During a routine naval drill at Pearl Harbor, American forces detect a ship of unknown origins that's crashed in the Pacific Ocean. Lieutenant Alex Hopper, an officer aboard the USS John Paul Jones, is ordered to investigate the ominous-looking vessel—which turns out to be part of an armada of ships that are stronger and faster than any on Earth. And that's when the Navy's radar goes down. Ambushed by a ravenous enemy they cannot see, a small U.S. fleet makes their last stand on the open ocean, armed with little more than their instincts, to defend their lives—and the world as we know it. The official novel of the blockbuster film! Based on the screenplay by Erich Hoeber and Jon Hoeber From the Paperback edition.

Dictionary of American Naval Fighting Ships

This book details the Liberty ships and the Emergency Shipbuilding Program during World War II. For the first time, comprehensive information is provided about the builders, the namesakes, and the operators under one cover. Included is a list of all 2,710 Liberty ships delivered by U.S. shipyards, giving each ship's namesake and detailed descriptions of the companies that built the ships and the steamship companies that operated them during the war. This book also details the formation of two shipyards in South Portland, Maine, the Todd-Bath Iron Shipbuilding Co. and the South Portland Shipbuilding Corp. South Portland's shady operations were investigated by the U.S. Congress and resulted in the merger of both companies into the New England Shipbuilding Corporation in April 1943. Also featured is the Jeremiah O'Brien. Built by New England Ship in 1943 and one of only two operational Liberty ships left in the world, its service history and crew information are given along with its postwar restoration and return to Normandy in 1994.

Non-fiction Purchases for Camp Libraries and Other War Library Service

On June 19, 1864, the Confederate cruiser Alabama and the USS Kearsarge faced off in the English Channel outside the French port of Cherbourg. The Kearsarge had seen little action, and its men greeted the battle with enthusiasm. The Alabama, on the other hand, had limped into the harbor with a near-mutinous crew after spending months sinking Union ships all over the globe. Commander Raphael Semmes intended to put the ship into drydock for a few months - but then the Kearsarge steamed onto the scene, setting the stage for battle. About an hour after the Alabama fired the first shot, it began to sink, and its crew was forced to wave the white flag of surrender. Marvel consulted the original muster rolls and logbooks for both ships, the virtually unknown letters of Confederate paymaster Clarence Yonge, and census and pension information. The letters and diaries of officers and crewmen describe the tensions aboard the ships, as do excerpts from the little-used original logs of Alabama commander Raphael Semmes. French sources also help to illuminate the details of the battle between the two ships. Marvel challenges the accuracy of key memoirs on which most previous histories of the Alabama have been based and in so doing corrects a number of long-standing misinterpretations, including the myth that the English builders of the Alabama did not know what Confederate officials intended to do with the vessel. Marvel's greatest contribution is his compelling description of the everyday life of the men on board the ships, from the Liverpool urchins who served as cabin boys on the Alabama to the senior officers on both of the warships.
