Death of the Moguls

Death of the Moguls is a detailed assessment of the last days of the “rulers of film.” Wheeler Winston Dixon examines the careers of such moguls as Harry Cohn at Columbia, Louis B. Mayer at MGM, Jack L. Warner at Warner Brothers, Adolph Zukor at Paramount, and Herbert J. Yates at Republic in the dying days of their once-mighty empires. He asserts that the sheer force of personality and business acumen displayed by these moguls made the studios successful; their deaths or departures hastened the studios’ collapse. Almost none had a plan for leadership succession; they simply couldn’t imagine a world in which they didn’t reign supreme. Covering 20th Century-Fox, Selznick International Pictures, Metro-Goldwyn-Mayer, Paramount Pictures, RKO Radio Pictures, Warner Brothers, Universal Pictures, Republic Pictures, Monogram Pictures and Columbia Pictures, Dixon briefly introduces the studios and their respective bosses in the late 1940s, just before the collapse, then chronicles the last productions from the studios and their eventual demise in the late 1950s and early 1960s. He details such game-changing factors as the de Havilland decision, which made actors free agents; the Consent Decree, which forced the studios to get rid of their theaters; how the moguls dealt with their collapsing empires in the television era; and the end of the conventional studio assembly line, where producers had rosters of directors, writers, and actors under their command. Complemented by rare, behind-the-scenes stills, Death of the Moguls is a compelling narrative of the end of the studio system at each of the Hollywood majors as television, the de Havilland decision, and the Consent Decree forced studios to slash payrolls, make the shift to color, 3D, and CinemaScope in desperate last-ditch efforts to save their kingdoms. The aftermath for some was the final switch to television production and, in some cases, the distribution of independent film.

The Builders of the Mogul Empire

First published in 1963. The Moguls, the descendants of the Mongols, two and a half centuries later than Jenghiz Khan, created an empire that stretched from Persia to Burma and from the Himalayas to the centre of the Indian subcontinent. It was a creation almost more astonishing than Jenghiz Khan's own: an empire that was civilized and prosperous, and which left behind an artistic legacy that has been a wonder till this day. Michael Prawdin tells the story which begins with Babur, passes through the reign of Humayun, and finds its climax at the death of Akbar. By this time the empire was no longer a patchwork of incidental conquests dominated by the arms of foreign invaders, but a coherent landmass that had been welded into a co-ordinated state, ruled by one system of administration. The diverse lands had become so many different provinces, held together by a highly organized bureaucracy in which Mohammedans and Hindus were equally eligible to the highest posts, honours and privileges. Moreover, a new cultural synthesis of the Hindu and Moslem cultures had taken shape, and throughout the empire all peoples showed the same demand for knowledge, art, poetry and for refinements of all kinds.

A General History of the Turks, Moguls and Tatars, Vulgarly Called Tartars: The genealogical history of the Tatars, tr. from the Tatar manuscript written in the Mogul language by Abu'l Ghâzi Bahâder, Khân of Khowârazm

Excerpt from The Fall of the Mogul, a Tragedy, Founded on an Interesting Portion of Indian History, and Attempted Partly on the Greek Model: With Other Occasional Poems Usurper of the Persian Throne, in the year 1738. This empire, called, from Timur and his Tartar descendants, the conquerors of India in preceding centuries, that of the moguls, comprehended, at the death Of Aurengzebe in 1707, a tract of country extending, according to Major Bennet*, from the tenth to the thirty-fifth degree' of north latitude, and nearly as much in longitude, and produced a revenue exceeding thirty-two millions sterling, which, in a country where, as that writer Observes, the products of the earth are about four times as cheap as in England, is an enormous annual amount. A New General Biographical Dictionary

Persian chronicler Ferishta's monumental seventeenth-century history of Muslim India, translated into English and published in four volumes in 1829.

A new general biographical dictionary, projected and partly arranged by H.J. Rose

In its revised and updated fourth edition, this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015, with new statistical and analytical information. Figures include casualties from global terrorism, the wars in Iraq and Afghanistan, and the fight against the Islamic State. New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions. Arranged roughly by century and subdivided by world region, chronological entries include the name and dates of the conflict, precursor events, strategies and details, the outcome and its aftermath.

A New General Biographical Dictionary

The History of the Decline and Fall of the Roman Empire is Edward Gibbon's magnum opus, written and published over a 13-year period beginning in 1776. It not only chronicles the events of the downfall starting with the end of the rule of Marcus Aurelius, but proposes a theory as to why Rome collapsed: the populace, Gibbon theorizes, lost its moral fortitude, its militaristic will, and its sense of civic duty. History is considered a classic in world literature, and Gibbon is sometimes called the first "modern historian" for his insistence upon using primary sources for his research. Many scholars today still use his highly regarded work as reference. In this last of seven volumes, readers will find Chapter 64 ("Moguls, Ottoman Turks") through Chapter 71 ("Civil Prospect of the Ruins of Rome in the Fifteenth Century"), which cover the establishment of the Mogul empire and their conquests of China, Persia, Anatolia, and Siberia; the origin of the Ottomans; the establishment of the Ottomans in Europe; the history and life of Timour (Tamerlane); the siege of Constantinople by Amurath II; the reign of John Palaeologus II; the invention of gunpowder; the continued struggles between the Greeks and Latins for influence in the Eastern Roman Empire; the reign of Constantine (the last emperor of the Eastern Roman Empire); the reign of Mahomet (Mehmed) II of the Ottoman Empire; the siege of Constantinople; a summary of the state of Rome since the 12th century; the life of Petrarch; the Great Schism of the West; and the final decay of Rome in the 15th century. Also included in this volume is a complete index to the seven-volume series. English parliamentarian and historian EDWARD GIBBON (1737-1794) attended Magdalen College, Oxford for 14 months before his father sent him to Lausanne, Switzerland, where he continued his education. He published *Essai sur l'étude de la Littérature* (1761) and other autobiographical works, including *Mmoire Justificatif pour servir de Rponse l'Expos, etc. de la Cour de France* (1779).

History Of The Rise Of The Mahomedan Power In India, Till The Year A. D. 1612. Translated From The Original Persian Of Mahomed Kasim Ferishta, By John Briggs, M. R. A. S. ; To Which Is Added, An Account Of The Conquest, By The Kings Of Hydrabad, Of Those Parts Of The Madras Provinces Denominated The Ceded Districts And Northern Circars ; With Copious Notes. In Four Volumes

Focusing on "dark" or black comedy films in the US and the UK, Wheeler Winston Dixon provides a comprehensive overview of a variety of films and filmmakers (Vanishing Point, Marcel Hanoun), whose work has largely been ignored, but whose influence and importance is clearly present.

The History of India

"[...]Joseph's dream, was yet fit to walk and carry the two boys, whose sturdy limbs had shrunk and weakened until they could no longer be trusted to toddle alone even on the level ground. She stood now, regarding her companions in suffering with her big violet eyes and almost contentedly chewing some wizened herbage gathered by the man overnight. Strange to say, it was on the capabilities of the cow that rested the final issue of life and death for one if not all. The cow had carried and sustained the woman before and after the birth of the child. Last and most valued of their possessions, she had become the arbiter of their fate. The Persian, Mirza Ali Beg was his name, was assured that if they [...]"

It requires practical design skills and creative drive as well as an understanding of marketing and consumer behaviour. This practical handbook is a comprehensive introduction to this multifaceted process. Exercises and examples highlight the key activities undertaken by designers to create a successful brand identity, including defining the audience, analyzing competitors, creating mood boards, naming brands, designing logos, presenting to clients, rebranding and launching the new identity. Case studies throughout the book are illustrated with brand identities from around the world, including a diverse range of industries – digital media, fashion, advertising, product design, packaging, retail and more.

Designing Brand Identity

Unlike other dry business books, this refreshing, straightforward guide from Logo Design Love author and international designer David Airey answers the questions all designers have when first starting out on their own. In fact, the book was inspired by the many questions David receives every day from the more than 600,000 designers who visit his three blogs (Logo Design Love, Identity Designed, and DavidAirey.com) each month. How do I find new clients? How much should I charge for my design work? When should I say no to a client? How do I handle difficult clients? What should I be sure to include in my contracts? David's readers—a passionate and vocal group—regularly ask him these questions and many more on how to launch and run their own design careers. With this book, David finally answers their pressing questions with anecdotes, case studies, and sound advice garnered from his own experience as well as those of such well-known designers as Ivan Chermayeff, Jerry Kuyper, Maggie Macnab, Eric Karjaluoto, and Von Glitschka. Designers just starting out on their own will find this book invaluable in succeeding in today's hyper-networked, global economy.

Creating a Brand Identity: A Guide for Designers

We are now living in a world with over one hundred brands of bottled water. The United States alone is home to over 45,000 shopping malls. The 400 marks reproduced within these pages represent the diverse array of identity work produced by Pentagram's partners, past and present, since its founding in 1972. Over the past four decades, Pentagram has designed marks for large corporations and small businesses, government agencies and nonprofit institutions, clubs and societies, and even individuals, all of whom were seeking a representative symbol to appear on letterhead and books, buildings and websites, and everywhere else imaginable. Isolating them in black and white helps us appreciate these marks as unique pictorial or abstract symbols. But a logo is rarely a solitary commission. Often produced in conjunction with a unified graphics, architecture or product design program, it is only part of the work Pentagram does. But regardless of the nature of the assignment, clients all share the same desire to be identified, and the belief that the right mark is a crucial starting point for a comprehensive visual identity. An intimate glimpse into the professional and romantic relationship between Harriet Pattison and the renowned architect Louis Kahn On a winter day in 1953, a mysterious man in a sheepskin coat stood out to Harriet Pattison, then a theater student at Yale. She would later learn he was the architect Louis Kahn (1901–1974). This chance encounter served as preamble to a fifteen-year romance, with Pattison becoming the architect's closest confidante, his intellectual partner, and the mother of his only son. Here for the first time, Pattison recounts their passionate and sometimes searing relationship. Married and twenty-seven years her senior, Kahn sent her scores of letters—many from far-flung places—until his untimely death. This book weaves together Pattison's own story with letters, postcards, telegrams, drawings, and photographs that reveal Kahn's inner life and his architectural thought process, including new insight into some of his greatest works, both built and unbuilt. What emerges is at once a poignant love story and a vivid portrait of a young woman striving to raise a family while forging an artistic path in the shadow of her famous partner.

Best-selling brand expert Marty Neumeier shows you how to make the leap from a company-driven past to the consumer-driven future. You'll learn how to flip your brand from offering products to offering meaning, from value protection to value creation, from cost-based pricing to relationship pricing, from market segments to brand tribes, and from customer satisfaction to customer empowerment. In the 13 years since Neumeier wrote *The Brand Gap*, the influence of social media has proven his core theory: "A brand isn't what you say it is – it's what they say it is." People are no longer consumers or market segments or tiny blips in big data. They don't buy brands. They join brands. They want a vote in what gets produced and how it gets delivered. They're willing to roll up their sleeves and help out – not only by promoting the brand to their friends, but by contributing content, volunteering ideas, and even selling products or services. At the center of the book is the Brand Commitment Matrix, a simple tool for organizing the six primary components of a brand. Your brand community is your tribe. How will you lead it?

King launched his career at Britain's Sunday Times Magazine in the 1960s, starting as a designer and later branching out into image-led journalism. He developed a particular interest in revolutionary Russia and began amassing a collection of graphic art and photographs--ultimately accumulating around 250,000 images that he shared with news outlets. Throughout his life, King blended political activism with his graphic design work, creating anti-Apartheid and anti-Nazi posters, covers for books on Communist history, album artwork for The Who and Jimi Hendrix, catalogues on Russian art and society for the Museum of Modern Art in Oxford, and typographic covers for the left-wing magazine City Limits. This well-researched and finely illustrated publication ties together King's accomplishments as a visual historian, artist, journalist, and activist.
