TARGET IIFT 2019 (Past Papers 2005 - 2018) + 5 Mock Tests 11th Edition

Contrary to the common saying: we do want you to judge this new edition of Organizational Behavior by its front cover. Specifically, featured is that this is the 14th edition, it takes an "Evidence-Based Approach," and similar to the previous edition there are now three Luthans authors. This 14th edition is based on the foundation provided by the first mainline text which has become the classic for the study and understanding of organizational behavior. However, by taking an evidence based approach, this insures that, even though a classic, this new edition adds the most recent and relevant research to the most extensive, up-to-date reference-base of any organizational behavior text. By adding the two closely related authors (professor sons) literally pumps "new blood" into the sustainability of this classic text by Fred Luthans. Importantly, Fred has recently been recognized with: 1) Lifetime Achievement Award in Organizational Behavior; 2) Top 1% of Citation Count of all researchers in the world; and 3) the #1 most cited author in Organizational Behavior textbooks. Finally, this new edition recognizes that even though the theoretical framework and coverage largely remains, the context of organizational behavior is rapidly changing. This new edition reflects the "New Age" environment, but still holds to the premise that in today's organizations, success and competitive advantage still comes from the understanding, prediction, and effective management of human resources. With this new edition we invite you to continue the never-ending journey guided by the best organizational behavior theory, research, and application.

The goal of this Handbook is to provide a collection of state-of-the-art chapters to address this issue. The book consists of four parts, the first of which discusses the characteristics of various measures of financial sector competition. The second part includes several empirical studies on the level of, and trends in, competition across countries.
