The Alicorn Court

Soulmates battle against darkness. Emma There was a time I thought love would last forever, but that love has turned to shadow. My friends and I are in a race against time to save the fae from a future of destruction. If we're to survive, we must unite the six Crystals of Harmony. It's rumored the next stone is hidden deep within the Alicorn Court-- a secret fae society that's more myth than reality. Transfixed by strange visions, Odette may know the location of the Alicorn Court. But if the court deems us unworthy, our mission to find them could be our last. Ethan A darkness has devoured me, making my very existence a fight for my soul. Black magic is warring against the man I used to be. If I'm going to stop the demons in my head, I need Emma at my side. Otherwise, I'm doomed to a hell I won't escape. But my actions have pushed her love aside. There's only one way to mend things between me and my true mate. If it doesn't work, I'll be doomed to live as a beast forever. *** Arcanea University is thrown into chaos in the third book of the University of Sorcery series. This faerie tale of fantasy, magic, and paranormal romance will leave shifters and sorceresses shocked by the ending! Another incredible installment in the University of Sorcery series! This series takes place in the Hidden Legends Universe, along with the Academy of Magical Creatures series, the College of Witchcraft series, and the Prison for Supernatural Offenders series. The Hidden Legends universe features college-aged protagonists attending magical academies, dual points-of-view, disabled and diverse main characters, and steamy, empowering romances. Each series stands on its own and can be read in any order. This is a full-length novel over 400 pages. Recommended reading age 18+.

Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 2003

AMPK has emerged as an important integrator of signals that control energy balance through the regulation of multiple biochemical pathways in eukaryotes. This book focuses on the implications of AMPK as a master metabolic regulator in diseases, including new methods and animal models. The

contributions are written by leading experts in the field and give an extensive overview of the current knowledge of AMPK biology and the role of AMPK in health and disease.

AMP-activated Protein Kinase

As seen on the hit animated series *My Little Pony: Friendship is Magic*! Learn the history of Princess Celestia and Princess Luna by reading the diary they kept when they were younger. PLUS, hidden inside, readers will discover the pages of a bonus book--*The Journal of Friendship*. Inspired by Celestia and Luna, the pony friends Princess Twilight Sparkle, Pinkie Pie, Rainbow Dash, Fluttershy, Rarity and Applejack share a diary of their own! Read their entries--as seen on the show--and then write some of your own friendship observations in the book, too!

My Little Pony: The Journal of the Two Sisters

At age 12, Sophie learns that the remarkable abilities that have always caused her to stand out identify her as an elf. After being brought to Eternalia to hone her skills, she discovers that she has secrets buried in her memory for which some would kill.

Keeper of the Lost Cities

Soar into a breathtaking world of heroes and unicorns as you've never seen them before in this fantastical middle grade debut perfect for fans of the *Percy Jackson* and *Eragon* series! Skandar Smith has always yearned to leave the Mainland and escape to the secretive Island, where wild unicorns roam free. He's spent years studying for his Hatchery exam, the annual test that selects a handful of Mainlander thirteen-year-olds to train to become unicorn riders. But on the day of Skandar's exam, things go horribly wrong, and his hopes are shattered...until a mysterious figure knocks on his door at midnight, bearing a message: the Island is in peril and Skandar must answer its call. Skandar is thrust into a world of epic sky battles, dangerous clashes with wild unicorns, and rumors of a shadowy villain amassing a unicorn army. And the closer Skandar grows to his newfound friends and community of riders, the harder it becomes to keep his secrets—especially when he discovers their lives may all be in graver danger than he ever imagined.

Skandar and the Unicorn Thief

The development of the geological and medical sciences shows overlap through numerous historical threads, some of which are investigated here by an international authorship of geologists, historians and medical professionals. Some of the medical men considered here are the relatively well known Steno, Parkinson, William Hunter and Peter Duncan, as well as several more obscure individuals such as Sperling, Hodges, Lemoine, Siqués and a number of Italians. Their work included foundational geological studies, aspects of hydrogeology and the nature of fossils. The therapeutic use of geological materials has been practised since ancient times. A suite of magico-medicinal stones, some purportedly harvested from the bodies of fabulous animals, have ancient folklore roots and were worn as protective amulets and incorporated into medicines. Medicinal earths were credited with wide-ranging medicinal properties. *Geology and Medicine: Historical Connections* will be of particular interest to Earth scientists, medical personnel, historians of science and the general reader with an interest in science.

Science Reporter

"Lise Gotfredsen has written a wide-ranging cultural history of the Unicorn using pictorial art as the scarlet thread that draws together her work on this myth that has travelled so far. This lavishly illustrated book covers a subject that is rarely examined but that holds deep resonance for many diverse cultures"--Back cover

Geology and Medicine

Equestria's in danger! Powerless and threatened by a great evil, Princess Luna discovers she can't count on her sister or any of the usual heroes of Equestria. Running out of time and with nowhere to turn, Luna assembles a team specially suited to save the day... made up of former villains! Will Luna, Capper, Tempest Shadow, Trixie, and Stygian all be able to work together and find a way into the most dangerous place any of them have ever been?

The Unicorn

In a world where Prince Blueblood becomes Celestia's star pupil, not Twilight Sparkle! What will happen when he journeys to Ponyville to get a lesson in friendship?

My Little Pony: Nightmare Knights

In the second book in the Keeper of the Lost Cities series, Sophie must uncover hidden memories as long-buried secrets rise to the surface . . . Sophie Foster thought she was safe. Settled in to her home at Havenfield, surrounded by friends, and using her unique telepathic abilities to train Silveny – the first female alicorn ever seen in the Lost Cities – her life finally seems to be coming together. But Sophie's kidnappers are still out there, and before long before she's back in incredible danger, risking everything to find the answers to questions that could save not only her life, but the life of someone close to her. . .

My Little Pony: Deviations

An instant New York Times bestseller—from the award-winning author of the Graceling Realm series—about adventure, grief, storytelling, and finding yourself in a world of seemingly infinite choices. "A wild gift for readers who like books that take them to unexpected places."—Melissa Albert, author of *The Hazel Wood* Jane has lived a mostly ordinary life, raised by her recently deceased aunt Magnolia, whom she counted on to turn life into an adventure. Without Aunt Magnolia, Jane is lost. So she's easily swept away when a glamorous, capricious, and wealthy acquaintance from years ago asks Jane to accompany her to a gala at the extravagant island mansion called Tu Reviens. Jane remembers her aunt telling her: "If anyone ever invites to you to Tu Reviens, promise me that you'll go." What Jane doesn't know is that the house will offer her five choices that could ultimately determine the course of her life. One choice leads Jane into a heist mystery. Another takes her into a spy thriller. She finds herself in a gothic horror story, a space opera, and an extraordinary fantasy realm. She might fall in love, she might lose her life, she might come face-to-face with herself. Every choice comes with a price. But together, all the choices will lead her to the truth. One house. Five choices. Limitless possibilities. Read *Jane, Unlimited* and remember why *The New York Times* has raved, "Some authors can tell a good story; some can write well. Cashore is one of the rare novelists who do both."

Exile

Book 8.5 in the New York Times and USA TODAY bestselling *Keeper of the Lost Cities* series delivers what fans of the series have been begging for! Told in an exciting new way, the saga continues with plenty of huge reveals and shocking new twists—plus a complete series guide with beautiful color and black-and-white illustrations and other awesome bonuses! In this extra special installment of the *Keeper of the Lost Cities* series, the story picks up right from *Legacy's* particularly devastating cliffhanger. But chapters alternate between Sophie and Keefe's perspectives to give readers deeper insights into both beloved characters. New powers will be discovered. Hard truths from the past will come to light. And all of your favorite characters will find themselves tested in ways they never imagined. And that's not all! *Unlocked* also includes a comprehensive guide to the world of the Lost Cities, featuring new character and world details that have never been revealed before—plus fun bonuses like *Keeper*-themed recipes, a detailed map of the Lost Cities, gorgeous illustrations, and so much more!

Discover what each artist enjoys most about drawing and painting the beauty, kind-heartedness, and fun that is MLP!

Casarett & Doull's Toxicology: The Basic Science of Poisons, 9th Edition

As seen in the New York Times and on Good Morning America-now updated by the author. Imagine a diet that's as easy as "a spoonful of sugar" (or extra-light olive oil) twice a day. A diet that actually reduces appetite and cravings. A diet that's based on a wealth of scientific findings but is simple enough for anyone to stick to. A diet with results that amaze almost everyone who tries it. Psychology professor Seth Roberts asks a simple question most weight-loss experts haven't thought to tackle: What makes people hungry? Based on a new understanding of how the human body regulates hunger, The Shangri-La Diet presents a strikingly simple and surprisingly effective way to lose weight-without giving up favorite foods. Simple and counterintuitive, this extraordinary new diet is changing the way the world thinks about weight loss-one success story at a time.

Fallout

This book looks at thirteen different legal systems, ranging from Imperial China to modern Amish: how they worked, what problems they faced, how they dealt with them. Some chapters deal with a single legal system, others with topics relevant to several, such as problems with law based on divine revelation or how systems work in which law enforcement is private and decentralized. The book's underlying assumption is that all human societies face the same problems, deal with them in an interesting variety of different ways, are all the work of grown-ups, hence should all be taken seriously. It ends with a chapter on features of past legal systems that a modern system might want to borrow.

My Little Pony: Art is Magic!, Vol. 2

The fourth book in the international bestselling Keeper of the Lost Cities series. Perfect for readers aged 9+ and fans of Harry Potter, Rick Riordan and Amari and the Night Brothers. Sophie Foster is on the run – but at least she's not alone. Her closest friends from the Lost Cities have gone with her to join the Black Swan. They still have doubts about the shadowy organization, but the only way to find answers is to start working with them. And as they settle into their new lives, they uncover secrets bigger than anything they'd imagined. But their enemies are far from done, and unleash a terrifying plague that threatens the safety of an entire species. Sophie and her friends fight with everything they have – with new allies joining them – but every choice has consequences. And trusting the wrong person could prove deadly. In this game-changing fourth book in the Keeper of the Lost Cities series, Sophie must question everything to find a truth that will either save her world – or shatter it. Don't miss the brand-new book in the series, Stellarlune, out now! Analyzes the nature of international disagreements and conflict resolution in terms of game theory and non-zero-sum games.

The Shangri-La Diet

Astrid Llewelyn is now a fully trained unicorn hunter, but she can't solve all her problems with just a bow and arrow. Her boyfriend, Giovanni, has decided to leave Rome, the Cloisters is in dire financial straits, her best friend's powers are mysteriously disintegrating, and Astrid can't help but feel that school, home, and her hopes of becoming a scientist are impossible dreams. So when she's given the opportunity to leave the Cloisters and put her skills to use as part of a scientific quest to discover the Remedy, Astrid leaps at the chance. Finally, she can have exactly what she wants—or can she? At Gordian headquarters in the French countryside, Astrid begins to question everything she thought she believed: her love for Giovanni, her loyalty to the Cloisters, and—most of all—her duty as a hunter. Should Astrid be saving the world from killer unicorns, or saving the unicorns from the world?

Subject Guide to Books in Print

One of the most popular and widely read books of the Middle Ages, "Physiologus" contains allegories of beasts, stones, and trees both real and imaginary, infused by their anonymous author with the spirit of Christian moral and mystical teaching. Accompanied by an introduction that explains the origins, history, and literary value of this curious text, this volume also reproduces twenty woodcuts from the 1587 version. Originally composed in the fourth century in Greek, and translated into dozens of versions through the centuries, "Physiologus" will delight readers with its ancient tales of ant-lions, centaurs, and hedgehogs and their allegorical significance. An elegant little book . . . still diverting to look at today. . . . The woodcuts reproduced from the 1587 Rome edition are alone worth the price of the book. Raymond A. Sokolov, "New York Times Book Review"

Legal Systems Very Different from Ours

The "Alphabet of Nature" belongs to the debate over language that marked the transition from the pre-modern to the modern world. Involved were profound issues about the origin and nature of language that could lead authors like van Helmont to imprisonment and even death.

Forthcoming Books

Sophie Foster is back in the Lost Cities—but the Lost Cities have changed. The threat of war hangs heavy over her glittering world, and the Neverseen are wreaking havoc. The lines between friend and enemy have blurred, and Sophie is unsure whom to trust. But when she's warned that the people she loves most will be the next victims, she knows she has to act. A mysterious symbol could be the key—if only she knew how to translate it. Every new clue seems to lead deeper into her world's underbelly and the Black Swan aren't the only ones who have plans. The Neverseen have their own Initiative, and if Sophie doesn't stop it, they might finally have the ultimate means to control her.

Neverseen

A new magical adventure for fans of My Little Pony awaits in Twilight Sparkle and the Forgotten Books of Autumn. This chapter book is part of the My Little Pony Princess Collection! © 2016 Hasbro. All rights reserved.

The Strategy of Conflict

My Little Pony: The Art of Equestria presents, for the first time, a deep exploration of the art and illustrations from this beloved animated series, Friendship Is Magic. Beginning with the show's premiere and taking readers through its fifth season, the book offers an amazing collection of the art and design that bring this wonderful series to life. The book takes readers behind the scenes of the show and explores how favorite characters and the landscape of Equestria came to look as they are today. Beyond the television show, My Little Pony: The Art of Equestria also examines the intriguing fan culture—including the fan art movement inspired by Friendship Is Magic. With a rich array of conceptual art, episode storyboards, and memorable scenes from the show, My Little Pony: The Art of Equestria is the ultimate guidebook, collector's item, and fan keepsake.

Fundamentals of Human Sexuality

When anypony asks Princess Celestia for help, she is more than happy to be of service. So when Duchess Diamond Waves says she is in desperate need of assistance, the wise leader of Equestria clears her schedule. Arriving at Monacolt Magic Academy, Celestia notices that her dear old friend seems to have lost her sparkle. Diamond Waves confides that her beautiful city by the sea is on the

brink of disaster and, having failed their exams, none of her pupils are prepared for what lies ahead. Diamond Waves says her colts and fillies are lacking focus, but that doesn't seem to be the case. When Celestia meet her summer school students, she is shocked to be greeted by a class full of very serious colts and fillies. What can Princess Celestia do to bring the magic back to Monacolt? © 2015 Hasbro. All Rights Reserved.

Physiologus

From award-winning author, Ilona Andrews, an all-new novel set in the New York Times #1 bestselling Kate Daniels World and featuring Julie Lennart-Olsen, Kate and Curran's ward. Atlanta was always a dangerous city. Now, as waves of magic and technology compete for supremacy, it's a place caught in a slow apocalypse, where monsters spawn among the crumbling skyscrapers and supernatural factions struggle for power and survival. Eight years ago, Julie Lennart left Atlanta to find out who she was. Now she's back with a new face, a new magic, and a new name—Aurelia Ryder—drawn by the urgent need to protect the family she left behind. An ancient power is stalking her adopted mother, Kate Daniels, an enemy unlike any other, and a string of horrifying murders is its opening gambit. If Aurelia's true identity is discovered, those closest to her will die. So her plan is simple: get in, solve the murders, prevent the prophecy from being fulfilled, and get out without being recognized. She expected danger, but she never anticipated that the only man she'd ever loved could threaten everything. One small misstep could lead to disaster. But for Aurelia, facing disaster is easy; it's relationships that are hard.

The Alphabet of Nature

let's listen to / the green voice / of the rainforest The animals of the Iguazú speak for themselves, creating a collection of poems that will resonate with readers of all ages. In the magical rainforest of the Iguazú National Park, butterflies are the multicolored flowers of the air. Great dusky swifts watch over the park, and the untamed spirits of jaguars roam the jungle. Spanning three countries--Argentina, Brazil, and Paraguay--the thundering waterfalls and lush green rainforests of the Iguazú have dazzled visitors for centuries, and are now in danger of being lost. Following the Amerindian oral tradition, award-winning Chicano poet Francisco X. Alarcón lets the animals of the Iguazú speak for themselves in their own soaring, roaring, fluttering voices, and the resulting poems are as urgent as they are beautiful and humorous. Maya Christina Gonzalez's mixed media illustrations bring the colors and textures of the Iguazú rainforest to vibrant life.

My Little Pony

Toxicology in the Middle Ages and Renaissance provides an authoritative and fascinating exploration into the use of toxins and poisons in the Middle Ages and Renaissance. Part of the History of Toxicology and Environmental Health series, this volume is a follow-up, chronologically, to the first two volumes which explored toxicology in antiquity. The book approximately covers the 1100s through the 1600s, delving into different aspects of toxicology, such as the contributions of scientific scholars of the time, sensational poisoners and poisoning cases, as well as myths. Historical figures, such as the Borgias and Catherine de Medici are discussed. Toxicologists, students, medical researchers, and those interested in the history of science will find insightful and relevant material in this volume. Provides

the historical background for understanding modern toxicology Illustrates the ways previous civilizations learned to distinguish safe from hazardous substances, how to avoid them, and how to use them against enemies Explores the way famous historical figures used toxins
