Episode 1.3: Deductive and Inductive Arguments - Episode 1.3: Deductive and Inductive Arguments by Center for Innovation in Legal Education 538,510 views 10 years ago 12 minutes - This episode covers two major types of arguments: deductive and inductive. Script by David Plumlee and Jessica Taverna.

Deductive and Inductive Arguments

Example 1: Where to go for dinner?

Red Iguana open until 10pm; Cafe Trang until 9pm.

Example 2: How many classes to take?

Facts and opinions have different relationships with the conclusions drawn.

If acceptance of the conclusion depends on the strength of the premises...

When dealing with deductive arguments, do not start with the conclusion

When making a deductive argument avoid picking out your conclusion ahead of time.

Are the premises true?

The evaluation process is different than deductive arguments

Is the premise sufficient to justify the conclusion?

Inductive arguments take on many forms.

Generalizations: where arguments involve making a general claim based on limited or specific evidence.

Analogies: drawing conclusions about one situation based on what you know about another
