Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. Twelve Years a Slave by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

The Adventures of Dooney the Donkey with Curious Jay

New York City girl Claudia, a mere month shy of being a twelve-year-old, has resolved to run away from home with her younger brother, Jamie. She knows that she could never pull off the classic spur-of-the-moment departure without a destination (inevitably involving having to eat outside with the insects, and cupcakes melting in the sun); so she plans everything to perfection, including their destination: the grand, elegant, beautiful, all-encompassing Metropolitan Museum of Art. However, no sooner have Claudia and Jamie settled into their new home, than they are caught up in the mystery of an angel statue bought by the museum for the bargain price of \$225. Is it in fact an as yet undiscovered work by Michelangelo, worth millions? Claudia is determined to find out, and her quest leads her to the remarkable, secretive Mrs. Frankweiler, who sold the statue to the museum - and to some equally remarkable discoveries about herself. Since its first appearance nearly 50 years ago, *The Mixed-up Files of Mrs. Basil E. Frankweiler* has gained a place in the hearts of generations of readers - and has rightly become one of the most celebrated and beloved children's books of all time.

The Adventures of a Donkey

As a small online community continues to look into Jim's connection with the Curse of the Hellspawn, the fervor around the world's "new messiah" begins to reach an apex. Meanwhile, the Vatican makes a house call, taking the first steps in their efforts to test Jim's true origin. Sinner or Saint, the church has no intention of allowing his gifts to be used against them.

The Owl and the Pussy Cat

This classic collection is a discussion of songs that gave utterance to the opinions and feelings of an important part of the Irish people in political, social, and religious feelings. First published in 1966, this is a new edition with corrections and additional notes. The songs, which were within the reach of all strands of society, were not only an expression of the singers' and listeners' feelings or opinions but also a form of propaganda. And when printers invested in them with the production of broadsheets and booklets, they became an industry. Thus, as the author states in his introduction, they are a curious melting pot for different kinds of literature or sub-literature.

From the Mixed-up Files of Mrs. Basil E. Frankweiler

Couples today want it all: cars, kids, houses, vacations, early retirement, successful career, and happiness. The question is, what does it take to make all that happen? As more and more marriages are made up of two working professionals, our definition of a traditional marriage is put to the test. In *Alpha Couples*, the Solanos take us on a journey through an ambitious professional couple's trials, tribulations, and lessons learned. They show us the challenges of balancing a corporate job with an entrepreneurial career, and they teach us how to be successful in finances, time management, and with each other. They also offer great insight from other successful couples like Will and Jada Pinkett Smith, Sara Blakely and Jesse Itzler, and Barack and Michelle Obama. Alpha males are a thing of the past. Or, as the Solanos explain, maybe alpha males were never a thing to begin with. In nature, Alpha Couples work together to lead their packs as powerful pairs. Within the pages of this book, you'll learn all the tips and tricks you need to establish a strong, loving, and exciting, mutually beneficial, and all around badass relationship with you and your partner. Robert Solano is a dreamer, hustler, and tech geek. He is a former pilot, aerospace engineer, and senior manager in the aviation industry, with 20 years of experience leading world-class teams. Zaira Solano is a badass entrepreneur and attorney. She is the founder and CEO of Solano Law Firm where her company helps immigrants build a better future in the United States. In 2013, Robert and Zaira met on Match.com and fell in love. As an Alpha Couple, Robert and Zaira support each other as they chase their dreams, challenge the status quo, and strive to change the world.

Spawn #230

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

The Blackbird in the Lilac

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.

Songs of Irish Rebellion

A number of entries cast light on his fieldwork methodology, which was meticulous, and his attitude towards his mission, which led him to eschew anything that had been collected frequently or learned from a book. Ennis visited a number of Gaeltachtaí and this book sketches a picture of life in Donegal, Mayo, Connemara and West Clare. This collection will have particular relevance not only to those interested in Ennis as an individual, but also to all historians and scholars of Irish traditional music and folklore in the twentieth century. Despite the great entertainment Ennis enjoyed on his working trips, he had to be ever vigilant, constantly on the look out for new material and new contacts from which to elicit information. Uí Ogáin captures Ennis' writing style admirably. Accounts of certain events reveal an engaged emotional intensity underscoring Ennis' firm belief that his endeavour was more than a mere job.

Justice a Poem

The deliberate devaluation of Blacks and their communities has had very real, far-reaching, and negative economic and social effects. An enduring white supremacist myth claims brutal conditions in Black communities are mainly the result of Black people's collective choices and moral failings. "That's just how they are" or "there's really no excuse": we've all heard those not so subtle digs. But there is nothing wrong with Black people that ending racism can't solve. We haven't known how much

the country will gain by properly valuing homes and businesses, family structures, voters, and school districts in Black neighborhoods. And we need to know. Noted educator, journalist, and scholar Andre Perry takes readers on a tour of six Black-majority cities whose assets and strengths are undervalued. Perry begins in his hometown of Wilksburg, a small city east of Pittsburgh that, unlike its much larger neighbor, is struggling and failing to attract new jobs and industry. Bringing his own personal story of growing up in Black-majority Wilksburg, Perry also spotlights five others where he has deep connections: Detroit, Birmingham, New Orleans, Atlanta, and Washington, D.C. He provides an intimate look at the assets that should be of greater value to residents—and that can be if they demand it. Perry provides a new means of determining the value of Black communities. Rejecting policies shaped by flawed perspectives of the past and present, it gives fresh insights on the historical effects of racism and provides a new value paradigm to limit them in the future. Know Your Price demonstrates the worth of Black people's intrinsic personal strengths, real property, and traditional institutions. These assets are a means of empowerment and, as Perry argues in this provocative and very personal book, are what we need to know and understand to build Black prosperity.

"Staff from smaller airports typically lack specialized expertise in the negotiation and development of airport property or the resources to hire consultants. ACRP Research Report 213 provides airport management, policymakers, and staff a resource for developing and leasing airport land and improvements, methodologies for determining market value and appropriate rents, and best practices for negotiating and re-evaluating current lease agreements. There are many factors that can go into the analysis, and this report reviews best practices in property development."--Foreword.
