Let's Log In 9 (Revised Edition)

This book explores the cultural politics of Pakistani crossover stardom in the Hindi film industry as a process of both assimilation and "Otherness". Analysing the career profiles of three crossover performers – Ali Zafar, Fawad Khan, and Mahira Khan – as a relevant case study, it unites critical globalization studies with soft power theory in exploring the potential of popular culture in conflict resolution. The book studies the representation and reception of these celebrities, while discussing

themes such as the meaning of being a Pakistani star in India, and the consequent identity politics that come into play. As the first comprehensive study of Pakistani crossover stardom, it captures intersections between political economy, cultural representation, and nationalist discourse, at the same time reflecting on larger questions of identity and belonging in an age of globalization. Crossover Stars in the Hindi Film Industry will be indispensable to researchers of film studies, media and cultural studies, popular culture and performance, peace and area studies, and South Asian studies. It will also be of interest to enthusiasts of Indian cinematic history.

eKoES of 1998

First delivered as a speech to schoolgirls in Kent in 1926, this enchanting short essay by the towering Modernist writer Virginia Woolf celebrates the importance of the written word. With a measured but ardent tone, Woolf weaves together thought and quote, verse and prose into a moving tract on the power literature can have over its reader, in a way which still resounds with truth today. I have sometimes dreamt, at least, that when the Day of Judgement dawns and the great conquerors and lawyers and statesmen come to receive their rewards – their crowns, their laurels, their names carved indelibly upon imperishable marble – the Almighty will turn to Peter and will say, not without a certain envy when he sees us coming with our books under our arms, "Look, these need no reward. We have nothing to give them here. They have loved reading."

7 Mantras to Excel at Exams

"Does Karma exist? Is it possible to remember past life? Are there clairvoyant people who can see your aura and know of your past and future? Is it possible to have "out of the body" experience? Can there be transmigration of souls? Do our dreams tell us something? Can a Guru help you liberate from the cycle of life and death? Is there life on other planets and solar systems? Are there intelligent beings in outer space who are observing us? Do some people know when the world will end? Is it possible to be prepared for the end of the times and to move on to a new civilization? What is the purpose of my life? A series of mysterious coincidences lead a child from a remote village in India, who would not have any future otherwise, make leaps of progress. His curiosity led him to attend some conferences given by a Brazilian missionary representing a cult in Spain headed by a Spiritual leader from Mexico. There was an instant attraction. The boy cuts his family connections, overlooks his career aspirations and lands up in the monastery in the Cataluña region of Spain to be a missionary. The spiritual head of the cult directs all the followers to abandon their worldly connections and prepare for the doomsday and creation of a new human race. The followers built safe houses and prepared fervently in line with the instructions of the spiritual head. The doomsday prediction does not materialize and what follows is chaos and disorientation. The protagonist survives to tell his story."

If you want something you never had, You must be willing to do Something you've never done.

Behind every successful man there's a lot of unsuccessful years.

Try not to become a man of succes, but rather try to become a man of value.

The only place where success comes before work is in the dictionary.

SUCCESS is on the same road as FAILURE. Success is just a little further down the road.

If you don't build your dream someone will hire you to help build theirs.
