The Strange Case of Dr Jekyll and Mr Hyde

Frankenstein; or, The Modern Prometheus, generally known as Frankenstein, is a novel written by the British author Mary Shelley. The title of the novel refers to a scientist, Victor Frankenstein, who learns how to create life and creates a being in the likeness of man, but larger than average and more powerful. In popular culture, people have tended to refer to the Creature as "Frankenstein," despite this being the name of the scientist. Frankenstein is a novel infused with some elements of the Gothic novel and the Romantic movement. It was also a warning against the "over-reaching" of modern man and the Industrial Revolution, alluded to in the novel's subtitle, The Modern Prometheus. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully realized science fiction novel.

The Castle of Otranto Illustrated

An eBook edition of Bram Stoker's classic novel Dracula with a new extended introduction on vampire myths and legends by leading vampire expert Dr Tina Rath. The introduction explores the development

of Vampire myths and legends from early sixteenth-century stories to the current teenage vampire obsession evinced by Buffy the Vampire Slayer and the Twilight series of books and films. From Arnold Paul, an allegedly real vampire of the sixteenth-century, to Lord Byron's physician Dr John Polidori who created the vampire Lord Ruthven, to Camilla, Brunhilda and Varney, who all made their contributions to our picture of the vampire, the picture was completed by Dracula when it was published in 1897. Tina Rath explores our impressions of vampires throughout the ages in books, on stage and on screen, as well discussing the origins of Bram Stoker's Dracula. Dracula is probably the best-known, least-read horror novel in the English (or possibly any other) language. Say 'Dracula' and we all know what we mean: the handsome Master Vampire with sleek dark hair forming a widow's peak on his forehead, a black cloak, possibly lined with red silk, over faultless evening dress, fangs and photophobia. What we will almost certainly not visualise is Stoker's vision of Dracula. Tina explains why.

THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine' Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload

and tackling your to-do list in a more mindful and productive way. * **PLAN YOUR FUTURE:** establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. The Canterville Ghost

The Fortunes of Perkin Warbeck: A Romance is an 1830 historical novel by Mary Shelley about the life of Perkin Warbeck. The book takes a Yorkist point of view and proceeds from the conceit that Perkin Warbeck died in childhood and the supposed impostor was indeed Richard of Shrewsbury. Henry VII of England is repeatedly described as a "fiend" who hates Elizabeth of York, his wife and Richard's sister, and the future Henry VIII, mentioned only twice in the novel, is a vile youth who abuses dogs. Her preface establishes that records of the Tower of London, as well as the histories of Edward Hall, Raphael Holinshed, and Francis Bacon, the letters of Sir John Ramsay to Henry VII that are printed in the Appendix to John Pinkerton's History of Scotland establish this as fact. In this novel, Mary Shelley returned to The Last Man's message that an idealistic political system is impossible without an improvement in human nature. This historical novel, influenced by those of Sir Walter Scott, fictionalises the exploits of Perkin Warbeck, a pretender to the throne of King Henry VII who claimed to be Richard, Duke of York, the second son of King Edward IV. Shelley believed that Warbeck really was Richard and had escaped from the Tower of London. She endows his character with elements of Percy Shelley, portraying him sympathetically as "an angelic essence, incapable of wound," who is led by his sensibility onto the political stage. She seems to have identified herself with Richard's wife, Lady Katherine Gordon, who survives after her husband's death by compromising with his political enemies. Lady Gordon stands for the values of friendship, domesticity and equality; through her, Mary Shelley offers a female alternative to the masculine power politics that destroy Richard, as well as the typical historical narrative which only relates those events. She also creates a strong female character in the round-faced, half-Moor, half-Fleming, Monina de Faro, Richard's adoptive sister, whom Robin Clifford demands as his wife. Monina is a versatile young lady who acts as decoy, messenger, and military organizer, in addition to her close friendship with both Richard and Katherine. Robin Clifford epitomizes mixed loyalties-an old friend descended from Lancastrians, who is constantly divided against himself. Stephen Frion, secretary to Henry VII and betrayed by him, is an elder foil, whose loyalties shift back and forth dependent on Henry's grace, whereas Clifford's wavering is based on genuine emotion.

The Canterville Ghost. Mit Materialien

Valperga, published in 1823, the year after Percy Bysshe Shelley's death is a romance of the 14th century in Italy, during the height of the struggle between the Guelphs and the Ghibellines, when each state and almost each town was at war with the other ; a condition of things which lends itself to romance. Mary Shelley's intimate acquaintance with Italy and Italians gives her the necessary knowledge to write on this subject. Her zealous Italian studies came to her aid, and her love of nature give life and vitality to the scene. Valperga, the ancestral castle home of Euthanasia, a Florentine lady of the Guelph faction, is most picturesquely described, on its ledge of projecting rock, overlooking the plain of Lucca; the dependent peasants around happy under the protection of their good Signora. That this beautiful and high-minded lady should be affianced to a Ghibelline leader is a natural combination ; but when her lover Castruccio, prince of Lucca, carries his political enthusiasm the length of making war on her native city of Florence, whose Republican greatness and love of art are happily described, Euthanasia cannot let love stand in the way of duty and gratitude to all those dearest to her ...

As humans re-negotiate their boundaries with the nonhuman world of animals, inanimate entities and technological artefacts, new identities are formed and a new epistemological and ethical approach to reality is needed. Through twelve thought-provoking, scholarly essays, this volume analyzes works by a range of modern and contemporary Italian authors, from Giacomo Leopardi to Elena Ferrante, who have captured the shift from anthropocentrism and postmodernism to posthumanism. Indeed, this is the first academic volume investigating narrative configurations of posthuman identity in Italian literature and film.

The Treasure of Franchard

'Liquid life' is the kind of life commonly lived in our contemporary, liquid-modern society. Liquid life cannot stay on course, as liquid-modern society cannot keep its shape for long. Liquid life is a precarious life, lived under conditions of constant uncertainty. The most acute and stubborn worries that haunt this liquid life are the fears of being caught napping, of failing to catch up with fast moving events, of overlooking the 'use by' dates and being saddled with worthless possessions, of missing the moment calling for a change of tack and being left behind. Liquid life is also shot through by a contradiction: it ought to be a (possibly unending) series of new beginnings, yet precisely for that reason it is full of worries about swift and painless endings, without which new beginnings would be unthinkable. Among the arts of liquid-modern living and the skills needed to practice them, getting rid of things takes precedence over their acquisition. This and other challenges of life in a liquid-modern society are traced and unravelled in the successive chapters of this new book by one of the most brilliant and original social thinkers of our time.
