Delve into "Back in the U.S.S.R.," a legendary track by The Beatles from their iconic 1968 "White Album." This song ingeniously blends rock and roll, humorously parodying both Chuck Berry and The Beach Boys, while ironically celebrating a Soviet homeland during the Cold War. Written primarily by Paul McCartney, it stands as a testament to the band's innovative spirit and ability to infuse socio-political commentary into catchy, genre-defying music, remaining a cultural touchstone.
